Street,
Philadelphia

To Our Friends and Customers:

Burpee's Seeds are the Best Seeds That Grow. Each variety of Burpee's Seeds is produced where it will mature most nearly to perfection.

Burpee's Cabbage seed is grown in Denmark and on Long Island. Beets, Carrots, and Radishes in France. Onions and Sweet Corn of the highest quality in Connecticut. Tomato seed on the Burpee Farms in Pennsylvania and New Jersey. Lettuce and many other kinds of vegetables in California, where they develop the best and strongest seeds.

And when we come to flower seeds, that Golden State produces hundreds of varieties better than they can be grown anywhere else. It is there on our **Floradale Farms** that Burpee's Sweet Peas are grown to almost super-perfection.

More than two hundred acres of Burpee's Sweet Peas are grown for seed at Floradale! And yet we grow hundreds of other varieties of flowers on our California Farms, where soil and climate combine to produce seeds of these varieties that are stronger, healthier, and hardier than could be produced elsewhere.

Some flowers produce better seeds in the eastern states. The best Zinnia seed is grown on our **Fordhook Farms** in Pennsylvania. Balsam, Phlox, Poppies, and Celosia are also grown to perfection at Fordhook. Other flowers make better seeds when grown in the warm, sandy soil of New Jersey. Our **Sunnybrook Farm** produces the highest quality seed of Salvia, Petunias, Snapdragons, and many other flowers.

Burpee's Seeds this year are grown from the best of last year's crop, and last year's crop was grown from the best of the year before. For nearly half a century the House of Burpee has continued to select and improve the existing varieties of vegetables and flowers as well as to create the new.

No seed house of less magnitude than Burpee's could produce all varieties of vegetable and flower seeds of such high quality. Bigness and goodness are not always the same. It is the goodness of Burpee's Seeds year after year that has been responsible for the continuous growth of the Burpee Business until it is today the largest business of its kind in the world.

We hope we may have the pleasure of supplying you with Burpee Quality Seeds. We are waiting to serve you.

Faithfully yours,

HOW TO ORDER

Burpee Philadelphia Headquarters
where all orders are filled

Please sign your Name and full Address on every letter and order you send us.

Be sure to order by the right catalog number.

Always write plainly.

You run no risk in sending money with your order.

We do a strictly "cash with order" business and you can inquire of any bank or trust company, or of your neighbors, as to our responsibility.

Remit at our risk by Money Order, Draft, or Check. Use registered letter if you send cash or stamps.

SEEDS DELIVERED FREE

Uncle Sam will bring your seeds
right to your door

All seed offered in this catalog, in any quantity from a packet up to and including 5 pounds, will be delivered to your door postpaid.

Where larger quantities are offered "By Express" at a reduced rate, we do not pay transportation charges. "By Express" means that the purchaser pays carrying charges either by freight or express. Should you be in doubt as to the best method of transportation, we would suggest that you leave this to us, as we can give you the benefit of our wide shipping experience.

BURPEE GUARANTEE

Testing Vegetable Seeds at
Fordhook

We guarantee the vitality and purity of our seeds to the full amount of the purchase price.

You can have your money back any time within the year if you are not satisfied with the results from Burpee's Seeds.

Even with Burpee Quality Seeds success in gardening or farming depends largely upon cultivation, soil, and weather conditions. It is, therefore, agreed that in no case shall W. ATLEE BURPEE CO. be liable for more than the amount actually paid for the seed or bulbs.

We guarantee the safe arrival of your seeds, and we guarantee their quality to the full amount of the purchase price.

This is the guarantee that protects all who purchase seeds from Burpee of Philadelphia.

THE BURPEE SEED FARMS

in Pennsylvania, New Jersey, and California

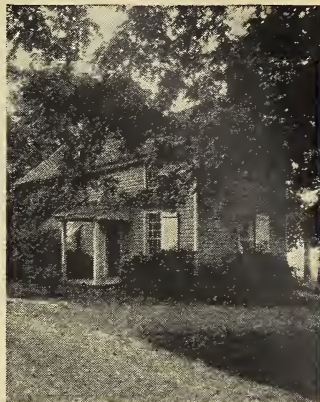

BURPEE'S FORDHOOK FARMS are famous as the largest and most complete trial grounds in America. They are located near Doylestown, Pennsylvania, in the rolling country of Bucks County. It is here that practically all kinds of seed from every part of the world are tested side by side for their quality and purity. First, the germination of each lot is determined by vitality tests made in the actual soil in the greenhouses. Then the purity of every stock is determined in the open trial ground. Over twenty-two thousand individual tests are made each year at FORDHOOK.

BURPEE'S FORDHOOK FARMS are also famous for the special strains of vegetable and flower seeds they produce.

BURPEE'S SUNNYBROOK FARM is located in the heart of the trucking district of Gloucester County, New Jersey. The light mellow soil of SUNNYBROOK is particularly well adapted for growing the Burpee-Quality Seeds of early tomatoes, peppers, egg plants, cucumbers, and melons. BURPEE'S SUNNYBROOK FARM yields us healthy, plump, and well-ripened seed of practically all vine crops. We also grow a number of our special flower seeds on SUNNYBROOK FARM.

BURPEE'S FLORADALE FARMS have earned fame as "The California Home of Flowers." Just a few miles inland from the Pacific Ocean, and where Northern and Southern California meet, right in the midst of Lompoc Valley, are the BURPEE FLORADALE FARMS.

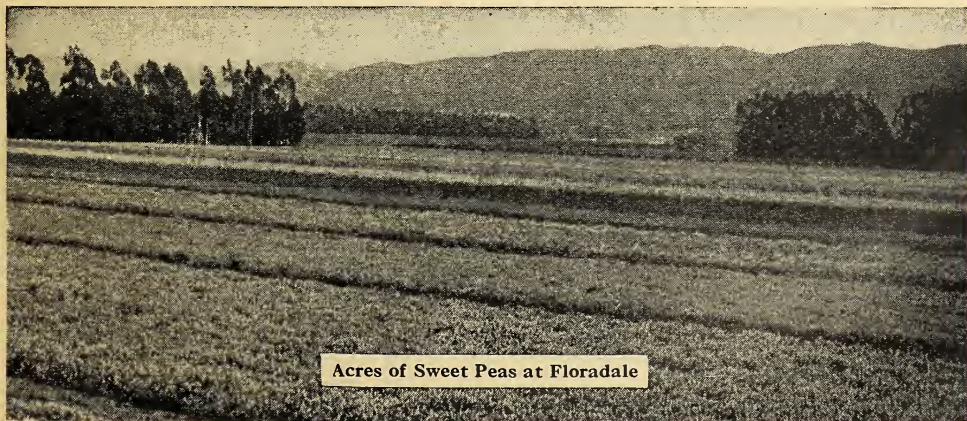

The visitor will forever remember the acres upon acres of bright and delicately scented Sweet Peas, alternating with California Poppies, Candytuft, Geranium, Cosmos, Larkspur, Shasta Daisies, Petunias, and many other flowers.

Burpee's Lawn Grass

The Farm House on Fordhook No. 1, showing the rich green and velvety Lawn produced from the same blend as the "Fordhook Finest" offered below

6145 Burpee's Fordhook Finest Lawn Grass

We pride ourselves on

FORDHOOK FINEST grass mixture, which, from yearly comparative trials at FORDHOOK FARMS, we know is *unsurpassed for first-class and permanent results*. This is due to the fact that we use only the very finest varieties of the most suitable grasses.

The marked superiority of FORDHOOK FINEST LAWN GRASS was attested by the **Grand Prize** at ST. LOUIS WORLD'S FAIR awarded to us for lawns. We were also awarded the **only Gold Medal** for lawns at THE LEWIS & CLARK EXPOSITION, Portland, Oregon. These were the highest awards and obtained by no other American seedsmen. The seed from which these lawns were produced was exactly the same quality as supplied regularly.

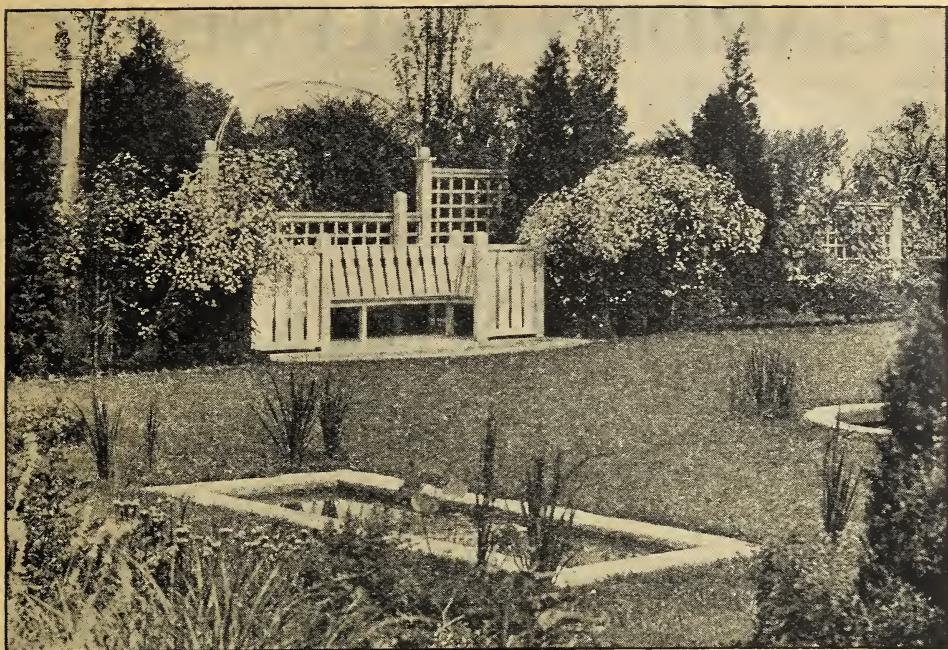

6145 Fordhook Finest contains a well-balanced blend of various American and foreign fine-bladed and deeply rooting varieties, which have been proved by us to produce the best results under the varied conditions as to soils and climate met with in America. This special mixture will give a *green, smooth, velvety sod* with a thick bottom and free from such varieties of common grasses as produce clumps and knots on the lawn, which so frequently spoil the desired smooth and deep effect. FORDHOOK FINEST LAWN GRASS is composed entirely of the best re-cleaned seeds. It is free of all chaff and weighs 25 to 27 pounds per measured bushel. A small quantity of White Clover is included in FORDHOOK FINEST LAWN GRASS, but only sufficient to help thicken the bottom of the sod.

6145 FORDHOOK FINEST Lb. 60 cts.; 3 lbs. \$1.65; 5 lbs. \$2.65, postpaid. By express or freight, at purchaser's expense: 10 lbs. or more at 42 cts. per lb.; 100 lbs. at 38 cts. per lb. (25 lbs. or more will be supplied at the 100 lb. rate).

One pound of seed is sufficient to sow a plot of 20 x 20 (or 400) square feet. Eighty lbs. per acre are sufficient for careful seeding, but it is much better to use 100 lbs. per acre where it is desired to have a good close turf from the start.

With each order for bulk seed we enclose the BURPEE LEAFLET, giving directions for preparing the ground and sowing the seed, together with the subsequent care and proper treatment of the lawn.

A section of the Formal Gardens at Fordhook, where our Golf Link Mixture was used, because it is unexcelled wherever the lawn must endure frequent close cutting and severe trampling

6147 Golf Links This mixture is composed exclusively of fine-bladed grasses which will withstand frequent close cutting and trampling. It is free from weed seed and contains no white clover, the latter not being suitable for the closely cut golf lawn. It is very important that only grasses which fulfil all requirements for the golf course are used in this mixture, and we have made a special study of this subject to make "BURPEE'S GOLF LINK MIXTURE" the standard. Sow 100 lbs. per acre. **Lb. 75 cts.; 3 lbs. \$2.00; 5 lbs. \$3.15, postpaid.** By express, 10 lbs. or more, at **51 cts. per lb.**

6149 Shady Nook Many of our customers having fine shade trees on their lawns or shaded corners receiving but little sunlight have written regarding the difficulty of securing a good growth of grass under the trees or in other heavily shaded locations. At their request we have made this mixture which is composed entirely of choice, clean seed of the finest and most costly grasses, which have been found to thrive well in partly shaded locations, forming a close, thin-bladed turf. It is all clean, heavy seed, free from chaff, and will give the best results with a minimum quantity of seed. **Lb. 70 cts.; 3 lbs. \$1.95; 5 lbs. \$3.00.** Express or freight, 10 lbs. or more, at **49 cts. per lb.**

6144 Terrace Sod The terrace is oftentimes a source of a great deal of worry and trouble. This is largely due to the fact that the right grasses are not used in the making of the terrace sod. We have prepared a Special Mixture containing only those grasses that are best adapted to embankments and terraces. These grasses are all deep rooted or have strong spreading roots that hold the soil firmly and prevent washing away during heavy rains. Burpee's SPECIAL TERRACE MIXTURE will produce a rich, green, velvety sod, and will retain its emerald-green appearance throughout the entire season. The varieties are long lived and hardy, making a permanent growth. Sow 80 to 100 lbs. per acre. **Lb. 75 cts.; 3 lbs. \$2.00; 5 lbs. \$3.15, postpaid.** By express, 10 lbs. or more, at **50 cts. per lb.**

6146 Sunny South Lawn In the South and in other dry locations the use of ordinary lawn grass seed does not always produce satisfactory lawns. We have prepared a special mixture that is especially suited for these hot dry locations, and with care and attention and regular watering, SUNNY SOUTH MIXTURE will produce satisfactory lawns under the most exacting conditions of weather and soil. **Lb. 60 cts.; 3 lbs. \$1.50; 5 lbs. \$2.45, postpaid.** By express, 10 lbs. or more, at **36 cts. per lb.**

Lawns play an important part in beautifying the home grounds and deserve special attention. The lawn is a perennial feature, and once established, lasts almost indefinitely, if properly cared for. The mixtures we offer have all been prepared according to formulas derived from yearly tests made in our trial grounds. The preparations for seeding and the care of the lawn are treated in detail in the revised edition of the Burpee Leaflet, "HOW TO ESTABLISH A LAWN." Ask for a free copy of it when you order. For Grass Varieties, Meadow and Pasture Mixtures, see page 98.

GARDEN CALENDAR

Make a garden and enjoy the health-giving exercise, the pleasure and fascination of making things grow, and eat plenty of fresh vegetables. Gardening is really easy if you start right, and every hour spent will show you something new—something more interesting, and something that will help you more to enjoy living.

Start right by carefully reading BURPEE'S ANNUAL. A little study before ordering will enable you to make a good selection. If you are not sure which variety to choose, follow the Bull's Eye [⊙]. It is used to mark those varieties which we consider the best of their respective types. And the Burpee Trade Mark denotes those varieties which were first introduced in America by Burpee.

What and When to Sow

The dates apply to the vicinity of Philadelphia and localities with similar weather conditions, where the first light fall frosts occur about the middle of October and severe frosts around the first of November. The outdoor sowing season begins late in March or early in April, depending on the condition of the ground.

February 1-15 (in house or hotbed): Cabbage—Cauliflower—Celery—Kohl-Rabi—Lettuce—Parsley—Radish.

February 15-28 (in house or hotbed): Cabbage—Cauliflower—Celery—Kohl-Rabi—Lettuce—Parsley—Radish.

March 1-15 (in house or hotbed): Sweet Corn—Cucumber—Egg Plant—Musk-melon—Pepper—Tomato. (In the cold-frame): Beet—Cabbage—Carrot—Cauliflower—Celery—Kohl-Rabi—Lettuce—Parsley—Radish.

March 15-30 (in house or hotbed): Cucumber—Egg Plant—Muskmelon—Pepper—Tomato.

April 1-15 (in the open ground): Asparagus—Asparagus Roots—Beet—Broccoli—Brussels Sprouts—Carrot—Celeriac—Celery—Chicory—Corn Salad—Cress—Endive—Kale—Kohl-Rabi—Leek—Lettuce—Mustard—Onion—Onion Sets—Parsley—Parsnip—Early Peas—Chinese Cabbage—Rhubarb Roots—Radish—Salsify—Sorrel—Spinach—Swiss Chard—Turnip.

April 15-30: Asparagus—Bush Snap Bean—Beet—Brussels Sprouts—Cabbage—Carrot—Cauliflower—Celeriac—Celery—Sweet Corn—Pop Corn—Cress—Endive—Kale—Kohl-Rabi—Leek—Lettuce—Muskmelon—Mustard—Onion—Parsley—Parsnip—Peas—Potatoes—Radish—Salsify—Sorrel—Squash—Swiss Chard—Tomatoes.

May 1-15: Asparagus—Bush Bean—Pole Bean—Lima Bean—Beet—Brussels Sprouts—Cabbage—Carrot—Cauliflower—Celeriac—Celery—Chicory—Sweet Corn—Pop Corn—Cucumber—Endive—Kale—Kohl-Rabi—Leek—Lettuce—Muskmelon—Watermelon—Onion—

Parsley—Parsnip—Peas—Potatoes—Pumpkin—Summer Radish—Salsify—Squash—Swiss Chard—Tomato.

May 15-30: Bush Bean—Pole Bean—Lima Bean—Beet—Brussels Sprouts—Cabbage—Carrot—Cauliflower—Celeriac—Celery—Witloof-Chicory—Sweet Corn—Pop Corn—Cucumber—Endive—Kale—Kohl-Rabi—Musk-melon—Parsley—Potatoes—Pumpkin—Squash—Summer Radish—Swiss Chard.

June 1-15: Lima Bean—Beet—Brussels Sprouts—Cabbage—Carrot—Cauliflower—Sweet Corn—Pop Corn—Cucumber—Endive—Kale—Kohl-Rabi—Parsley—Potatoes—Summer Radish.

June 15-30: Beet—Carrot—Sweet Corn—Pop Corn—Cress—Cucumber—Endive—Kale—Kohl-Rabi—Potatoes—Summer Radish—Winter Radish—Rutabaga—Turnip.

July 1-15: Bush Bean—Beet—Kale—Kohl-Rabi—Lettuce—Mustard—Summer Radish—Rutabaga—Turnip.

July 15-30: Bush Bean—Chinese Cabbage—Kale—Mustard—Summer Radish—Spinach—Turnip.

August 1-15: Chinese Cabbage—Kale—Mustard—Summer Radish—Spinach—Turnip.

August 15-30: Radish—Spinach.

September and October: Asparagus Roots—Rhubarb Roots—Perennial Onion Sets—Corn Salad—Spinach.

Make Your Garden Work Three Seasons Out of Four—Spring, Summer, and Fall

Many people think that seeds cannot be planted any other time than in April and May. This is far from true. The wide-awake gardener begins sowing as early in the spring as possible, and sows succession crops throughout the summer and until late in the fall. Succession crops are most important, since they provide fresh vegetables for fall and winter use. A cellar full of stored vegetables is a good investment. Grow all the vegetables your garden can produce. Eat them fresh, evaporate them, can them, store them, and be independent of high food prices.

Keep BURPEE'S ANNUAL handy for reference throughout the year

Burpee's Vegetable Seeds

All Vegetables are divided into Four Classes

1. ROOT CROPS Those vegetables that are grown principally for their roots, such as beets, carrots, and turnips, are, of course, classified as Root Crops. Root Crops are easy to grow. They grow quickly from seed and do well in all parts of the country in any good soil. Root Crops can be had early in the spring, all through the summer and fall, and can be easily stored for winter use. Root Crops every month in the year will help greatly to reduce the high cost of living.

2. GREENS & SALADS Greens and Salads are just as important for the daily diet as are the Root Crops, for they contain the mineral salts which are so necessary for good health. Most people do not eat enough of the green vegetables. Like the Root Crops, some Greens, such as cabbage, Brussels sprouts, and celery, can be stored for winter use. Greens and Salads are truly Nature's tonic.

3. EDIBLE SEEDS Peas, beans, and corn are the Edible Seeds. No class of vegetables contains such highly concentrated food as do the Edible Seeds. So full of nutrition are the Edible Seeds that they might almost be called the vegetable beefsteak. Beans are more nutritious than meat.

4. VEGETABLE FRUITS Most Vegetable Fruits grow on vines and spread well over the ground. They do best in a warm location and on medium-light, well-drained soil. Vegetable Fruits are perhaps the most popular of all vegetables. Muskmelons, watermelons, cucumbers, pumpkins and squashes, egg plants, peppers, and tomatoes—surely Vegetable Fruits are the most delicious of all!

COMPLETE INDEX ON LAST PAGE

Root Crops

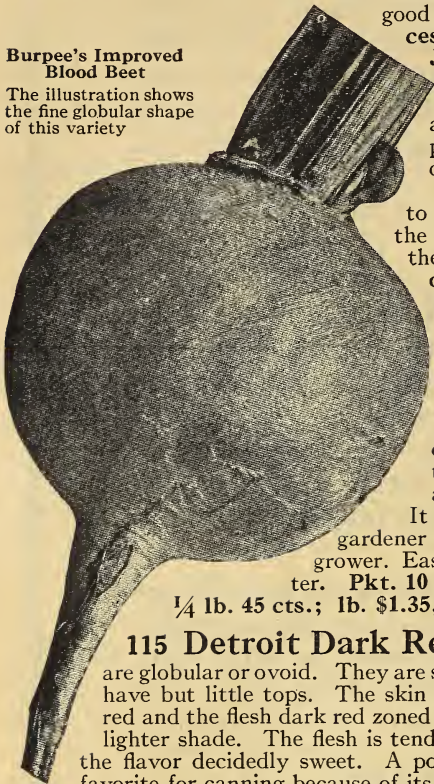

Under this heading we have grouped together vegetables which are usually looked upon as Root Crops without claiming that they are, in a strictly botanical sense, Root Crops. The value of Root Crops is not sufficiently realized. Without going into full details of the chemical analysis of these Root Crops, their food value will be better appreciated when it is more generally known that they are rich in both starch and sugar. Their total food value per pound is from 1½ to 2 times as great as that of corn, and 4 to 6 times as many pounds can be grown in the same space. Every garden should include plenty of Root Crops to yield a full supply for every month of the year. Most Root Crops are easily stored and keep all winter long.

BEETS

These are of universal culture and it is important to make frequent sowings in order that a constant supply of tender young roots may be had throughout the season. Seed may be sown as **early in the spring** as the ground can be worked into good condition. **Sowings should be made for succession at least once a month up to the first of July**, at which time we recommend making a large sowing to produce a supply of well-grown roots for winter use. If the roots are gathered on the approach of cold weather and kept in a cool cellar packed in slightly moist earth, they remain in perfect condition until spring.

Burpee's Improved Blood Beet

The illustration shows the fine globular shape of this variety

The seed should be sown thinly in drills from ½ to 1 inch in depth, leaving 12 inches or more between the rows, to admit cultivation. When well started, thin the plants to stand 3 to 4 inches apart in the row. One ounce will sow 100 feet of drill; 4 to 6 pounds per acre in drills.

128 Burpee's Improved Blood Beet

See illustration. Smooth round roots of medium size, with dark red flesh retaining its deep coloring when cooked. The flavor of this variety is distinctly finer and sweeter than any other beet. Fine grained flesh and altogether free from tough fiber. Dark red foliage.

It grows quickly and is of value for both the home

gardener and the market grower. Easily stored for winter. Pkt. 10 cts.; oz. 20 cts.;

¼ lb. 45 cts.; lb. \$1.35, postpaid.

115 Detroit Dark Red

The roots are globular or ovoid. They are smooth and have but little tops. The skin is blood-red and the flesh dark red zoned with a lighter shade. The flesh is tender and the flavor decidedly sweet. A popular favorite for canning because of its extra

deep dark red color. Pkt. 10 cts.; oz. 20 cts.;

¼ lb. 45 cts.; lb. \$1.25, postpaid.

113 Edmand's Early The beets are round, very smooth, extra early, and of good marketable size. Skin and flesh deep blood-red; extremely tender. An old favorite with market and home gardeners. Pkt. 5 cts.; oz. 15 cts.; ¼ lb. 30 cts.; lb. 95 cts., postpaid.

Detroit Dark Red

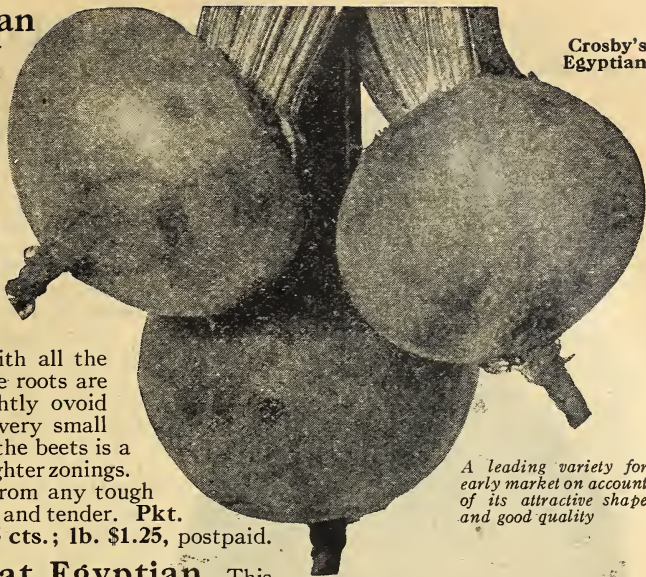

QUALITY IS THE FIRST CONSIDERATION in Burpee's Seeds. The best quality it is possible to produce—that is the rule with all Burpee's Seeds. While our prices must be higher than those of some other houses, yet the quality of the seeds in every case warrants the prices charged. We aim always to excel in quality rather than to compete in price.

111 Crosby's Egyptian

This variety is extensively grown by the leading market growers because it matures very early and makes medium-size roots which are decidedly attractive in appearance.

The skin of the roots is smooth and free from any rootlets; of a dark red color. The foliage is rather sparse and erect. The combination of dark green leaves with dark red veinings looks very attractive and consequently the roots are usually marketed with all the foliage attached. In shape the roots are almost round, sometimes slightly ovoid with a small tap root and a very small crown of leaves. The flesh of the beets is a **deep blood-red** with slightly lighter zonings. The texture is crisp but free from any tough fiber. When cooked, it is sweet and tender. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; lb. \$1.25, postpaid.**

Crosby's
Egyptian

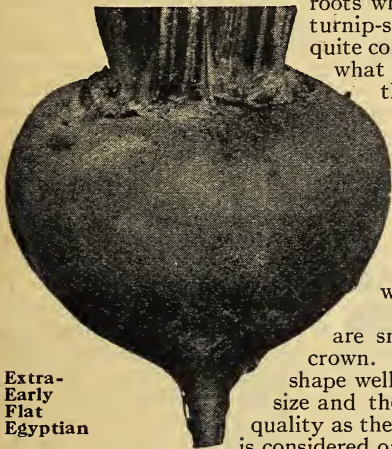

A leading variety for early market on account of its attractive shape and good quality

109 Extra-Early Flat Egyptian

This variety is fully as early as Crosby's Egyptian and produces

roots which grow about 2 inches in diameter. These roots are turnip-shaped and have a smooth surface. In size it does not quite compare with Crosby's Egyptian, but usually is of a somewhat darker color. The foliage is sparse and consequently the leaf crown is small. The flesh is sweet and tender and free from any hard fiber. **Pkt. 5 cts.; oz. 15 cts.; 1/4 lb. 35 cts.; lb. \$1.00, postpaid.**

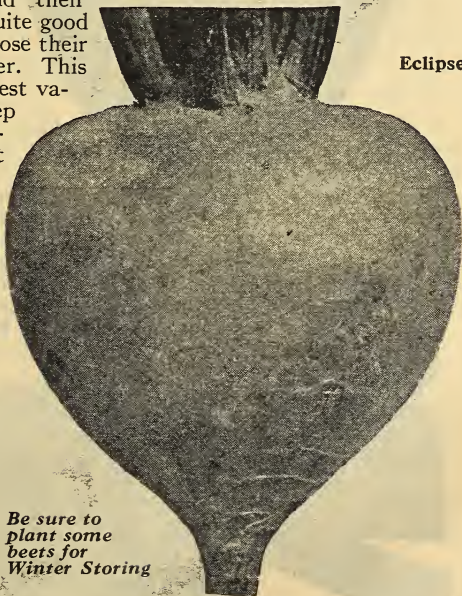

Extra-
Early
Flat
Egyptian

124 Eclipse

A popular variety for both market and the home garden. Here is a beet which matures quickly and may, therefore, be planted early and also late for a fall crop. On account of its quick-maturing character it can be planted later than main-crop beets, which require a longer time for maturing.

The roots are almost round. They mature quickly, are smooth, and produce scant foliage, forming a thin leaf crown. They hold their shape well until of quite good size and they do not lose their quality as they grow older. This is considered one of the best va-

rieties for salad. The color of the flesh is a deep blood-red with slightly lighter zonings. The texture is firm and crisp, yet free from hard fibers. It is sweet and tender when cooked. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 40 cts.; lb. \$1.15, postpaid.**

Eclipse

BURPEE'S ANNUAL

The Leading American Seed Catalog

Burpee's Annual contains a complete list of the best vegetables and flowers, together with valuable garden information and planting suggestions. Burpee's Annual will be of service to you every month of the year.

Winter Storing

134 Burpee's New Half-Long Beet

For many years we have included in our beet trials the many varieties of half-long and long beets which are offered under various names over here and in foreign countries. But we have never, without exception, found a half-long beet which could compare with BURPEE'S NEW HALF-LONG.

Burpee's New Half-Long Beet

This is, without question, *the finest strain of a half-long beet we have ever seen* in our FORDHOOK Trial-Grounds. The roots grow quickly and can be used when still quite small, but then they do not have the characteristic half-long shape. The illustration to the left has been engraved from a full-size photo taken on FORDHOOK FARMS and shows the fine form of this variety. The outside of the roots is smooth, free from any side roots, and of a deep red color. The flesh when cut is *deep maroon-red*, almost approaching black, and entirely free from lighter zoning. The flesh is finely grained, smooth, and free from any hard fiber. The flavor is particularly sweet and delicious.

Like other intermediate varieties, BURPEE'S NEW HALF-LONG is particularly fine for winter storing. In order to get roots of just the right size to put away for winter, a long row of seeds should be sown about the middle of June. The roots will keep their color and freshness well if stored in a frost-proof cellar packed in damp soil or sand. The flavor of the stored beets compares very favorably in sweetness with other varieties.

So far the demand for half-long beets for the home garden has not been particularly strong, but with the introduction of this new variety we believe that this type of beet will be grown extensively wherever quality is the main object. It is also a splendid market variety, because the roots are of uniform size and very attractive if bunched for market. **Pkt. 15 cts.; oz. 25 cts.; 1/4 lb. 60 cts.; 1b. \$2.00, postpaid.**

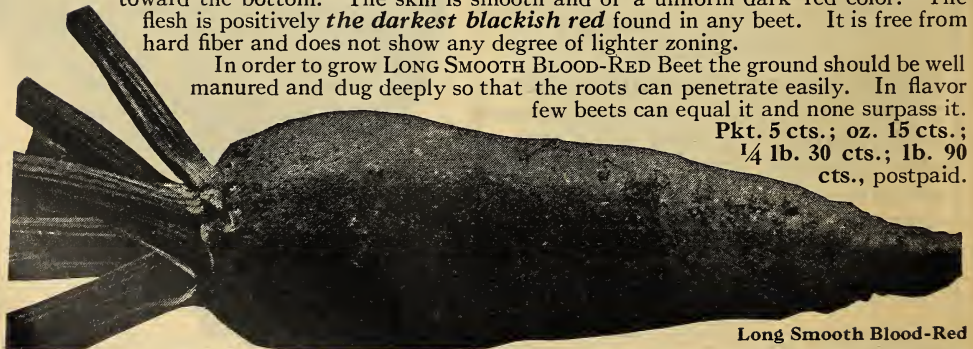

131 Long Smooth Blood-Red

It is rather strange to notice that the long beets do not enjoy as much popularity in this country as the round varieties do. Every year we have been making extensive trials of all varieties of beets, including those which we list and other sorts offered for sale by seedsmen in this country and abroad. It is due to our careful trials that we are able to select from the almost confusingly long list of varieties those which are of true value to the home gardener and to the market grower.

Never have we come across a variety which has proven to be *as good a winter keeper* as LONG SMOOTH BLOOD-RED. The roots of LONG SMOOTH BLOOD-RED reach a length of 12 inches and 1 1/2 to 2 inches thick. They gradually taper from the ground toward the bottom. The skin is smooth and of a uniform dark red color. The flesh is positively *the darkest blackish red* found in any beet. It is free from hard fiber and does not show any degree of lighter zoning.

In order to grow LONG SMOOTH BLOOD-RED Beet the ground should be well manured and dug deeply so that the roots can penetrate easily. In flavor few beets can equal it and none surpass it.

Pkt. 5 cts.; oz. 15 cts.; 1/4 lb. 30 cts.; 1b. 90 cts., postpaid.

Long Smooth Blood-Red

Sugar Beets

Sugar beets are extensively grown for the purpose of extracting the sugar and also for stock feeding. They are highly nutritious and are easily stored for winter. The seed should be sown thinly in drills 2 to 3 feet apart and covered 1 to 1½ inches deep. Beets may be sown any time during April, May, or June. One sown sows 100 feet of drill. Five pounds per acre in drills. Sown broadcast, 15 to 20 pounds per acre are needed for a good stand. Ask for our free Leaflet on "Root Crops."

Write for prices on large quantities

143 Wanzleben The roots are 7 to 8 inches long and quite thick. They can be grown as closely as 5 inches apart in the row and 2 feet between the rows. Smooth, with a broad shoulder gradually tapering toward the base. An enormous yielder of high sugar contents. Pkt. 5 cts.; oz. 12 cts.; ¼ lb. 30 cts.; lb. 85 cts., postpaid.

139 Burpee's Danish Improved  See

illustration. Of thick oval form; very productive. Rich in sugar and most desirable for stock feeding. Bright green foliage; leaf-stalks and skin shaded pink. The roots are easily harvested.

Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; lb. \$1.00, postpaid.

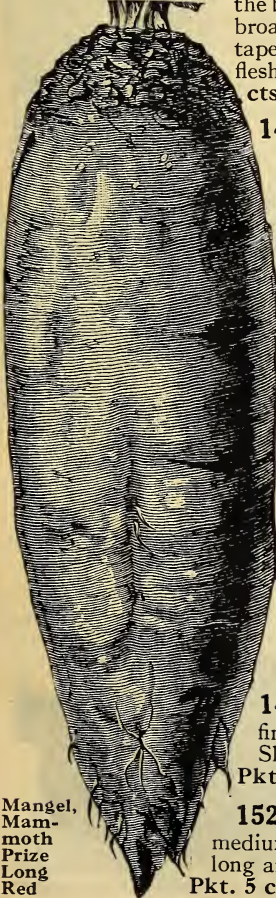

141 Lane's Imperial Yields almost as much as the best mangels. The roots are smooth, broad at the shoulder, and gradually taper to the base. Crisp, snow-white flesh. Pkt. 5 cts.; oz. 12 cts.; ¼ lb. 30 cts.; lb. 80 cts., postpaid.

145 Giant Half-Sugar Rose 

The roots average 10 to 12 inches, and the outline is that of a broad thick wedge. The upper portion is bright rose outside; the lower third is white. The flesh is pure white, firm, and very sweet. Pkt. 5 cts.; oz. 12 cts.; ¼ lb. 30 cts.; lb. 85 cts., postpaid.

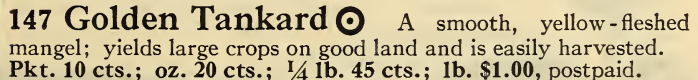

MANGELS For Stock Feeding

These require the same soil and climatic conditions as sugar beets and are sown any time up to June 15th. MANGEL-WURZELS are very important for stock-feeding, particularly in sections where it is too cool for growing a good crop of corn. One ounce sows 100 feet of drill; five pounds per acre in drills. Sown broadcast, 15 to 20 pounds per acre.

151 Mammoth Prize Long Red  See illustration.

This is the heaviest cropping and largest of all mangels. The roots grow from ½ to ¾ above the surface and are frequently 2 feet or more in length by 6 inches in diameter. The skin is bright red; flesh white, with veined rings of rose-pink.

Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; lb. \$1.00, postpaid.

147 Golden Tankard  A smooth, yellow-fleshed mangel; yields large crops on good land and is easily harvested. Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; lb. \$1.00, postpaid.

149 Golden Giant or YELLOW LEVIATHAN Very fine large roots, growing half above the surface; easily harvested. Skin a rich golden yellow; flesh pure white, firm, and sweet in flavor. Pkt. 5 cts.; oz. 12 cts.; ¼ lb. 30 cts.; lb. 75 cts., postpaid.

152 Brock's Red Intermediate An early variety of medium size and of remarkably regular form. The roots are 12 inches long and 6 inches thick; olive-shaped; red-skinned. Pkt. 5 cts.; oz. 12 cts.; ¼ lb. 30 cts.; lb. 75 cts., postpaid.

Mangel,
Mammoth
Prize
Long
Red

Burpee's Carrots

Sow the seed thinly in shallow drills **early in the spring** and make succession sowings every 2 weeks up to the early part of July.

When the plants are well started, thin out the small early sorts to 2 inches apart in the row, and large late varieties from 3 to 4 inches. They should be sown in rich mellow soil, deeply worked, and receive constant cultivation during growth to insure smooth, straight roots. **For winter storing sow a long row about the middle of June.**

One ounce of carrot seed will sow 250 feet of drill; 2½ pounds per acre.

217 Early Golden Ball or FRENCH FORCING

See illustration. This is an excellent variety, both for forcing in cold-frames and for sowing in the garden for the earliest supply. The small roots are round in form, 1½ inches in diameter, smooth, tender, and of fine flavor.

Pkt. 5 cts.; oz. 15 cts.; ¼ lb. 35 cts.; lb. \$1.00, postpaid.

219 Short Horn or EARLY SCARLET HORN

See illustration. The most popular of all early sorts for early market or home use, being ready for use nearly as quickly as the Golden Ball. The roots measure 1½ inches in diameter and 3 inches in length. They are a rich deep orange color, fine grained, of sweet flavor, and succeed well in shallow soil. Pkt. 5 cts.; oz. 15 cts.; ¼ lb. 35 cts.; lb. \$1.00, postpaid.

225 Danvers Half-Long

See illustration. Of all carrots, DANVERS HALF-LONG has proven to be the most popular variety in America. It is planted on a large scale by market growers, as the fine roots find a ready sale everywhere, besides being one of the very best for table use. It is now extensively planted for stock feeding on account of its high yielding qualities.

The roots are uniform in shape and size. They usually measure 5 to 6 inches in length and hold their thickness well way down to the tip, where they are bluntly pointed. They are thicker near the crown, reaching a diameter of 2 to 2½ inches when fully grown. The flesh is a rich orange color throughout, with a large, well-defined core. The texture of the roots is fine-grained and free from any woody fiber. The flavor is remarkably sweet and tender. Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; lb. \$1.20, postpaid.

221 Chantenay or MODEL

See illustration. A very well-known and widely grown variety. The roots grow quickly and are of excellent table quality. Will average 3 inches in diameter at the shoulder, gently tapering throughout the broad stump-root, and measuring 5 inches in length. Flesh tender, fine grained, free from hard core; a deep golden orange. An excellent variety for winter use. Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; lb. \$1.00, postpaid.

Carrots contain
vitamine. They are healthful and nutritious

229 Burpee's Improved Long Orange Carrot

The roots are uniform in size and form; smooth, and free from small rootlets, penetrating the soil very deeply. Of gradually tapering shape, holding their thickness well throughout the length; rich deep orange coloring. It is a good keeper, of fine quality for winter use, and extensively grown for stock feeding on account of yielding enormous crops. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 40 cts.; 1b. \$1.15, postpaid.**

231 St. Valery or NEW RED INTERMEDIATE

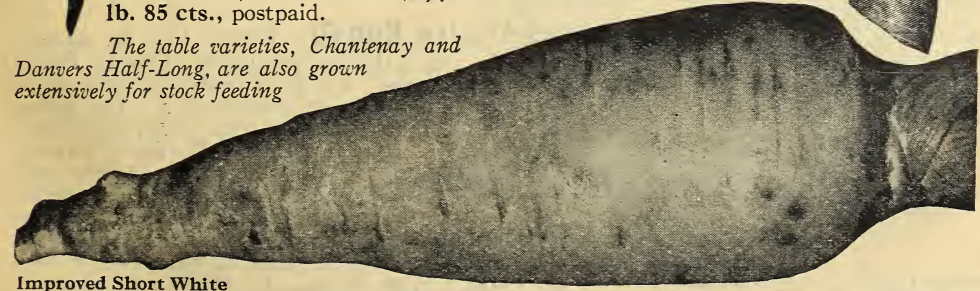

Roots very smooth and regular in growth; of large size, from 10 to 12 inches in length, and 2 to 3 inches in diameter at the top, tapering gradually throughout. The flesh is a rich, deep orange-red, free from hard core. Called the "Pointed-rooted Danvers." **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 40 cts.; 1b. \$1.15, postpaid.**

Carrots for Stock Feeding

These keep well when stored for winter use and form an extremely wholesome addition to the winter rations of stock. They yield heavily on productive soils. **Plant the seed from May 10th to June 20th.** Seed should be sown thinly in drills 3 feet apart, using 4 pounds of seed to the acre.

238 Large White Belgian This carrot grows a third or more of its length above the surface. The roots will average 2 inches in diameter at the shoulder and a foot or more in length. The diameter is even throughout the entire length, the roots tapering gradually at the base. Flesh and skin pure white, tinged with green on the upper portion growing above the soil. It does best on rich, deep soils. **Pkt. 5 cts.; oz. 12 cts.; 1/4 lb. 30 cts.; 1b. 85 cts., postpaid.**

240 Large Yellow Belgian This is similar to the preceding in growth and form, but the flesh and skin of the portion growing below the soil are of a pale orange coloring. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 40 cts.; 1b. \$1.05, postpaid.**

235 Improved Short White  The most productive and most easily harvested. **IMPROVED SHORT WHITE** is very popular. It is the best of the white varieties and used wholly for stock-feeding. The roots grow about 8 inches in length, measuring 3 inches at the top, and gradually tapering throughout their length. Smooth white skin, free from small rootlets. Flesh solid, white, crisp, rich, and nutritious. Grown on rich soils and when heavily fertilized the roots grow to enormous size, often measuring 15 inches long. We have reports of this variety yielding 20 tons per acre. **Pkt. 5 cts.; oz. 12 cts.; 1/4 lb. 30 cts.; 1b. 85 cts., postpaid.**

The table varieties, Chantenay and Danvers Half-Long, are also grown extensively for stock feeding

Improved Short White

Extra-
Early
White
Milan

Burpee's Turnips

Turnips develop best during cool weather, and in the vicinity of Philadelphia a fine crop can be grown from seed sown early in the spring. But turnips are most important as a fall crop. For fall or winter use sow the seed between the middle of July and August 20th in rows not less than 18 inches apart, and cover with $\frac{1}{2}$ to $\frac{3}{4}$ inch of fine soil. The most popular method, however, is to broadcast the seed either between the rows of corn or in the cultivated orchard. The early white varieties are often sown as a catch crop after early potatoes. One ounce will sow 400 feet of drill. In drills, 1 to 2 pounds per acre. Sown broadcast, 2 to 4 pounds per acre.

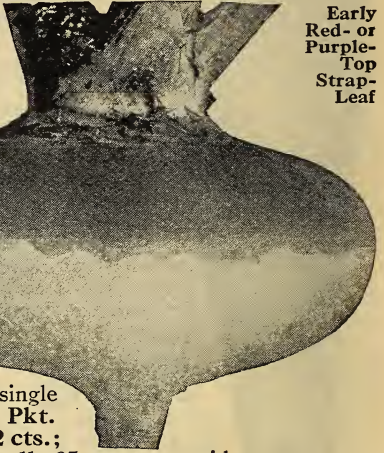

1159 Extra-Early White Milan

The entire root is of a light creamy white. Small tops, with a single short tap-root. The flesh is white, fine grained, sweet and tender. The earliest white turnip; smooth and handsome. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.50, postpaid.

1161 Extra-Early Purple-Top Milan

This splendid new strap-leaved turnip is the earliest in cultivation. The bulbs are flat, of medium size, smooth, with crisp white flesh of excellent flavor. The upper portion of the bulb is a rich purple, but the lower half is pure white. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.40, postpaid.

This splendid new strap-leaved tur-

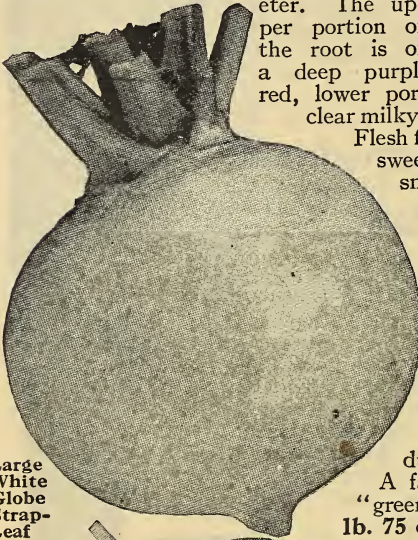

Early
Red- or
Purple-
Top
Strap-
Leaf

1157 Early Red- or Purple-Top Strap-Leaf

This is surpassed in earliness only by the Milan. Roots are quite flat, 4 to 6 inches in diameter. The upper portion of the root is of a deep purplish red, lower portion clear milky white.

Flesh fine grained, sweet and tender; single small tap-root. Pkt. 5 cts.; oz. 12 cts.; $\frac{1}{4}$ lb. 30 cts.; lb. 85 cts., postpaid.

Large
White
Globe
Strap-
Leaf

1167 Large White Globe Strap-Leaf

A large ball-shaped turnip, averaging 6 inches in diameter, with smooth white skin. Flesh pure white, firm, crisp, and of excellent flavor. Pkt. 5 cts.; oz. 12 cts.; $\frac{1}{4}$ lb. 30 cts.; lb. 85 cts., postpaid.

1177 Seven Top

This variety does not produce roots, but an enormous amount of tender leaves. A favorite variety in the South for making delicious "greens." Pkt. 5 cts.; oz. 12 cts.; $\frac{1}{4}$ lb. 25 cts.; lb. 75 cts., postpaid.

1169 White Egg

WHITE EGG is, without question, one of the most popular of all turnips for fall and winter use. The roots are of neat globe shape with an almost white, smooth skin. The flesh is fine-grained and free from woody fiber. It is crisp and tender. The flavor is sweet; easily stored for winter use. WHITE EGG has proven to do well under adverse weather conditions when other varieties have failed altogether. It is planted extensively for market use. Pkt. 5 cts.; oz. 15 cts.; $\frac{1}{4}$ lb. 30 cts.; lb. 90 cts., postpaid.

White Egg

YELLOW-FLESHED TURNIPS

1179 Large Yellow or AMBER

GLOBE See illustration. A beautiful variety of large size and regular shape. The roots are almost round or slightly oval in outline. They are smooth and form a single tap-root, free from any objectionable side-roots. The skin is even and smooth, of a pale amber coloring. The beautiful creamy yellow flesh looks very attractive and it is fine grained and free from hard fiber. The flavor is sweet and delicious. Pkt. 10 cts.; oz. 15 cts.; $\frac{1}{4}$ lb. 30 cts.; lb. 95 cts., postpaid.

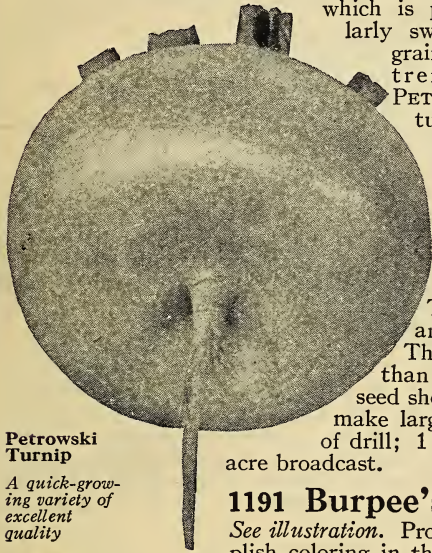

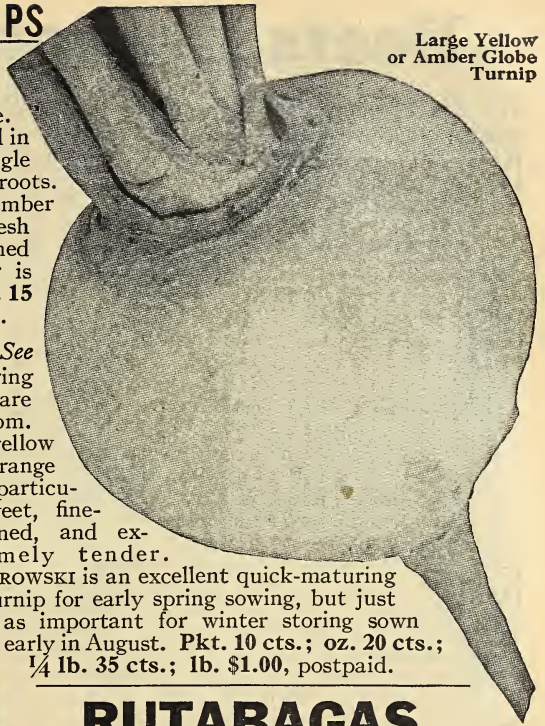

1185 Petrowski Turnip

See illustration. This is a very early-maturing turnip of excellent quality. The roots are flat and are indented at the top and bottom. They are smooth and of a rich orange-yellow color. The flesh is a beautiful light orange

which is particularly sweet, fine-grained, and extremely tender.

PETROWSKI is an excellent quick-maturing turnip for early spring sowing, but just as important for winter storing sown early in August. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 35 cts.; lb. \$1.00, postpaid.

Large Yellow or Amber Globe Turnip

Petrowski Turnip

A quick-growing variety of excellent quality

Productive and will keep in fine condition until quite late in the spring. Flesh rich yellow, fine grained, and very sweet. A good home garden variety. Pkt. 10 cts.; oz. 15 cts.;

$\frac{1}{4}$ lb. 30 cts.; lb. 95 cts., postpaid.

1194 Golden Neckless The roots grow to large size and are almost globular. The finely grained yellow flesh is solid and of the finest quality. Keeps well until late in the spring. Pkt. 5 cts.; oz. 12 cts.; $\frac{1}{4}$ lb. 25 cts.; lb. 70 cts., postpaid.

1196 White-Fleshed Neckless

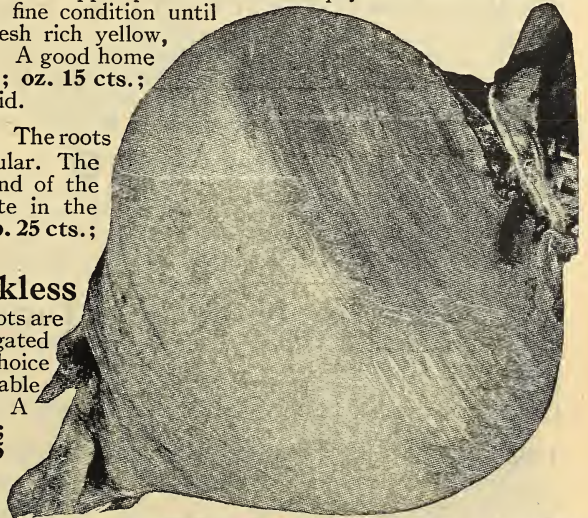

The skin and flesh are white. The roots are large and solid. Their shape is elongated and the skin is smooth and even. Of choice quality and grown extensively for table use as well as for cattle feeding. A splendid winter keeper. Pkt. 5 cts.; oz. 15 cts.; $\frac{1}{4}$ lb. 30 cts.; lb. 85 cts., postpaid.

RUTABAGAS

Also called Swedes, Swedish Turnips, or Russian Turnips. Rutabagas are more solid, of firmer flesh, and therefore keep later into spring than turnips. They require about 4 weeks longer in which to mature than common turnips, and at this latitude, Philadelphia, seed should be sown from the first to the middle of July to make large roots for winter keeping. One ounce for 400 feet of drill; 1 to 2 pounds per acre in drills; 3 to 5 pounds per acre broadcast.

1191 Burpee's Improved Purple-Top Yellow

See illustration. Produces large, smooth, globe-shaped roots of rich purple coloring in the upper portion and a deep yellow below the soil.

Burpee's Improved Purple-Top Yellow Rutabaga

Store Vegetables for Winter Use

Beets, Carrots & Turnips

107 Burpee's Extra-Early Beet  *See illustration.* This is very early and of excellent quality. The roots are slightly flattened, very smooth and regular. The flesh, in alternate rings of light and dark pink, is particularly tender and sweet. It is considered the finest earliest beet in existence. BURPEE'S EXTRA-EARLY is a favorite of reputation. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.25, postpaid.

121 Burpee's Black-Red Ball Beet  *See illustration.* Remarkable for its uniform shape, deeply colored flesh, and fine sweet flavor. The globe-shaped roots are smooth and free from any woody fiber. Both skin and flesh are of an unusually *deep rich red*. Although very early (quickly reaching a diameter of 2 inches), if left growing, the larger roots retain their fine flavor and deep coloring. Pkt. 15 cts.; oz. 25 cts.; $\frac{1}{4}$ lb. 60 cts.; lb. \$2.00, postpaid.

117 Burpee's Columbia Beet  *See illustration.* A superb early main-crop beet. The roots are of neat turnip shape, growing 3 to 4 inches in diameter, with a thick shoulder, but quickly tapering in the lower portion. The skin of the roots is smooth and entirely free from small rootlets. The flesh is a beautiful deep blood-red. It is tender and of the richest flavor. The roots *can be used early* in the season when only partially grown, being ready for use almost as quickly as the extra-early sorts, and of much better quality. BURPEE'S COLUMBIA retains its *choice quality* and absolute freedom from woodiness until the beets have reached their full size. The foliage is comparatively small, of a rich bronze color. BURPEE'S COLUMBIA is considered the best beet for all-around use. It is *excellent for winter storing*, and full-grown roots of it keep better during storage and for a longer time than any other variety.

BURPEE'S COLUMBIA BEET was introduced by us in 1892. In 1891 we sent out some sample packets to our customers for trial, and the enthusiastic praise from those who tried it supported our belief that this would become one of the leading varieties. Within the thirty years it has been on the market it has gained continuously in favor, and today it is the foremost home garden and winter variety. It is the one beet that can be used young or kept growing for winter use. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 35 cts.; lb. \$1.00, postpaid.

7035 BEET COLLECTION

This collection contains one packet each of the three fine Burpee varieties of garden beets, illustrated in colors. Mailed to your door, postpaid, for **25 cts.**

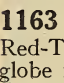

218 Amsterdam Forcing Carrot  *See illustration.* This fine variety is unsurpassed for forcing purposes, and is quite distinct from all other carrots. The foliage is very light and averages only 6 inches in height. The straight roots are attractive, of a bright orange-red color, with a blunt end and very small tap-root. They are uniform, growing about 4 inches long by $1\frac{1}{4}$ inches in diameter; the flesh is crisp and sweet, without stringiness, and the core is very small. Excellent for the home garden and of great importance to the market grower. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.20, postpaid.

223 Burpee's Oxheart Carrot  *See illustration.* The first edible roots measure $\frac{3}{4}$ inch across when they are pulled to make room for the remaining ones. Fully grown roots measure $2\frac{1}{2}$ inches in diameter at the top, and from 3 to 4 inches in length. They are free from hard core or fiber, and are of excellent quality. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.35, postpaid.

226 Half-Long Nantes Carrot  *See illustration.* A handsome half-long variety, almost perfectly cylindrical, blunt-ended, and with a very small tap-root; 6 inches long, $1\frac{1}{2}$ inches thick; of very fine quality. This is considered by many the finest of all carrots. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 40 cts.; lb. \$1.15, postpaid.

7060 CARROT COLLECTION

Fresh young carrots are delicious. Our collection contains one full-size packet each of the three varieties illustrated in colors. Mailed to any address, postpaid, for **25 cts.**

1163 Purple-Top White Globe Turnip  *See illustration.* Also known as Red-Top White Globe. The roots measure 6 inches and more in diameter, being of a perfect globe form; the upper portion is of rich purplish red, and the lower half is creamy white. Flesh white, firm, and crisp; of mild flavor. An excellent table variety for winter storing. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 35 cts.; lb. \$1.00, postpaid.

1183 Golden Ball or ORANGE JELLY TURNIP *See illustration.* Perfectly globe-shaped roots with rich orange-colored skin; smooth and regular. The flesh is of a pale amber tint; firm and fine grained. GOLDEN BALL has a sweet and delicate flavor, and keeps well until the following spring. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 35 cts.; lb. 95 cts., postpaid.

Radishes and Onions

878 Burpee's Rapid Red Radish ☉ These small, round, bright red radishes are not only most attractive, but are of the finest quality. **RAPID RED** is the quickest growing "Red Button" Radish. They usually require twenty to twenty-five days from the time the seed is sown until the radishes are ready for market. The roots are perfectly round, with thin, bright red skin. *The flesh is pure white, crisp, and agreeably snappy.* **BURPEE'S RAPID RED** is extensively grown for both home consumption and market supply. It does well in the greenhouse or frames for a winter and early spring supply. The foliage is unusually small and dwarf so that the roots can be grown standing very closely together. Pull the roots as soon as they have reached edible size to make room for the remaining roots to develop. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; lb. \$1.25, postpaid.**

879 Burpee's Hailstone Radish ☉ **BURPEE'S HAILSTONE** is the quickest maturing white radish on record. It is ready for the table in fifteen to twenty-five days. The roots are perfectly round, an inch in diameter, with snowy white skin and flesh. The flesh is crisp and solid. We have for many years carefully tested a large number of round white radishes but found that there is no other variety that can compare with **BURPEE'S HAILSTONE** in earliness and quality of the roots. Easily grown in frames for early spring use. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 35 cts.; lb. \$1.00, postpaid.**

893 Sparkler Radish ☉ An excellent strain of the old Scarlet Turnip White Tip. Small round roots with bright scarlet top, a clear white base, and small, slender tap-root. The juicy flesh is pure white and of an agreeably snappy flavor. **SPARKLER** is most popular with many market gardeners who grow for an early and choice market. It is short topped, with just sufficient deep green foliage to protect the roots. Being an extra quick grower the roots should be eaten as soon as they have reached a fair size, as they are apparently at their best before fully grown. Our strain of this variety is extra fine. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 40 cts.; lb. \$1.15, postpaid.**

7015 RADISH COLLECTION

This assortment contains one packet each of the 3 excellent radishes illustrated in colors on the opposite page, each one being a leader. It will be mailed to your door, postpaid, for **25 cts.**

711 Burpee's Gigantic Gibraltar Onion Introduced by Burpee in 1896. On account of its wonderful qualities it became known very quickly and today it is grown extensively for home use as well as for the market. The bulbs grow to enormous size from seeds sown right in the row early in the spring. **BURPEE'S GIGANTIC GIBRALTAR** makes *perfectly globular bulbs*, growing fully as large as the Prize-Taker Onion, which it resembles in form and color. The skin is a light straw color and the flesh is pure and sweet. The flavor of **BURPEE'S GIGANTIC GIBRALTAR** is particularly fine. It is mild and sweet, and the texture of the flesh is brittle, tender, and juicy. The leaves or blades are deep green, with a glossy surface, enabling it to withstand dry weather and the attacks of insect enemies. *Crop very short.* **Pkt. 15 cts.; 1/2 oz. 35 cts.; oz. 65 cts., postpaid.**

707 Burpee's Mammoth Silver King Onion

Introduced by us in 1884, it quickly became a leading popular sort to grow for market in many localities. The large bulbs are of attractive form, flattened, but quite thick through. Under good cultivation the average diameter is from 5 to 7 inches, single bulbs often attaining a weight of 2 to 3 pounds each. The thin skin is a clear silvery white; the flesh is snow-white, sweet, and tender. They grow quickly, mature quite early, and sell well in autumn and early winter. *Crop very short.* **Pkt. 15 cts.; 1/2 oz. 35 cts.; oz. 60 cts., postpaid.**

693 Burpee's Australian Brown ☉ Early, a sure cropper, and an extra-long keeper. The

bulbs somewhat resemble the Danvers in size and shape, but are thicker through, thus yielding a larger crop in both bulk and weight, and mature earlier. The skin is generally of a bright reddish brown, and the flesh is always white, crisp, extremely solid, and of *sweet, mild flavor.* Bulbs have been kept in fine condition for a year after they were harvested. **AUSTRALIAN BROWN** is most popular with growers in the Middle West and West, where onion bulbs are sold by weight. Like all strains of onions originating in Australia, it shows a tendency to produce bulbs varying in color of skin, but this feature does not interfere in any way with its other superb characteristics. Our stock is carefully selected, and we know there is no better seed offered on the market. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 55 cts.; lb. \$1.75, postpaid.**

7025 ONION COLLECTION

This collection contains one full size packet each of the 3 unsurpassed varieties of onions illustrated in colors on the opposite page. It will be mailed to your door, postpaid, for **25 cts.**

Burpee's Radishes

There are three distinct classes of radishes—Spring Radishes, Summer Radishes, and Winter Radishes. Every complete garden should include some of each class.

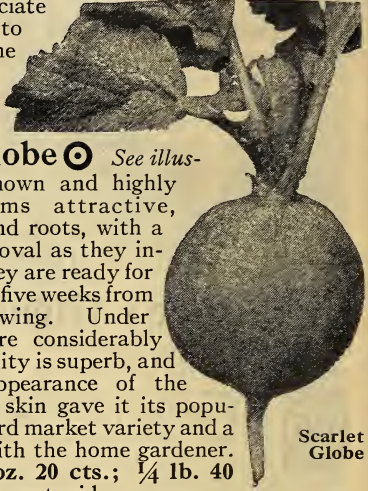

The Spring Radishes can be grown almost all the year around, and are important as a forcing crop during winter. They mature in the open in from 25 to 40 days, depending on the variety and the weather. They develop best during the cool season. Light sandy soil, rich in organic matter, is essential to produce crisp and tender radishes. **Plant as early in the spring as possible, and make succession plantings every 10 days.** Where the summers are hot, sow until the middle of May, then stop, but make three more sowings during August. Sow the seed thinly in shallow drills. One ounce is sufficient for 100 feet of drill; 8 to 10 pounds per acre sown in drills.

877 Burpee's Earliest Scarlet Button  See illustration. This is a splendid strain of small, extra-early, round, bright red radishes. We have frequently had them ready for use in 20 to 25 days after sowing the seed. The skin is a bright scarlet; flesh pure white, crisp, tender, and mild in flavor. Small top, and well suited for growing under glass. Market growers as well as home gardeners will greatly appreciate this wonderful radish. Needless to mention, we have a particularly fine strain. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 40 cts.; lb. \$1.10, postpaid.**

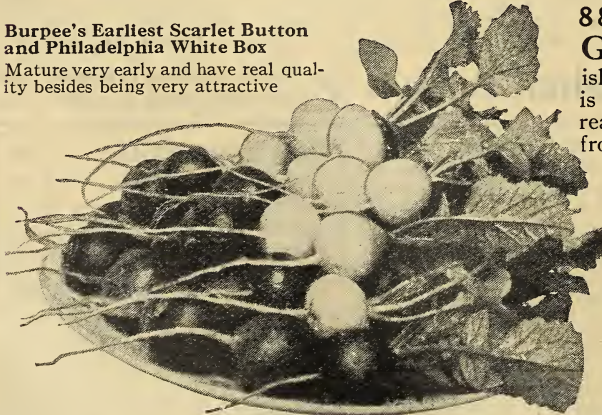

883 Scarlet Globe  See illustration. This well-known and highly bred variety forms attractive, medium-sized round roots, with a tendency to grow oval as they increase in size. They are ready for table use in four to five weeks from outdoor spring sowing. Under glass they mature considerably quicker. The quality is superb, and the handsome appearance of the brilliantly colored skin gave it its popularity. A standard market variety and a great favorite with the home gardener. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 40 cts.; lb. \$1.10, postpaid.**

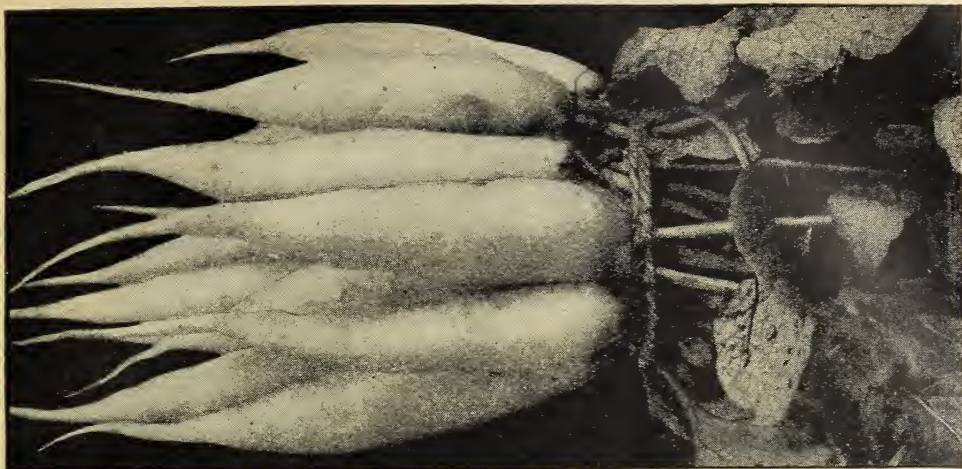

Scarlet Globe

899 Philadelphia White Box See illustration. An early variety, very popular with market gardeners. The radishes grow 1 1/2 inches in diameter, with pure paper-white skin; crisp, mild flesh. Largely planted in the field for the earliest market crop, but just as popular in the home garden. The quality is all that can be desired. The flesh is crisp, snappy, and juicy. Our strain of PHILADELPHIA WHITE BOX is excellent. **Pkt. 5 cts.; oz. 15 cts.; 1/4 lb. 30 cts.; lb. 90 cts., postpaid.**

Burpee's Earliest Scarlet Button and Philadelphia White Box
Mature very early and have real quality besides being very attractive

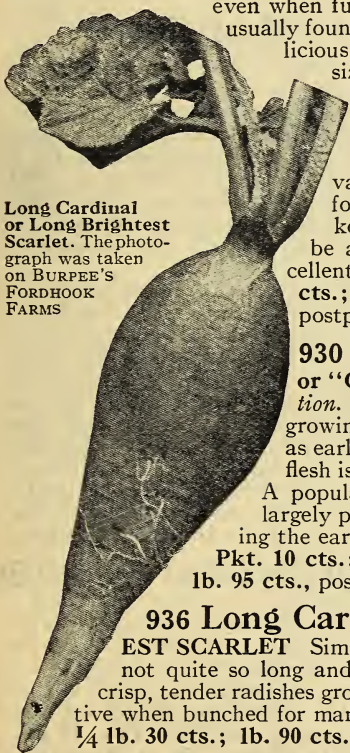

886 Crimson Giant Globe  A fine bright red radish, growing quickly to large size. It is especially fine for bunching, being ready to market in from 4 to 5 weeks from the time the seed is planted in the open ground early in spring. This radish is a deep globe in form; 2 inches in depth; 1 1/2 inches in diameter, with thin, tender skin of deep crimson. The flesh is purest white, crisp, and of mild flavor. CRIMSON GIANT GLOBE is a fine market variety, and it is grown extensively by the home gardener. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; lb. \$1.20, postpaid.**

938 White Icicle Radish ☉ *See illustration.* WHITE ICICLE is the finest of all the long varieties and is claimed to be the finest of all radishes. It is quite distinct from other sorts. The roots are crisp and tender, even when fully developed, and they have that agreeably snappy flavor usually found only in young radishes. WHITE ICICLE is not only very delicious, but it is also most attractive. The roots grow to a good

size and are of a typical icicle shape. They are straight and free from any side roots. Washed and bunched for market, they will outsell any other variety on the stands. Whether for the home garden or for market, WHITE ICICLE has proved to be a reliable variety of most excellent quality. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 35 cts.; 1b. 90 cts., postpaid.

Long Cardinal or Long Brightest Scarlet. The photograph was taken on BURPEE'S FORDHOOK FARMS

930 Cincinnati Market

or "Glass" RADISH *See illustration.* A strain of the Long Scarlet, growing to slightly larger size, fully as early and darker in coloring. The flesh is pure white, crisp and snappy. A popular variety in the South, and largely planted for shipping North during the early spring months.

Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 35 cts.; 1b. 95 cts., postpaid.

936 Long Cardinal or LONG BRIGHT-EST SCARLET

Similar to Cincinnati Market, but not quite so long and even brighter in color. The crisp, tender radishes grow quickly and are very attractive when bunched for market. Pkt. 5 cts.; oz. 15 cts.; $\frac{1}{4}$ lb. 30 cts.; 1b. 90 cts., postpaid.

928 Early Long Scarlet Short Top ☉

This is a great favorite with those who prefer long red radishes. Grown in light rich soil outdoors, the roots mature in from 4 to 5 weeks and they measure close to 6 inches in length. The flesh has an agreeably pungent taste and is crisp and juicy. They grow to perfection in a well-prepared, deeply worked soil.

Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 35 cts.; 1b. \$1.00, postpaid.

Cincinnati Market

You cannot buy Radishes as crisp and tender as you can get them from your own garden. Grow them all the year around—spring, summer, and fall.

OLIVE SHAPED RADISHES

Burpee's Earliest White—exceedingly uniform, crisp, and snappy

905 Burpee's Earliest White Radish

BURPEE'S EARLIEST WHITE RADISH was introduced by us in 1896. Prior to its introduction we distributed many thousands of sample packets among the Burpee customers, asking them to give us their candid opinion in regard to this little gem. The reports we received spoke of it in the most enthusiastic terms. Many of our customers mailed us samples of the radish

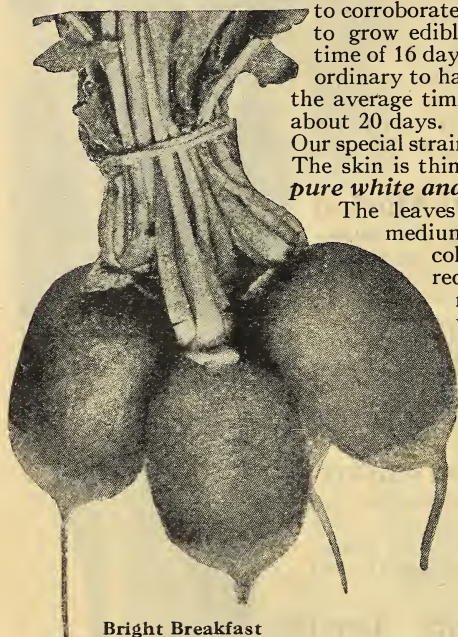

to corroborate their statement. Some of them were able to grow edible roots in the almost unbelievably short time of 16 days, stating that nothing was done out of the ordinary to hasten maturity. From our own experience we find the average time to raise edible roots from the date of sowing is about 20 days.

Our special strain produces handsome roots of a uniform olive shape. The skin is thin, tender, and of a pure white color. The flesh is **pure white and crisp**, with a snappy flavor but not at all strong.

The leaves of BURPEE'S EARLIEST WHITE RADISH are of medium size; they grow upright and are of a light green color. We know from testimonials which we have received since introducing this variety that these radishes can be grown successfully under most widely different conditions of soil and climate.

It is equally as good for growing in the hotbed as for outdoors in the garden. **Pkt. 15 cts.; oz. 35 cts.; 1/4 lb. \$1.00; 1b. \$3.50**, postpaid.

Bright Breakfast

907 French Breakfast Radish

FRENCH BREAKFAST is a beautiful radish of true olive shape. The color of the skin is bright carmine, shading to clear white in the lower portion. The flesh is white, firm, and crisp; juicy, mildly pungent, and tender. It is well adapted for forcing in the greenhouse and hotbed. One of the leading early varieties. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; 1b. \$1.20**, postpaid.

909 Bright Breakfast

See illustration. Similar to the French Breakfast, but the scarlet skin is considerably brighter in color and forms a sharp contrast to the clear white tip. The roots are of typical olive shape and they are strikingly uniform in shape as well as size. The white flesh is firm and crisp; yet it is tender, juicy, and of snappy flavor. It is a radish of first-class quality. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; 1b. \$1.10**, postpaid.

THE BURPEE TRADE MARK has been used throughout Burpee's Annual to designate varieties which were first introduced in America by Burpee. Never have we introduced a variety until we had proved its marked superiority. Our trial grounds at Fordhook Farms, the largest of the kind in America, enable us to keep in the lead. Everything, new or old, is tested and proved there, and nothing but the very best is offered.

SUMMER RADISHES

The summer radishes are, in contrast to the spring varieties, adapted for summer sowing, even where the weather is quite warm. They grow well in a firm, rich, and cool soil. They should be eaten as soon as they have reached edible size. For this reason make succession sowings every week or 10 days to provide a continuous supply of roots. Sow thinly in rows and cover with not more than $\frac{1}{2}$ inch of fine soil.

Firm the soil above the row with the full sole of the shoe to insure good germination. This also encourages the bulb to develop quicker and better than if planted in loose soil.

Begin sowing in May and make succession sowings one to two weeks apart until August 15.
One ounce for 100 feet.

951 Chartiers ☉

or SHEPHERD Crimson roots tipped with white. The flesh is white, crisp, and of fine flavor. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 30 cts.; lb. 95 cts., postpaid.

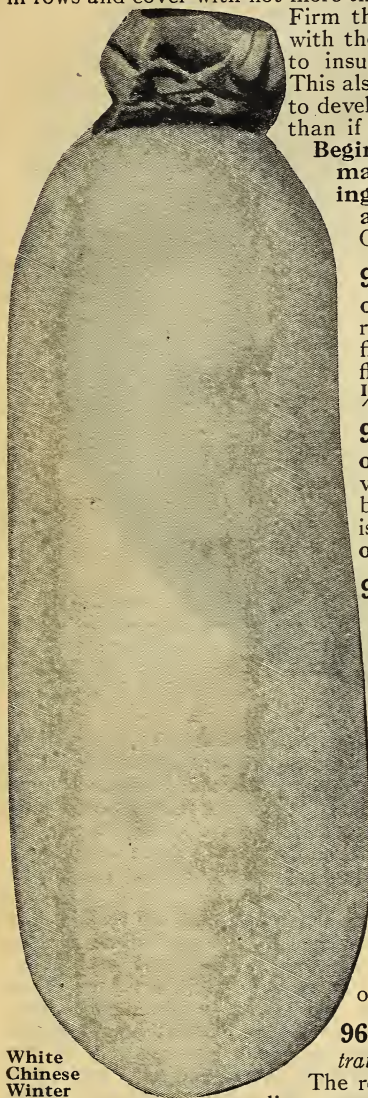

953 Long White Vienna

or LADY FINGER An excellent variety, growing to good size without becoming pithy or tough. The flesh is pure icy white, juicy and agreeably snappy. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 35 cts.; lb. \$1.00, postpaid.

959 White Strassburg ☉ See illustration. The roots measure 4 to 5 inches long and as much as 2 inches in diameter. The flesh is white and agreeably mild. Pkt. 5 cts.; oz. 15 cts.; $\frac{1}{4}$ lb. 30 cts.; lb. 90 cts., postpaid.

White Strassburg Summer Radish
A delicious and crisp variety

White Chinese Winter Radish

WINTER RADISHES

Winter radishes require cool weather at the finish of their growing season, though they may be started during hot weather. **Make your first planting the middle of June, a second the middle of July, and a third the middle of August.** Sow thinly in rows not less than 15 inches apart between the rows, and thin out to stand 6 inches apart in the row. Radishes must grow quickly to develop quality, and a rich, firm, and well-drained soil is essential. Apply water during dry weather and keep free of weeds at all times. WINTER RADISHES are easily stored for winter use in any frost-proof cellar. One ounce for 100 feet of row.

963 White Chinese ☉ or CELESTIAL See illustration. An outstanding variety, growing to enormous size.

The roots are cylindrical and grow 12 to 15 inches long with a diameter of 5 inches. The flesh is crisp, juicy, and tender. Agreeably mild in flavor. The roots are easily stored in boxes packed in sand and will keep all winter long. Pkt. 5 cts.; oz. 15 cts.; $\frac{1}{4}$ lb. 30 cts.; lb. 95 cts., postpaid.

967 Chinese Rose or SCARLET CHINA Of medium size, 4 to 5 inches long. Skin deep rose. Flesh pure white, firm, and compact. Even though the flesh is firm it is not at all hard or fibrous. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 35 cts.; lb. 95 cts., postpaid.

971 Long Black Spanish The roots measure 7 to 10 inches long and they are 2 to 3 inches thick. The skin is black and the flesh is pure white. LONG BLACK SPANISH is easily grown and yields very heavily. The flesh is extremely firm and the roots keep in perfect condition all winter long if stored in slightly damp sand or soil and placed in a cool but frost-proof cellar. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 35 cts.; lb. \$1.00, postpaid.

Burpee's Onions

Prize-Taker

Reproduced from a photograph taken on Burpee's FORD-HOOK FARMS—
Actual size

681 Prize-Taker (American Grown) *See illustration.* This is a most profitable variety to grow for early fall market, the bulbs being fully 3 times as large as those of the Globe Danvers under ordinary cultivation, and under especially favorable conditions bulbs have frequently been raised **weighing from 4 pounds to 5½ pounds each.** Growing to such large size, it does not ripen until about 4 weeks later than the Danvers. The plants are of strong growth, thin-necked, and the bulbs ripen very surely and evenly. The skin is thin, of a bright straw-yellow; the flesh is pure white, crisp, extremely sweet and mild in flavor.

Because of their handsome appearance and fine quality, PRIZE-TAKERS sell readily at a higher price than others. It is from this variety that the large, light brown onions sold in crates as Spanish Onions are grown, but our strictly *American-grown seed should not be confused with the seed of this type which is imported and sold at a lower price.* The latter not being suited to our climate, the bulbs continue longer in growth and do not ripen evenly. Our AMERICAN-GROWN PRIZE-TAKER is most satisfactory to grow from seed planted directly in the row, as very large bulbs are easily raised by this method and are equaled in size only by our Gigantic Gibraltar. In dry seasons and light soil the bulbs ripen evenly and quite early, but do not attain such large size as in more favorable localities. Many home gardeners prefer *Prize-Taker* to all others. Pkt. 10 cts.; oz. 25 cts.; ¼ lb. 60 cts.; lb. \$2.00, postpaid.

Onions are one of the important vegetables and are highly prized for their tonic qualities. In order to grow large-sized bulbs the seeds are sown early in the spring (but not later than the middle of May) where the plants are to mature. A good moist, well-drained soil, which has been enriched with thoroughly rotted manure and well pulverized at the surface, will give the most satisfactory results. Cover the seed lightly. When the seedlings are 3 to 4 inches high they are thinned out according to the size of the variety. Keep the bed weeded and cultivate lightly during the growing season. When the bulbs have reached maturity the tops will bend down and the roots must be harvested. Store in a dry, frost-proof room where fresh air circulates freely. One ounce for 250 feet of drill; 4 to 5 pounds per acre.

Burpee's Southport Globe Onions

Southport
Yellow Globe

BURPEE'S SOUTHPORT GLOBE ONIONS have been grown from the finest onions, especially selected to produce our special strain. Under proper conditions these stocks will produce large crops of fine well-ripened onions of perfect shape.

680 Southport Yellow Globe (Burpee's Special)

This SOUTHPORT strain is famous wherever onions are grown as the highest development in market onions. BURPEE'S SPECIAL STOCK OF YELLOW GLOBE has been closely selected for a slender-necked plant, which insures earlier and surer ripening of the bulbs as well as the best keeping qualities.

Pkt. 10 cts.; oz. 25 cts.;
1/4 lb. 75 cts.; 1b.
\$2.50, postpaid.

696 Southport White Globe (Burpee's Special)

Grown from the finest selected mother-bulbs. Every care has been used to keep this SPECIAL STOCK OF WHITE

GLOBE up to the highest possible standard. Pure white bulbs; exceedingly attractive. Pkt. 10 cts.; oz. 35 cts.; 1/4 lb. \$1.00; 1b. \$3.50, postpaid.

690 Southport Red Globe (Burpee's Special)

This SPECIAL STOCK is produced from fine selected onions of the very best form and

richest coloring. We recommend it as the best that can be produced and sure to yield a satisfactory crop under favorable conditions. Pkt. 10 cts.; oz. 25 cts.; 1/4 lb. 75 cts.; 1b. \$2.50, postpaid.

Be sure to sign your full name and address on every letter sent us. Each year we receive several hundred letters which we are unable to answer because the name or full address is not given.

White
Globe

South-
port
Red
Globe

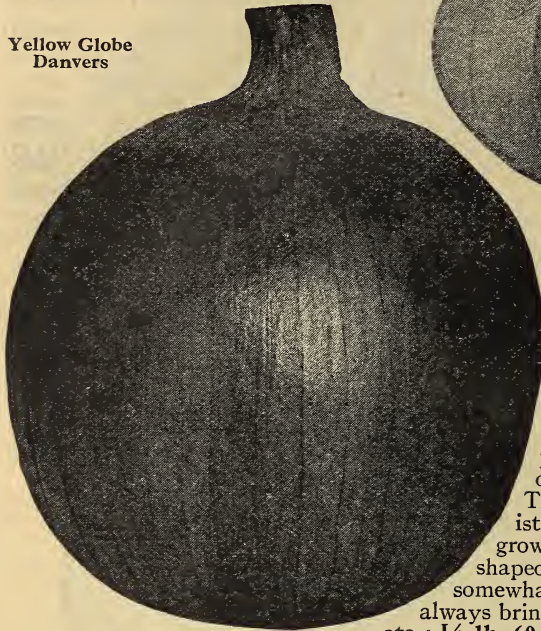

669 Yellow Flat Danvers

A good onion, both for the home garden and for market, combining reliability in ripening with large yield. It ripens more surely, as well as earlier, in most locations than do the globe-shaped varieties. The thin-necked, flattened bulbs are quite thick through; light yellow skin; fine-grained, mild white flesh. It is the leading variety to grow for sets and a splendid keeper. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 55 cts.: lb. \$1.80, postpaid.

Yellow Flat Danvers
Actual size from a Fordhook photograph

Yellow Globe Danvers

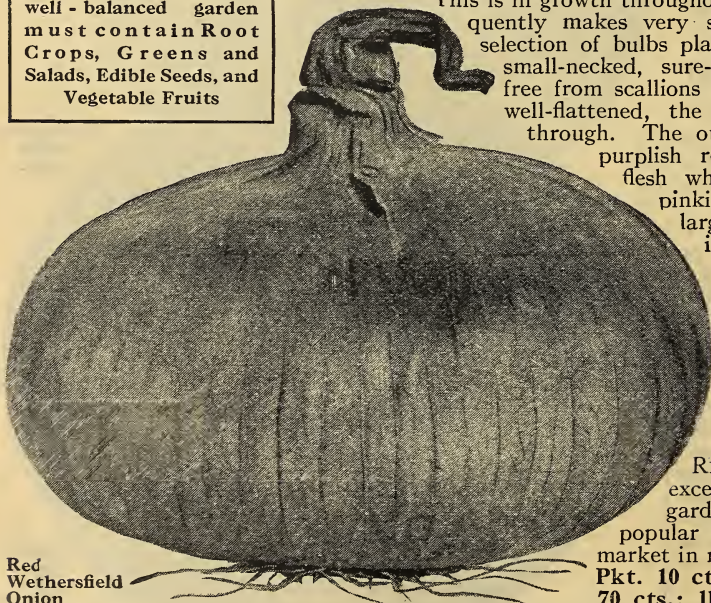

671 Yellow Globe Danvers

This is an old favorite—the standard variety for winter use in the eastern markets. It produces well-ripened bulbs, averaging 2 inches in diameter and nearly globe-shaped. The skin is a light golden brown or pale yellow, and the flesh is pure white, crisp, and mild in flavor. The plants have very slender necks, and consequently the bulbs keep well over winter. They ripen up uniformly, which characteristic recommends the variety to market-growers. Although not quite so truly globe-shaped as the Southport Yellow Globe, they are somewhat earlier and are sold in the early markets, always bringing a good price. Pkt. 10 cts.; oz. 25 cts.; $\frac{1}{4}$ lb. 60 cts.; lb. \$2.00, postpaid.

Plant a well-balanced vegetable garden. Every well-balanced garden must contain Root Crops, Greens and Salads, Edible Seeds, and Vegetable Fruits

687 Red Wethersfield

This is in growth throughout the season, and consequently makes very solid bulbs. Continued selection of bulbs planted for seed gives us a small-necked, sure-ripening strain, entirely free from scallions or thick necks. Though well-flattened, the large onions are rich through. The outer skin is a deep rich purplish red, smooth and glossy; flesh white, lightly tinged with pinkish rose. The magnificent large solid onions are as mild in flavor as many varieties, with skin of lighter coloring. Its splendid keeping qualities make it easy to hold crops for winter prices. There is no better strain of the true RED WETHERSFIELD in cultivation today than that offered by us. RED WETHERSFIELD is an excellent market and home garden variety. It is the most popular standard sort for winter market in many northern states. Pkt. 10 cts.; oz. 25 cts.; $\frac{1}{4}$ lb. 70 cts.; lb. \$2.25, postpaid.

Red Wethersfield Onion

697 White Portugal ☉ As now grown, the Philadelphia White Silverskin, so extensively used for sets, is indistinguishable; therefore we retain only the original name, **WHITE PORTUGAL**. The bulbs grow to good size, ripening early and quite evenly. The flesh is mild and sweet, the thin skin a clear silvery white. Of handsome appearance if the bulbs are gathered as soon as ripened and carefully dried under shelter, away from the strong sunlight. When seed is sown 25

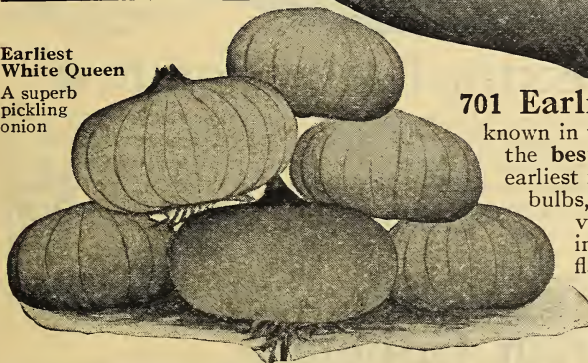

pounds to the acre, it makes bulbs of a size most desirable for pickling.
Pkt. 10 cts.; oz. 25 cts.;
¼ lb. 75 cts.; lb. \$2.50,
 postpaid.

BURPEE'S ANNUAL is considered the Leading American Seed Catalog. It will be mailed gladly to any friend or neighbor of yours who is interested in gardening.

White Portugal

Earliest White Queen
 A superb pickling onion

701 Earliest White Queen ☉ Also known in the South as **White Pearl**. This is the best of all for small pickles and the earliest ripening onion in cultivation. The bulbs, of a pure paper-white, are generally very small, averaging only 1½ inches in diameter. They are most mild in flavor and are grown extensively for commercial and home pickling. Also grown for early use. **Pkt. 10 cts.;**
oz. 25 cts.; ¼ lb. 75 cts.; lb. \$2.50,
 postpaid.

ONION SETS It is cheaper to raise onions directly from the seed, but sets are valuable for raising bunch onions to pull early in the spring. *Prices vary with the market—please write for quotations on large quantities.*

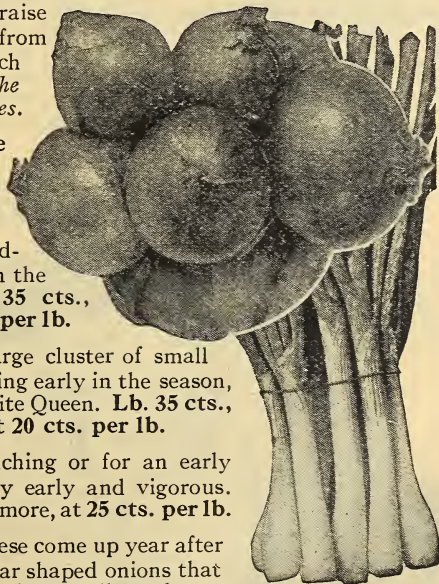

9940 White Sets Grown from our choice strain of the Philadelphia White Silverskin seed. **Lb. 35 cts.,** postpaid. Express or freight, at purchaser's expense, 10 lbs. or more, at **20 cts. per lb.**

9937 Yellow Sets These will produce handsome, well-ripened bulbs of large size quite early in the summer. Extensively grown for scallions. **Lb. 35 cts.,** postpaid. By express, 10 lbs. or more, at **20 cts. per lb.**

9942 White Multiplier Produces a large cluster of small to medium-sized onions from a single bulb, maturing early in the season, being ready for use even before the Extra-Early White Queen. **Lb. 35 cts.,** postpaid. By express or freight, 10 lbs. or more, at **20 cts. per lb.**

9938 Yellow Potato Valuable for bunching or for an early crop. Light brown skin; mild, white flesh. Very early and vigorous. **Lb. 40 cts.,** postpaid. Express or freight, 10 lbs. or more, at **25 cts. per lb.**

9935 Egyptian or **PERENNIAL TREE** These come up year after year. The bottoms divide, making several irregular shaped onions that are sweet and tender. The young sets grow on top of the stalks and may be planted in the fall. *We cannot supply these sets after March 1st.* **Lb. 35 cts.,** postpaid. By express, 10 lbs. or more, at **18 cts. per lb.**

Potatoes

Burpee's Extra-Early
Potato

9946 **Burpee's Extra-Early Potato** ◉

This remarkable **early** potato was introduced by Burpee in 1890. It has proven to be from 10 days to 2 weeks earlier than most other so-called early potatoes. One of the main features of BURPEE'S EXTRA-EARLY is its enormous productiveness. The potatoes are uniformly of good size. They run evenly and produce hardly any culls at all. They are oblong, very smooth, with few shallow eyes. The skin is pale brown. The flesh is pure white, remarkably fine, and of excellent table quality. BURPEE'S EXTRA-EARLY ripens very evenly and the tops die down as soon as the crop is matured, so that the potatoes may be dug very early. **Lb. 30 cts.; 5 lbs. for \$1.25, postpaid.** By express or freight, at purchaser's expense: **bushel (60 lbs. net) \$2.85; sack (165 lbs. net) \$7.00.**

9960 **Irish Cobbler**

One of the best **extra-early** varieties. The shape of the tubers is flat and wide. Quite often the larger tubers are distinctly pear-shaped. The skin is smooth, of a yellowish white color, changing to dull olive-green with a faint tinge of blue. The blossoms are pink with white tips at the petals. In quality IRISH COBBLER is excellent. The skin is thin, and being smooth, looks very attractive. The flesh is pure white, of excellent cooking quality. **Lb. 30 cts.; 5 lbs. for \$1.25, postpaid.** By express or freight, at purchaser's expense: **bushel (60 lbs. net) \$2.85; sack (165 lbs. net) \$7.00.**

9975 **Burpee's Gold Coin Potato** ◉

**Burpee's
Gold Coin Potato**
A foremost main-crop
variety; very hardy,
vigorous, and extreme-
ly productive

This well-known variety was introduced by us in 1903. It has become extremely popular because it is the hardest, most vigorous in growth, most productive, and the best table potato, maturing as a **main crop**. These are strong claims but absolutely true.

The tubers are slightly oblong, rather broad, and quite thick through. They grow about 4 inches in length and 2¾ inches wide. The eyes are small and shallow. The smooth and glossy skin is a light golden tint and the flesh is pure white, dry, and floury. Even when freshly dug the roots will cook mealy. **Lb. 30 cts.; 5 lbs. for \$1.25, postpaid.** By express or freight, at purchaser's expense: **bushel (60 lbs. net) \$2.85; sack (165 lbs. net) \$7.00.**

9958 Green Mountain Potato

or State of Maine. This excellent variety is grown to the exclusion of all other varieties in certain potato-growing sections of this country. It is perhaps the **best-known late potato** in every market. The tubers grow to large size and are of a broad and oval form. The ends are also broad and thick. There are few eyes and they are shallow and comparatively small.

The skin of the tubers is a dull cream or light russet, frequently with brown splashes toward the seed end. The sprouts are creamy white. **EXTRA-SELECT GREEN MOUNTAIN** produces a strong and healthy growth of vines with dark green glossy leaves. They are very seldom troubled by bugs or blight. The flowers are white. One should expect to find under the strong and vigorous foliage a **most productive hill** of potatoes. In fact, the tubers lie so closely together that they almost touch each other in the hill. They are uniform in size and shape. **Lb. 30 cts.; 5 lbs. for \$1.25, postpaid.** By express or freight, at purchaser's expense: **bushel (60 lbs. net) \$2.85; sack (165 lbs. net) \$7.00.**

Green Mountain—
Greatly reduced

9964 Rural New Yorker No. 2 A magnificent mid-season variety. Strong and thrifty vines. The tubers are oblong, inclined to be round-oval, and somewhat flattened. The skin is almost white, netted, with few and shallow eyes. Flesh pure white, of fine flavor. **Lb. 30 cts.; 5 lbs. for \$1.25, postpaid.** By express or freight, at purchaser's expense: **bushel (60 lbs. net) \$2.85; sack (165 lbs. net) \$7.00.**

ALL OUR POTATOES ARE MAINE GROWN and have passed the required inspection as to freedom from diseases. We will ship when weather conditions permit. Shipments made according to date given by customer will be forwarded at customer's risk.

HORSE-RADISH

This is a hardy plant, thriving best in a cool, moist spot. The small sets or roots are planted each spring to furnish large, straight, smooth roots for use the following season. The roots can be left in the garden until needed for use and, when grated, make an appetizing relish for all meat dishes.

9924 Common Horse-Radish Roots are small: **6 for 25 cts.; 12 for 35 cts.; 100 for \$2.25, postpaid.** By express, freight, or parcel post, at expense of purchaser: **100 for \$1.75; 200 for \$3.00; 500 for \$6.75; 1000 for \$12.50.**

9926 Maliner Kren or **BOHEMIAN** The plants are vigorous and the roots grow to large size. The quick, strong growth not only gives a much larger crop from a given area, but also enables the grower to place the roots on the market much earlier than with the ordinary variety. **SMALL ROOTS**, ready for planting: **6 for 30 cts.; 12 for 45 cts.; 100 for \$2.70, postpaid.** By express, freight, or parcel post, at expense of purchaser: **Roots of uniform length, in bunches of 50: 50 roots for \$1.15; 100 for \$2.10; 200 for \$3.60; 500 for \$8.10, or 1000 for \$15.00.**

Maliner Kren
Horse-Radish

9900 JERUSALEM ARTICHOKE

Many of our customers have come to know the true value of the **JERUSALEM ARTICHOKE** for market, for the table, and as a food for hogs. The plant thrives in any good soil and produces wonderful crops. Plant 350 to 500 pounds per acre. **Lb. 35 cts., postpaid.** By express or freight, at purchaser's expense: **10 lbs. at 25 cts. per lb.; 100 lbs. at 20 cts. per lb.**

Jerusalem Artichoke
Reduced from a photograph

PARSNIPS

Guernsey Parsnip

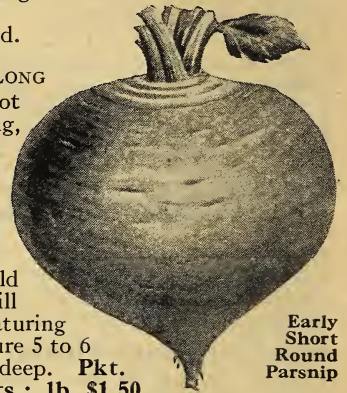

Parsnips are of the easiest culture and require a full season to come to maturity. Seed of the long varieties should be sown early in spring up to May 15th. Early Short Round matures quicker and gives a full crop planted as late as June 1st. The roots may be left outdoors all winter long. They may also be stored in a cool, well-ventilated cellar, packed in boxes filled with slightly moist soil. One ounce will sow 300 feet of row; 4 to 6 pounds per acre.

725 Guernsey  See illustration. The roots are medium long, with a broad shoulder, gradually tapering downward. The white skin is smooth and attractive. GUERNSEY is considered the best and most productive of the long parsnips. The fine-grained, tender, and sweet flesh makes it essentially a table variety, but it is also grown for cattle-feeding. *The Parsnip crop is very short this year.*
Pkt. 10 cts.; oz. 25 cts.; 1/4 lb. 75 cts.; 1b. \$2.50, postpaid.

727 Long Smooth Hollow Crown LONG
SMOOTH grows longer than the preceding variety, but does not have so broad a shoulder. The roots are long and tapering, requiring a deeply worked soil. *Very short crop.*
Pkt. 10 cts.; oz. 25 cts.; 1/4 lb. 75 cts.; 1b. \$2.50, postpaid.

728 Early Short Round See illustration. This is the earliest of all parsnips, and for this reason widely grown in the home garden. It will give a good yield when sown as late as June, and will make a succession crop to early maturing vegetables. The roots often measure 5 to 6 inches across and 3 to 4 inches deep. Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; 1b. \$1.50, postpaid.

Early Short Round Parsnip

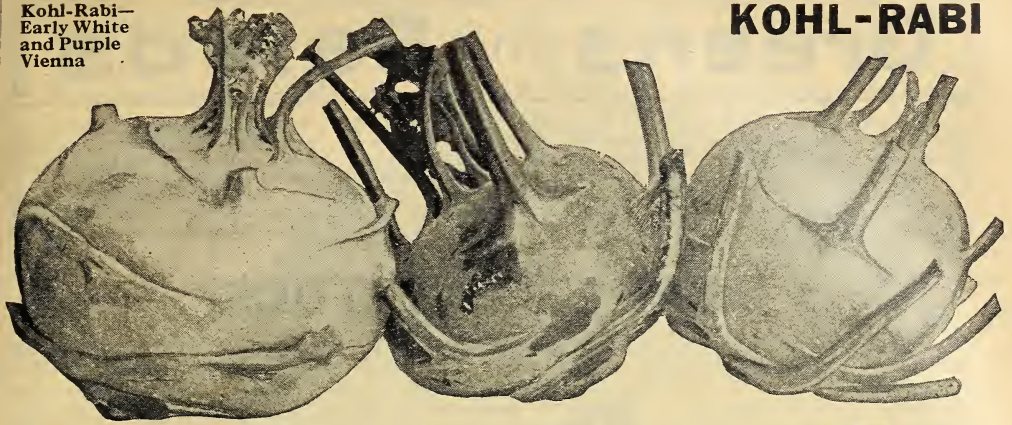

Sandwich Island Mammoth Salsify Greatly reduced from a photograph

SALSIFY—OYSTER PLANT

This plant is largely grown for fall and winter use and it is highly esteemed for the fine flavor of the roots. The popular name, Oyster Plant, has been given to this plant because the roots have an oyster-like flavor. The plant is a native of Europe, making a heavy growth of grass-like foliage and a long fleshy root, measuring from 6 to 8 inches in length and as much as one inch in diameter. The roots require a full season to come to maturity and should be sown as early in the spring as the weather permits, but not later than May 15th. Sow the seed thinly in shallow drills, not less than 15 inches apart. As the roots are hardy they may be left in the ground during winter, or they may be dug and stored in a cool cellar after cutting off the leaves. One ounce will sow 120 feet of row; 8 to 10 pounds per acre in drills.

983 Sandwich Island Mammoth  See illustration. This grows uniformly to an extra-large size, averaging fully double the size and weight of roots of the old variety. The roots, notwithstanding their extra-large size, are of very superior quality and delicate in flavor. *Seed grown on Burpee's Floradale Farms in California.*
Pkt. 10 cts.; oz. 25 cts.; 1/4 lb. 60 cts.; 1b. \$2.00, postpaid.

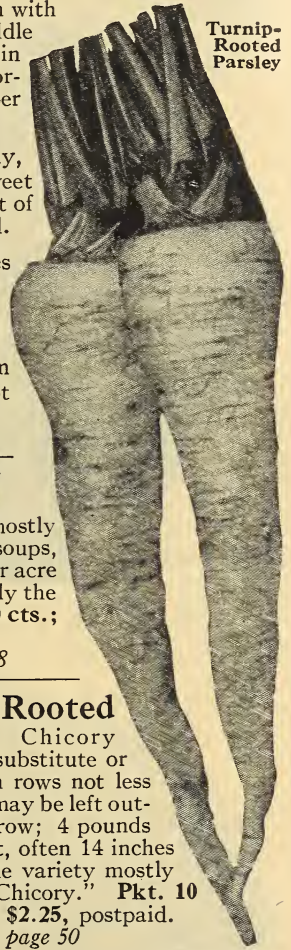

Sow the seed thinly in rows early in the spring, covering $\frac{1}{2}$ to 1 inch with fine soil. For a continuous supply sow every 2 weeks up to the middle of July. KOHL-RABI is most tender when not more than 2 inches in diameter. It succeeds well in a rich loamy soil and responds to thorough cultivation. One ounce for 300 feet of row; 4 to 5 pounds per acre in drills.

456 Early White Vienna ☉ A very select extra-early, short-topped strain. The whitish green bulbs are tender and sweet when 2 to 3 inches in diameter. This variety is considered the finest of all. Pkt. 10 cts.; oz. 25 cts.; $\frac{1}{4}$ lb. 70 cts.; lb. \$2.25, postpaid.

457 Early Purple Vienna The swollen stem and leaves are of a purplish color. Matures a few days later than White Vienna, but otherwise resembles it in tenderness and fine quality. Pkt. 10 cts.; oz. 25 cts.; $\frac{1}{4}$ lb. 70 cts.; lb. \$2.35, postpaid.

459 Large Green or WHITE The swollen light green stem grows from 6 to 8 inches in diameter. In flavor and texture it does not compare with the early Vienna varieties. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.50, postpaid.

Turnip-
Rooted
Parsley

723 TURNIP-ROOTED PARSLEY

This can be used much in the same way as other parsley, but is mostly grown for the thick, fleshy roots, which are used for flavoring soups, stews, etc. One ounce of seed will sow 250 feet of drill; 3 pounds per acre in drills. The variety we offer is practically the only one cultivated. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.50, postpaid.

For other parsley varieties see page 48

Celериac
Turnip-Rooted Celery

CHICORY 295 Large-Rooted
or COFFEE Chicory

roots are roasted and ground as a coffee substitute or adulterant. Sow thinly in early spring in rows not less than 18 inches apart. They are hardy and may be left outdoors. One ounce of seed for 200 feet of row; 4 pounds per acre. The roots are thick and straight, often 14 inches long and about 2 inches thick. It is the variety mostly grown for the manufacture of "Coffee Chicory." Pkt. 10 cts.; oz. 25 cts.; $\frac{1}{4}$ lb. 70 cts.; lb. \$2.25, postpaid.

Willow Chicory is listed on page 50

293 CELERIAC—Turnip-Rooted Celery

The edible portion is the large, swollen root, which is highly esteemed for boiling or for flavoring soups, stews, and other dishes. Since the seed requires 3 to 4 weeks before germinating, keep the sowing moist and moderately warm. Transplant the seedlings into the garden to stand 8 to 10 inches apart each way. Pkt. 10 cts.; oz. 25 cts.; $\frac{1}{4}$ lb. 70 cts.; lb. \$2.25, postpaid.

Greens and Salads

Greens and Salads are rightly called "Nature's Tonics." The American people are too much inclined to eat pastries and highly seasoned and concentrated meat-foods, which are rich in proteins and fats, but are almost entirely lacking in mineral salts. The importance of these mineral salts in the diet, although it was only recently recognized, cannot be overestimated. The natural source of these essential salts is the Greens and Salads. They should constitute a considerable portion of our food. The majority of the salad plants are easily grown. They are free from insect pests and are adapted to a wide range of soil and climate. They should be extensively grown in every garden. Most varieties can be sown as succession crops, and there is no month during the entire garden season that will not produce one or the other of these useful Greens and Salads.

BURPEE'S LETTUCE

Lettuce prefers cool, moist weather and does best in rich soil. Plant as early in the spring as the ground can be worked up. Sow the seed thinly in drills, and cover $\frac{1}{4}$ inch deep with fine soil. In cool sections of the country lettuce can be sown any time up to the middle of July. Where hot summers are usual, sow from early spring until the middle of May, making a planting every 10 days. For a fall crop sow during the second and third week of July. One ounce for 600 feet of drill; 4 pounds per acre in drills.

Big Boston Lettuce

EARLIEST AND FORCING LETTUCE

These are all extensively grown as forcing crops in the greenhouse during winter and in the frames early in spring and late in the fall. Sown out-of-doors in early spring or in late summer, they will develop well during the cool weather, but cannot withstand the heat of summer.

475 Big Boston ©

This is a fine forcing variety for cold-frames during the winter months. It produces heads of very large size, often measuring 10 to 12 inches across, and succeeds better in cooler temperatures than do most forcing strains. It heads well also in the open ground during the cool weather of spring and fall. The large heads are compact and solid, with few outer leaves; the heart is beautifully blanched. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.50, postpaid.

479 Black-Seeded Big Boston

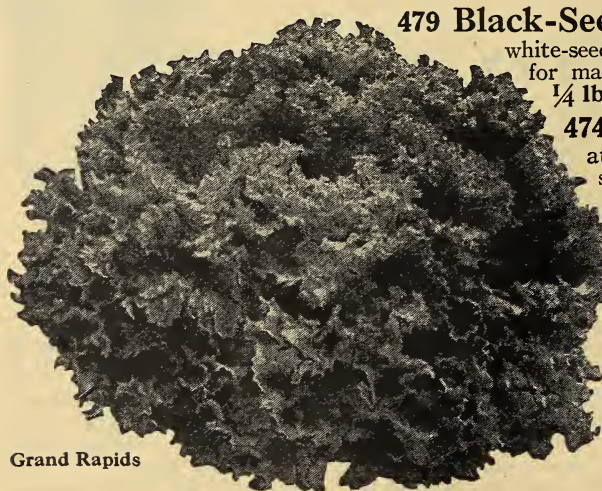

Similar to white-seeded Big Boston. An excellent variety for market. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.65, postpaid.

474 Early May King ©

A most attractive variety that heads well in spring and has a beautifully blanched heart, and an especially fine rich buttery flavor. One of the best. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 55 cts.; lb. \$1.75, postpaid.

485 Grand Rapids

This makes large compact bunches of light green leaves with attractively fringed edges. Most popular for winter markets. Easily raised out-doors from plantings made in early spring. *Our stock is extra fine.* Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.50, postpaid.

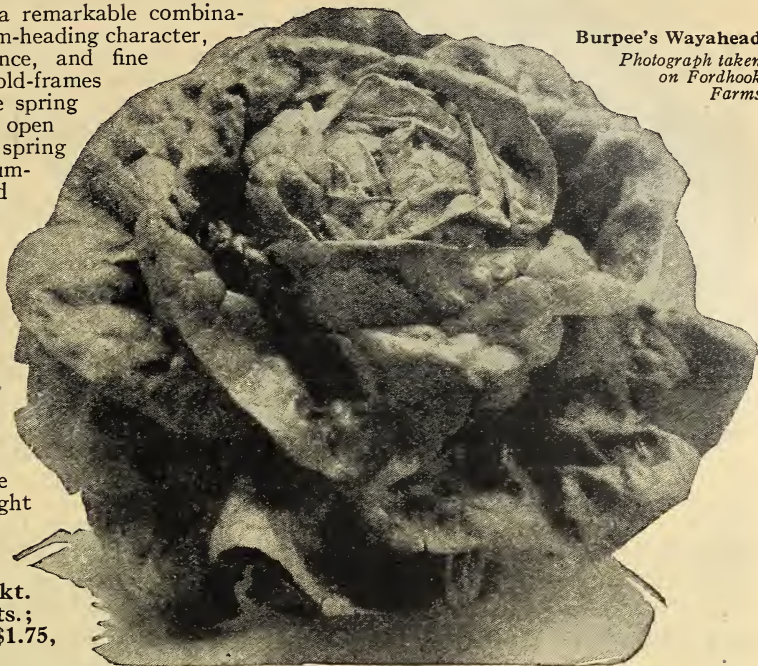

Grand Rapids

476 Burpee's Wayahead Lettuce ☉

WAYAHEAD shows a remarkable combination of earliness, firm-heading character, handsome appearance, and fine quality. Both in cold-frames

early in the spring and in the open ground—in spring and late summer—it has proved to be not only the earliest and one of the surest heading varieties of all early lettuce, but also of the very finest quality throughout the season.

The heads of WAYAHEAD are of large size and tightly folded. The outer leaves are light green, with the inner head finely blanched to a rich buttery yellow. Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 55 cts.; lb. \$1.75, postpaid.

Burpee's Wayahead
Photograph taken
on Fordhook
Farms

469 Black-Seeded Tennis Ball ☉ or SALAMANDER The heads are of good size and tightly folded. The outer leaves are light green and the center is creamy white. A great favorite. Pkt. 15 cts.; oz. 20 cts.; ¼ lb. 45 cts.; lb. \$1.25, postpaid.

Black-Seeded Tennis Ball
or Salamander

484 Mignonette ☉ Of small size, with tightly folded heads and of excellent quality. The outer leaves are tinged with brownish red and the heart is blanched to a creamy white. Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 50 cts.; lb. \$1.65, postpaid.

473 Wheeler's Tom Thumb ☉ This is a fine variety

of small size, but forms neat, compact heads which are tightly folded. The outer leaves are rich green but tender. The heart is solid, juicy, and beautifully blanched. WHEELER'S TOM THUMB keeps

a long
time
after
heading

up and is slower in developing seed shoots than any other variety, even in summer. Of finest quality; black-seeded. Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; lb. \$1.50, postpaid.

505 All Seasons ☉ Heads of a light golden tint, well folded, and with inner leaves blanched to a buttery yellow. Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 55 cts.; lb. \$1.85, postpaid.

"GREENS AND SALADS" is the title of a most interesting Burpee Leaflet which tells plainly how to raise this healthful class of vegetables. Ask for a free copy.

Seasons

BUTTERHEAD LETTUCE

The Deacon

These grow to good size and head solidly in rounded form, with the inner leaves blanched to a light golden or buttery yellow. They can all stand a moderate amount of heat as long as they are provided with plenty of moisture.

514 Burpee's Butterhead

An outstanding lettuce on account of its superior quality. BURPEE'S BUTTERHEAD grows to mammoth size, yet the heads are solid right through to the very heart. The outer leaves are an attractive yellowish green, but the heart is blanched to a light hue of golden yellow.

Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 50 cts.; lb. \$1.65, postpaid.

504 The Deacon

The heads are light green on the outside and the inner blanched portion is a beautiful cream-yellow. They are tightly folded and of

delicious flavor. Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; lb. \$1.35, postpaid.

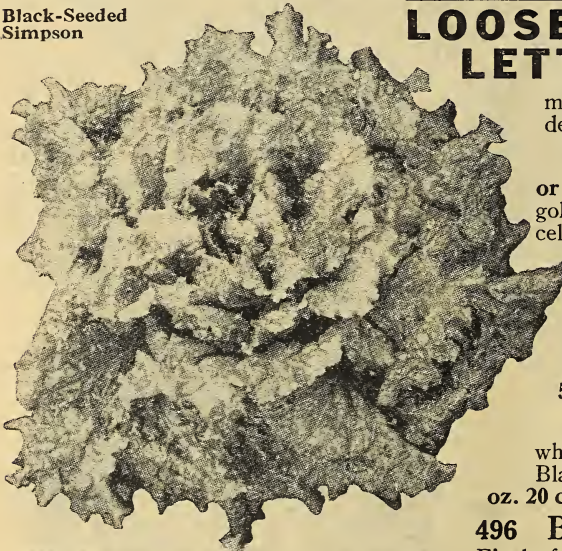

498 Philadelphia Early White Cabbage Large solid heads which blanch to a beautiful white. Pkt. 5 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; lb. \$1.25, postpaid.

508 California Cream Butter Extensively planted in the Southern states for shipping to the Northern markets during winter. The heads are of large size and very solid. Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; lb. \$1.35, postpaid.

511 Burpee's Hardhead Well-folded heads which blanch to a beautiful golden yellow. Outer leaves dark green and shaded with oily brown. One of the very best in flavor. Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 55 cts.; lb. \$1.75, postpaid.

Black-Seeded Simpson

LOOSEHEAD CUTTING LETTUCE

These do not form solidly folded heads, but they make a large rounded cluster of tender and delicious leaves.

490 Early Curled Simpson or **SILESIA** Dwarf and compact; crisp golden leaves with finely curled edges. Excellent. Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 55 cts.; lb. \$1.85, postpaid.

493 Black-Seeded Simpson Well-rounded bushes. The leaves are an attractive golden yellow. Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 55 cts.; lb. \$1.85, postpaid.

494 The Morse This is a white-seeded strain originating in the Black-Seeded Simpson. Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 50 cts.; lb. \$1.65, postpaid.

496 Burpee's Tomhannock Finely fringed; crisp; outer leaves tinged with brown. The quality is excellent. Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 50 cts.; lb. \$1.65, postpaid.

497 Early Prize-Head Large loose heads. The outer leaves are heavily shaded with brown. The center is well blanched. Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 50 cts.; lb. \$1.65, postpaid.

7056 Lettuce Collection

This Lettuce Collection will fit nicely in many a garden to give plenty of salads. It contains one packet each: **Big Boston**, **Burpee's Brittle-Ice**, and **Dwarf White Heart Cos.** (Value 30 cts.) Mailed to any address, postpaid, for **25 cts.**

CRISP-HEAD LETTUCE

These are of quick growth and form good large heads of conical shape; not always as tightly folded as the butterhead varieties, but the inner leaves blanch to a beautiful white and are always crisp, mild and refreshing, even during the summer.

528 Burpee's Brittle-Ice

BRITTLE-ICE grows to a larger size, is of more pleasing appearance, and retains its crispness and mild flavor to a greater degree during the hot summer months than any other crisp-head variety. It is not suitable for shipping to distant markets. The plants are of quick, strong growth. The leaves are soft bright green, growing closely around the head. The heads are tightly folded, 6 to 8 inches in diameter, blanch to a silvery white, and as crisp as celery. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; lb. \$1.50, postpaid.**

Burpee's
Iceberg

530 Burpee's Iceberg

The large white incurving main-ribs of the leaves hold the heads well together, and consequently the heart is thoroughly blanched. Crisp and juicy. Heads well during summer. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 60 cts.; lb. \$2.00, postpaid.**

522 Hanson

Grows to large size and is uniformly sure heading. Heads very solid and beautifully blanch; crisp, mild, and tender. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; lb. \$1.50, postpaid.**

524 New York Improved

Also called "Los Angeles" and "Wonderful"; produces closely folded heads of immense size. The inner portion is beautifully blanch; the outer leaves are a deep

rich green. **Pkt. 15 cts.; oz. 30 cts.; 1/4 lb. 85 cts.; lb. \$2.75.**

Dwarf White
Heart Cos
Lettuce

COS OR ROMAINE LETTUCE

Cos Lettuce, or "Salad Romaine," is much esteemed for its fresh crispness and mild flavor. It is widely grown in the Northern States during late spring and early summer. Sow all during spring and again the early part of July for a fall crop. Cos Lettuce thrives during cool moist weather.

537 Dwarf White Heart

The growth is strictly erect, about 10 inches high, the outer leaves being well folded toward the center. The heart blanches to a snowy white. Crisp and mild in flavor. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; lb. \$1.25, postpaid.**

535 Eclipse or EXPRESS

This is the most dwarf and earliest of all; only 6 to 7 inches high. Very crisp and mild in flavor. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 50 cts.; lb. \$1.65, postpaid.**

539 Paris White Cos—TRIANON, or WHITE PARIS SELF-FOLDING

A very widely grown variety that will form well-folded heads in seven to eight weeks after sowing. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 55 cts.; lb. \$1.85, postpaid.**

Burpee's Celery

Burpee's Golden Self-Blanching Celery

Easy Blanching
A very fine midseason variety that keeps its good qualities for many months after storing

For the earliest crop the seed should be sown in a hotbed during February or March. When the young plants are large enough and the trees are out in leaf, they are transplanted into the open. For the fall or main crop, seed may be sown in the open ground as early in the spring as the soil can be worked into good condition, and the plants should be set in the rows in July. Celery requires a rich, well-manured soil and plenty of moisture. A well-drained loam will give the best results. One ounce is sufficient for 600 feet of drill. One ounce sown in the seed-flat gives 8000 to 10,000 plants; 2 ounces for 1 acre.

262 Burpee's Golden Self-Blanching Celery ©

Finest French-Grown Seed. Although the seed grown in America the first year from the French stock, as offered below, gives general satisfaction in the home garden, yet most of the extensive growers for the market in Pennsylvania, California, Florida, and in other states insist upon having the French-grown seed, even though it costs double the price. The plants make a uniform, dwarf, and compact growth with quite thick, waxy yellow stalks of superior flavor. Crisp and nutty. Pkt. 20 cts.; $\frac{1}{2}$ oz. 60 cts.; oz. \$1.10; $\frac{1}{4}$ lb. \$3.30; 1b. \$11.00, postpaid.

260 Golden Self-Blanching ©

This is American-grown seed produced from French stock. The best of all early "self-blanching" varieties. First introduced in America by us in 1884. It is of dwarf, compact growth, with thick, solid, heavily ribbed stalks which blanch a clear waxy yellow. The stalks are easily to a crisp and solid, free from stringiness, and of most delicious flavor. Choice AMERICAN-GROWN SEED grown direct from the French. Pkt. 15 cts.; $\frac{1}{2}$ oz. 35 cts.; oz. 60 cts.; $\frac{1}{4}$ lb. \$1.80; 1b. \$6.00, postpaid.

266 White Plume This is the earliest and most easily blanched celery in cultivation, but does not keep well. The plants grow rapidly and blanch easily during the summer months. The foliage is an attractive light green color. Pkt. 10 cts.; oz. 35 cts.; $\frac{1}{4}$ lb. \$1.00; 1b. \$3.25, postpaid.

267 Easy Blanching © A new variety of great merit. Of dwarf and compact habit, with light green foliage. It is a second-early variety ready after Golden Self-Blanching. The stalks are thick and solid and of extra fine quality. They are unusually meaty, pure white, heavy, and crisp. EASY BLANCHING is extensively stored for winter use. Pkt. 10 cts.; oz. 30 cts.; $\frac{1}{4}$ lb. 90 cts.; 1b. \$3.00, postpaid.

282 Giant Pascal © A well-known winter variety with large bunches of broad, heavily ribbed stalks. A splendid keeper for winter use. The plants grow large and form thick, very broad leaf-stalks. Color a rich dark green until earthed up, when the stalks blanch to a golden yellow. Pkt. 10 cts.; oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.; 1b. \$2.50, postpaid.

272 Burpee's **FORDHOOK** Celery

The Largest, Most Solid, and Finest Nut-Flavored Celery in Existence

Ever since giving this variety a trial we were fully convinced that only the name "FORDHOOK" could carry to our many friends the recommendation which this fine new celery should receive. Never since our introduction of the famous Golden Self-Blanching Celery some 39 years ago had we discovered a new celery of such **superlative excellence** until we came across this variety which we later named **BURPEE'S FORDHOOK CELERY**.

It was in the fall of 1913, when digging our trials of celery, that we were astounded at the new merits of what appeared to be an **entirely distinct new intermediate or winter variety**. At the time our superintendent of trials at **FORDHOOK FARMS** made the following memorandum which is repeated verbatim below:

"1192-1913. May 30th, Nov. 13. Good stand. This is a most distinct variety of outstanding merit. It is a true dwarf type and, therefore, much easier to blanch than the taller growing sorts. The plants average 15 to 18 inches in height, while the blanched part is 6 to 9 inches long. The stalks are smooth and very thick, some measuring $\frac{1}{8}$ inch through when cut. The color is white, the heart being tinged with yellow, while the **flavor is unsurpassed, being decidedly nutty and crisp**. Although low growing, each stalk averages fully 2 pounds in weight."

Burpee's Fordhook Celery has proven since its introduction in 1915 to be **worth all we claim for it**. It has been readily taken up by celery growers who produce celery in large quantities for market and it has found great favor with the home gardener who appreciates choice celery for his fall and winter larder. No other winter variety can compare with it in any respect.

The most careful single plant selection and the most rigid roguing has greatly improved this strain over what it was when we first introduced it. The few tall rogues which could be found some eight years ago have now been completely eliminated and our selection has been diverted toward plants which will produce extra thick stalks of that particularly nutty flavor which characterizes **BURPEE'S FORDHOOK CELERY**.

Burpee's Fordhook Celery has proven to be a **foremost variety for fall and winter storing**. It will keep in perfect condition way into the spring. The foliage is a rich dark green and is resistant to diseases and insect attacks. The fine heavy stalks usually bring higher prices on the market than any other variety.

Pkt. 15 cts.; $\frac{1}{2}$ oz. 40 cts.; oz. 75 cts.; $\frac{1}{4}$ lb. \$2.25; lb. \$7.50, postpaid.

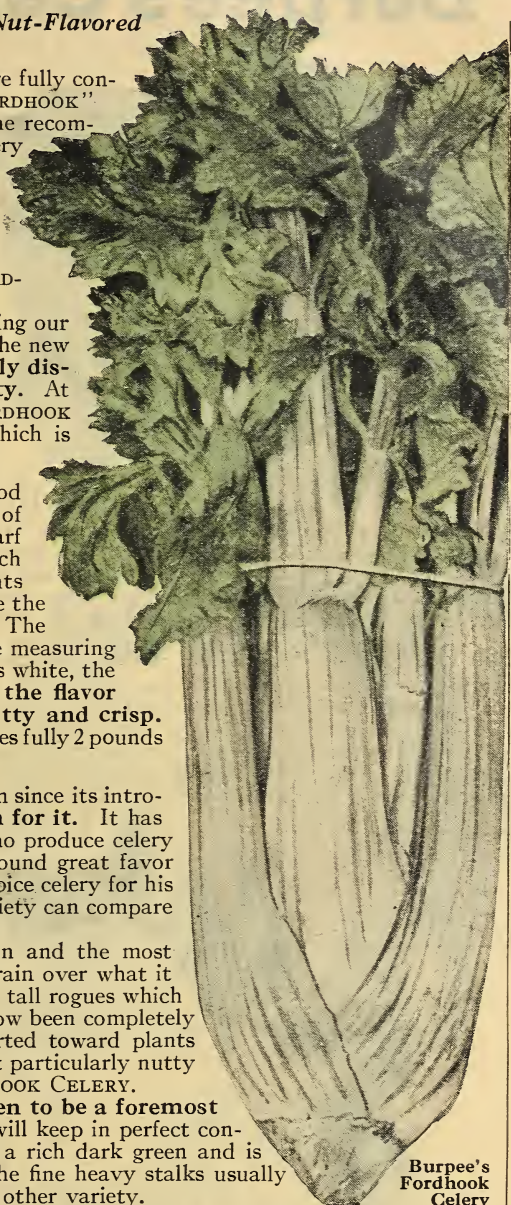

274 Winter King A comparatively new variety which has proved to be one of the finest for winter use. The plants are stocky and produce thick and solid stalks. They are easily blanched and have a crisp and nutty flavor.

Pkt. 10 cts.; oz. 35 cts.; $\frac{1}{4}$ lb. \$1.00; lb. \$3.50, postpaid.

275 Winter Queen This is one of the finest dwarf winter celeries we have ever grown, being quite similar to the Golden Self-Blanching, but of a rich green coloring, like the Giant Pascal. It is more readily blanched than the latter and ready for use or market much earlier in the fall. The plants make large bunches of extra-heavy stalks with very large hearts; the stalks are all of even length and present a most handsome appearance when bunched.

Pkt. 10 cts.; oz. 30 cts.; $\frac{1}{4}$ lb. 85 cts.; lb. \$2.75, postpaid.

Celery**

Burpee's Cauliflower

Burpee's
Dry Weather

Cauliflower is grown in the same manner as cabbage, usually as a late fall crop, but when started early in the spring excellent heads of the dwarf early varieties can be grown. To make the best and largest heads, the plants need cool, moist weather, well-enriched soil, and thorough cultivation. Cauliflower is highly esteemed for its mild delicate flavor and the extreme tenderness of the solid white heads. For an early crop start the seed indoors and set in the open about the end of April. For a main or fall crop, seed should be sown from June 1st to July 1st and the young plants set out during the latter part of July. In this locality (Philadelphia) the dwarf early varieties, such as Snowball, give best results also for the fall crop. Farther south the large late varieties are quite satisfactory for late or winter heading.

245 BURPEE'S DRY WEATHER ☉

As compared with Burpee's Best Early, this produces equally solid, pure white heads, and is only about a week later. The heads are considerably larger in size, with more foliage, and hence not so suitable for forcing. It is especially adapted for growing in dry locations where nearly all other varieties fail to make good heads. *Seed very costly.*

Pkt. 15 cts.; 1/4 oz. 60 cts.; 1/2 oz. \$1.15; oz. \$2.20; 1/4 lb. \$6.60; 1b. \$22.00, postpaid.

244 BURPEE'S BEST EARLY ☉

The earliest and best quick-growing cauliflower. This grand strain was first introduced by us 36 years ago (1887), and has fully maintained all the merits then claimed for it. Plants are of strong growth, with erect, pointed, dark green leaves growing closely about the head. It is remarkable for both the extreme **earliness** and the **certainty** with which the plants produce fine heads. In good soil the heads measure 8 to 10 inches across; they are a pure snowy white, with very close, compact curd of extra fine quality. **"The BEST EARLY Cauliflower."**

BURPEE'S BEST EARLY is an excellent home garden variety that will do as well from early spring sowing as from June sowing. *Seed very costly.*

Pkt. 15 cts.; 1/4 oz. 60 cts.;
1/2 oz. \$1.15; oz. \$2.20;
1/4 lb. \$6.60;
1b. \$22.00,
postpaid.

FARMS

246 Burpee's FORDHOOK Cauliflower

A Marvelous New Early Cauliflower ☉

This great novelty is undoubtedly the finest and best of all early cauliflowers. The plants are dwarf and compact, measuring about 16 inches in diameter. The stem is short so that the head is produced quite close to the ground. The heads are very solid and firm. They measure 6 to 9 inches in diameter and are of the very finest quality.

BURPEE'S FORDHOOK CAULIFLOWER has never failed to form good heads in our trials, even in a most unfavorable season, and when all other early varieties were almost a complete failure. All who value a quick-growing and sure-heading cauliflower will find these requisites in our new FORDHOOK.

On account of its compact habit and small leaves the plants may be set as closely as 12 to 15 inches apart in the row. We have cut fine heads in 85 days. Pkt. 25 cts.; $\frac{1}{4}$ oz. 90 cts.; $\frac{1}{2}$ oz. \$1.80; oz. \$3.50; $\frac{1}{4}$ lb. \$10.00; 1b. \$35.00, postpaid.

247 Early Snowball

Many market gardeners claim for EARLY SNOWBALL first place for both early and late planting. It is a popular extra-early variety, of dwarf compact growth. Under favorable conditions nearly every plant will make a fine solid head of good size. Protected against direct sunlight, the heads are pure white, with very close, compact curd of excellent quality. Pkt. 20 cts.; $\frac{1}{4}$ oz. 55 cts.; $\frac{1}{2}$ oz. \$1.05; oz. \$2.00; $\frac{1}{4}$ lb. \$6.00; 1b. \$20.00, postpaid.

249 Extra - Early Dwarf

Erfurt (Extra Selected) This is a very choice strain of the popular Erfurt type, and is remarkable for its reliability in heading. Very dwarf, but sure to form fine compact heads under favorable conditions. Pkt. 20 cts.; $\frac{1}{4}$ oz. 55 cts.; $\frac{1}{2}$ oz. \$1.05; oz. \$2.00; $\frac{1}{4}$ lb. \$6.00; 1b. \$20.00, postpaid.

258 Veitch's Autumn

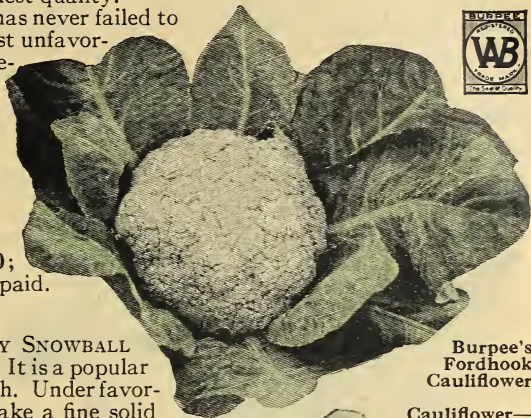

Giant A large late cauliflower producing quite compact white heads. These late varieties are not nearly so reliable as the earlier Erfurt type. On the Pacific coast this variety is known under the name of California Wonder. Pkt. 10 cts.; $\frac{1}{2}$ oz. 30 cts.; oz. 50 cts.; $\frac{1}{4}$ lb. \$1.50; 1b. \$5.00, postpaid.

BROCCOLI

Winter Cauliflower

Broccoli is much hardier than cauliflower and, for our southern and western states, where the winters are not severe and soil conditions favorable, broccoli will be found a very profitable crop.

155 St. Valentine Grown extensively in the Northwest (Oregon and Washington) for shipping to the eastern markets when the supply of cauliflower is exhausted. Pkt. 15 cts.; $\frac{1}{2}$ oz. 90 cts.; oz. \$1.65; $\frac{1}{4}$ lb. \$5.00, postpaid.

Broccoli
St. Valentine

Burpee's Cabbage

Cabbage succeeds best in cool moist climates, and in rather heavy friable loams with gravelly subsoil. Early cabbage is sown in the hotbed or in the house about the middle of February. Late cabbage for winter use is sown during June. The early varieties include pointed, round, and flat heads. The winter varieties are either round or flat. The pointed varieties mature very quickly but are not good keepers. Cabbage develops to perfection in a cool and moist climate, particularly if the land has been well enriched with stable manure. One ounce will produce about 2000 plants. Sow 1 ounce to 300 feet of drill. Two ounces sown in the hotbed will give sufficient plants to set out an acre; six ounces in the open seed-bed.

168 Burpee's Extra-Early Jersey Wakefield ☉

Burpee's
Extra-Early
Jersey
Wakefield

See illustration of head—from photograph taken at Fordhook. The plants are dwarf and compact and produce heads at a very early period. The heads are smaller and generally more slender than those of our regular strain; erect and conical in form, **remarkably uniform in shape** and size of the heads as well as in maturity. We believe our "SPECIAL STOCK" OF BURPEE'S EXTRA-EARLY JERSEY WAKEFIELD to be the earliest maturing, most uniform, and most finely bred strain of the variety in existence. *Long Island grown seed.* Pkt. 15 cts.; 1/2 oz. 30 cts.; oz. 50 cts.; 1/4 lb. \$1.50; 1b. \$5.00, postpaid.

167 Early Jersey Wakefield ☉

The heads are uniformly hard and solid. They are conical in form, generally pointed at the end, with but few outside leaves. The outer leaves are unusually thick and heavy, serving as a protection against cold weather. The heart is solid and well blanched. *Long Island grown seed.* Pkt. 10 cts.; 1/2 oz. 20 cts.; oz. 30 cts.; 1/4 lb. 90 cts.; 1b. \$3.00, postpaid.

165 Extra-Early Express Produces pointed, hard heads of good size, even earlier than those of the Jersey Wakefield. Also sold as Lightning and under a number of other fancy names. Pkt. 10 cts.; oz. 25 cts.; 1/4 lb. 75 cts.; 1b. \$2.50, postpaid.

169 Charleston or LARGE WAKEFIELD Produces larger heads than Early Jersey Wakefield, but is a week or two later in maturity. The heads are firm and solid. A heavy yielder; of fine quality. Pkt. 10 cts.; 1/2 oz. 20 cts.; oz. 30 cts.; 1/4 lb. 90 cts.; 1b. \$3.00, postpaid.

171 Early Winnigstadt ☉ The heads are of the same size as the Jersey Wakefield, but more sharply pointed and not so early. The leaves are rich dark green, slightly glossy, and most tightly folded, the heads being the hardest of any early cabbage. Popular for winter use. This variety is used extensively in all cabbage growing sections for cutting for *Kraut*. Pkt. 10 cts.; 1/2 oz. 15 cts.; oz. 25 cts.; 1/4 lb. 75 cts.; 1b. \$2.50, postpaid.

176 Enkhuizen Glory ☉

See illustration. This second-early cabbage produces fine marketable heads as early as our famous Allhead Early, but is round in shape. The heads are very solid, with but few outer leaves, and of such compact growth as to permit quite close planting, thus increasing the yield on a given area. The heads are of medium size (weighing from 6 to 8 pounds trimmed), **tender, and of fine flavor.** They keep well when put away, and consequently ENKHUIZEN GLORY is valuable also for sowing later in the season for early winter use. Plants set out in midsummer will produce fine heads before cold weather sets in. Pkt. 10 cts.; oz. 35 cts.; 1/4 lb. \$1.00; 1b. \$3.50, postpaid.

photograph

Enkhuizen
Glory

7061 Cabbage Collection

In this collection we have included an early, a midseason, and a winter variety. One packet each: Fordhook Mainstay Early, Enkhuizen Glory, and Burpee's True Danish Ballhead. Mailed postpaid for

25c.

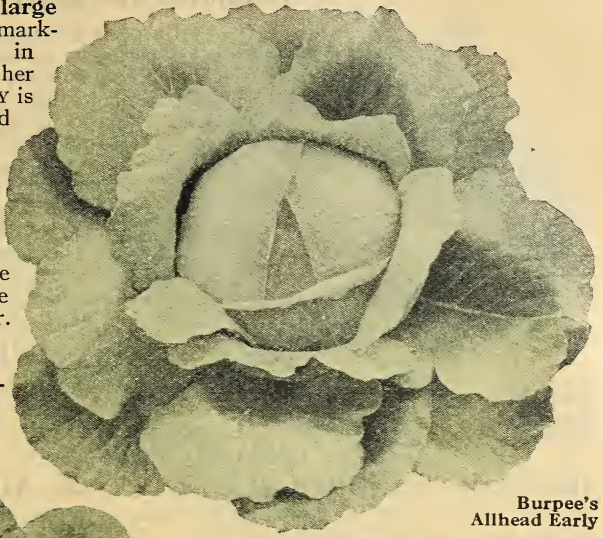

177 Burpee's Allhead Early Cabbage

See illustration. The earliest of all large cabbage. The deep flat heads are remarkably solid and are more uniform in color, form, and size than any other variety.

BURPEE'S ALLHEAD EARLY is really an all-the-year-round cabbage, being equally good for winter. Although it is usually grown for summer and fall use, if sown about July 10th (in the vicinity of Philadelphia) it will head up solidly before freezing weather sets in. There is no American variety of cabbage better for summer, fall, or winter. Long Island grown seed.

Pkt. 10 cts.; 1/2 oz. 20 cts.; oz. 30 cts.; 1/4 lb. 90 cts.; 1b. \$3.00, postpaid.

Burpee's Early Stonehead

Burpee's Allhead Early

179 Burpee's Early Stonehead

See illustration. This distinct type (also called Volga) is especially adapted for cool locations. It generally matures shortly after our famous Allhead Early. The plants are of low growth, with spreading, saucer-like outer leaves, making a total diameter of 2 feet. The heads are deep through and smoothly rounded on the top, as distinct from the flat type. The heads are exceptionally hard and solid, of great weight, and stand a long time before bursting. BURPEE'S EARLY STONEHEAD is an excellent cabbage for early market on account of its fineshape.

Pkt. 10 cts.; 1/2 oz. 25 cts.; oz. 40 cts.; 1/4 lb. \$1.20; 1b. \$4.00, postpaid.

180 Fordhook Mainstay Early

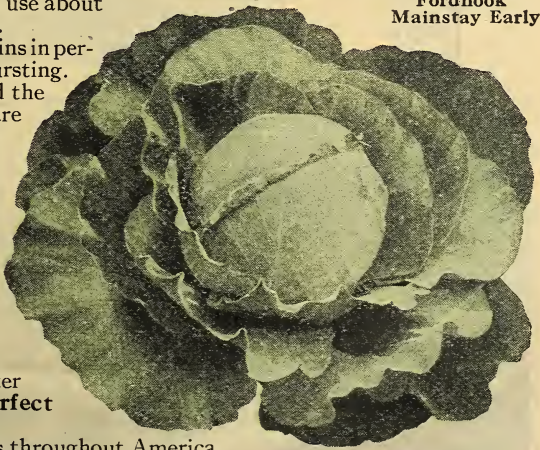

See illustration. This fine new cabbage has quickly become extremely popular. The beautiful little round heads are "solid as a rock," and weigh from 3 to 6 pounds—just the right size for family use. It comes to maturity rapidly, being ready for use about the same time as Early Jersey Wakefield.

Although early in maturing, it remains in perfect condition for many weeks without bursting. The heads when cut are snowy white, and the quality is particularly fine. The leaves are rich glaucous-green and quite small, closely enfolding the head, and on account of this habit of growth practically twice as many heads of this variety can be grown on a given area.

FORDHOOK MAINSTAY EARLY may be planted in rows 2 feet apart, and 15 inches apart in the row, as this will allow ample space for this little gem to develop. In addition to its other unsurpassed qualities, we know of no variety which, after attaining full development, remains in perfect condition so long without splitting.

A favorite with thousands of planters throughout America. Pkt. 10 cts.; 1/2 oz. 20 cts.; oz. 30 cts.; 1/4 lb. 90 cts.; 1b. \$3.00, postpaid.

Fordhook Mainstay Early

166 Burpee's FORDHOOK FORCING Cabbage

A Wonderful New Early Cabbage

Burpee's
Fordhook
Forcing
Cabbage

Burpee's FORDHOOK FORCING Cabbage forms small, perfectly round heads of unusual solidity. On account of the few small outer leaves the plants may be set as close as 8 inches apart. It is a **first-early variety**, most admirably adapted for forcing in the hotbed or for the home garden where space is an important factor. Burpee's FORDHOOK FORCING Cabbage originated with our friend, Mr. Hartmann, of Copenhagen, Denmark. The small heads are extremely firm and mature in 6 to 7 weeks after planting. Of excellent quality. **Pkt. 25 cts.; 1/2 oz. 80 cts.; oz. \$1.50; 1/4 lb. \$4.50; lb. \$15.00, postpaid.**

183 Early Dwarf Flat Dutch

A well-known strain, popular for the summer; in our opinion it is not quite equal to Burpee's Allhead Early. Good for early market or sauer-kraut.

Pkt. 10 cts.; oz. 30 cts.; 1/4 lb. 90 cts.; lb. \$3.00, postpaid.

185 Early Summer

Large, solid, flattened heads of excellent quality; the outer foliage has a peculiar bluish-gray tinge. In earliness it comes right after EARLY JERSEY WAKEFIELD. **Pkt. 10 cts.; oz. 30 cts.; 1/4 lb. 90 cts.; lb. \$3.00, postpaid.**

187 Succession

This popular second-early sort is about 10 days later than Early Summer. It is larger in growth, and the heads are more uniform; an excellent keeper. **Pkt. 10 cts.; 1/2 oz. 20 cts.; oz. 35 cts.; 1/4 lb. \$1.00; lb. \$3.50, postpaid.**

189 All Seasons

The heads are extremely hard and solid; round, flattened on top, and ready to market nearly as early as Early Summer, but considerably larger. It is called ALL SEASONS because it is as good for winter as for early summer. **Pkt. 10 cts.; oz. 35 cts.; 1/4 lb. \$1.00; lb. \$3.50, postpaid.**

188 Stein's Flat Dutch or ACME

This is a distinct strain, of quick growth and early maturity; 13 inches across, weighing from 10 to 12 pounds. **Pkt. 10 cts.; oz. 35 cts.; 1/4 lb. \$1.00; lb. \$3.50, postpaid.**

178 Burpee's Copenhagen Market

Introduced to America by us 11 years ago, COPENHAGEN MARKET has become immensely popular with both market and home gardeners throughout America. The heads are round in form, averaging about 8 pounds in weight, very solid, with small core and of good quality. The plants are short-stemmed, the heads being produced almost on the surface of the ground. The leaves are light green, rather small, saucer-shaped, and always tightly folded. It is ready for market fully as early as

Copenhagen Market Cabbage
We offer the true stock
specially grown for us
in Denmark

Photographed on
FORDHOOK FARMS

Early Jersey Wakefield, and the heads, being larger, give a heavier yield per acre than that popular variety. **Pkt. 10 cts.; 1/2 oz. 25 cts.; oz. 45 cts.; 1/4 lb. \$1.35; lb. \$4.50, postpaid.**

LATE OR WINTER CABBAGE

195 Burpee's Surehead ⊙

See illustration. BURPEE'S SUREHEAD is a most popular strain of the favorite Flat

Dutch type of cabbage. The heads are very large, round, flattened at the top, remarkably uniform; extra hard, fine in texture, and weigh 10 to 15 pounds each. An excellent shipping as well as a first-class keeping variety. Pkt. 10 cts.; $\frac{1}{2}$ oz. 20 cts.; oz. 30 cts.; $\frac{1}{4}$ lb. 90 cts.; lb. \$3.00, postpaid.

Burpee's Surehead

The heavy heads are very solid and hard; excellent both for shipping and winter use.

199 Burpee's Short-Stem Drumhead

This is uniform in heading and dwarf in growth. It grows with little outer foliage, the leaves all folding in closely about the large and solid head. An excellent variety for late fall and winter. Pkt. 10 cts.; $\frac{1}{2}$ oz. 20 cts.; oz. 35 cts.; $\frac{1}{4}$ lb. \$1.00; lb. \$3.50, postpaid.

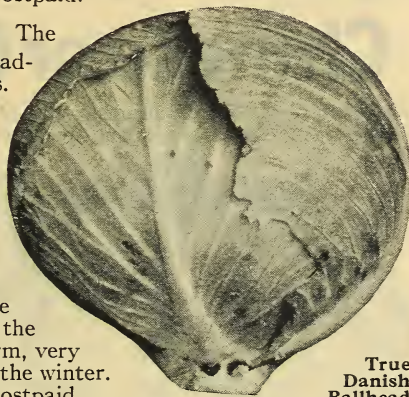

194 Premium Flat Dutch

An improved strain of the old Large Flat Dutch type, making large and much flattened heads of remarkable solidity. The outer leaves are small and round. Excellent for shipping or winter storing. Pkt. 10 cts.; oz. 35 cts.; $\frac{1}{4}$ lb. \$1.00; lb. \$3.50, postpaid.

201 Burpee's Late Stonehead

The plants are of strong sturdy growth with a spreading circle of large rounded blue-green leaves. The big globular heads are "solid as a stone," and of excellent quality. Pkt. 10 cts.; $\frac{1}{2}$ oz. 30 cts.; oz. 50 cts.; $\frac{1}{4}$ lb. \$1.50; lb. \$5.00, postpaid.

True Danish Ballhead

203 True Danish Ballhead ⊙

See illustration. This famous cabbage was first introduced by us from Denmark 36 years ago and our Danish-grown seed is absolutely unsurpassed! **The most popular cabbage for winter.** It is highly esteemed for winter use because of the great solidity and excellent keeping qualities of the heads. The magnificent heads are round in form, very hard, and solid; they keep in finest condition through the winter. Pkt. 10 cts.; oz. 30 cts.; $\frac{1}{4}$ lb. 90 cts.; lb. \$3.00, postpaid.

205 Burpee's Danish Roundhead ⊙

See illustration. An early, short-stemmed type of the well-known and much prized Danish Ballhead Cabbage. DANISH ROUNDHEAD has less outer foliage and is even still more blight-resistant. The heads are unusually solid, and beautifully white when trimmed. They are heavy and firm, and splendid keepers. Pkt. 10 cts.; oz. 30 cts.; $\frac{1}{4}$ lb. 90 cts.; lb. \$3.00, postpaid.

Burpee's Danish Roundhead

209 Perfection Drumhead Savoy Cabbage ⊙

Perfection
Drumhead
Savoy Cabbage

PERFECTION DRUMHEAD SAVOY is the hardest heading and best all-around Savoy. The plant is of strong growth, with a number of outer leaves growing closely about the head. The head grows to a **large size** and is as round as a ball. It is extremely solid and consequently the heart is tender and sweet. PERFECTION DRUMHEAD SAVOY CABBAGE is of **exceptionally fine flavor**. It is considerably more tender and sweeter than other cabbage. It is as easily grown as ordinary cabbage and grows to perfection on a rich sandy loam. SAVOY CABBAGE is greatly neglected by us and it seems that most housewives have never even heard of it. A trial of it will convince everyone that it is one of the finest vegetables we have. **Pkt. 10 cts.; oz. 30 cts.; ¼ lb. 90 cts.; lb. \$3.00, postpaid.**

216 Burpee's Danish Round Red ⊙ This is a favorite variety with all who like **Red Cabbage**. The heads grow to large size and they are practically ball-shaped. They are as solid as a rock and of an intense deep red color. Tender and of fine flavor. **Pkt. 10 cts.; ½ oz. 20 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50, postpaid.**

215 Large Red Drumhead or RED DUTCH The heads are of large size, slightly rounded, 7 to 8 inches in diameter. They are solid and keep for a long time. Deep red. **Pkt. 10 cts.; ½ oz. 20 cts.; oz. 30 cts.; ¼ lb. 90 cts.; lb. \$3.00, postpaid.**

Chinese or Celery Cabbage

The most essential requirement for successfully raising Chinese cabbage is cool weather. Where the summers are warm, sowing must be delayed until early August. In the vicinity of Philadelphia, the first week of August is the best time. The plants develop quickly, forming

Chinese
Cabbage
Pe-Tsai
A delicious
new vegetable,
more
tender than
ordinary
cabbage

large, **tightly folded** heads of tender leaves which are well blanched in the heart. **Chinese cabbage can be served as salad like lettuce** or, when cut, makes a delicious cold-slaw. Boiled, it is even more palatable than ordinary cabbage. Ask for our free Service Bulletin on "CHINESE CABBAGE" One ounce for 500 feet of drill.

212 Pe-Tsai A well-known variety with large leaves of a light green color and thick, pure white, tender stalks and heart. It differs from Wong Bok in making larger and narrower heads and in maturing somewhat later. **Pkt. 10 cts.; oz. 30 cts.; ¼ lb. 90 cts.; lb. \$3.00, postpaid.**

211 Wong Bok WONG BOK has impressed us most favorably. The rather short and broad heads are composed of well-blanched, tightly folded leaves. The ribs are juicy and agreeably pungent. With us the plants make their best growth from early August sowings. **Pkt. 10 cts.; oz. 30 cts.; ¼ lb. 90 cts.; lb. \$3.00, postpaid.**

7050 Salad Collection

We will mail one packet each of: Lettuce, Big Boston; Chinese Cabbage, Wong Bok; Endive, White Curled; and Cress, Fine Curled, to your door, postpaid, for **25 cts.**

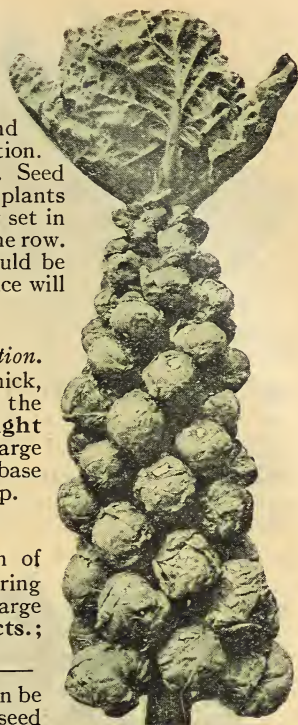

BRUSSELS SPROUTS

Brussels sprouts are highly esteemed for boiling during the late fall and winter months. The sprouts resemble miniature cabbages, growing closely on the stalk of the plant, being produced in abundance from tip to ground level. The plants are hardy, and in our section will live out through the winter without protection. The quality and flavor of the sprouts are much improved by frost. Seed should be sown thinly in drills early in June. When the young plants are 6 inches high, they should be transplanted to rich soil, being set in rows 3 to 4 feet apart, and the plants 18 inches to 2 feet apart in the row. When the young sprouts are well formed, the lower leaves should be stripped from the plant in order to admit light and air. One ounce will sow 500 feet of drill.

162 Burpee's Danish Prize See illustration.

The plants are of strong robust growth. The stalks are large, thick, and close-jointed, so that the sprouts are set thickly on the stalk. **The sprouts develop for nearly the entire height of the stalk at about the same time, consequently a very large crop can be gathered.** Even the sprouts formed at the base of the stalk are tightly folded, and are as solid as those higher up. **Pkt. 10 cts.; oz. 30 cts.; 1/4 lb. 90 cts.; lb. \$3.00, postpaid.**

158 Long Island Improved This is a fine strain of sprouts grown extensively for the New York market, where they bring a good price, especially during the winter. The plants produce a large crop. We offer the choicest Long Island grown seed. **Pkt. 10 cts.; 1/2 oz. 20 cts.; oz. 35 cts.; 1/4 lb. \$1.00; lb. \$3.50, postpaid.**

Brussels Sprouts—
Burpee's Danish Prize

ENDIVE

Endive is used largely as a salad plant and can be grown practically all the year around. The seed should be sown in the open ground beginning with the end of March until early June. For a continuous supply, sow at intervals of from 3 to 4 weeks. Encourage strong growth by constant

**Green Curled or
Giant Fringed
Oyster Endive**

cultivation and keep well supplied with moisture. Before the plants are gathered they are blanched for the purpose of making the leaves tender and crisp. Well-blanched leaves are practically free from the bitter taste of those not blanched.

When the plants have reached good size, the leaves are all tied up together to protect the heart against sunlight. In 20 to 25 days the heart will be blanched to a beautiful creamy white with a piquant and crisp flavor considered far superior to that of any other salad. One ounce for 500 feet of drill.

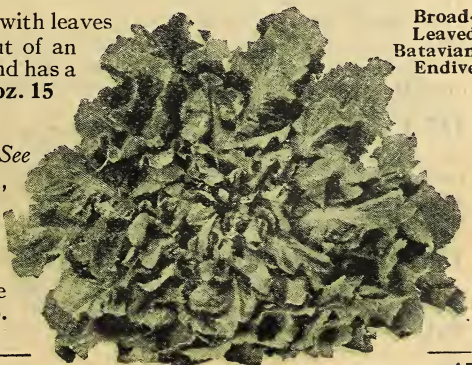

430 Green Curled or GIANT FRINGED OYSTER See illustration.

The leaves are finely cut or lacinated, giving the plant a feathery effect. Rich green in color, but blanching to creamy white. Chiefly grown for summer and fall use. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; lb. \$1.35, postpaid.**

432 White Curled A beautiful variety, with leaves as finely curled or mossed as the preceding, but of an attractive light green color. Blanches easily, and has a most delicious and crisp flavor. **Pkt. 10 cts.; oz. 15 cts.; 1/4 lb. 35 cts.; lb. \$1.00, postpaid.**

436 Broad-Leaved Batavian See illustration.

The leaves are large and broad, having the edges slightly cut. The plants develop into well-rounded heads often measuring 16 inches across. It can be blanched, but is more generally used to cook like spinach or as flavoring for soups, stews, etc. Called Escarolle in the South. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 50 cts.; lb. \$1.65, postpaid.**

Batavian
Endive

SPINACH

Spinach furnishes its rich green and fleshy leaves all during the spring and fall. Sow the seed

very early in the spring and make succession sowings every 10 days until the end of April. A fine fall crop can be raised from seed sown August 1st to 15th. In the South it is sown in September and October for wintering over. One ounce for 100 feet of drill; 10 to 12 pounds per acre in drills.

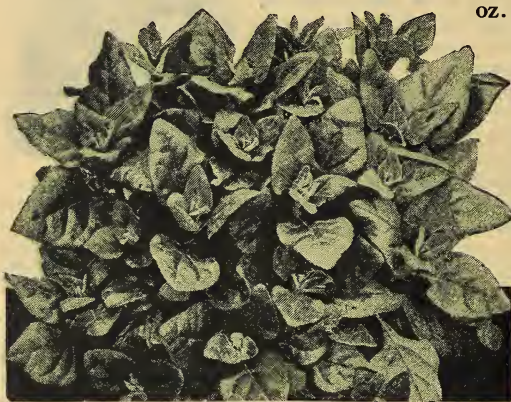

Burpee's
Victoria Spinach

991 Burpee's Victoria Ⓞ This is the best known of all spinaches. The foliage is heavy, the broad, dark green leaves being slightly crumpled, rather pointed, and of the finest quality. It remains in prime for a long time. **Pkt. 5 cts.; oz. 12 cts.; 1/4 lb. 25 cts.; lb. 65 cts.,** postpaid.

990 Long Season Ⓞ Small but very compact, with short-stemmed dark green leaves. The leaves are pointed, of thick texture, and much crumpled. It stands a long time before bolting to seed. **Pkt. 5 cts.; oz. 12 cts.; 1/4 lb. 25 cts.; lb. 65 cts.,** postpaid.

997 King of Denmark This new variety of spinach impressed us very favorably when we tested it on Burpee's FORDHOOK FARMS. The plants form compact bushes with round, thick leaves which are a rich dark green and much crumpled. It stands unusually long before bolting to seed. Excellent quality. **Pkt. 10 cts.; oz. 15 cts.; 1/4 lb. 35 cts.; lb. 85 cts.,** postpaid.

New Zealand—The hot-weather spinach

993 Thick-Leaved Round Produces large thick dark green leaves, somewhat crumpled. A heavy yielder of foremost quality. **Pkt. 5 cts.; oz. 12 cts.; 1/4 lb. 25 cts.; lb. 65 cts.,** postpaid.

999 Savoy-Leaved The numerous leaves are curled and wrinkled. A very productive variety. **Pkt. 5 cts.; oz. 12 cts.; 1/4 lb. 25 cts.; lb. 60 cts.,** postpaid.

1001 Prickly or WINTER This variety is very desirable for fall sowing and will live through the winter if protected with a light mulch of straw or hay. **Pkt. 5 cts.; oz. 12 cts.; 1/4 lb. 30 cts.; lb. 75 cts.,** postpaid.

1005 New Zealand Spinach Ⓞ (*Tetragonia expansa*)

Started early in the spring, the plants will resist heat and make a strong growth during the summer. Unlike other spinach, it is tender and dies down with the first frost.

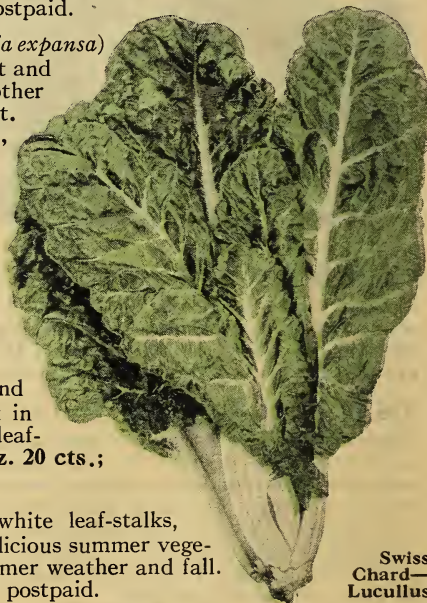

Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; lb. \$1.00, postpaid.

SWISS CHARD

The outside leaves are used as "boiling greens." They closely resemble spinach in flavor. The large white stalks are used like asparagus. Swiss chard grows well even during hot weather. One ounce for 100 feet of drill; 4 pounds per acre in drills.

137 Lucullus Stalks large; 1 1/2 inches broad, and heavily ribbed. The extra large leaves are thick in texture, heavily crumpled, and of fine flavor. The leaf-stalks may be used separately. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; lb. \$1.25,** postpaid.

136 Large-Ribbed White The broad white leaf-stalks, cooked in the same manner as asparagus, make a delicious summer vegetable. Yields continuously throughout the hot summer weather and fall. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; lb. \$1.50,** postpaid.

Swiss
Chard—
Lucullus

MUSTARD

Mustard, freshly picked, serves the same purpose as

spinach, and should be planted plentifully. It is of the easiest culture, and thrives on rich, moist soils. The cool growing season is best suited for its development. Sow the seed as early in the spring as the weather permits, and make succession sowings every ten days up to the time the weather becomes hot. For late fall use plant three or four times during August. **Cook the freshly picked leaves like spinach**, adding a small quantity of soda to the cooking water. Drain off and bring to a second boil in clear water. Add salt and butter before serving. Mustard is extensively used in the South for boiling greens during the fall and winter months. Sow the seed thinly in rows about a foot apart. One ounce for 600 feet of drill; 25 pounds per acre broadcast.

Burpee's Fordhook Fancy Mustard
Most popular in the South for boiling greens

647 Burpee's Fordhook Fancy  See illustration. The plants are of vigorous growth, and have beautiful dark green leaves which curve outward like fine ostrich plumes. It stands well, even during the hot summer months, and makes delicious "greens." Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; lb. \$1.25, postpaid.

648 Burpee's Elephant Ear  Each plant produces numerous extra large leaves of heavy substance and of most appetizing pungency. It also succeeds well from spring sowings, but does not produce leaves so large during the warm summer as it does in the cooler fall or winter months. When they are grown in rich soil, the leaves attain a length of 18 inches to 2 feet; they are of a light green color, with large white ribs or leaf-stalks. Of excellent flavor. Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; lb. \$1.25, postpaid.

7051 Four Boiling Greens

These will give plenty of "greens" for many good and healthful meals. One packet each: SPINACH, Burpee's Victoria; SWISS CHARD, Lucullus; MUSTARD, Burpee's Elephant Ear; KALE, Dwarf Green Curled. Will be mailed, postpaid, for **25 cts.**

655 Southern Giant Curled

The true curled-leaf variety so popular in the South for planting in the fall. Our stock of this favorite variety is very fine and yields heavily. Pkt. 5 cts.; oz. 12 cts.; 1/4 lb. 30 cts.; lb. 95 cts., postpaid.

KALE

This is a popular boiling green for fall, winter, and early spring use, tasting somewhat like spinach. The plant is entirely hardy in well-drained soil, and can be grown easily from seed sown during the summer months. The plants are usually cut off for use when the leaves are 6 inches or more in length, but with the finely curled varieties the leaves can be gathered for use as soon as they are of good size. The sweetness and flavor of these greens are improved by freezing weather. Seed may be sown from early spring until the middle of August. Those sown up to the middle of July will give fully grown plants, and later plantings will furnish soft, tender leaves. One ounce sows 500 feet of drill.

446 Dwarf Green Curled  See illustration. This is the variety extensively grown for fall and spring use. It is low growing, compact, with finely curled leaves of a deep green. Pkt. 5 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; lb. \$1.25, postpaid.

448 Dwarf Siberian This variety is particularly hardy and will live outdoors all winter long during as cold winters as we have them around Philadelphia. The leaves are large and very broad. They cook very tender and after having been frosted are most delicious. Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; lb. \$1.35, postpaid.

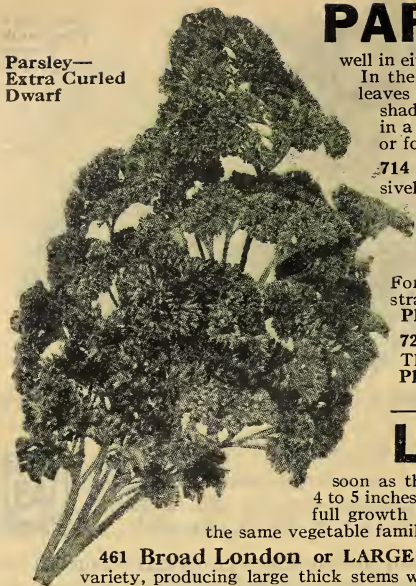

452 Tall Green Curled

Scotch The stalks grow 3 feet high, with narrow leaves finely curled and beautifully fringed. A very hardy variety, yielding tremendously. Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; lb. \$1.35, postpaid.

Dwarf Green Curled Kale

Parsley—
Extra Curled
Dwarf

PARSLEY

The most widely grown and best known of all herbs. It is easily grown in the garden or in pots during winter-time. Parsley thrives well in either sun or shade and does not require any particular kind of soil. In the garden the seed is sown early in spring in shallow drills. The leaves are easily kept for winter use after drying them in a warm but shady place. Or the plants can be potted up late in the fall and, set in a kitchen window, will provide fresh leaves all winter long. Three or four pots full will be plenty. One ounce for 250 feet of row.

714 Plain or Single Plain leaves of excellent flavor; very extensively grown for soup bunches. Yields an enormous quantity throughout the season, but does not look as attractive as the double.
Pkt. 5 cts.; oz. 15 cts.; $\frac{1}{4}$ lb. 40 cts.; lb. \$1.15, postpaid.

717 Extra Curled Dwarf  or **EMERALD** The moss-like leaves, of handsome bright green color, are finely curled. For garnishing, EMERALD has no superior. We have a most excellent strain of this variety, with large, finely curled leaves.
Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.35, postpaid.

721 Fern-Leaved This is most exquisite in form and color. The leaves are finely divided, resembling a small fern.
Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.45, postpaid.

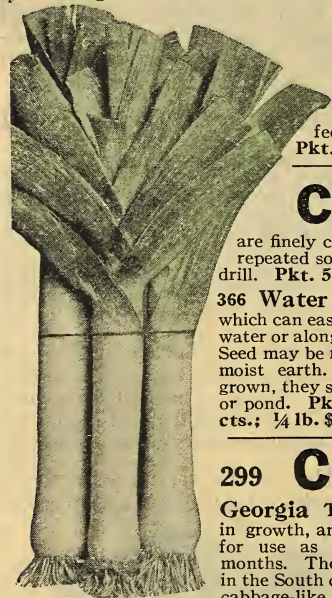

Turnip-Rooted Parsley is listed on page 31.

LEEKS

The long thick neck of leek is excellent for stews, soups, or when creamed. Sow the seed early in March in a seed-box or in the open as soon as the ground is fit. When transplanting, set the plants in furrows 4 to 5 inches deep and cultivate freely. Just before the plants have made their full growth hill the soil against the stems to blanch them. Leek belongs to the same vegetable family as the onion. One ounce for 200 feet of drill.

461 Broad London or LARGE AMERICAN FLAG See illustration. This is a strong-growing variety, producing large thick stems which have a sweet flavor when properly blanched. The plants require a rich and well-manured soil. Pkt. 10 cts.; oz. 25 cts.; $\frac{1}{4}$ lb. 70 cts.; lb. \$2.25, postpaid.

465 Long Mezieres  The plants are of strong, vigorous growth, extremely hardy, with extra-long stems which blanch readily to a snowy whiteness and are of a delicious flavor. It is a French variety that has proven to grow well in our climate. Pkt. 10 cts.; oz. 35 cts.; $\frac{1}{4}$ lb. \$1.00; lb. \$3.50, postpaid.

Leeks—Broad
London

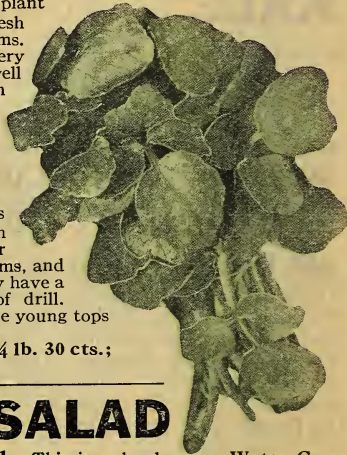

987 SORREL

Broad-Leaved Of the easiest culture. Sorrel is grown for its leaves, which possess a very fine flavor when boiled and served like spinach. Also used as an herb in soups. Sorrel is a perennial and lives for a number of years. Sow the seed early in the spring or in August in rows 2 feet apart, and thin the plants 4 to 6 inches apart; one ounce for 300 feet of drill. This is the best variety, with large, pale green leaves.
Pkt. 10 cts.; oz. 25 cts.; $\frac{1}{4}$ lb. 70 cts.; lb. \$2.25, postpaid.

CRESS

364 Fine Curled (Pepper Grass) Grows very quickly and readily from seed sown thinly in drills during the spring, summer, and fall months. The leaves are finely curled and quite ornamental. The flavor resembles that of mustard. Make repeated sowings every 10 days to have a continuous supply; one ounce for 800 feet of drill. Pkt. 5 cts.; oz. 15 cts.; $\frac{1}{4}$ lb. 35 cts.; lb. 85 cts., postpaid.

366 Water Cress See illustration. A hardy plant which can easily be grown in a shallow pond of fresh water or along the edges of shallow running streams. Seed may be readily started in pans or boxes of very moist earth. When the young plants are well grown, they should be transplanted to the stream or pond. Pkt. 10 cts.; $\frac{1}{2}$ oz. 35 cts.; oz. 50 cts.; $\frac{1}{4}$ lb. \$1.50; lb. \$5.00, postpaid.

Water Cress

299 COLLARDS

Georgia These slightly resemble cabbages in growth, and are largely planted in the South for use as boiling greens during the winter months. They form a mass of leaves on tall stems, and in the South continue in growth all winter. They have a cabbage-like taste; one ounce for 800 feet of drill. This is the chief Southern variety for greens. The young tops are prepared similar to spinach; most delicious.

Pkt. 5 cts.; oz. 12 cts.; $\frac{1}{4}$ lb. 30 cts.; lb. 95 cts., postpaid.

351 CORN SALAD

Large Round-Leaved This is a hardy winter salad, the small leaves being served like lettuce. It is used also for garnishing meat dishes in the same manner as parsley and cress. The seed should be sown thinly in drills early in the spring or during August, September, and October. It is quite hardy, but should be protected by a thin mulch of hay or straw. The young, tender leaves are particularly prized during the early spring, before any other greens can be had from the garden. One ounce for 120 feet of drill.

Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 55 cts.; lb. \$1.75, postpaid.

Corn Salad

HERBS

Pot herbs are a most desirable feature of the home garden. They may be freshly gathered for flavoring during the summer months, and the young stems and leaves can be gathered, tied in bunches, and dried for winter use. In a few varieties the seed is used for flavoring. These should be planted in drills or rows and threshed out when the seeds ripen.

Our Special Leaflet, "Herbs: Their Culture and Uses," gives full directions for growing the different varieties of herbs. It is sent free to all customers who ask for it on their orders.

1304 ANISE (*Pimpinella anisum*) Annual; native of Asia Minor, Greece, and Egypt. Used for garnishing and flavoring; the seeds have an aromatic flavor. Prefers a warm, well-drained soil. Grows rapidly and requires little care. Pkt. 10 cts.; oz. 35 cts.

1306 BALM (*Melissa officinalis*) Perennial. The leaves have a fragrant lemon-like odor, and are used for making balm tea. Pkt. 10 cts.

1307 BASIL, SWEET (*Ocimum basilicum*) Annual. The leaves are used for flavoring soups, stews, and other dishes. Pkt. 10 cts.; oz. 50 cts.

1309 BENE (*Sesamum orientale*) A tender annual from East India. The seeds furnish an oil used for softening the skin. Pkt. 10 cts.

1311 BORAGE (*Borago officinalis*) Annual. The leaves are used for flavoring. Excellent bee pasture. Pkt. 10 cts.; oz. 35 cts.

1313 CARAWAY (*Carum carvi*) Biennial. The seeds are used for flavoring bread, pastry, cheese, sauces, etc. Pkt. 10 cts.; oz. 25 cts.

1315 CATNIP or CATMINT (*Nepeta cataria*) Perennial. The leaves are used for seasoning. Easily grown from seed. Pkt. 10 cts.; oz. 60 cts.

1317 CORIANDER (*Coriandrum sativum*) A hardy annual; native of Southern Europe. The seeds have a strong aromatic flavor and are used in the manufacture of confectionery and pastry. Pkt. 15 cts.; oz. 60 cts.

1319 DILL (*Anethum graveolens*) A biennial grown as an annual. The seeds have a strong aroma and a pungent taste. Used as a condiment, also for pickling with cucumbers to prepare the so-called dill pickles. Native of Southern Europe. Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; lb. \$1.50.

1321 FENNEL, SWEET (*Anethum feniculum*) A hardy perennial, indigenous to Southern Europe. The leaves are extensively used in sauces for flavoring. Sometimes eaten raw. Pkt. 10 cts.; oz. 25 cts.; ¼ lb. 85 cts.

1322 FLORENCE FENNEL (*Feniculum dulce*) Annual. Grown specially for the enlarged leaf-stalks at the base of the stem. As soon as the stems have attained the size of a hen's egg they are "earthed up." Pkt. 10 cts.; oz. 30 cts.; ¼ lb. 85 cts.; lb. \$2.75.

1323 HOREHOUND (*Marrubium vulgare*) Perennial. The leaves are used for flavoring candy and cough-drops. Pkt. 10 cts.; oz. 45 cts.

1325 LAVENDER (*Lavandula spica*) Perennial. The variety generally sold. It has an agreeably mild fragrance. Pkt. 10 cts.; oz. 45 cts.

1326 TRUE LAVENDER (*Lavandula vera*) Perennial. Mostly grown for the sweet-scented flowers which, when dried, are placed in the linen closet to impart their delicate perfume to the linen. Pkt. 15 cts.; oz. 60 cts.

1327 MARJORAM, SWEET (*Origanum marjoram*) Grown as an annual. The leaves and the ends of the shoots are esteemed for seasoning in summer, and they are also dried for winter use. Pkt. 15 cts.; oz. 50 cts.

1329 ROSEMARY (*Rosmarinus officinalis*) Perennial. The leaves are used for seasoning and for making oil of rosemary. Pkt. 20 cts.; ¼ oz. 65 cts.

1331 RUE (*Ruta graveolens*) Perennial. For medicinal purposes; good for fowls. The leaves have a strong odor and acrid taste. Pkt. 10 cts.

1333 SAGE (*Salvia officinalis*) Perennial. The most extensively used of all herbs for seasoning. Pkt. 15 cts.; oz. 65 cts.

1335 SUMMER SAVORY (*Satureia hortensis*) Annual. The leaves and flowers are used for flavoring. Pkt. 15 cts.; oz. 65 cts.

1337 WINTER SAVORY (*Satureia montana*) Perennial. The leaves are used for flavoring soups, stews, sausage, etc. Pkt. 20 cts.; ½ oz. 60 cts.

1338 TANSY (*Tanacetum vulgare*) Perennial. The leaves are used as a tonic in medicine. Pkt. 15 cts.; ½ oz. 45 cts.

1343 WORMWOOD (*Artemisia absinthium*) Perennial. Pkt. 10 cts.

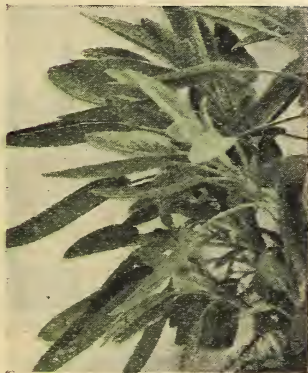

Dill

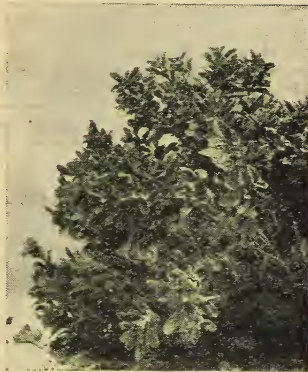

1341 THYME (*Thymus vulgaris*) Perennial. The green portion, either fresh or dried, is used extensively for flavoring soups, gravies, stews, sauces, dressings, etc. Pkt. 10 cts.; oz. 60 cts.; ¼ lb. \$1.80; lb. \$6.00.

Rosemary

Sage

Sweet Marjoram

Thyme

Asparagus—Barr's Mammoth

RHUBARB The seed should be sown in a shallow drill, using 1 ounce to 150 feet of row. When well started, thin to stand 10 to 12 inches apart. The stalks should not be gathered until the plants have had a full season's growth.

979 Myatt's Victoria The most popular variety; cones quite true from seed and yields heavily. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 55 cts.; lb. \$1.85, postpaid.

9982 RHUBARB ROOTS

Young roots of the Myatt's Victoria, which, if planted in good soil early in the spring, will make a strong growth and yield stalks for market the following spring. Two roots for 35 cts.; 4 for 60 cts.; 6 for 85 cts.; 12 for \$1.50, postpaid. By express: 100 roots \$5.75.

Roots can be supplied any time between October 1st and April 30th

MUSHROOMS Can be grown in a warm cellar or enclosed shed, where an even temperature of from 50 to 60 degrees can be maintained.

9930 American-Grown Pure Culture Runs freely and produces the finest mushrooms. Ask for the free Burpee leaflet on "MUSHROOM CULTURE." 50 cts. a brick; 5 lbs. \$2.50, postpaid. By express at purchaser's expense: Lb. 30 cts.; 10 lbs. for \$2.50.

1 ARTICHOKE

Artichoke

Green Globe See illustration. The **GLOBE ARTICHOKE** is a perennial, cultivated for its flower-heads, which are cooked like asparagus. **GREEN GLOBE** is the standard variety. The Jerusalem Artichoke is entirely different—see page 29. Pkt. 25 cts.; $\frac{1}{2}$ oz. 60 cts.; oz. \$1.10; $\frac{1}{4}$ lb. \$3.25, postpaid.

ASPARAGUS Asparagus grows better and produces earlier in the spring if planted in well-drained soil having a southern exposure. One ounce of seed for 40 feet of drill; 2 pounds of seed produce enough roots for 1 acre. Ask for our free leaflet, "HOW TO MAKE AN ASPARAGUS BED."

3 Barr's Mammoth The stalks are very large, with few scales; they retain their thickness up to the top and have close, round heads. **BARR'S MAMMOTH** is considered one of the finest of all Asparagus varieties. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.45, postpaid.

6 Giant Argenteuil Popular in France on account of its large thick green stalks. Heads slightly pointed, closely set with scales. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.25, postpaid.

8 Palmetto Large, thick, dark green shoots with a distinctly pointed tip. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.25, postpaid.

9 Washington This asparagus which has been selected by the United States Department of Agriculture, Washington, D. C., has proven to be nearly rust free. The shoots are thick and heavy. They are long and straight, with closely folded tips. The color is rich dark green, tinted darker at the tips. It is a heavy yielder of exceptionally fine flavor. Pkt. 10 cts.; oz. 85 cts.; $\frac{1}{4}$ lb. \$2.55; lb. \$8.50, postpaid.

ASPARAGUS ROOTS

9902 Barr's Mammoth One-year-old roots: 50 for 80 cts.; 100 for \$1.50, postpaid. By express: 1000 roots \$9.75; 5000 for \$45.00.

9903 Barr's Mammoth Two-year-old roots: 50 for \$1.20; 100 for \$2.15, postpaid. By express: 1000 roots \$12.50; 5000 for \$60.00.

9908 Giant Argenteuil One-year-old roots: 50 for 80 cts.; 100 for \$1.50, postpaid. By express: 1000 roots \$9.75; 5000 for \$45.00.

9909 Giant Argenteuil Two-year-old roots: 50 for \$1.20; 100 for \$2.15, postpaid. By express: 1000 roots \$12.50; 5000 for \$60.00.

9914 Palmetto One-year-old roots: 50 for 80 cts.; 100 for \$1.50, postpaid. By express: 1000 roots \$9.75; 5000 for \$45.00.

9915 Palmetto Two-year-old roots: 50 for \$1.20; 100 for \$2.15, postpaid. By express: 1000 roots \$12.50; 5000 for \$60.00.

9910 Washington One-year-old roots: 50 for \$1.95; 100 for \$3.50, postpaid. By express: 1000 roots \$22.00; 5000 for \$100.00.

9913 Washington Two-year-old roots: 50 for \$2.40; 100 for \$4.50, postpaid. By express: 1000 roots \$26.00; 5000 for \$120.00.

Write for prices on larger quantities

297 WITLOOF CHICORY

or French Endive. Witloof Chicory is used principally as a winter salad. The seed should be sown in the open ground not later than June. The roots are lifted in the fall and stored in soil in a cool place until wanted for forcing. When wanted for forcing they are trimmed of the side-roots and the tails cut off to an even length of 6 inches, and packed upright in a box in rows with a thin layer of soil between each row and a two-inch layer of soil at the bottom.

The crowns of the roots are covered loosely with 6 inches of sand or light earth. After watering thoroughly, the box is placed near the heater of the cellar and kept moderately moist until the sprouts push through. Pkt. 15 cts.; oz. 25 cts.; $\frac{1}{4}$ lb. 70 cts.; lb. \$2.25, postpaid.

Chives

9920 CHIVES

See illustration. They are grown for the young leaves, which have a mild onion flavor. Easily grown in pots or in the garden. Roots per bunch, 25 cts., postpaid.

Edible Seeds

Edible Seeds are most valuable from the viewpoint of their food content. Peas and beans are both legumes and have a very high content of protein. Sweet corn is rich in both starch and sugar. This group may be called the "Vegetable Beefsteak," because of the highly concentrated nature of the food they contain.

POLE BEANS

Kentucky Wonder
Pole Bean

Sow from the second week of May until the middle of June. Set the poles 4 feet apart and place 8 to 10 beans around each; 1 pound of seed for 125 poles. Or the seed may be planted along a trellis, sowing 300 feet of row with 1 pound of seed.

72 Kentucky Wonder or **OLD HOME-STEAD** Rich green pods, 7 to 9 inches long, deeply creased or saddle-backed. They are solidly meaty, stringless when young, and of finest quality. Pkt. 10 cts.; $\frac{1}{2}$ lb. 20 cts.; 1b. 35 cts.; 2 lbs. 65 cts.; 5 lbs. \$1.50, postpaid. By express, 10 lbs. or more, at 22 cts. per lb.

73 Burger's Stringless Green-Pod In some sections this is called White-Seeded Kentucky Wonder. Uniformly straight, 6 to 8 inches in length, of a rich dark green, and very meaty; entirely stringless. The beans are pure white and fine for winter use. Pkt. 10 cts.; $\frac{1}{2}$ lb. 25 cts.; 1b. 40 cts.; 2 lbs. 75 cts.; 5 lbs. \$1.75, postpaid. By express, 10 lbs. or more, at 25 cts. per lb.

74 White Creaseback The green pods are 6 inches long, perfectly round, deeply creased or saddle-backed. Solidly fleshy, entirely stringless, and of fine quality. White-seeded. Pkt. 10 cts.; $\frac{1}{2}$ lb. 20 cts.; 1b. 30 cts.; 2 lbs. 55 cts.; 5 lbs. \$1.25, postpaid. By express, 10 lbs. or more, at 18 cts. per lb.

75 Lazy Wife's Green pods from $4\frac{1}{2}$ to 6 inches in length. They are broad and stringless. Each pod contains from 6 to 8 round white beans. Makes a strong growth and bears abundantly. Pkt. 10 cts.; $\frac{1}{2}$ lb. 25 cts.; 1b. 40 cts.; 2 lbs. 75 cts.; 5 lbs. \$1.75, postpaid. By express, 10 lbs. or more, at 25 cts. per lb.

78 McCaslan Of a rich dark green color; 10 inches long; rather flat and slightly curved. White-seeded. Pkt. 10 cts.; $\frac{1}{2}$ lb. 20 cts.; 1b. 35 cts.; 2 lbs. 65 cts.; 5 lbs. \$1.50, postpaid. By express, 10 lbs. or more, at 22 cts. per lb.

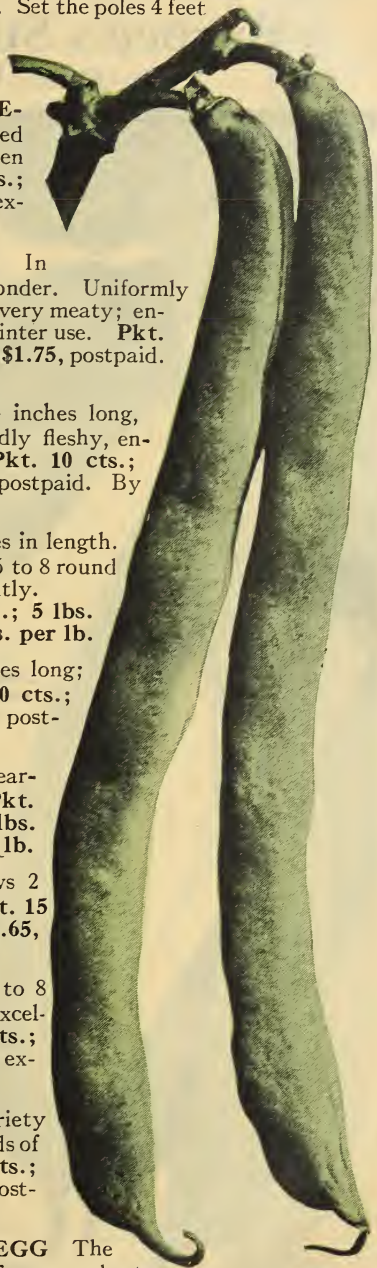

87 Scarlet Runner Of strong, quick growth, bearing large sprays of bright scarlet, pea-like flowers. Pkt. 10 cts.; $\frac{1}{2}$ lb. 25 cts.; 1b. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid. By express, 10 lbs. or more, at 28 cts. per lb.

91 Yard Long Long, slender, round pods. Grows 2 feet or more in length. The young pods are tender. Pkt. 15 cts.; $\frac{1}{2}$ lb. 35 cts.; 1b. 60 cts.; 2 lbs. \$1.15; 5 lbs. \$2.65, postpaid. By express, 10 lbs. or more, at 35 cts. per lb.

79 Golden Cluster Wax The flat pods are 7 to 8 inches long. Of a rich golden yellow; stringless and excellent in flavor. White-seeded. Pkt. 10 cts.; $\frac{1}{2}$ lb. 25 cts.; 1b. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid. By express, 10 lbs. or more, at 28 cts. per lb.

80 Kentucky Wonder Wax A productive variety bearing a fine crop of long, thick, and almost straight pods of a very light yellow color. Quality excellent. Pkt. 10 cts.; $\frac{1}{2}$ lb. 25 cts.; 1b. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid. By express, 10 lbs. or more, at 28 cts. per lb.

83 Horticultural CRANBERRY or WREN'S EGG The beans when young are of excellent quality and make fine snapshorts. The dried beans are grown extensively for winter use. Pkt. 10 cts.; $\frac{1}{2}$ lb. 20 cts.; 1b. 35 cts.; 2 lbs. 65 cts.; 5 lbs. \$1.50, postpaid. By express, 10 lbs. or more, at 22 cts. per lb.

GREEN POD BUSH BEANS

Beans are tender, and the seed cannot be sown until the weather is quite warm—about the time the maples are well out in leaf. In the vicinity of Philadelphia early May is about the right time for the first sowing of bush beans. A warm, well-drained sandy loam is best suited. Beans must be picked when young, and for a continuous supply they should be sown every 10 to 14 days up to August 10th. Where the summers are hot and dry, sow up to the end of May and again from July 15th to August 10th. Plant the seed in rows not less than 18 inches apart, cover with 2 inches of fine dirt, and firm the soil to assist germination. One pound of seed sown thinly fills a row 250 feet long; 90 pounds of seed per acre.

10 Burpee's Stringless Green-Pod

The Finest Bush Bean in Cultivation

2 lbs. of Beans
equal 1 quart

Burpee's
Stringless
Green-Pod
Bush Bean

See illustration. This famous snap bean, first named and introduced by us in 1894, is still unequaled. It is the finest of all green-pod bush beans in existence. The plants are medium large, of somewhat spreading growth, with dark green foliage and always of strictly bush form. The pods are medium in length, slightly curved, and are so thick, even when still quite young, as to be double-barreled. The color of the pods is a rich dark green of attractive appearance.

BURPEE'S STRINGLESS GREEN-POD is enormously productive and combines this feature with hardiness and extreme earliness. It is a bean of handsome appearance that will sell readily on any market. The quality of BURPEE'S STRINGLESS GREEN-POD is truly superb. The pods, even when fully grown, are meaty and juicy, lacking the faintest signs of any strings. They are tender and brittle, of very fine texture and delicate flavor. When cooked, the pods retain a good green color. The seeds are dark brown. Pkt. 10 cts.; 1/2 lb. 25 cts.; 1 lb. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid. By express or freight, 10 lbs. or more, at 28 cts. per lb.

13 Bountiful

Of thrifty growth and very hardy. The stringless and tender flat green pods are produced very early in the season and the bushes continue to bear for a long time. The pods remain in good condition for quite some time. Extensively grown for market. Pkt. 10 cts.; 1/2 lb. 25 cts.; 1 lb. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid. By freight or express, 10 lbs. or more, at 28 cts. per lb.

14 Extra Early Red Valentine (Improved Round-Pod Strain)

The plants are dwarf and compact in growth, 15 to 18 inches high, and very prolific. They are hardy and early maturing. The pods are 4 inches long, sharply pointed, round, and very fleshy, being deeply saddle-backed and brittle even when fully grown. Extensively grown by market gardeners and a favorite variety for canning. Pkt. 10 cts.; 1/2 lb. 25 cts.; 1 lb. 40 cts.; 2 lbs. 75 cts.; 5 lbs. \$1.75, postpaid. By express, 10 lbs. or more, at 25 cts. per lb.

15 Black Valentine

Popular in the South on account of its blight-resisting quality. Matures early, producing long, round, straight pods. Pkt. 10 cts.; 1/2 lb. 30 cts.; 1 lb. 50 cts.; 2 lbs. 95 cts.; 5 lbs. \$2.25, postpaid. By express, 10 lbs. or more, at 30 cts. per lb.

22 Burpee's Fordhook Favorite

A white-seeded Stringless Green-Pod. The bushes grow 18 to 20 inches high. They are vigorous and quite resistant to disease and attacks from insects. The handsome plants are most wonderfully prolific and bear the heavy crop of fine pods continuously if the pods are picked as soon as they attain a fair size. The pods measure $5\frac{1}{2}$ to $6\frac{1}{2}$ inches in length. They are $\frac{1}{2}$ inch wide and $\frac{1}{2}$ inch thick—so full and fleshy that they are practically round. They are **ripe, juicy, and entirely stringless at all stages of growth.** The ripe seeds are pure white without any markings and can be used for dried beans in the winter. **Pkt. 10 cts.; $\frac{1}{2}$ lb. 25 cts.; lb. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid.** By express, 10 lbs. or more, at 28 cts. per lb.

20 Keeney's Stringless Refugee The handsome pods are nearly round in form, and average $5\frac{1}{4}$ inches in length. They are smooth and present a most attractive appearance, being of a light green color. The pods are **brittle and tender**, absolutely stringless at all stages. The meat is thick and fleshy, of a particularly fine and mild flavor. **KEENEY'S STRINGLESS REFUGEE** is an excellent home garden and market variety. **Pkt. 10 cts.; $\frac{1}{2}$ lb. 25 cts.; lb. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid.** By express, 10 lbs. or more, at 28 cts. per lb.

19 Refugee or 1000 to 1 The pods are fleshy and remarkably solid. Brittle in texture and mild in flavor, but with slight strings. Somewhat later than the other green-podded sorts, but extremely prolific. **Pkt. 10 cts.; $\frac{1}{2}$ lb. 25 cts.; lb. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid.** By express, 10 lbs. or more, at 28 cts. per lb.

23 Giant Stringless Green-Pod The plants are of strong growth, making large and compact bushes, and bear a fine crop of pods. The pods are meaty; brittle and stringless at all stages. A fine midseason variety. **Pkt. 10 cts.; $\frac{1}{2}$ lb. 25 cts.; lb. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid.** By express, 10 lbs. or more, at 28 cts. per lb.

SHELL BEANS These are grown exclusively to use as dried beans during winter. The food value of dry beans is very high, surpassing in protein contents even a sirloin or tenderloin steak, pound for pound. The small-seeded varieties, like Robust Pea Bean, are sown at the rate of 30 to 45 pounds per acre. The larger seeded varieties require 60 to 75 pounds per acre; one pound for 150 to 200 feet of row.

25 Robust Pea Bean or IMPROVED WHITE NAVY A much improved strain of the popular small white baking bean, which originated at the Michigan Agricultural Experiment Station. Very highly recommended on account of its heavy yielding and disease-resistant qualities. Our stock is grown from the original strain and is especially selected. **Pkt. 10 cts.; $\frac{1}{2}$ lb. 20 cts.; lb. 35 cts.; 2 lbs. 65 cts.; 5 lbs. \$1.50, postpaid.** By express, 10 lbs. or more, at 22 cts. per lb.

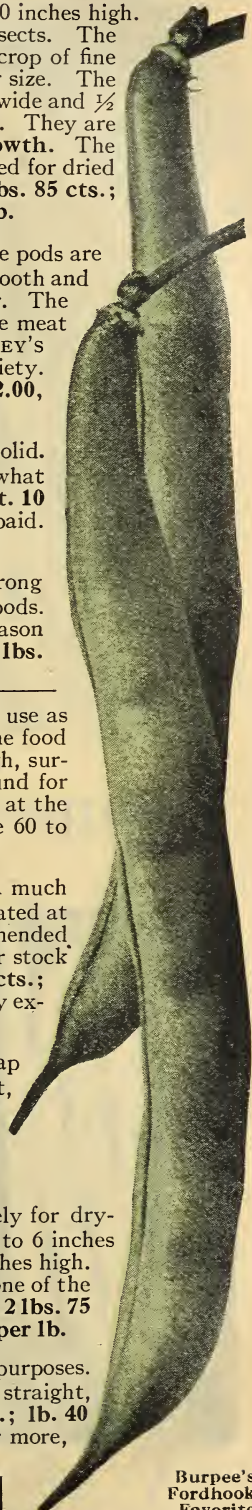

26 Dwarf Horticultural Stringless, used for both snap and green-shell purposes. The pods are $4\frac{1}{2}$ to 5 inches long, stout, flat, almost straight, practically stringless. The dried seeds are almost round; light buff spotted with deep red. Fine for winter shell beans. **Pkt. 10 cts.; $\frac{1}{2}$ lb. 25 cts.; lb. 40 cts.; 2 lbs. 75 cts.; 5 lbs. \$1.75, postpaid.** By express, 10 lbs. or more, at 25 cts. per lb.

28 Red Kidney A well-known field variety grown extensively for dry-shell purposes. Of dwarf growth and very hardy. The pods are $5\frac{1}{2}$ to 6 inches long, produced in great number on strictly dwarf bushes, 18 to 20 inches high. The seeds are typically kidney-shaped, of a light shade of red. It is one of the largest of all baking beans. **Pkt. 10 cts.; $\frac{1}{2}$ lb. 25 cts.; lb. 40 cts.; 2 lbs. 75 cts.; 5 lbs. \$1.75, postpaid.** By express, 10 lbs. or more, at 25 cts. per lb.

29 White Marrowfat A popular sort for dry-shell purposes. Plants dwarf, with a tendency to run. The pods are large, flat, and straight, with 5 to 7 pure white seeds in each pod. **Pkt. 10 cts.; $\frac{1}{2}$ lb. 25 cts.; lb. 40 cts.; 2 lbs. 75 cts.; 5 lbs. \$1.75, postpaid.** By express, 10 lbs. or more, at 25 cts. per lb.

WAX POD BUSH BEANS

Burpee's Brittle Wax
The finest of all wax beans

33 Burpee's Brittle Wax

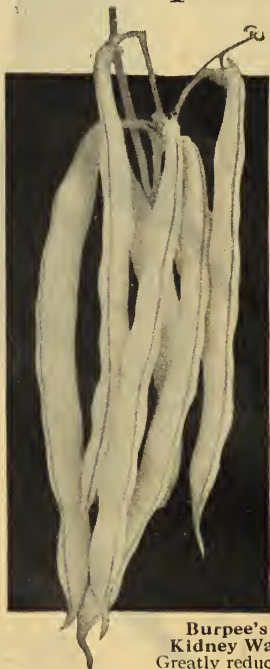

BURPEE'S BRITTLE WAX is of superb quality, and is conceded the "Best of All." The bushes are remarkably hardy and very prolific. The plants are of typical bush growth, with rich green leaves. They are handsome, very round, and extremely fleshy, and, above all, they are **always stringless and tender**. They measure about 7 inches in length and are slightly curved. BURPEE'S BRITTLE WAX has already made a record with its superb quality, extreme earliness, and great productiveness. When cooked, the pods retain a good yellow color and are of a wonderfully pleasing flavor. **Pkt. 15 cts.; 1/2 lb. 30 cts.; lb. 50 cts.; 2 lbs. 95 cts.; 5 lbs. \$2.25, postpaid.** By express or freight, 10 lbs. or more, at 30 cts. per lb.

Burpee's Saddleback Wax

50 Burpee's Saddleback Wax

The plants are of strong bush growth, 15 inches in height; extremely productive. The pods are long, nearly straight, and well rounded. They are always stringless, rich golden yellow, and the flesh between the beans is solid meat without any open spaces. **Pkt. 10 cts.; 1/2 lb. 20 cts.; lb. 35 cts.; 2 lbs. 65 cts.; 5 lbs. \$1.50, postpaid.** By express, at purchaser's expense, 10 lbs. or more, at 22 cts. per lb.

Burpee's Kidney Wax
Greatly reduced

44 Burpee's Kidney Wax

Robust in growth and most prolific, with long pods, entirely stringless, fleshy, and of fine quality. The plants are of erect bush habit, reaching 18 to 20 inches in height. Even during wet summers the foliage is entirely free from blight, and the pods are free from rust. The fleshy pods are flattened in form, from 6 to 7 inches in length, 1/2 inch broad, and 3/8 inch thick; the color is a rich lemon-yellow. The pods are remarkable for their meatiness, fine flavor, brittleness, and absolute freedom from strings. BURPEE'S KIDNEY WAX sells well on account of its good appearance and fine quality.

Pkt. 10 cts.; 1/2 lb. 25 cts.; lb. 40 cts.; 2 lbs. 75 cts.; 5 lbs. \$1.75, postpaid. By express, 10 lbs. or more, at 25 cts. per lb.

Three Burpee Wax Beans
For 30 cts. we will send one large size packet each of the three grand beans listed on this page to any address, postpaid. **Order Collection No. 7012.**

55 Burpee's Stringless White Wax ◉

An exceptionally fine hardy white-seeded, flat-podded wax bean of really choice quality! The beans, being pure white, present the most attractive appearance when cooked. The pods remain tender longer than those of any other variety, and the plants continue to bear for a long period. The pods are straight, of a bright lemon-yellow, brittle, meaty, and entirely stringless at all stages of growth. The seeds, being large and pure white, are most desirable as shell beans for both summer and winter use. Pkt. 15 cts.; ½ lb. 35 cts.; 1b. 60 cts.; 2 lbs. \$1.15; 5 lbs. \$2.65, postpaid. By express, 10 lbs. or more, at 35 cts. per lb.

Burpee's Stringless White Wax

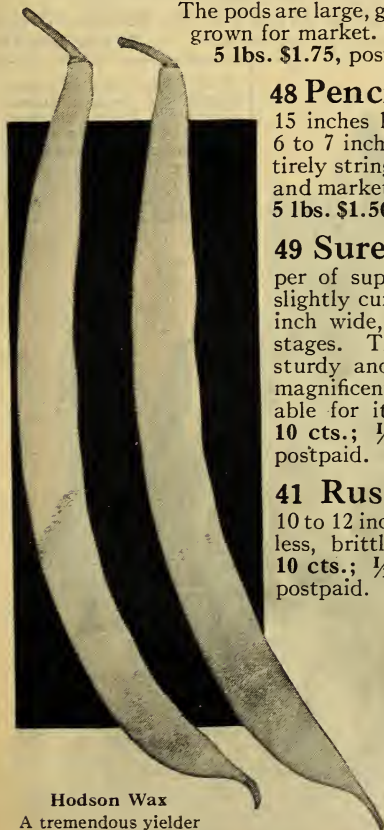

54 Stringless Refugee Wax ◉ or PROFUSION WAX A vigorous, productive, resistant variety of good quality. The plants are dwarf, with runner-like branches. The pods measure 4½ to 5 inches in length and are gracefully curved. Slightly stringy, of light yellow color but enormously productive. One of the best flat-podded wax crop varieties. Pkt. 10 cts.; ½ lb. 20 cts.; 1b. 35 cts.; 2 lbs. 65 cts.; 5 lbs. \$1.50, postpaid. By express, 10 lbs. or more, at 22 cts. per lb.

51 Hodson Wax Enormously productive and very hardy, but lacks brilliancy. The pods are large, golden yellow, uniform, and perfectly straight. Extensively grown for market. Pkt. 10 cts.; ½ lb. 25 cts.; 1b. 40 cts.; 2 lbs. 75 cts.; 5 lbs. \$1.75, postpaid. By express, 10 lbs. or more, at 25 cts. per lb.

48 Pencil-Pod Black Wax ◉ Plants of true bush growth, 15 inches high; extremely productive; magnificent straight pods, 6 to 7 inches long; light golden yellow; flesh brittle, solid, and entirely stringless; of a fine mild flavor. Good for the home garden and market. Pkt. 10 cts.; ½ lb. 20 cts.; 1b. 35 cts.; 2 lbs. 65 cts.; 5 lbs. \$1.50, postpaid. By express, 10 lbs. or more, at 22 cts. per lb.

49 Surecrop Stringless Wax ◉ A most prolific cropper of superlative quality. The handsome rich yellow pods are slightly curved, averaging 6 to 7 inches in length, almost round, ½ inch wide, very meaty and sweet, and perfectly stringless at all stages. The habit of the plant is freely branching, but perfectly sturdy and upright, every branch carrying a heavy crop of the magnificent pods. Many gardeners like this variety most. Valuable for its productiveness and disease-resisting qualities. Pkt. 10 cts.; ½ lb. 20 cts.; 1b. 35 cts.; 2 lbs. 65 cts.; 5 lbs. \$1.50, postpaid. By express, 10 lbs. or more, at 22 cts. per lb.

41 Rustproof Golden Wax Of typical bush growth, 10 to 12 inches high, producing a good crop of straight pods. Stringless, brittle, of lemon-yellow color, slightly tinged green. Pkt. 10 cts.; ½ lb. 25 cts.; 1b. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid. By express, 10 lbs. or more, at 28 cts. per lb.

Hodson Wax

A tremendous yielder

◉ "Good as Gold." This mark [◉], now called a bull's-eye, was used by the ancient alchemists to represent gold. We use a bull's-eye [◉] to mark those varieties of vegetables which we consider the very best of their class and most satisfactory for general cultivation throughout the country. If you are not thoroughly posted as to the sorts most suitable for your own section, we recommend that you confine your selection to those marked with a bull's eye. ◉ ◉ ◉ ◉ ◉ ◉ ◉ ◉ ◉ ◉ ◉ ◉ ◉ ◉ ◉ ◉

63 Burpee Improved Bush Lima

The pods are truly enormous in size, borne abundantly, and well filled with handsome beans which are both larger and thicker than those of the popular Burpee's Bush Lima—and fully 8 days earlier! Introduced by Burpee in 1907. It differs from the best strains of Burpee's Bush Lima in having much larger pods and in producing more beans. Both pods and beans are not only larger, but also considerably thicker. The growth is vigorous, with heavy foliage. Full-grown bushes measure 30 inches in height and 24 inches across the top. Pods are borne frequently in what might be called "clusters" of from 5 to 8. The pods measure 5 to 6 inches long by 1 1/4 inches wide, and the full size beans are of luscious flavor. They mature in 85 to 95 days from the date of sowing, but should not be planted before the soil has warmed up and the weather is quite settled. About the middle of May is right for planting in the vicinity of Philadelphia. Stick the beans eye down to get a good germination. Space by hand 5 inches apart in a furrow and cover with 2 inches of fine soil. One pound of seed sown in this way will suffice for a row 150 feet long.

Pkt. 15 cts.; 1/2 lb. 30 cts.; 1 lb. 50 cts.; 2 lbs. 95 cts.; 5 lbs. \$2.25, postpaid. By express, 10 lbs. or more, at 30 cts. per lb.

60 Burpee's Bush Lima This was the first true large-seeded bush lima bean introduced by Burpee in 1890. It comes absolutely true from seed, and the only reason the bull's-eye  is omitted is because the new *Burpee Improved* is a better variety of similar type. The bushes grow 18 to 24 inches high, of stout growth and always erect, yet branching so vigorously that each plant develops into a magnificent circular bush from 2 to 3 feet in diameter. It is an immense yielder. This is the original Dwarf Large Lima as first introduced exclusively by us in 1890. The pods and beans, however, are not so large, nor are the bushes so prolific, as the new and distinct Burpee Improved Bush.

Pkt. 15 cts.; 1/2 lb. 25 cts.; 1 lb. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid. By express, 10 lbs. or more, at 28 cts. per lb.

Burpee Improved
Bush Lima Bean

Bush Limas are of comparatively recent introduction. With this new type the range for growing Lima Beans has been greatly increased, since they mature three to four weeks earlier than the pole varieties.

65 Burpee's Fordhook Bush Lima

First named and introduced exclusively by us in 1907. It is the only stiffly erect bush form of the popular "Potato" Lima

BURPEE'S FORDHOOK BUSH LIMA is altogether distinct. It was created by Nature as a single sport in a field of Challenger Pole Limas in 1903. It differs from other so-called Potato Limas with its distinct upright growth, the pods being borne well above the ground.

The plants average 20 to 30 inches in height by 20 to 24 inches across the top. The **strong, erect bushes** withstand both whipping rains and high winds to a remarkable degree. The main stalk is stiffly erect—from 2 to 2½ inches high—and from this is thrown out a great number of lateral branches, closely resembling Burpee's Bush Lima in this ideal habit of growth.

The foliage is heavy and the leaves are broad, of a heavy texture, and very dark green in color. The pods are

borne in what may be called "clusters" of from 4 to 8 pods.

The pods measure from 4 to 5½ inches long by 1½ to 1¾ inches wide and are as much as ¾ of an inch thick. The pods are, therefore, very large and contain 4 or 5 magnificent large beans.

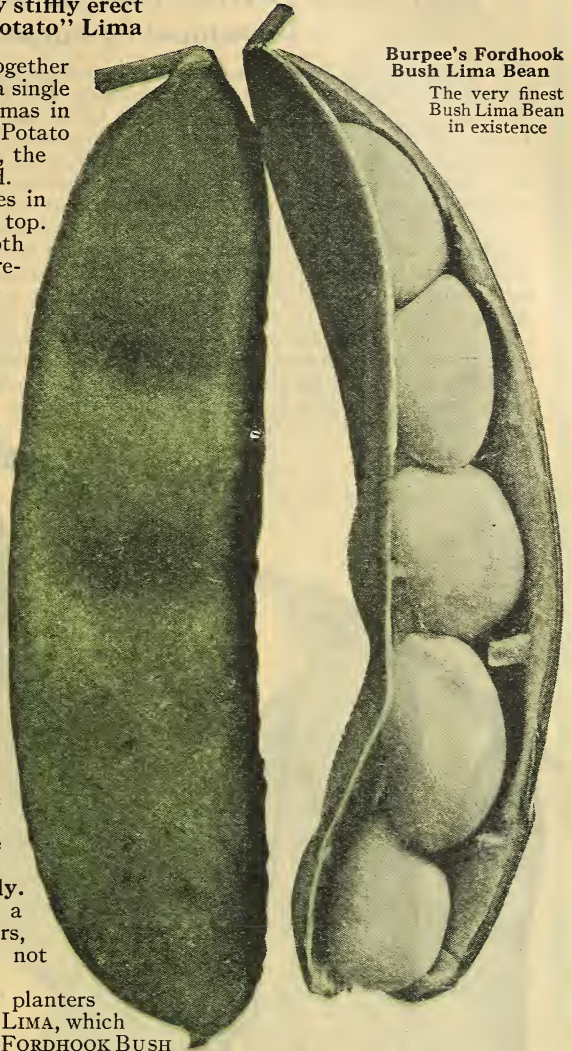

BURPEE'S FORDHOOK BUSH LIMA is an excellent cropper and both the green and ripe beans are truly of enormous size. The beans average about eleven-sixteenths of an inch in length, are seven-eighths of an inch wide and ½ inch thick. We have counted bushes which had developed as many as 52 pods on a plant. **The flavor of the beans is sweet and delicious.** The beans mature very early. BURPEE'S FORDHOOK BUSH LIMA is a favorite with the majority of truckers, and for the home garden we could not recommend anything better.

With every year more and more planters are growing BURPEE'S FORDHOOK BUSH LIMA, which is an unmistakable proof that BURPEE'S FORDHOOK BUSH LIMA is leading all other Bush Limas known. This is not to be wondered at when we consider the unusually fine quality of the beans and their wonderful prolificness. Pkt. 15 cts.; ½ lb. 30 cts.; 1 lb. 50 cts.; 2 lbs. 95 cts.; 5 lbs. \$2.25, postpaid. By express, 10 lbs. or more, at 30 cts. per lb.

68 Wood's Prolific or **IMPROVED HENDERSON BUSH LIMA** This variety belongs to the class of *Small Limas*, also known as *Carolina* or *Sieva Lima Beans*. They are extensively grown in the South, where they are commonly called "*Butter Beans*." On account of their hardiness they are worth growing in the North, where they will mature early and produce an enormous crop. The green shell beans are ready about a week earlier than Burpee's Bush Lima and **the flavor of the beans is delicious and sweet.** The plants are of true bush growth and bear tremendously, each pod being filled with three or four of the small, flat, light green beans. When mature, the beans are practically white and keep well for winter shell beans. Our stock of this is extra fine. Pkt. 15 cts.; ½ lb. 25 cts.; 1 lb. 40 cts.; 2 lbs. 75 cts.; 5 lbs. \$1.75, postpaid. By express, 10 lbs. or more, at 25 cts. per lb.

Burpee's Fordhook Bush Lima Bean

The very finest Bush Lima Bean in existence

Burpee's Annual is recognized the world over as The Leading American Seed Catalog. Burpee's Annual will go in your pocket. Did you ever try it?

95 Burpee's Sunnybrook Pole Lima Bean

Introduced by Burpee in 1922

The HOUSE OF BURPEE has reason to be proud of its work in connection with the improvement and introduction of new lima beans. The first large-podded bush lima bean in existence, namely, Burpee's Bush Lima, was introduced by us in 1890. In 1907 both the Burpee Improved Bush Lima and Fordhook Bush Lima were placed on the market by Burpee. In 1910 Burpee's Giant-Podded Pole Lima was introduced by Burpee, and in 1922 we offered this most outstanding pole lima bean which we have named BURPEE'S SUNNYBROOK POLE LIMA BEAN.

The main features of this fine new pole lima bean are its extreme earliness and tremendous prolificness. The long flower-spikes are produced in great abundance from the base of the plant, in some instances even before the vines have taken hold of the pole, to the very summit of the vine. The individual spikes carry from 5 to 10 pods of large size. Each pod is closely packed with 4, and often 5, large thick meaty light green beans of the finest quality. It is considerably earlier in producing pods ready for picking than any other large-seeded pole lima, and has proven to be even as early as the Small-Seeded Carolina or Sieva variety.

The vines are of most vigorous growth, producing many lateral or side branches, all of which are literally covered with the deep green pods throughout the season.

Burpee's
Sunnybrook
Pole Lima Bean
Reproduced from
a Fordhook
photograph

One of the foremost lima bean growers in California assured us that, besides Burpee's Giant-Podded Pole Lima for late use, he would grow no other variety but Burpee's Sunnybrook Pole Lima. An opinion like this from an authority on the subject speaks indeed well for this variety.

At the time of writing this page we have again had an opportunity to convince ourselves that this wonderful new pole lima bean fully lives up to the remarkable claims we made last year when we first introduced it to our friends and customers. It has proven to be a remarkable yielder of unusual earliness and superb quality.

The illustration shows how freely the pods are produced and how well they are filled with luscious beans

Pkt. 25 cts.; 1/2 lb. 45 cts.; 1 lb. 75 cts.; 2 lbs. \$1.45; 5 lbs. \$3.35, postpaid.

98 Burpee's Giant-Podded Pole Lima

The Largest Podded of All Pole Lima Beans

BURPEE'S GIANT-PODDED POLE LIMA was introduced by Burpee in 1910. It is altogether distinct from any other pole lima bean and is positively the largest of all. The pods frequently measure from 7 to 8 $\frac{1}{4}$ inches in length with a width of 1 $\frac{1}{2}$ to nearly 2 inches. The beans are extra large and thicker than any other pole lima bean, excepting only those of the Potato Lima type. They are invariably of superb flavor.

BURPEE'S GIANT-PODDED POLE LIMA excels all other lima beans in vigor of growth. The vines grow rapidly, quickly covering the poles. They easily attain a height of from 10 to 12 feet. A most notable characteristic is that when well grown each vine produces from 10 to 15 laterals or branches. These side shoots produce great numbers of large handsome pods. The first pods are succeeded by those on the upper part of the vines so that a pole carries a continuous crop of pods from the bottom to the top.

The pods are produced most abundantly until the vines are killed by severe frost. They are borne in clusters of from 4 to 8. The leaves, while of usual size, are ample to protect the pods from the hot sun. The flavor of BURPEE'S GIANT-PODDED is simply delicious and cannot be excelled. In rich ground we recommend planting 6 to 8 seeds to a hill and thinning out to 2 or 3 plants. Pkt. 15 cts.; $\frac{1}{2}$ lb. 30 cts.; 1b. 55 cts.; 2 lbs. \$1.00; 5 lbs. \$2.40, postpaid. By express, 10 lbs. or more, at 32 cts. per lb.

96 Early Leviathan This is the very earliest.

It will not only give large lima beans earlier than any other strain, but is also extremely productive, both early and throughout the season. It is a strong grower, clinging well to the poles, and is a sure cropper. The pods differ from those of other early pole limas in being straighter and longer. The pods extend out from the foliage in large clusters and contain 3 or 4, and sometimes 5, large beans to the pod. Pkt. 15 cts.; $\frac{1}{2}$ lb. 30 cts.; 1b. 50 cts.; 2 lbs. 95 cts.; 5 lbs. \$2.25, postpaid. By express, 10 lbs. or more, at 30 cts. per lb.

99 King of the Garden

A strong grower and uniformly large podded. The pods frequently contain 5 or 6 big beans. These beans are of excellent quality, easily shelled, of large size, and of handsome appearance. Pkt. 15 cts.; $\frac{1}{2}$ lb. 25 cts.; 1b. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid. By express, 10 lbs. or more, at 28 cts. per lb.

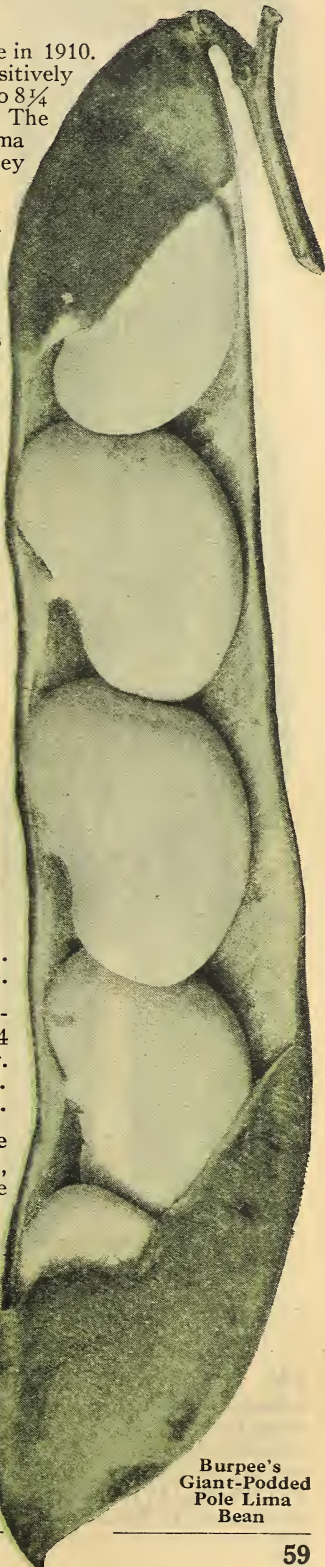

101 Challenger or "POTATO" LIMA

Very productive, but later than the large flat sorts. The pods average 3 to 4 inches in length, containing 3 to 5 beans; of excellent flavor. Pkt. 15 cts.; $\frac{1}{2}$ lb. 25 cts.; 1b. 40 cts.; 2 lbs. 75 cts.; 5 lbs. \$1.75, postpaid. By express, 10 lbs. or more, at 25 cts. per lb.

103 Carolina or Sieva

The "Butter Bean" of the South. This variety is extremely popular throughout the South, where they are usually called Butter Beans. It is well worth while growing in the North because of its earliness, hardness, and wonderful productiveness. The vines grow quickly and mature a fine crop of the small but attractive pods quite early and continue throughout the season until killed by frost. The vines are slender, with rather small and shiny dark green leaves. The dried beans are excellent for winter shell use. One pound of seed for 150 poles. Pkt. 15 cts.; $\frac{1}{2}$ lb. 25 cts.; 1b. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid. By express, 10 lbs. or more, at 28 cts. per lb.

Pole Limas Plant when the nights have become quite warm. The middle of May is usually safe in the vicinity of Philadelphia. Stick 6 to 8 seeds edgewise with the eye downward around each pole and later thin to 2 or 3 plants. One pound of seed of the large-seeded varieties for 75 poles.

Pole Lima
Bean

Burpee's Peas

Peas rank among the most aristocratic of all our vegetables. Their food value is exceedingly high, and the flavor, especially in the newer and improved varieties, is beyond comparison. To provide a continuous supply, the hardier round-seeded varieties are sown in spring as soon as the ground is fit. For later sowings the wrinkled-seeded kinds are preferred on account of their superior flavor, but they are less hardy. **Succession sowings should be made at intervals of 10 to 14 days during the cool weather.** Peas grow best on a light, rich, mellow soil under cool and moist weather conditions. The seed should be sown rather thickly, in double rows 4 to 6 inches apart. One pound of seed will sow 120 feet of single row. In drills 100 to 150 pounds per acre.

739 Alaska Also called "Earliest of All"! The vines grow from 20 to 30 inches in height, bearing well-filled, medium-sized pods. Matures practically the entire crop all at one time. Most popular first-early pea for canning. **Pkt. 10 cts.; ½ lb. 20 cts.; 1 lb. 35 cts.; 2 lbs. 65 cts.; 5 lbs. \$1.50, postpaid.** By express, 10 lbs. or more, at 22 cts. per lb.

731 Burpee's Best Extra-Early Ⓞ This superb PEDIGREE strain excels all other extra-early smooth peas ever offered. The vines are quite slender, of very quick growth, and average 18 to 24 inches in height. The pods are well filled, and the entire crop can generally be gathered in one picking. **Pkt. 10 cts.; ½ lb. 25 cts.; 1 lb. 40 cts.; 2 lbs. 75 cts.; 5 lbs. \$1.75, postpaid.** By express, 10 lbs. or more, at 25 cts. per lb.

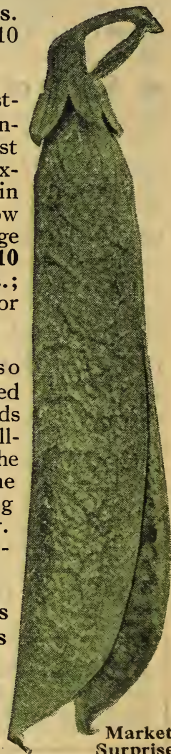

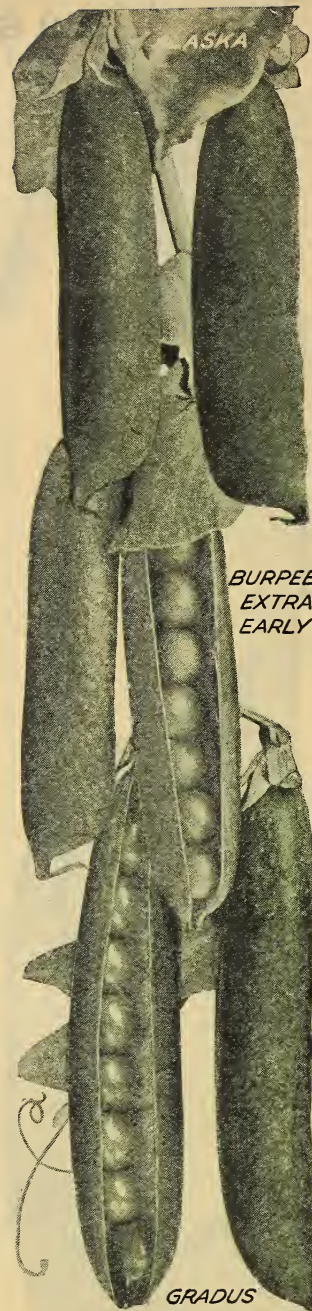

737 Prolific Extra-Early Ⓞ A large-podded extra early, bearing more pods to the plant than regular strains of extra earlys. The vines average 24 inches high. **Pkt. 10 cts.; ½ lb. 25 cts.; 1 lb. 40 cts.; 2 lbs. 75 cts.; 5 lbs. \$1.75, postpaid.** By express, 10 lbs. or more, at 25 cts. per lb.

730 Market Surprise After testing this new variety for 4 years we are now convinced that MARKET SURPRISE is the most meritorious variety of its class. It is hardy, extremely early, producing the first picking in about 65 days from planting. The vines grow 2½ feet high and bear a wonderful crop of large pods, well filled with luscious peas. **Pkt. 10 cts.; ½ lb. 25 cts.; 1 lb. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid.** By express, 10 lbs. or more, at 28 cts. per lb.

745 Extra-Early Gradus Ⓞ Also called PROSPERITY. This popular large-podded wrinkled pea of finest quality matures pods only two to five days later than the small-podded, round-seeded extra earlys. It is the best early wrinkled pea in existence. The vine has heavy stems, and grows 3 feet high, bearing

large pods, from 4 to 5½ inches in length. The peas are of the finest flavor. **Pkt. 10 cts.; ½ lb. 25 cts.; 1 lb. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid.** By express, 10 lbs. or more, at 28 cts. per lb.

746 Thos. Laxton Ⓞ This is a real rival to the famous Gradus as a long-podded, extremely early wrinkled pea, and in some respects is even better. The growth is identical, but the pods are a richer green and square at the end. In the judgment of experts, THOS. LAXTON is even sweeter and better in flavor. The fine pods mature about four days later than Gradus. **Pkt. 10 cts.; ½ lb. 25 cts.; 1 lb. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid.** By express, 10 lbs. or more, at 28 cts. per lb.

754 Burpee's Blue Bantam

The Best First-Early Dwarf Wrinkled Pea

BURPEE'S BLUE BANTAM is unequalled for its combination of extreme earliness, superb quality, and unusual productiveness. The dwarf vigorous vines average 15 inches in height and carry really enormous crops of large, deep bluish green pods. The pods measure 4 to 4½ inches long and are tightly packed with 8 to 10 large, deep bluish green peas. There are thousands of Burpee customers who would not grow any other variety of peas because they know that BURPEE'S BLUE BANTAM cannot be excelled. *Crop very short.* Pkt. 20 cts.; ½ lb. 45 cts.; 1b. 75 cts.; 2 lbs. \$1.45; 5 lbs. \$3.35, postpaid. By express, 10 lbs. or more, at 45 cts. per lb.

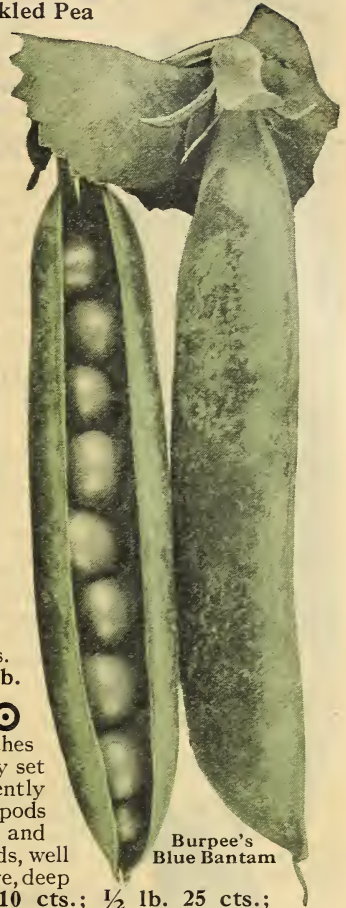

749 Premium Gem Of dwarf growth, maturing early. The vines grow from 12 to 15 inches in height, and are very productive; pods 2½ to 3 inches long, round, and well filled with large peas. PREMIUM GEM is quite well known on account of its sweet and delicious flavor. Pkt. 10 cts.; ½ lb. 25 cts.; 1b. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid. By express, 10 lbs. or more, at 28 cts. per lb.

751 American Wonder An exceedingly dwarf variety, only 8 to 10 inches high, and is a few days later than Alaska. The small pods are straight and filled with 6 to 8 large and luscious peas. Pkt. 15 cts.; ½ lb. 30 cts.; 1b. 50 cts.; 2 lbs. 95 cts.; 5 lbs. \$2.25, postpaid. By express, 10 lbs. or more, at 30 cts. per lb.

Two pounds of peas are equal to about one quart

Little Marvel

Burpee's Blue Bantam

753 Little Marvel

The vines average 15 inches in height and are heavily set with fine pods, frequently borne in pairs. The pods average 2½ inches and are square at the ends, well filled with 6 or 7 large, deep green peas. Pkt. 10 cts.; ½ lb. 25 cts.; 1b. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid. By express, 10 lbs. or more, at 28 cts. per lb.

742 Extra-Early Pilot The pods and peas are nearly as large as those of Gradus and are produced 3 days earlier. They can be planted much earlier than Gradus and, even though *not wrinkled*, the peas are almost equal in flavor; 3 feet high. Pkt. 15 cts.; ½ lb. 30 cts.; 1b. 50 cts.; 2 lbs. 95 cts.; 5 lbs. \$2.25, postpaid. By express, 10 lbs. or more, at 30 cts. per lb.

792 Discovery An extremely prolific and most thoroughbred second-early wrinkled pea of superb quality. The pods are dark green, borne in pairs, 5 to 6 inches long, and filled with 9 or 10 large and sweet peas. Pkt. 10 cts.; ½ lb. 25 cts.; 1b. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid. By express, 10 lbs. or more, at 28 cts. per lb.

Alderman

Senator Improved

785 Alderman  See illustration of natural size pods, from a photograph. Similar in growth and appearance to Boston Unrivaled, maturing about 5 days later. The haulm grows 5 feet in height and is of a rich dark green coloring. The pods frequently measure nearly 6 inches in length and contain 8 or 9 very large peas of superior flavor. Pkt. 10 cts.; 1/2 lb. 25 cts.; 1 lb. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid. By express, 10 lbs. or more, at 28 cts. per lb.

755 Nott's Excelsior  This is a very fine, highly bred variety of close, compact, dwarf growth, with fine pods, fully one-third larger than those of the American Wonder, and maturing almost as early. The pods average 3 inches in length. They are well filled to the ends with peas of large size and unusually sweet flavor. So closely are the peas packed in the pods that they are flattened against each other at the sides, as in the Potato Limas. Pkt. 15 cts.; 1/2 lb. 30 cts.; 1 lb. 50 cts.; 2 lbs. 95 cts.; 5 lbs. \$2.25, postpaid. By express, 10 lbs. or more, at 30 cts. per lb.

765 Burpee's Profusion  The vines grow 3 feet in height and branch freely. The pods are borne in pairs; they measure 3 1/2 inches in length, closely filled with 7 to 9 peas. A quality variety of fine flavor. Pkt. 10 cts.; 1/2 lb. 25 cts.; 1 lb. 40 cts.; 2 lbs. 75 cts.; 5 lbs. \$1.75, postpaid. By express, 10 lbs. or more, at 25 cts. per lb.

783 Boston Unrivaled 

The vines grow nearly 5 feet high, and are covered with fine large pods. The pods are 5 inches long by 3/4 inch broad, each containing 7 or 8 enormous peas. The flavor of BOSTON UNRIVALED is unusually sweet. Pkt. 15 cts.; 1/2 lb. 30 cts.; 1 lb. 50 cts.; 2 lbs. 95 cts.; 5 lbs. \$2.25, postpaid. By express, 10 lbs. or more, at 30 cts. per lb.

Boston Unrivaled

758 Senator Improved 

A prolific variety, bearing a large crop of fine pods, tightly packed with 6 to 8 large peas. A most wonderful cropper of excellent quality. Pkt. 10 cts.; 1/2 lb. 20 cts.; 1 lb. 40 cts.; 2 lbs. 75 cts.; 5 lbs. \$1.75, postpaid. By express, 10 lbs. or more, at 25 cts. per lb.

789 Potlatch or IMPROVED STRATAGEM The pods are of immense size, well filled with large, dark green peas. Pkt. 10 cts.; 1/2 lb. 20 cts.; 1 lb. 40 cts.; 2 lbs. 75 cts.; 5 lbs. \$1.75, postpaid. By express, 10 lbs. or more, at 25 cts. per lb.

750 Sutton's Excelsior A very productive variety, growing 20 to 24 inches in height. The pods are filled with fine peas. Pkt. 10 cts.; 1/2 lb. 20 cts.; 1 lb. 40 cts.; 2 lbs. 75 cts.; 5 lbs. \$1.75, postpaid. By express, 10 lbs. or more, at 25 cts. per lb.

773 Telephone The plants grow 4 to 5 feet tall. Large pods, well filled with delicious peas. Pkt. 15 cts.; 1/2 lb. 30 cts.; 1 lb. 50 cts.; 2 lbs. 95 cts.; 5 lbs. \$2.25, postpaid. By express, 10 lbs. or more, at 30 cts. per lb.

2 lbs. of Peas equal 1 quart

784 Quite Content See illustration.

This is the largest-podded pea in existence. The haulm attains a height of $5\frac{1}{2}$ to 6 feet and the vines are practically covered with handsome pods. The pods are truly gigantic in size, measuring from 5 to $6\frac{1}{2}$ inches in length and closely filled with large sweet peas. One of the very best of the main-crop varieties and is extensively grown for market. Pkt. 15 cts.; $\frac{1}{2}$ lb. 35 cts.; 1b. 60 cts.; 2 lbs. \$1.15; 5 lbs. \$2.65, postpaid. By express, 10 lbs. or more, at 35 cts. per lb.

799 Champion of England

The strong-growing and much branched vines measure 4 to 5 feet high and they bear an immense crop of fine pods. The pods are borne in pairs $3\frac{1}{2}$ to 4 inches long and they are filled with large delicious peas. Pkt. 15 cts.; $\frac{1}{2}$ lb. 30 cts.; 1b. 50 cts.; 2 lbs. 95 cts.; 5 lbs. \$2.25, postpaid. By express, 10 lbs. or more, at 30 cts. per lb.

800 Dwarf Champion or JUNO

This is a dwarf-growing strain of the Champion of England, producing a fine crop of delicious, large size peas. Pkt. 10 cts.; $\frac{1}{2}$ lb. 25 cts.; 1b. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid. By express, 10 lbs. or more, at 28 cts. per lb.

793 Carter's Daisy or DWARF TELEPHONE See illustration.

The vines, though growing only about 18 inches in height, are very stout, and generally bear a good crop of large, well-filled pods. The pods average 5 inches in length, containing 7 to 9 large light green peas. CARTER'S DAISY is a late variety. Pkt. 10 cts.; $\frac{1}{2}$ lb. 25 cts.; 1b. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid. By express, 10 lbs. or more, at 28 cts. per lb.

786 British Wonder

The vines grow 15 to 18 inches high and produce an abundance of dark green peas of luscious flavor. A most reliable variety and a huge cropper. Pkt. 10 cts.; $\frac{1}{2}$ lb. 25 cts.; 1b. 40 cts.; 2 lbs. 75 cts.; 5 lbs. \$1.75, postpaid. By express, 10 lbs. or more, at 25 cts. per lb.

815 Mammoth Melting Sugar See illustration.

This is one of the best known of all edible-podded peas. The vines grow luxuriantly and reach a height of 6 to 7 feet. In contrast to the other varieties, described above and on the previous pages, this variety does not have the hard membrane which lines the inside of the pod in all the others. The whole pod is fleshy and tender. The pods are borne in great profusion all over the vine and they should be gathered when the seeds are just beginning to form. They are broken in pieces the same as string beans and make a delicious and palatable dish. Pkt. 15 cts.; $\frac{1}{2}$ lb. 35 cts.; 1b. 65 cts.; 2 lbs. \$1.25; 5 lbs. \$2.85, postpaid. By express, 10 lbs. or more, at 38 cts. per lb.

A very fine edible-podded pea

Burpee's Sweet Corn

As a general rule, sweet corn may be planted when all danger of frost has passed. In the vicinity of Philadelphia the last week of April is usually right for Golden Bantam and early May for the other, less hardy, varieties. Plant the seed in rows from 2 to 3½ feet apart, spacing the kernels 3 to 4 inches apart in the row. Cover with 1 to 2 inches of fine soil and press down firmly. For a continuous supply of fresh ears, make succession sowings every 10 to 14 days up to July 1st. Thin to stand one foot apart when the plants are 5 to 6 inches tall. One pound of seed spaced by hand 3 to 4 inches apart is sufficient for 500 feet of row; 10 pounds per acre planted in hills.

Early Fordhook

305 Early Fordhook Ⓞ (*Burpee's*) See illustration. This is one of the largest-eared extra earlies, the ears averaging 6 to 7 inches in length. It is 2 to 3 days earlier than the Cory, of better flavor, and has both grains and cob of pure white.

The ears are 8-rowed, with quite small cob and deep grains. EARLY FORDHOOK is, in our opinion, the finest early white sweet corn in existence. It is remarkably sweet and has a most delicate and tasty flavor. Pkt. 10 cts.; ½ lb. 25 cts.; 1 lb. 40 cts.; 2 lbs. 75 cts.; 5 lbs. \$1.75, postpaid. By express, 10 lbs. or more, at 25 cts. per lb.

314 Burpee's Sweet Orange Ⓞ A most desirable second-early or midseason variety, from 6 to 7 feet in height, and producing an average of 2 good ears to a stalk. The ears are 5 days to a week later than Golden Bantam, and make a perfect succession to it. They are from 6 to 7 inches in length, with 12 or 14 rows of deep, rather slender grains of a light canary-yellow. Of strong growth, with ears well filled and grains exceptionally sweet. Grains remain soft and tender for a longer period than any other second-early sweet corn. Pkt. 10 cts.; ½ lb. 20 cts.; 1 lb. 35 cts.; 2 lbs. 65 cts.; 5 lbs. \$1.50, postpaid. By express, 10 lbs. or more, at 22 cts. per lb.

311 Burpee's Early Cosmopolitan This variety matures only a few days later than Cory or Early Fordhook. The stalks grow 5 to 6 feet high. The ears are of most handsome appearance, 7 to 9 inches long, with 10 or more rows of large grains. The cob is pure white and the ear is well filled, the grains at the top giving a round end to the ear. Of excellent quality. Pkt. 10 cts.; ½ lb. 25 cts.; 1 lb. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid. By express, 10 lbs. or more, at 28 cts. per lb.

302 Burpee's Earliest Catawba Ⓞ The stalks grow from 4 to 4½ feet high, setting 1 to 3 fine ears to the stalk. The entire plant—stalks, tassels, and leaves—is shaded with red. The ears are from 6 to 7 inches long, rather slender, and just the right size to eat from the cob. When ready for use the grains are pearly white, slightly flushed with rose-pink. The dry seeds are rich purple. BURPEE'S EARLIEST CATAWBA is remarkably sweet and delicious in flavor. It is tender and very juicy. Pkt. 15 cts.; ½ lb. 30 cts.; 1 lb. 50 cts.; 2 lbs. 95 cts.; 5 lbs. \$2.25, postpaid. By express, 10 lbs. or more, at 30 cts. per lb.

340 Black Mexican A medium-early variety, growing about 6 feet in height; ears 8 inches long, well filled with 8 rows of large, rather flat grains, which are a bluish purple, of deliciously sweet flavor. BLACK MEXICAN has a reputation for sweetness and quality. Pkt. 10 cts.; ½ lb. 25 cts.; 1 lb. 40 cts.; 2 lbs. 75 cts.; 5 lbs. \$1.75, postpaid. By express, 10 lbs. or more, at 25 cts. per lb.

329 Golden Giant A cross between Burpee's Golden Bantam and Burpee's Howling Mob. It matures about a week after Golden Bantam. A strong grower and very productive. Of excellent quality. Pkt. 15 cts.; ½ lb. 30 cts.; 1 lb. 50 cts.; 2 lbs. 95 cts.; 5 lbs. \$2.25, postpaid. By express, 10 lbs. or more, at 30 cts. per lb.

337 Country Gentleman Sweet Corn

See illustration. A very productive variety, with large ears and irregularly arranged, slender, deep grains. The ears are desirable in most localities as a market variety. Of very fine quality.

Pkt. 10 cts.; 1/2 lb. 20 cts.; 1 lb. 35 cts.; 2 lbs. 65 cts.; 5 lbs. \$1.50, postpaid. By express, 10 lbs. or more, at 22 cts. per lb.

335 Stowell's Evergreen The leading main-crop variety for home use, market, and canning. Our stock is carefully selected. The grains, of good size, are long and slender, entirely free from glaze or flintiness. The variety is well known and widely grown on account of its sweetness and good canning properties. A few days later than Burpee's White Evergreen. Pkt. 10 cts.; 1/2 lb. 20 cts.; 1 lb. 35 cts.; 2 lbs. 65 cts.; 5 lbs. \$1.50, postpaid. By express, 10 lbs. or more, at 22 cts. per lb.

315 Crosby's Early  Twelve-rowed. A second-early variety; ears 7 inches long, with 10 or 12 rows of fine grains. When of the proper size, the kernels are sweet and tender. An excellent variety for late planting. Pkt. 10 cts.; 1/2 lb. 20 cts.; 1 lb. 35 cts.; 2 lbs. 65 cts.; 5 lbs. \$1.50, postpaid. By express, 10 lbs. or more, at 22 cts. per lb.

313 Early Minnesota A standard early variety of strong growth. Ears larger than Cory and matures before the Crosby; 8 rows. Widely grown for market. Pkt. 10 cts.; 1/2 lb. 20 cts.; 1 lb. 30 cts.; 2 lbs. 55 cts.; 5 lbs. \$1.25, postpaid. By express, 10 lbs. or more, at 18 cts. per lb.

345 Extra-Early Adams This is **not a sweet or sugar corn**, and the distinction should be kept carefully in mind by gardeners. Because of exceptional hardiness, it is largely used in the Southern States as well as in some of the cooler northern sections for an extra-early planting of table corn. Although the dry grain is smooth and hard, the young grain is tender, milky, and quite sweet-flavored. Of dwarf growth, 6 to 7 feet in height, with 2 thick, medium-sized ears, and is a week to 10 days earlier than any other table corn. Pkt. 10 cts.; 1/2 lb. 20 cts.; 1 lb. 30 cts.; 2 lbs. 55 cts.; 5 lbs. \$1.25, postpaid. By express, 10 lbs. or more, at 18 cts. per lb.

POP CORN

The seed should be sown in rows 3 feet apart about the time beans can be planted. Always sow more than one row, no matter how short the rows, so that the ears will be properly pollinated. Cover the seed 2 to 3 inches deep with fine soil, and thin the plants to stand 10 to 12 inches apart in the row. The ears should be allowed to dry out very thoroughly as otherwise the seeds will not pop properly. One ounce will sow 40 feet of row; 4 pounds per acre in hills.

353 Queen's Golden  Stalks grow 6 feet high, with large ears produced in abundance. It pops perfectly white, and a single kernel will expand to a diameter of nearly one inch. Pkt. 10 cts.; 1/2 lb. 20 cts.; 1 lb. 35 cts.; 2 lbs. 65 cts.; 5 lbs. \$1.50, postpaid. By express, 10 lbs. or more, at 22 cts. per lb.

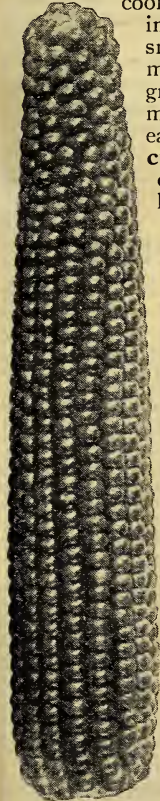

By express, 10 lbs. or more, at 22 cts. per lb.

355 White Rice This is a most popular variety, bearing 3 or 4 small but attractive ears on a stalk. The pearly-white grains are pointed, resembling rice kernels in shape. They are set closely around a small cob and are protected by a thick and strong husk. The dried kernels pop to large size and have a delicious flavor. Pkt. 10 cts.; 1/2 lb. 20 cts.; 1 lb. 30 cts.; 2 lbs. 55 cts.; 5 lbs. \$1.25, postpaid. By express, 10 lbs. or more, at 18 cts. per lb.

Country Gentleman Sweet Corn

Queen's Golden

Three Grand Burpee Varieties of Sweet Corn

301 Burpee's Golden Bantam

BURPEE'S GOLDEN BANTAM is the most famous sweet corn in the world and was introduced by Burpee 21 years ago. *It is the richest and sweetest of all varieties of sweet corn.* GOLDEN BANTAM is an extra early variety, maturing one to two weeks before any other true sweet corn is ready for use. The plants are dwarf but stocky. They grow from 4 to 5 feet high and usually carry two ears on a stalk.

GOLDEN BANTAM is a very hardy variety and it is safe to plant the seed a week before other sweet corn can be planted. The flavor of GOLDEN BANTAM is entirely distinct. It is not only the sweetest but *surpasses all others by its rich buttery flavor.* It is, therefore, used extensively for canning on the cob.

The ears grow about 5 to 6 inches long and are of very handy size to be eaten from the cob. The kernels are broad and deep and exceptionally meaty, whereas the skin around the kernels is thin and tender. We have been assured by Golden Bantam enthusiasts that GOLDEN BANTAM is the most palatable of all sweet corn. **Pkt. 10 cts.; ½ lb. 25 cts.; 1b. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2.00, postpaid.** By express, 10 lbs. or more, at 28 cts. per lb.

310 Burpee's Howling Mob

When this new sweet corn was first introduced at market by the originator, it became so popular that crowds gathered about his stand. Really, a mob howled for this delicious corn, and so it was named HOWLING MOB.

HOWLING MOB is one of the best flavored and most tender of all second-early white sweet corns. It matures right after Golden Bantam and makes a perfect succession to this fine variety. Ears of HOWLING MOB measure from 7 to 9 inches in length and they are closely set with 12 or 14 rows of large, pearly white grains.

HOWLING MOB is a strong-growing and sturdy variety, usually carrying two ears to a stalk. *It is very productive and, without question, the earliest white sweet corn of really high quality.* It is grown extensively on a large scale for early market, where it usually commands a high price on account of its earliness, unusually attractive appearance, and unsurpassed quality, but it should also be included in every home garden, since it is easily grown and yields a fine crop of ears. **Pkt. 10 cts.; ½ lb. 30 cts.; 1b. 50 cts.; 2 lbs. 95 cts.; 5 lbs. \$2.25, postpaid.** By express, 10 lbs. or more, at 30 cts. per lb.

333 Burpee's White Evergreen

Burpee's White Evergreen is the most widely grown and the finest of all mid-season varieties for the home garden or canning. Compared with Stowell's

Evergreen the ears are fully as large, but they mature about 5 days earlier and are superior in flavor. The large grains are closely set in rows around a small core and they are very deep. Usually 16 or more rows can be counted on the heavy ears.

The husk of BURPEE'S WHITE EVERGREEN is strong and thick, serving as a protection against insects and bad weather, and it is also an assurance that the corn will reach the market in better condition than if the ears were not covered in this way.

The most valuable feature of BURPEE'S WHITE EVERGREEN is the extreme whiteness of the kernels. The flavor is remarkably sweet. *It retains its delicate flavor and pure white color* when put up in cans, as distinct from the yellowish tinge found in Stowell's Evergreen. **Pkt. 10 cts.; ½ lb. 25 cts.; 1b. 40 cts.; 2 lbs. 75 cts.; 5 lbs. \$1.75, postpaid.** By express, 10 lbs. or more, at 25 cts. per lb.

Vegetable Fruits

Under the heading Vegetable Fruits will be found some of our most delicious vegetables. Muskmelons and watermelons, with their delicate and sweet flavor, have no equal. Others, such as tomatoes and cucumbers, have a most refreshing taste and are excellent when served raw. Pumpkins and squashes stand altogether alone and deserve special attention, as they add to our list of vegetables for winter use. Most vegetable fruits do best on a light soil and develop to perfection in rather warm locations.

BURPEE'S MUSKMELON

The most suitable soil for melons is a warm, sandy loam, well worked and enriched with old compost. Sow the seed in slightly raised hills, 4 to 6 feet apart each way. Eight to 10 seeds are placed in each hill in a circle and are covered with an inch of fine soil. Melons thrive best on well-rotted compost, and a shovelful of old manure should be placed about ½ foot deep under each hill and firmly tramped down. The seed should be planted after the soil has warmed up and the weather is quite settled—about the middle of May. One ounce of seed for 40 to 50 hills; 2 to 5 pounds per acre.

574 Burpee's Fordhook Muskmelon ⊙

Very thick, orange-yellow flesh, small seed cavity, and comparatively few seeds. The flesh is solid and of **very fine flavor**, staying solid and firm after the melon has become quite yellow. The vines are healthy and strong growers, setting fruit close to the hills, and continuing to set fruit to the ends of the vines throughout the season. The fruits are of handy size and of an attractive flattened shape. They are well ribbed and heavily netted. Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; 1b. \$1.50, postpaid.

544 Burpee's Netted Gem ⊙

The Original Rocky Ford. The variety grown at Rocky Ford, Colorado, under the name of ROCKY FORD, is the NETTED GEM which Burpee has the distinction of originating and introducing in 1881. This is the most popular and finest of all green-fleshed melons. The vines are of strong healthy growth, comparatively short, and branch freely. They set a large number of fruits close to the hill. The melons are even and regular in size and form, nearly round or slightly oval. A pure ROCKY FORD cantaloupe when ripe has a silver colored netting which is lace-like in appearance. The skin is green, turning to a peculiar gray color when the melon is fit for shipping. **The flesh is green and so sweet and luscious that it may be eaten close to the rind.** The melons have a small seed cavity, and the portion of the flesh immediately surrounding it is tinged with a beautiful golden yellow. The melons weigh about 1½ pounds each and are very solid and firm.

BURPEE'S NETTED GEM has become the most widely known of all cantaloupes. Our stock of NETTED GEM has been improved every year by careful selection of the finest plants having the most desirable characteristics. It is a melon which is known for its good qualities by almost all housewives. Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; 1b. \$1.35, postpaid.

575 Burpee's Emerald Gem ⊙

This has long been acknowledged the most delicious in flavor. There are many growers who have had extensive opportunities to test this variety and who declare that it is **unequaled in sweetness.** BURPEE'S EMERALD GEM is particularly valuable because it is **very early maturing** and can, therefore, be grown in many sections which are otherwise too cool to grow any muskmelons at all. It is primarily a garden variety, but is used extensively by market growers who can take the melons to a nearby market. On account of its thin rind it is not suited for shipping to distant markets. EMERALD GEM is enormously productive. If the fruits are gathered as soon as they ripen, the vines will continue in bearing throughout the season. BURPEE'S EMERALD GEM is a most excellent melon. It is of convenient size, with broad ribs and of a most attractive rich dark green color. It is free from any netting and very smooth. The flesh is thicker than that of any other melon of the same size. The color is a **beautiful rich salmon** ripening thoroughly close to the rind. The flavor is sweet and luscious beyond description. We have always taken the utmost care in growing our special strain of EMERALD GEM to preserve all its wonderful qualities.

7066 Muskmelon Collection

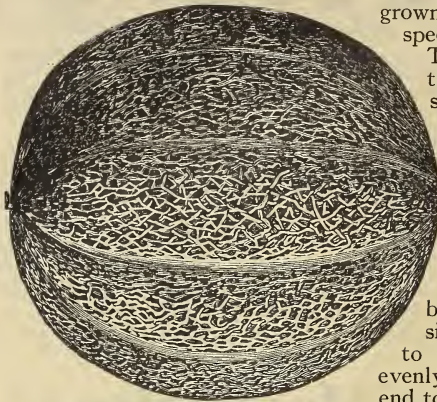

This wonderful collection contains one packet each of the 3 superb Muskmelons described on this page and **illustrated in full colors on the opposite page.** All three are Burpee introductions which have gained fame wherever muskmelons are grown. The collection (value 30 cts.) will be mailed to any address, postpaid, for

25c

Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; 1b. \$1.50, postpaid.

566 Burpee's Champion Market Muskmelon

See illustration. BURPEE'S CHAMPION MARKET is extensively grown where large size melons are wanted. Individual specimens range from 4 to 5½ pounds each in weight. They are of uniform size and shape. The flesh is thick, light green in color, and of very rich, sweet flavor. They are nearly round. The vines are vigorous, remarkably healthy, and very productive, bearing as many as 7 perfect melons on a single plant. It is an excellent shipping variety. **Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; 1b. \$1.50, postpaid.**

Burpee's Champion Market

546 Burpee's Matchless

See illustration. This fine melon was introduced by Burpee in 1901. The fruits run very regular in size, form, and coloring, and are desirable for shipping to distant markets. The fruits are oval, tapering evenly at each end, and averaging 6 inches in length from end to end and about 5 inches in diameter at the center. They run a little more than 2 pounds in weight. The melons

are well ribbed, the skin is finely netted, of a light greenish yellow when ripe.

The flesh is light green, with a rich golden tint where it borders on the seed cavity. The flesh is firm and solid, yet it is luscious and of rich sugary flavor. **Pkt. 15 cts.; oz. 40 cts.; ¼ lb. \$1.20; 1b. \$4.00, postpaid.**

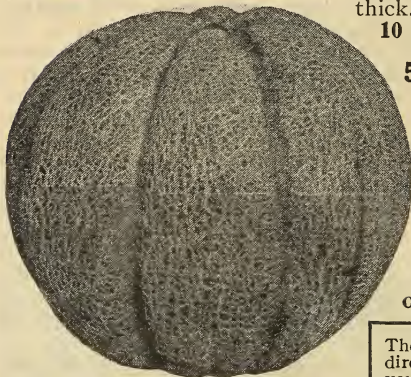

Burpee's Matchless Muskmelon

Extra-Early Hackensack

554 Extra-Early Hackensack

See illustration. This is a favorite melon in the New York markets. It is an improvement on the old Hackensack or Turk's Cap, maturing 10 days earlier. The vines are vigorous and quite resistant to disease. The handsome fruits are of a uniform size and are borne with the greatest freedom. The flavor is deliciously sweet. The melons are of good size, and are heavily ribbed and netted; of attractive appearance. The flesh is a beautiful light green and quite thick. Just as good for the home garden as for market. **Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; 1b. \$1.35, postpaid.**

Montreal Green Nutmeg

562 Montreal Green Nutmeg

(Burpee's) *See illustration.* The fruits are almost round, flattened at the ends, deeply and very regularly ribbed. The skin is rich green, covered with a dense netting. The flesh is remarkably thick, of a beautiful light green color. The flavor is simply delicious. The fruits measure 6½ inches in diameter and are very heavy. They weigh on an average of from 16 to 22 pounds. An excellent melon for all purposes. **Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; 1b. \$1.50, postpaid.**

The Burpee Leaflet, "MELONS FOR ALL," gives complete cultural directions for growing muskmelons and watermelons, and will help you raise these luscious fruits. Ask for a free copy with your order.

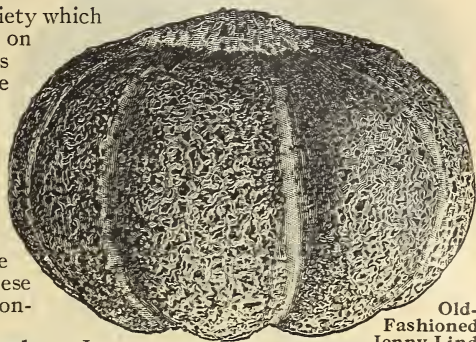

550 Old-Fashioned Jenny Lind Muskmelon ©

The Very "Sweetest of All" Green-Fleshed Melons!

See illustration. This is a home-garden variety which has enjoyed great popularity for many years on account of its unsurpassed flavor. The melons are of a distinctly flattened type. They are handy in size, measuring $3\frac{1}{2}$ to $4\frac{1}{2}$ inches in diameter by $2\frac{1}{2}$ to 3 inches from stem to blossom end.

OLD-FASHIONED JENNY LIND shows a characteristic knob or button on the blossom end of the fruit, as can be seen in our illustration. The skin is very heavily netted, which is considered a sign of quality in muskmelons. The seed cavity is comparatively small so that these little gems have an unusual amount of flesh, considering their size.

The flesh is of a *beautiful light green color*. It is juicy yet crisp. This true OLD-FASHIONED JENNY LIND has a flavor all its own. The flavor is not only sugary sweet, but it has a rich and delightful aroma. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.60, postpaid.

Old-Fashioned Jenny Lind

555 Honey Dew Melon

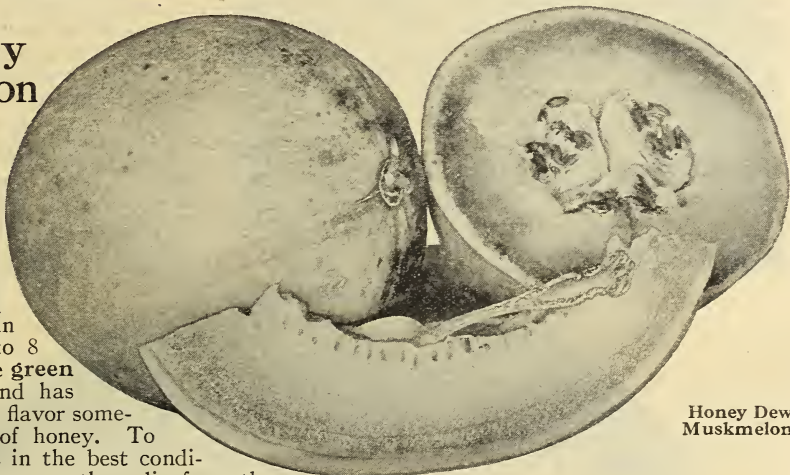

HONEY DEW requires a longer and warmer season than other melons. The fruits with smooth, almost white rind, measure

about 6 inches in diameter by 7 to 8 inches long. The green flesh is thick and has

a peculiar sweet flavor somewhat like that of honey. To

have the melons in the best condition, gather as soon as they slip from the

vine and store them in a cool place for 2 or 3 days, as they are at their best when apparently a trifle overripe. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.35, postpaid.

Honey Dew Muskmelon

Salmon-Fleshed Muskmelons

580 Salmon-Tint Pollock No. 10-25 © *See illustration.* This is an early

melon of the solid netted type that is so desirable. Very small seed cavity, with *thick, luscious flesh of genuine salmon tint shading to green near the rind*. A

splendid keeper that stands shipping and always arrives in the best possible condition. It has

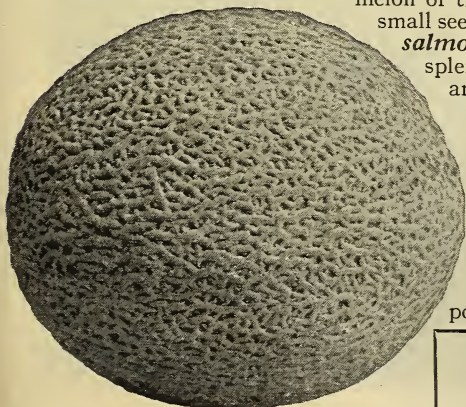

been successful in the East, in the West, and in the South. It is a prolific yielder and has been

pronounced by every one who has used it as the ultimate in salmon-fleshed melons. A re-

selected and much improved strain of the original Pollock and Salmon-Tint Pollock No. 25. Exclusively planted by the cantaloupe

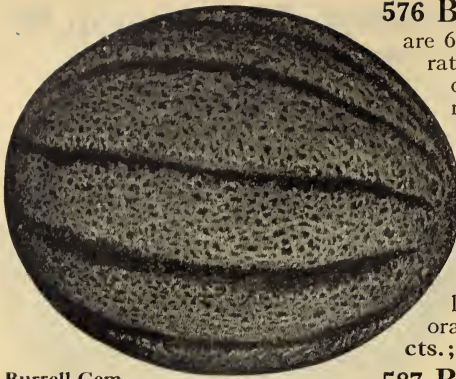

growers of the Rocky Ford district. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 40 cts.; lb. \$1.15,

postpaid.

Salmon-Tint Pollock No. 10-25

BURPEE—PHILADELPHIA
is sufficient for letter, telegram, or cable

Burrell Gem

576 Burrell Gem See illustration. The fruits are 6 to 7 inches long by 4½ to 5 inches in diameter, rather sharply sloping at the ends. Well ribbed and covered with a fine grayish netting. The skin is a rich dark green, contrasting strongly with the deep orange-salmon flesh; sweet and tender. The flesh is thick and firm, ripening close to the skin. Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; lb. \$1.20, postpaid.

577 Osage or MILLER'S CREAM Larger than Emerald Gem; nearly round in form, but having the same distinct dark green skin with lighter bands between the ribs, and thick, firm, orange flesh of fine quality. Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; lb. \$1.50, postpaid.

587 Banana Long fruits having a banana-like aroma. The fruits are from 15 to 20 inches in length, and from 4 to 6 inches in diameter. The salmon flesh is thick and delicious in flavor. An excellent home garden variety. Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; lb. \$1.35, postpaid.

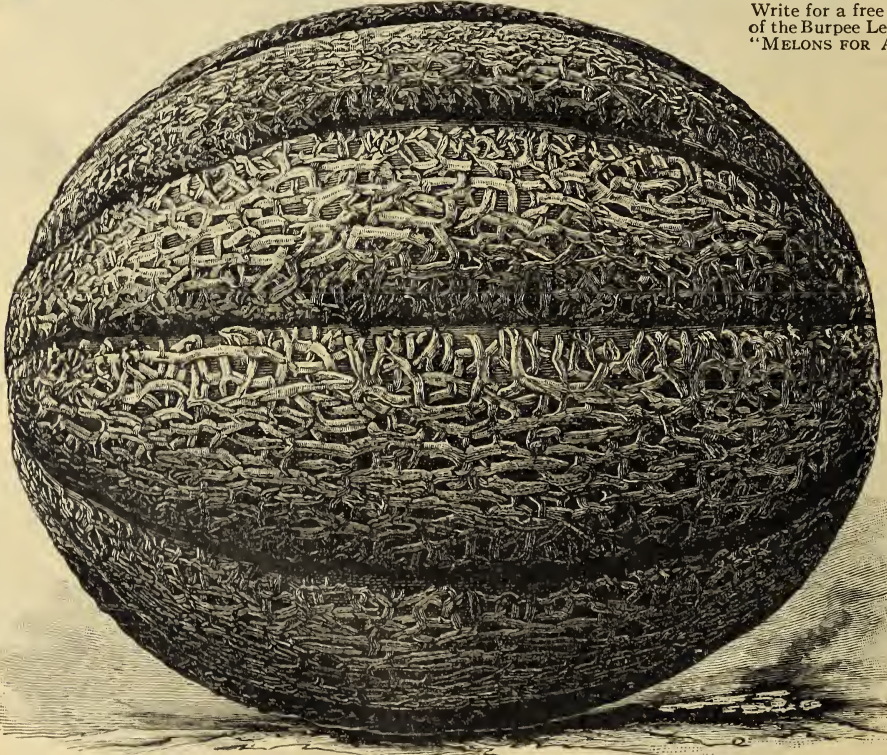

578 Burpee's Spicy Ⓞ This is most distinct, both in appearance and in peculiarly rich sugary flavor. The rind is of cream color, changing to a grayish yellow as the melons mature, when the skin becomes also slightly marked with a delicate white netting, like a cobweb. The melons run quite uniform, measuring from 8 to 10 inches in length by 6 to 7 inches in diameter, and are always firm. The juicy flesh is a deep rich salmon color, frequently 2 inches thick, entirely stringless, and exceptionally luscious in flavor—most tender and practically melting in the mouth. It is impossible to buy such a fine melon in any market. Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; lb. \$1.50, postpaid.

585 Burpee's Golden Eagle Ⓞ See illustration. Large fruits, 10 inches in length and 7 inches in diameter; heavily ribbed and netted, with skin of a light golden hue when ripe. The thick flesh is of a rich salmon, sweet and melting, with a delightful aroma. It is particularly desirable for heavy soils, and continues bearing throughout the season. Pkt. 15 cts.; oz. 35 cts.; ¼ lb. \$1.00 lb. \$3.00, postpaid.

Burpee's Golden Eagle

Burpee's Watermelon

Rich, rather sandy soils produce the finest crops of watermelons, but a well-drained loam, especially with a southern exposure, is also well suited. Two shovelfuls of well-decomposed manure should be mixed with the soil of each hill. Watermelons should not be planted until the weather is quite warm. The plants grow vigorously, and for this reason the hills should be about 6 to 8 feet apart. Stick 6 to 8 seeds edgewise, with the eye downward, in a circle in each hill, and cover $\frac{1}{2}$ inch deep with fine soil. When the plants begin to vine, thin each hill to the best two plants. One ounce will plant 20 to 25 hills; 4 to 5 pounds per acre.

588 Burpee's Fordhook Early  BURPEE'S FORDHOOK EARLY was introduced by us in 1908. It immediately became very well known on account of its extra-early maturity. BURPEE'S FORDHOOK EARLY Watermelon will ripen in sections too cool to grow a good crop of any other watermelon. There is no other melon of such large size which

can make this claim. If you have been under the impression that you could not grow watermelons in your garden on account of the short season and comparatively cool weather, we would suggest that you make a trial with BURPEE'S FORDHOOK EARLY. If this will not mature with you, you will definitely know that your climate is not suitable. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.25, postpaid.

Burpee's Fordhook Early
Reproduced from a photograph

593 Burpee's Baby-Delight

BABY-DELIGHT is a "real" watermelon, of luscious sweetness but diminutive size. The ripe melons

weigh only from 3 to 6 pounds each. The skin is lustrous dark green, the rind thin but strong.

The rich carmine crystalline flesh is always solid and of exceptionally sweet flavor. It is prolific and a fine home garden variety of extra-early maturity. Pkt. 10 cts.; oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.; lb. \$2.50, postpaid.

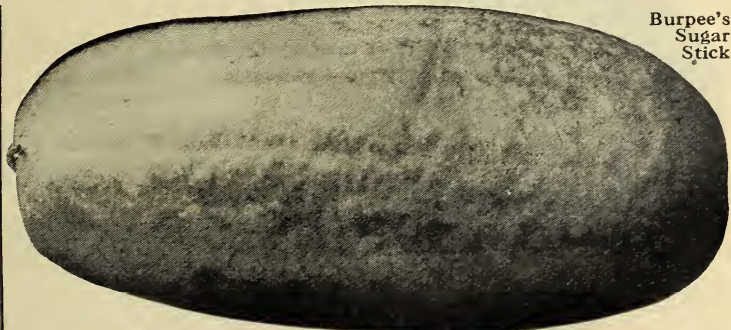

611 Burpee's Halbert Honey  The finest of all watermelons for the home garden and local markets. We class BURPEE'S HALBERT HONEY as one of the leading watermelons. It grows to enormous size (18 to 20 inches long) and bears a large crop of fruits. A luscious, superb variety, with beautiful crimson flesh.

Rich deep green skin. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 40 cts.; lb. \$1.15, postpaid.

601 Burpee's Sugar Stick  A large melon of finest flavor. The vines are of strong, vigorous growth, setting large melons in good number, measuring from 20

inches to 2 feet in length, with an average weight of 30 pounds. The rind is thin and tough. The skin is light grayish green, with narrow darker green lines, giving a mottled effect of small half-inch squares. The flesh is a deep rich red, with broad solid heart, crisp and sugary. A luscious variety that is grown quite extensively in the middle Southern States. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.50, postpaid.

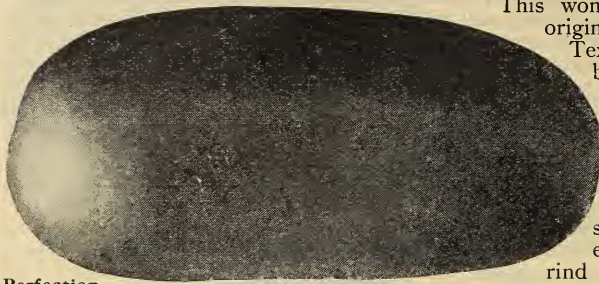

The cost of the very best seeds is so small compared with the value of the resulting crops that sensible planters know they cannot afford to risk seeds of doubtful pedigree—and we know just as well that we cannot afford to risk our hard-earned reputation by selling stock of uncertain character.

Burpee's
Sugar
Stick

621 Perfection Watermelon

A Great and Important New Watermelon

Perfection

pressure. The luscious flesh is well protected by the strong rind and will keep in good condition for a week or ten days after the fruits have fully ripened. The flesh is of a dark red color. It is sweet and free from fiber or strings, yet of firm texture. We highly recommend this variety to all market growers. Pkt. 10 cts.; oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.; lb. \$2.50, postpaid.

This wonderful new watermelon has been originated by Mr. Halbert, of Coleman, Texas. After many years of careful breeding he has succeeded in creating a new melon which has all the qualities of a good shipper and yet combines with it the wonderful lusciousness found previously only in the tender-skinned watermelons.

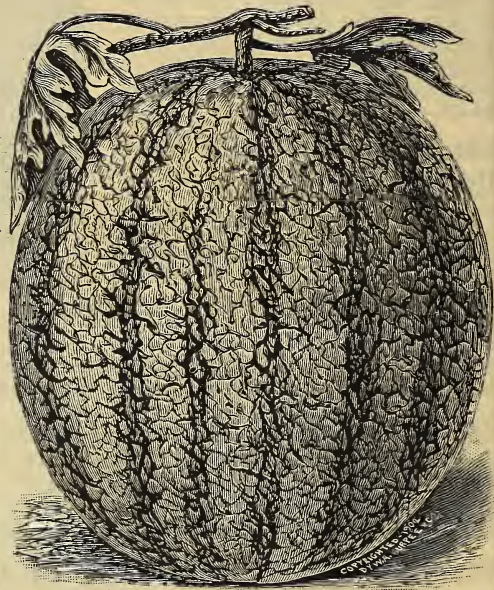

PERFECTION grows to enormous size, weighing from 50 to 75 pounds each. It is oval in shape and the rind is a dark glossy green, thin, but unusually tough and resistant to knocks and

606 Sweet Heart The large heavy fruits are of oval or round form. The skin is very pale green, with distinct netted lines of a slightly darker shade. The melons bear shipping well. The flesh is deep red, luscious and sweet. Pkt. 5 cts.; oz. 15 cts.; $\frac{1}{4}$ lb. 30 cts.; lb. 95 cts., postpaid.

628 Florida Favorite A large, oblong melon, with dark green skin, faintly striped with a still deeper shade; deep red flesh of excellent flavor. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 40 cts.; lb. \$1.10, postpaid.

634 Ice Cream or **PEERLESS** An oblong melon with dark green skin. The flesh is sweet; of a deep pink color. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 40 cts.; lb. \$1.10, postpaid.

633 Shaker Blue Sometimes called "White-Seeded Triumph," with melons as large as the Triumph, but of much better flavor and even handsomer in appearance. The fruits are round-oval, 16 to 18 inches long by 12 to 15 inches in diameter. The skin is dark green, striped with narrow bands of lighter green. The flesh is a beautiful rich red. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.20, postpaid.

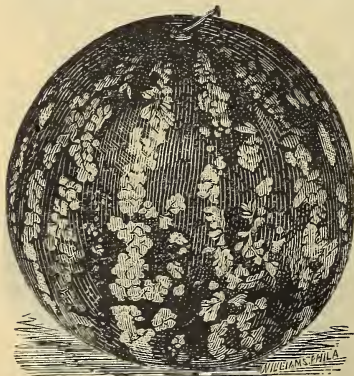

Sweet Heart

590 Cole's Early A very early variety with small fruits. The skin is green, striped with white. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.20, postpaid.

644 Luscious Golden-Sweet The rind is dark green and the bright golden yellow flesh extends very close to the rind. The firm meat is of a luscious, sugary flavor. The melons average about 20 pounds in weight. A really delicious yellow-fleshed watermelon and unquestionably the best in its class. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.15, postpaid.

645 Colorado Preserving or **CITRON** This is a large-fruited strain of Citron for preserving. The flesh is solid and practically white. The seeds are olive-green. It makes delicious preserves. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.25, postpaid.

Colorado Preserving

608 KLECKLEY SWEETS (BURPEE'S) Ⓞ

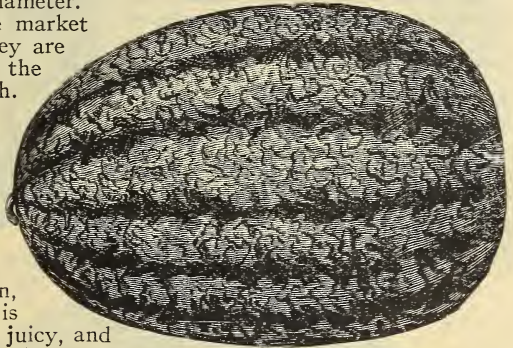

This Burpee stock of KLECKLEY SWEETS, which is grown by the originator, is one of the finest strains of watermelon in existence. It is, without question, the most desirable variety to plant for home use or nearby markets. The fruits are very attractive, oblong in form, and have a glossy dark green skin. The rind is unusually thin, with the flesh ripening close to it. The color of the flesh is a beautiful bright scarlet. The heart is broad and remarkably solid. The white seeds are placed close to the rind. The melons average 18 to 20 inches in length by 10 to 12 inches in diameter.

The melons are seldom found in the market because, on account of their thin rind, they are not suited for shipping. Seed grown by the originator, Mr. Kleckley, on his Texas ranch. Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; lb. \$1.50, postpaid.

596 Burpee's Cuban Queen Ⓞ

This variety was first offered by us in 1881.

The melons are of large size, oblong in form, slightly tapering at the stem end. The skin is beautifully striped light and dark green. Rind quite thin, but tough enough for shipping. The flesh is bright red and quite firm. It is luscious, juicy, and very sweet. Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 40 cts.; lb. \$1.10, postpaid.

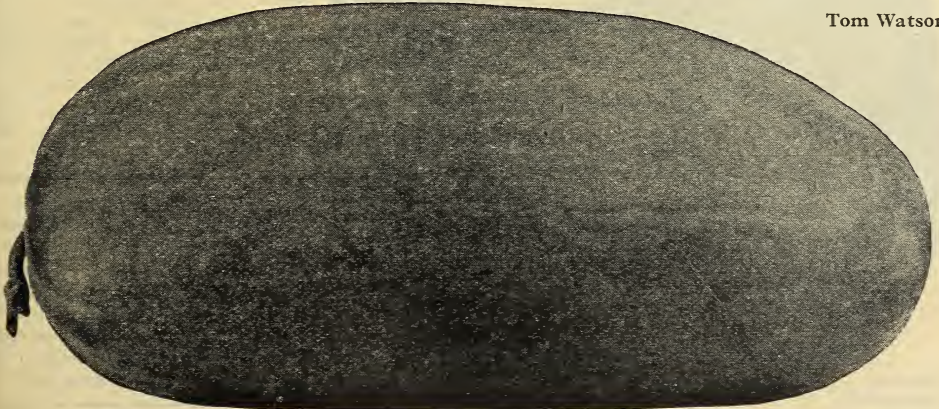

Burpee's Cuban Queen

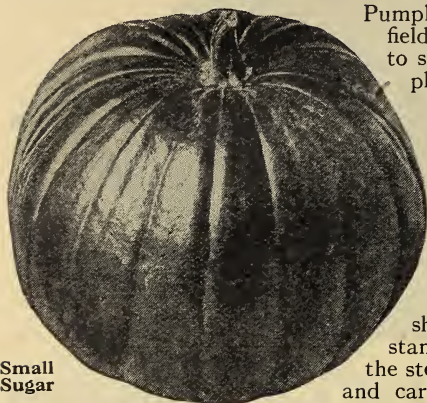

613 Tom Watson Ⓞ

A tough-rind shipping melon, superior to any other of its class. The melons measure 18 to 24 inches long by 10 to 12 inches in diameter, and weigh from 50 to 60 pounds. The dark green rind is tough but thin. The deep red flesh extends to within 3/4 inch of the green rind. Pkt. 5 cts.; oz. 15 cts.; 1/4 lb. 30 cts.; lb. 95 cts., postpaid.

Tom Watson

Burpee's Pumpkin

Small Sugar

are touched by frost. One ounce will plant 25 to 50 hills, according to size of seed; 4 pounds per acre.

861 Small Sugar ☉ The fruits are of small size, averaging about 10 inches in diameter; of excellent keeping quality, flattened or slightly ribbed. The skin is deep orange-yellow. The flesh is a rich orange of excellent quality; meaty and sweet. This should be more generally known, as it is really one of the best for pies. There is no finer pumpkin, particularly for the home garden. Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; lb. \$1.25, postpaid.

Pumpkins can be grown easily among a crop of sweet or field corn or wherever there is ample room for the vines to spread. In the small garden they can be grown by planting the seed near a paling-fence or some low building over which the vines can run without interfering with other crops in the garden. In field culture it is best to make the hills ten feet or more apart each way, so that the vines may have ample room in which to spread. Wherever fruits are desired for exhibition purposes, a large hole should be made with a liberal quantity of well-rotted manure, and only one or two fruits should be allowed to set on each vine. Three or more seeds can be planted to a hill, but when the plants are well started they should be thinned out, leaving only the best plant standing in the hill. The fruits should be gathered with the stems attached to them

and carefully stored in a

warm, dry place before they

Large Cheese

A favorite variety for winter-keeping

865 Large Cheese Large, round, flattened fruits, with creamy buff skin, averaging

2 feet in diam-

eter. An excellent keeper; it has thick flesh of extra-fine quality. Pkt. 5 cts.; oz. 15 cts.; ¼ lb. 35 cts.; lb. \$1.00, postpaid.

875 Genuine Mammoth ☉ "Jumbo," or "King of the Mammoths." This is the very best genuine strain of the true Mammoth Pumpkin. The fruits grow to enormous size. Salmon-orange skin; very thick, bright yellow flesh, which is fine grained, tender, and of excellent quality for pies. Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 55 cts.; lb. \$1.75, postpaid.

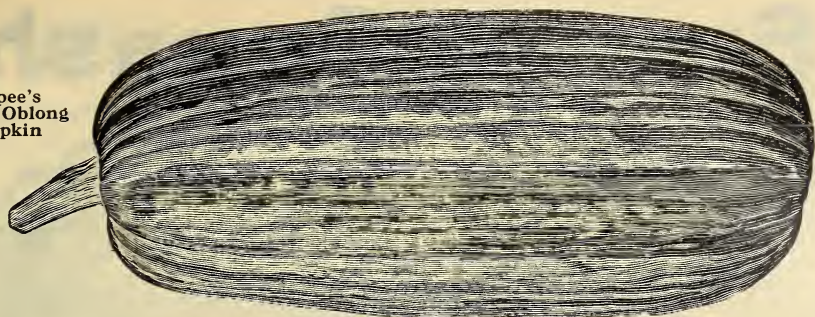

Genuine Mammoth

THE BURPEE BUSINESS is builded not for the present only, but with an outlook to the future. A business that has no vision of the future, or the object of which is mere money-making, would not be at all worthy a life's work.

W. ATLEE BURPEE

Burpee's
Golden Oblong
Pumpkin

867 Burpee's Golden Oblong Pumpkin

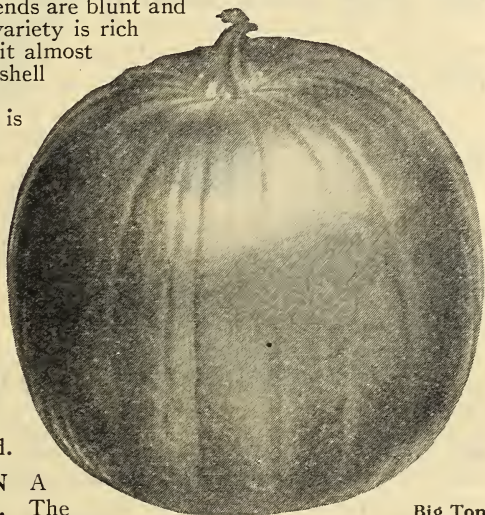

See illustration. BURPEE'S GOLDEN OBLONG combines remarkable hardness with unusual productiveness. The fruits are of elegant shape. They are, as the name indicates, oblong, and measure 15 to 20 inches in length. They hold their thickness well and are 8 to 10 inches in diameter. The ends are blunt and blocky. The skin of this beautiful variety is rich golden yellow; it is thin but tough, making it almost as good a keeper for winter use as the hard-shell squash.

The flesh is **bright golden yellow**. It is free from any hard fiber and fine-grained. In quality it ranks among the very best pumpkins. Due to its handy size it has proven to be very popular with the home gardener.

Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.50, postpaid.

863 Big Tom or IMPROVED

LARGE FIELD *See illustration.* Vines of strong, vigorous growth and wonderfully prolific. Fruits will average 15 to 20 inches in diameter; round or slightly oval in form. Smooth, hard, reddish orange skin, slightly ribbed, with orange-yellow flesh. Pkt. 5 cts.; oz. 15 cts.; $\frac{1}{4}$ lb. 30 cts.; lb. 95 cts., postpaid.

Big Tom

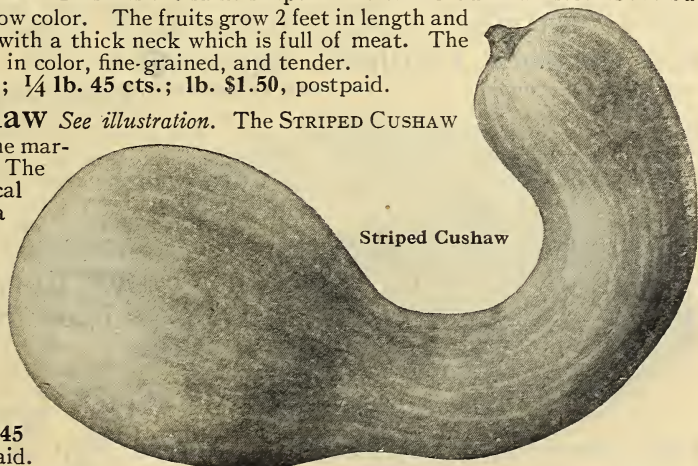

870 White Cushaw or JONATHAN

A popular variety of pumpkin with crooked neck. The shell is an attractive creamy white and extremely strong, which makes the fruits suitable for winter storing. The fruits measure about 2 feet in length and the thick heavy neck is solidly filled with meat. The flesh is fine-grained, mealy, and of superb quality. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.50, postpaid.

874 Golden Cushaw This has the same shape as the White Cushaw listed above but the skin is of a golden yellow color. The fruits grow 2 feet in length and have a small seed cavity with a thick neck which is full of meat. The flesh is rich golden yellow in color, fine-grained, and tender. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.50, postpaid.

872 Striped Cushaw

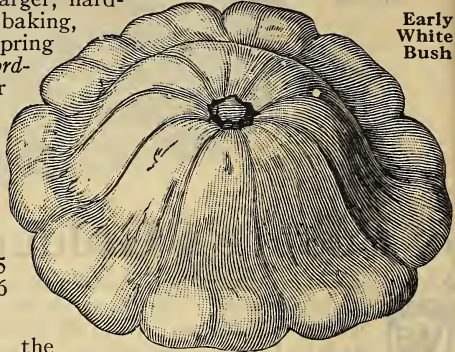

See illustration. The STRIPED CUSHAW is extensively grown for the market and for home use. The fruits are of the typical crookneck shape, with a thick heavy neck, containing a good amount of flesh. The skin is creamy white, striped and mottled with green bands. The meat is of a rich yellow color, tender, and of the finest flavor. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.50, postpaid.

Striped Cushaw

Summer Squash

There are two types of squashes; namely, those planted for use in the young, tender state during the summer months, and those having larger, hard-shelled fruits which are grown and stored for baking, making pies, etc., during the winter and early spring months. There is also another type, like our *Fordhook Squash*, the fruits of which are excellent for use in the young state during the summer and which can be kept for baking and pies during the winter. This general-purpose type is one of the most desirable for the family garden. Squashes are tender plants and the seed cannot be sown until the weather is settled and the nights quite warm. The time when the maples are in full leaf is usually safe for sowing. One ounce will plant 25 to 50 hills, according to the size of the seed; 4 to 6 pounds per acre in hills.

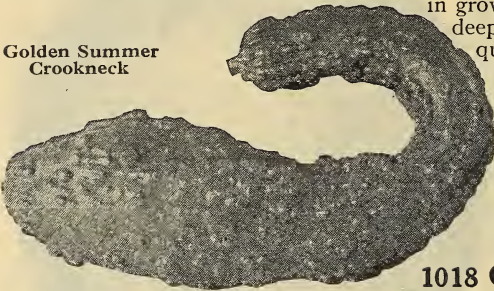

Early White Bush

1010 Early White Bush ☉ This is the white *Patty Pan* or *Cymling* of the South. Of true bush growth, producing fruits ready for use very early in the summer. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.35, postpaid.

1014 Early Yellow Bush, SCALLOPED (Yellow Patty Pan) This is similar in growth and fruit to Early White Bush, but has a deep orange skin. A prolific variety, maturing quite early in the season. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.20, postpaid.

Golden Summer Crookneck

1030 Cocozelle Bush Of compact bush growth, with dark green foliage; the fruits are oblong, 12 inches or more in length, and 4 to 5 inches in diameter. The skin of the fruits is dark green, with stripes of a still deeper shade. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.50, postpaid.

1018 Golden Summer Crookneck ☉

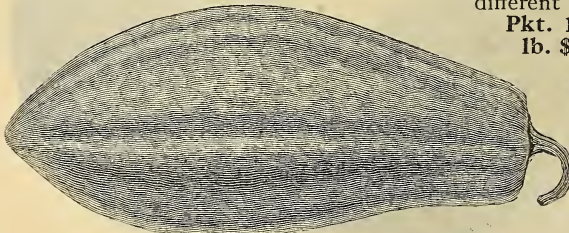

The plants are of true bush growth, very early-fruiting and productive. The squashes are of the popular crookneck type; rich golden yellow. The skin is a beautiful deep orange and the flesh a rich shade of salmon-orange. The fruits are meaty and of delicious flavor. A market and home garden variety. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.25, postpaid.

1020 Giant Crookneck This strain is equally as early as the common small-fruited variety, but the squashes grow to a much larger size, measuring from 18 inches to 2 feet in length. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.35, postpaid.

1031 Long White Marrow ☉ or **VEGETABLE MARROW** This is similar to the Cocozelle, but later in season and the fruits are much larger in size. Strong, running vines bearing fruits with creamy white, smooth skin. This is now used quite extensively for making preserves. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.50, postpaid.

1032 Burpee's Fordhook Squash ☉ BURPEE'S FORDHOOK SQUASH is a most desirable running variety for both summer and winter use. Vigorous, wonderfully productive vines. The fruits are oblong, measuring 8 to 10 inches in length. Smooth, light yellow thin skin with a few slight ridges. The flesh of this wonderful squash is thick; a pleasing light straw-yellow. BURPEE'S FORDHOOK SQUASH is considered the finest of all in taste. It is *simply delicious, with a buttery and rich flavor* altogether different from that found in other squashes.

Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 55 cts.; lb. \$1.75, postpaid.

Burpee's Fordhook Squash

Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.65, postpaid.

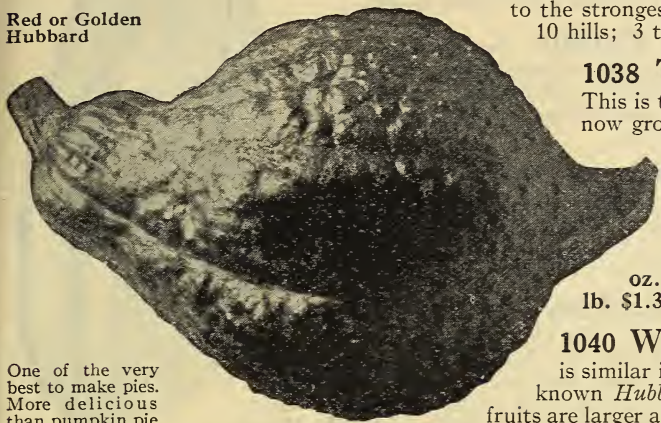

1034 Burpee's Bush Fordhook Squash Being of bush growth, the plants can be grown closely together. The fruits are shorter and thicker than those of the running type. Of excellent flavor.

Winter Squash

Squashes grow to perfection in a warm and rather light soil. Spade two shovelfuls of well-rotted manure under each hill and plant the seed after the soil and weather have become warm and settled. In the vicinity of Philadelphia the second week of May is about the right time for sowing. Place 6 to 8 seeds in each hill and thin to the strongest two plants. One ounce for 10 hills; 3 to 4 pounds per acre.

Red or Golden Hubbard

One of the very best to make pies. More delicious than pumpkin pie

1038 True Hubbard

This is the well-known winter squash, now grown so largely throughout the country. Vines of strong running growth; fruits large, olive-shaped, with dark green skin and very rich flesh. An excellent keeper and of splendid quality. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.35, postpaid.

1040 Warty Hubbard

This is similar in size and quality to the well-known *Hubbard*, but the dark, olive-green fruits are larger and have a more heavily warty skin. A wonderful keeper. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.60, postpaid.

1042 Red or Golden Hubbard The fruits are large, of the typical Hubbard shape, with a glossy, much warty, orange-yellow skin which turns to a beautiful salmon-red when fully ripe. The thick flesh is sweet, rather dry, and considered one of the best in quality. It also keeps well for a long time. The heavy vines usually carry and ripen 5 to 6 of these mammoth fruits. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.45, postpaid.

1035 Banana Squash An old favorite and, without question, the very finest of the winter squashes. A wonderful yielder and good keeper. Two to three feet long with a tough shell and delicious meat. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.50, postpaid.

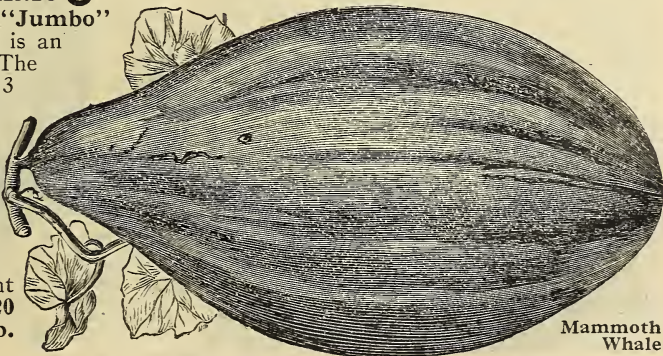

1036 Boston Marrow A large-fruited, hard-shelled sort for winter use, having bright orange skin and deep orange flesh. Vines of strong running growth, very productive; broad oval fruits. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.25, postpaid.

1048 Pie Squash or WINTER LUXURY PUMPKIN This is of smooth, rounded form, with rather thin, tender skin. Fruits grow to good size and look very attractive. The flesh is very thick, sweet, fine-flavored, and excellent for pies. They will keep quite well in storage. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.40, postpaid.

1052 The Delicious The squashes, weighing from 5 to 10 pounds, vary in both color and form, but are uniformly delicious in flavor and splendid winter keepers. The dark orange flesh is very thick. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 60 cts.; lb. \$1.60, postpaid

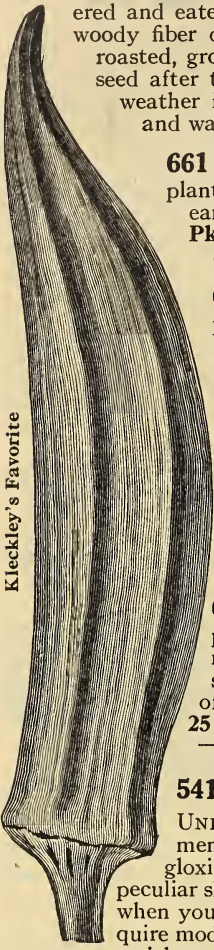

1058 Mammoth Whale

See illustration. This is the "Jumbo" of the Squash family. It is an unusually large-fruited sort. The squashes grow from 2½ to 3 feet in length, with a slight neck at the stem end. The skin is of a dark olive-green, with slight stripes of a lighter tinge. The fruits frequently attain more than 100 pounds in weight. Flesh firm and solid; a beautiful orange-yellow color and of excellent quality. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 55 cts.; lb. \$1.75, postpaid.

Mammoth Whale

OKRA or GUMBO is used largely in the southern states, both as a separate dish and for soups, etc. It is becoming better known and more popular in the North. The pods should be gathered and eaten while still young and tender, before the hard, woody fiber develops. In some sections the ripe seeds are roasted, ground, and used as a coffee substitute. Sow the seed after the nights have become quite warm and the weather is settled. Okra does best in a light, sandy, and warm soil. One ounce for 75 feet of row.

Kleckley's Favorite

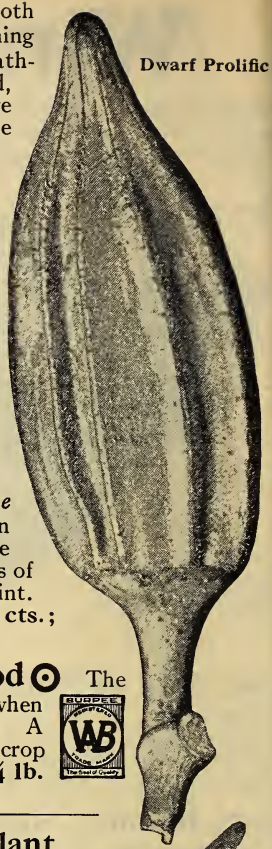

661 Dwarf Prolific See illustration. The plants make a dwarf and stocky growth. Matures early and yields a tremendous crop of pods. Pkt. 5 cts.; oz. 12 cts.; ¼ lb. 25 cts.; lb. 65 cts., postpaid.

663 White Velvet A tall-growing plant bearing a large crop of pods. They are long, smooth, and round, with a peculiar velvety skin. Pkt. 5 cts.; oz. 12 cts.; ¼ lb. 25 cts.; lb. 65 cts., postpaid.

666 Kleckley's Favorite See illustration. The plants grow 2½ to 3 feet in height, are close-jointed, with ample foliage, and bear smooth white pods of the very finest quality at each leaf-joint. Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; lb. \$1.00, postpaid.

667 Perfected Perkins' Long-Pod The pods are produced in great abundance and, when ready to use, are from 4 to 5 inches in length. A strong-growing variety, yielding an enormous crop of delicious pods. Pkt. 5 cts.; oz. 15 cts.; ¼ lb. 25 cts.; lb. 70 cts., postpaid.

Dwarf Prolific

541 MARTYNIA Unicorn Plant

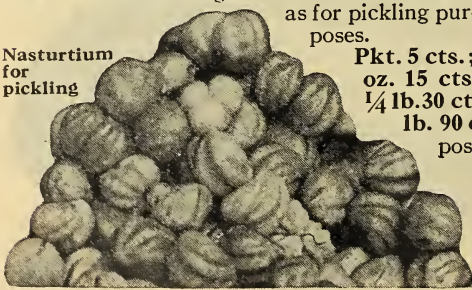

The MARTYNIA, or UNICORN PLANT, a native of Louisiana, is quite ornamental in growth, and bears large, pyramidal spikes of gloxinia-like flowers, followed by hairy seed-pods of a peculiar shape—see illustration. These pods are gathered when young and tender and are pickled. The plants require moderately warm weather to develop and do best on a rich sandy loam. The seed may be started indoors or outdoors after the maples are in full leaf. One ounce for 150 feet of row. Pkt. 10 cts.; oz. 30 cts.; ¼ lb. 85 cts.; lb. \$2.75, postpaid.

Martynia or Unicorn Plant

659 NASTURTIUM TALL MIXED for Pickling

The tender seed-pods with a portion of the stem attached should be gathered for pickling while green and when about half grown. Pick them over and place in a jar until filled; then cover them with cider vinegar that has been brought to a boil and is still warm. These Nasturtiums can be grown for their flowers as well as for pickling purposes.

Nasturtium for pickling

Pkt. 5 cts.;
oz. 15 cts.;
¼ lb. 30 cts.;
lb. 90 cts.,
postpaid.

Keep Burpee's Annual handy for reference throughout the year

Burpee's Egg Plant

In the vicinity of Philadelphia seed should be sown during March in a warm hotbed in light rich soil, or it may be started in a box in the sunny window of a warm room. Sow thinly, and when the young plants show 2 or 3 leaves, transplant to stand 3 inches apart each way; or, if growing indoors, set them in small flower-pots. Set the plants outdoors when the maple trees are in full leaf in rich soil 2 feet apart each way. One ounce for 1000 to 1500 plants; 4 ounces for transplanting one acre.

420 Burpee's Black Beauty ◉

The Earliest and Best of all Large-Fruited Egg Plants

BURPEE'S BLACK BEAUTY EGG PLANT is valuable alike to the market grower and to the home gardener. The fruits grow to enormous size and are ready for use 10 days to two weeks before any other variety. The plants grow into compact yet robust bushes, which branch freely near the ground. Under favorable conditions the plants bear continuously until frost.

The fruits are large and of the typical egg shape. They have a uniform rich purplish black skin, showing no lighter spots on any part of the fruits. The calyx is bright green, contrasting sharply with the dark satin skin of the fruits and they are entirely free from spines or thorns. Pkt. 15 cts.; $\frac{1}{2}$ oz. 35 cts.; oz. 50 cts.; $\frac{1}{4}$ lb. \$1.50; lb. \$5.00, postpaid.

422 New York Improved Spineless This is an entirely spineless strain of the large purple-fruited type. Our strain of this variety is especially fine. The plants are most productive, bearing oblong fruits which are a beautiful rich purple. Pkt. 10 cts.; $\frac{1}{2}$ oz. 30 cts.; oz. 50 cts.; $\frac{1}{4}$ lb. \$1.45; lb. \$4.85, postpaid.

428 Early Long Purple This variety has long fruits $2\frac{1}{2}$ inches in diameter and from 6 to 8 inches in length. Very rich, dark coloring. A comparatively late-maturing variety. Pkt. 10 cts.; $\frac{1}{2}$ oz. 25 cts.; oz. 45 cts.; $\frac{1}{4}$ lb. \$1.30; lb. \$4.25, postpaid.

423 Florida Highbush In this variety the fruits are borne high up on the bushes and the sun does not blight the blossoms as is the case with many other sorts. Of strong vigorous growth with large fruits of uniform size and dark purple color. Extensively grown in the South. Pkt. 10 cts.; $\frac{1}{2}$ oz. 25 cts.; oz. 40 cts.; $\frac{1}{4}$ lb. \$1.35; lb. \$4.50, postpaid.

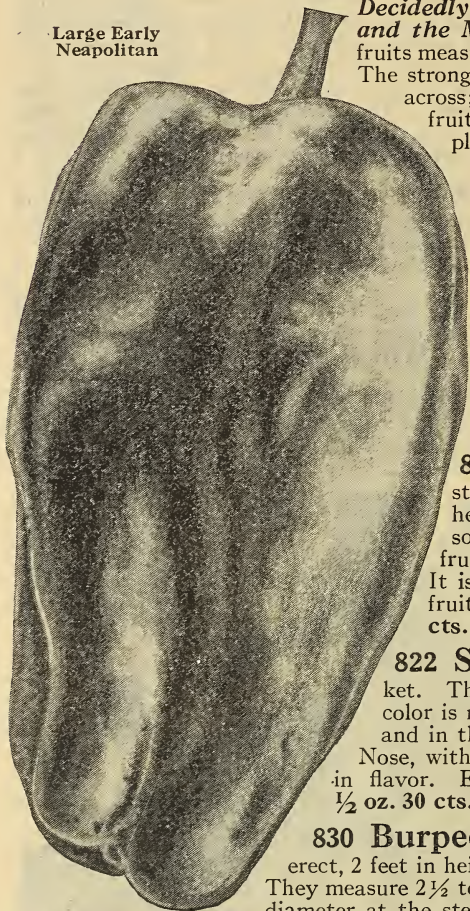

Burpee's Black Beauty
Early and very prolific.

other side of the bush

Burpee's Peppers

Although the pepper is at home in tropical and subtropical countries, it is grown successfully in nearly all parts of the United States. We are growing annually many acres of peppers for seed on BURPEE'S SUNNYBROOK FARM in New Jersey. It is a tender plant and cannot endure frost. The seed should be sown during February or March in a warm hotbed, or in boxes placed in a sunny window of a warm room. It requires plenty of moisture and warmth to germinate. The young plants are put out into small pots as soon as they can be handled. In the vicinity of Philadelphia the first week of May is about right for setting out the plants. One ounce will produce about 1500 plants; 3 ounces for setting out one acre.

818 Large Early Neapolitano

Large Early Neapolitano

Decidedly the Earliest of all Large Mild Red Peppers, and the Most Productive of all Large Peppers! The fruits measure 4 inches long and 4½ inches in circumference. The strong, vigorous plants grow 2 feet high by 18 inches across; they are heavily laden with large handsome fruits and bear continuously until frost. Single plants carry from 35 to 50 marketable fruits at one time! The peppers grow upright until they become so heavy that their own weight turns them down. Skin and flesh bright red; mild as an apple. Pkt. 10 cts.; oz. 50 cts.; ¼ lb. \$1.50; lb. \$5.00, postpaid.

823 Bull-Nose or IMPROVED LARGE BELL This standard variety grows 2 feet in height. It is prolific and ripens quite early. The fruits are rich scarlet, 3 inches in length and 2 inches in diameter. We have an excellent strain of this well-known variety. Pkt. 10 cts.; oz. 45 cts.; ¼ lb. \$1.35; lb. \$4.50, postpaid.

825 Sweet Mountain The plants are of strong, upright growth, measuring about 2 feet in height. It is an early-maturing sort, grown in some sections quite extensively for market. The fruits are of good size and ripen early and evenly. It is a productive variety, bearing the large heavy fruits all during the season. Pkt. 10 cts.; oz. 45 cts.; ¼ lb. \$1.35; lb. \$4.50, postpaid.

822 Sweet Upright The best for early market. The fruits are borne stiffly erect. When ripe the color is rich glowing scarlet, both in the thin tender skin and in the thick sweet flesh. It is as early as the Bull-Nose, with heavier fruit, much thicker flesh, and superior in flavor. Extensively grown for market. Pkt. 15 cts.; ½ oz. 30 cts.; oz. 55 cts.; ¼ lb. \$1.60; lb. \$5.25, postpaid.

830 Burpee's Ruby Pearl The plants grow stiffly erect, 2 feet in height. The fruits are produced in great profusion. They measure 2½ to 3 inches in length by about 2 inches in diameter at the stem end. Until the fruits attain full size,

they are a rich creamy white, gradually changing to an orange tint and finally turning brilliant scarlet when fully ripe. The flesh is firm, very thick, crisp, and sweet. The fruits are borne abundantly. Pkt. 10 cts.; oz. 50 cts.; ¼ lb. \$1.50; lb. \$5.00, postpaid.

821 Burpee's Ruby King The attractive fruits are 6 to 8 inches long by 4 inches in diameter; of a bright ruby-red color. They are most prolific, growing on strong vigorous bushes 2 feet high, and are remarkably mild and pleasant in flavor. The flesh is quite thick and so sweet that it may be eaten like an apple. It never produces any hot fruits. Pkt. 10 cts.; oz. 45 cts.; ¼ lb. \$1.35; lb. \$4.50, postpaid.

826 Ruby Giant The result of a cross between Burpee's Ruby King and Burpee's Chinese Giant, combining the vigor and size of Chinese Giant with the earliness and hardness of Ruby King. The handsome fruits are shining, brilliant scarlet; flesh thick, sweet, and mild. Pkt. 10 cts.; oz. 50 cts.; ¼ lb. \$1.50; lb. \$5.00, postpaid.

820 Burpee's Sweet - Meat Glory Pepper

This is the thickest fleshed of all peppers excepting Burpee's Sunnybrook. The solid meat is always "sweet as an apple." The fruits are rich crimson-scarlet in color. The form is very distinct, being of regular conical shape, as shown in the illustration, natural size, from a FORDHOOK photograph.

The peppers measure from 2 to 2 1/4 inches across at the stem end and average 3 to 3 1/2 inches in length. The smooth skin is entirely free from ridges. The firm flesh measures five-sixteenths of an inch in thickness. The peppers are never hot in any part of the fruit, even the flesh around the seeds being sweet. The plants are 2 to 2 1/2 feet in height, branching freely, and produce a heavy crop. Pkt. 15 cts.; oz. 65 cts.; 1/4 lb. \$2.00; lb. \$6.50, postpaid.

Burpee's Sweet-Meat
Glory Pepper
Sweet as an apple

843 Golden Queen Of all yellow-fruited peppers, GOLDEN QUEEN is the largest, most productive, and finest. The fruits are quite large, unusually meaty, and strictly mild. Rich and glossy golden yellow skin. Our strain of this fine yellow pepper is particularly fine. Pkt. 15 cts.; oz. 65 cts.; 1/4 lb. \$2.00; lb. \$6.50, postpaid.

HOT PEPPERS The small-fruited varieties of pepper bear hot and pungent fruits. They are extensively used for seasoning and are also pickled in vinegar. They may be dried for winter use.

854 Coral Gem Bouquet  Compact bushes covered with small scarlet fruits. Very hot and pungent. The most desirable small-fruited variety to grow in the Northern States. Pkt. 10 cts.; oz. 55 cts.; 1/4 lb. \$1.65; lb. \$5.50, postpaid.

837 Long Red Cayenne This is the true Cayenne pepper. The fruits are narrow, about 1/4 inch thick and 3 inches long. They are borne in great abundance; very hot in flavor. Pkt. 10 cts.; oz. 45 cts.; 1/4 lb. \$1.35; lb. \$4.50, postpaid.

839 Red Chili The bushes are broad and seldom more than 20 inches high. The fruits measure 2 to 3 inches in length and are 1/4 inch thick. Early and enormously productive. Very hot. Pkt. 10 cts.; oz. 45 cts.; 1/4 lb. \$1.35; lb. \$4.50, postpaid.

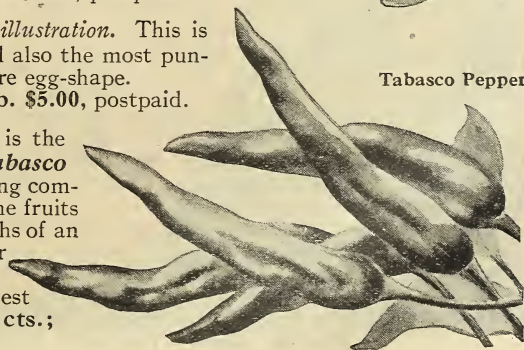

849 Fancy Wrinkled or SCOTCH BONNET The fruits are of a peculiar bonnet shape and are first yellow, then orange, and finally they turn red. Useful as well as attractive. The flavor is very hot. Pkt. 10 cts.; oz. 45 cts.; 1/4 lb. \$1.30; lb. \$4.25, postpaid.

853 Bird's Eye or CREOLE See illustration. This is the smallest-fruited of all hot peppers and also the most pungent in taste. The fruits are of a miniature egg-shape. Pkt. 10 cts.; oz. 50 cts.; 1/4 lb. \$1.50; lb. \$5.00, postpaid.

Bird's Eye
or Creole

857 Tabasco See illustration. This is the variety used exclusively for the famous *Tabasco Sauce*. The plants grow vigorously, forming compact and upright bushes, 3 to 4 feet tall. The fruits are small, 1 to 2 inches long and three-eighths of an inch thick; borne in great abundance all over the plants. They are attractive on account of their bright scarlet color. This is the hottest of all red peppers. Pkt. 10 cts.; oz. 45 cts.; 1/4 lb. \$1.35; lb. \$4.50, postpaid.

Tabasco Pepper

Peppers and Egg Plant

833 Burpee's Sunnybrook Pepper ⊙

The Sweetest and Most Prolific of All Pimiento Peppers

BURPEE'S SUNNYBROOK PEPPER is sure to become a leading variety for market as well as for home use. The plants are much branched and all side shoots are heavily set with fruits. Upon counting a few plants we found that they bore as many as 40 perfect ripe fruits on one plant. The bushes grow 15 inches high and measure approximately 22 inches in diameter. The branches, laden with clusters of fruits, bend down under the weight of the peppers. The individual fruits run from $2\frac{1}{2}$ to $3\frac{1}{4}$ inches in diameter. They are from 2 to $2\frac{1}{4}$ inches deep from stem to blossom end. The skin is smooth and glossy, of a rich deep scarlet color.

The most remarkable feature of BURPEE'S SUNNYBROOK PEPPER is its sweetness. We do not know of any other variety which really is as sweet and palatable as BURPEE'S SUNNYBROOK. The flesh is unusually thick and in well-developed fruits measures five-eighths of an inch in thickness, surpassing in that respect any other pepper. The foliage is rich deep green, smooth, and seems to resist insects and diseases well. Its shape and solidity make it a foremost shipping variety not liable to be damaged. It matures very early and bears fruits continuously until frost. We have been growing this seed on our Sunnybrook Farm in Gloucester County, New Jersey. Pkt. 25 cts.; $\frac{1}{4}$ oz. 50 cts.; oz. \$1.50; $\frac{1}{4}$ lb. \$4.50; lb. \$15.00, postpaid.

819 Burpee's Chinese Giant Pepper ⊙

The Largest Mild Red Pepper. An Ideal Variety for the Home Garden

See color illustration greatly reduced from a Fordhook photograph. BURPEE'S CHINESE GIANT was introduced by Burpee in 1900 and up-to-date there has not been introduced another pepper which combines immense size with the wonderful quality of CHINESE GIANT. The fruits are not only very large, but they are also beautiful and, therefore, sell very readily in the markets.

The plants of CHINESE GIANT make a vigorous growth, developing into heavy and stubby bushes, seldom more than 2 feet in height. They are well branched and thickly set with enormous fruits. It is not unusual to find a half dozen peppers growing so closely together that they will touch each other as if in a single bunch. The stems and side branches are stout and strong, carrying the heavy fruits above the ground. The foliage is abundant and the large dark green leaves provide plenty of protection.

BURPEE'S CHINESE GIANT PEPPER is not only most productive but matures very early. Before the fruits ripen they are rich dark green, turning to a bright and brilliant scarlet-red when they reach maturity. This intense coloring is very uniform over the whole skin. The fruits are 4 to 5 inches broad and fully as long. The flesh is the thickest ever found in any of the large size peppers, being strictly mild and sweet.

Pkt. 15 cts.; $\frac{1}{2}$ oz. 40 cts.; oz. 75 cts.; $\frac{1}{4}$ lb. \$2.25; lb. \$7.50, postpaid.

420 Burpee's Black Beauty Egg Plant ⊙

The Earliest and Best of All Large-Fruited Egg Plants

See color illustration greatly reduced from a photograph. BURPEE'S BLACK BEAUTY occupies first place among the egg plants. It is now grown to the exclusion of all other varieties wherever egg plants are grown for a market supply. And home gardeners have also found it to be the most satisfactory for their purpose.

BURPEE'S BLACK BEAUTY matures ahead of any other variety and after the fruits have once set they develop remarkably quick. The bushes are of compact and strong growth and it is hardly believable that these plants could bear such a large number of immense fruits. The shape of BURPEE'S BLACK BEAUTY is another great advantage. The fruits can be used when still quite small but are usually taken off the plants when they are from 5 to 6 inches long. They will, however, grow considerably larger. Their shape is rounded and they are almost as thick as they are long.

The skin is a lustrous and shining blackish purple. This rich coloring extends uniformly from the blossom to the stem end of the fruit. It never shows any lighter coloring or shading. The calyx which attaches the fruits to the plants is of a light green color and is perfectly spineless. This makes the gathering of the fruits ever so much easier.

Pkt. 15 cts.; $\frac{1}{2}$ oz. 35 cts.; oz. 50 cts.; $\frac{1}{4}$ lb. \$1.50; lb. \$5.00, postpaid.

Tomatoes and Cucumbers

1095 Burpee's Dwarf-Giant Tomato ©

This is much *the largest-fruited of all dwarf tomatoes!* The tomatoes are truly gigantic in size. They are produced in clusters and weigh from 10 to 20 ounces each. The color is a rich purple-crimson, and the depth of color is maintained throughout the entire fruit.

It is the most meaty of all tomatoes! The flesh is so firm and the tomatoes are so heavy that they might be described as almost solid as a rock! BURPEE'S DWARF-GIANT is the most nearly seedless of all tomatoes. The firm fine-grained flesh extends to the very center, with no trace whatever of a core. In rich sweet flavor it is without a rival, surpassing even our famous Matchless and Trucker's Favorite, as well as its parent, Ponderosa.

Of uniformly compact, bush-like growth. It is of the true dwarf type, and the plants are very strong and vigorous. It is a midseason or main-crop tomato, ripening a week to ten days earlier than Ponderosa, and the plants continue to mature the superb "giant-solid" tomatoes in abundance until killed by frost. All our seed has been produced on our own farms in Pennsylvania and New Jersey grown from our own selected stock seed. Pkt. 15 cts.; ½ oz. 45 cts.; oz. 80 cts.; ¼ lb. \$2.40; 1b. \$8.00, postpaid.

1138 Burpee's Golden Dwarf Champion Tomato ©

BURPEE'S GOLDEN DWARF CHAMPION is, in our opinion, the very finest of the yellow-fruited kinds. The plants make a vigorous growth of a strictly bush-like habit. The stems are heavy, growing erect, and forming a dwarf and compact plant quite similar in habit to our Burpee's Dwarf-Giant Tomato.

The foliage of BURPEE'S GOLDEN DWARF CHAMPION is of a very dark green color and of the type commonly called potato-leaf. The plants bear a wonderful crop of fruits. The tomatoes are round and have a smooth skin of a bright lemon-yellow color. The quality is simply superb, with a typical tomato flavor, yet lacking any undue amount of fruit acid. It is a mid-season variety, bearing its immense crop of fruits until killed by frost.

Pkt. 15 cts.; ½ oz. 40 cts.; oz. 75 cts.; ¼ lb. \$2.25; 1b. \$7.50, postpaid.

405 Burpee's Giant Pera Cucumber ©

BURPEE'S GIANT PERA Cucumber is entirely distinct from any other cucumber on the market. Its main features are its enormous size, even shape, and smooth surface. The fruits attain a length of 15 inches and more. They are round, holding their thickness well from blossom to stem end. The ends of the fruits are bluntly rounded.

The skin of the fruits is smooth, of a light green color, and unusually thin for such a large fruit. The flesh is very thick and of the foremost quality. It is crisp, of an extremely mild flavor, and easily digested. The seed cavity is unusually small, producing but very few seeds. This variety always brings the highest price on the market.

Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; 1b. \$1.50, postpaid.

383 Burpee's Fordhook White Spine Cucumber ©

The fruits are nearly cylindrical in form, slightly pointed at the ends, perfectly smooth, of deep, rich coloring, marked with distinct white lines at the blossom end. They are of extremely handsome and attractive appearance. The vines are vigorous in growth and enormously productive. The fruits retain their dark green coloring and crisp freshness longer after picking than any other variety, excepting only Fordhook Famous. We recommend this variety for market and home growing. The small young fruits are just of the right size for pickling. Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; 1b. \$1.25, postpaid.

395 Burpee's Fordhook Pickling Cucumber ©

This is wonderfully prolific and might be termed a continuous bearer. Planted at the same time as other cucumbers, the FORDHOOK PICKLING will continue to bear pickles plentifully after the other varieties have ripened their fruit and ceased to produce more. One of the most important requisites for a crisp, tender pickle is that the cucumber should have a thin skin—this is a feature of the FORDHOOK PICKLING.

A strong grower, producing more fruits than any other variety. Fully grown, the fruits are excellent for slicing. Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; 1b. \$1.25, postpaid.

7006 Cucumber Collection

One packet each of Burpee's Giant Pera, Burpee's Fordhook White Spine, and Burpee's Fordhook Pickling Cucumber will be mailed to any address, postpaid, for **25 cts.**

7071 Tomato Collection

We will mail one full size packet each of the two fine tomatoes, Burpee's Dwarf Giant and Burpee's Golden Dwarf Champion (value, 30 cts.), postpaid, for **25 cts.**

Burpee's Tomatoes

Tomatoes are one of our finest vegetables and almost always yield a paying crop. For early fruits a rich sandy soil should be selected, but for a main crop a light rich loam will produce the biggest returns. Sow the seed in the hotbed or shallow boxes about 6 weeks before they should be set in the garden or field. In the latitude of Philadelphia early March is about the right time for sowing. Transplant the seedlings twice before setting them out. Tomatoes are a warm-weather vegetable and should not be set out until all danger of frost has passed. For a late crop sow the seed any time during April. One ounce of seed gives 3000 to 4500 plants; $\frac{1}{4}$ pound of seed per acre for transplanting. We are growing yearly many thousand pounds of tomato seed on BURPEE'S FORDHOOK FARMS and BURPEE'S SUNNYBROOK FARM.

1097 Burpee's Sunnybrook Earliana Tomato

Burpee's
Sunnybrook
Earliana
Reduced from
a photograph

The earliest of all red tomatoes. It produces a closer jointed and more compact vine, set quite as freely with fine smooth tomatoes, which are usually ready to market 5 days earlier than Sparks' Earliana! The entire crop can be gathered generally in about 3 weeks from the time the first fruit ripens. SUNNYBROOK EARLIANA is undoubtedly the very best earliest scarlet-fruited tomato. Gardeners who are seeking to have good smooth tomatoes "first on market" can find nothing equal to this variety. A very prolific strain and the first on the market. Pkt. 10 cts.; $\frac{1}{2}$ oz. 30 cts.; oz. 55 cts.; $\frac{1}{4}$ lb. \$1.65; lb. \$5.50, postpaid.

1100 Sparks' Earliana

The plants are compact in growth, with short, close-jointed branches, setting fruits very freely in the center.

The tomatoes are quite uniform in size, averaging 3 inches in diameter and from 2 to 2 $\frac{1}{2}$ inches in depth; they are fleshy, solid, and excellent for shipping purposes. Pkt. 10 cts.; oz. 40 cts.; $\frac{1}{4}$ lb. \$1.20; lb. \$4.00, postpaid.

1101 Chalk's Early Jewel

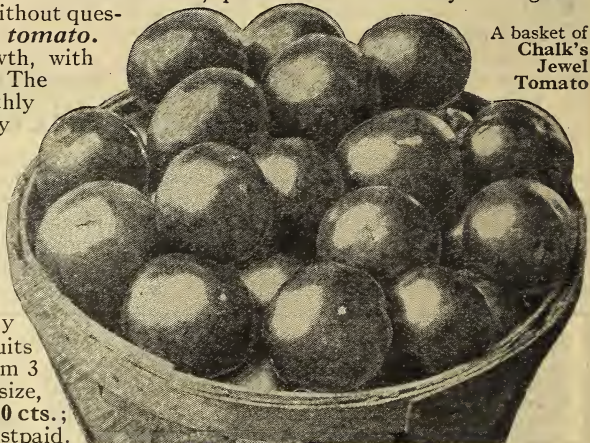

The largest, smoothest, and finest-flavored extra-early bright red tomato! Within a week to 10 days as early as Sparks' Earliana, it is even a heavier cropper, with tomatoes of larger size and sweeter flavor, produced continuously throughout the season. Without question

the best early home garden tomato.

The plants are of strong, robust growth, with ample foliage to protect the fruits. The bright scarlet fruits are smoothly round, very deep, and solidly meaty, with only a few quite small seed-cells, and are of remarkably fine sweet flavor. Seed of our own growing specially selected at FORDHOOK FARMS. Pkt. 10 cts.; $\frac{1}{2}$ oz. 25 cts.; oz. 40 cts.; $\frac{1}{4}$ lb. \$1.20; lb. \$4.00, postpaid.

1120 Bonny Best This variety is a selection of Chalk's Jewel. The fruits are generally borne in clusters of from 3 to 5. The single fruits are of good size, weighing 5 to 6 ounces each. Pkt. 10 cts.; oz. 40 cts.; $\frac{1}{4}$ lb. \$1.15; lb. \$3.75, postpaid.

1108 Burpee's Matchless Tomato ◉

Burpee's Matchless Tomato

The foremost main-crop tomato for the home garden, for market, and for canning

*Illustrated in
Color on the
Front Cover*

BURPEE'S MATCHLESS TOMATO is the **best large-fruited smooth main-crop tomato**. MATCHLESS is a strong, vigorous grower, with thrifty vines which produce large handsome tomatoes most abundantly throughout the season. The fruits, of a **rich cardinal-red**, are remarkably solid and smooth, free from core, and uniformly of the finest flavor. The tomatoes are always of the **largest size**, being borne until killed by frost. For tomatoes of the largest size, always **perfectly smooth**, firm and handsome, of long-keeping quality and finest flavor, thousands of planters agree with us that there is no other scarlet-fruited tomato that can equal BURPEE'S MATCHLESS.

BURPEE'S MATCHLESS is grown extensively for supplying the late market and has proven to be one of the best for canning. It is the ideal variety for the home garden, and grown in connection with an extra-early variety, will not only provide all the fruits for the immediate table requirements, but will yield plenty of first-class fruits for canning.

Pkt. 10 cts.; ½ oz. 25 cts.; oz. 45 cts.; ¼ lb. \$1.35; 1b. \$4.50, postpaid.

1074 Stone A late or main-crop variety, making a heavy growth and yielding a good crop. Large, smooth, solid fruits of a **deep scarlet** color. STONE is extensively grown for **canning and market**, but is being gradually abandoned in favor of Burpee's Matchless, which is a great improvement. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; 1b. \$3.25, postpaid.

1093 Dwarf Stone ◉ This is the **largest-fruited of all the dwarf tomatoes**, excepting only Burpee's Dwarf-Giant. The plants are strong and vigorous, of typical dwarf growth, but not nearly so neat and compact as Burpee's Dwarf-Giant. The fruits are borne in clusters of 3 to 5, each plant producing a large number. The tomatoes average 4 inches in diameter and 2½ inches in depth from stem to blossom end. They are **bright scarlet, very smooth, firm, solid, and all flesh**. Pkt. 10 cts.; oz. 40 cts.; ¼ lb. \$1.20; 1b. \$4.00, postpaid.

1105 Success The fruits, set in clusters, average 3 inches in diameter and 2 to 2½ inches through from stem to blossom end. Color, **brightest scarlet**; perfectly smooth; very meaty; of fine flavor. It ripens with the second-earliest and yields abundantly throughout the season. An excellent market sort. Pkt. 10 cts.; oz. 45 cts.; ¼ lb. \$1.30; 1b. \$4.25, postpaid.

1094 Dwarf Champion Of typical upright and dwarf habit, with dark green, rough, and thick foliage. Fruits purplish red, globe-shaped, and smooth. Flesh light red, fine in texture, and slightly acid. Pkt. 10 cts.; oz. 30 cts.; ¼ lb. 90 cts.; 1b. \$2.90, postpaid.

1112 Burpee's Trucker's Favorite Tomato

Burpee's
Trucker's
Favorite

See illustration. The choicest large-fruited purple tomato. Most regular in form and size, thick-meated and very solid, this is one of the largest smooth tomatoes grown.

Of a beautiful purplish red color, well ripened throughout. The smooth, fleshy fruits always bring the highest prices at our Philadelphia markets. It is a main-crop variety, maturing the same season as the Matchless and equally as productive.

As a dependable main-crop pink or purple

sort, no variety in cultivation today is the equal of this TRUCKER'S FAVORITE.

Carefully selected strain "Fordhook-grown" seed. Pkt.

10 cts.; oz. 35 cts.; ¼ lb. \$1.00;

1b. \$3.50, postpaid.

1107 June Pink A large and distinctly pink-fruited variety of spreading growth. The fruits usually weigh from 5 to 6 ounces and are flattened and slightly ribbed. The purplish red flesh is solid, of fine texture and slightly acid. JUNE PINK has proven to be an excellent variety for the South. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; 1b. \$3.50, postpaid.

1067 Livingston's Globe The plants are vigorous, making a large spreading and slightly upright growth. The fruits are of medium size, weighing about 5 ounces. LIVINGSTON'S GLOBE is an outstanding variety. The truly globe-shaped fruits are a fine purple-red and very attractive. The flesh is solid and the seed cavities rather small, with hardly any core. Extensively planted by southern truckers for early shipment to the North. *Selected Fordhook-grown seed.* Pkt. 10 cts.; oz. 40 cts.; ¼ lb. \$1.20; 1b. \$4.00, postpaid.

1102 Fordhook First A splendid variety, especially adapted to moist or heavy soils. Plants of strong running growth; fruits 3 to 4 inches in diameter, very smooth and free from cracks, quite deep through, and richly colored deep purple. Very fleshy, with but few seeds and of the finest flavor. In the New England States it will ripen earlier than any other variety. FORDHOOK FIRST is extensively grown for early market and in the home garden. Pkt. 10 cts.; oz. 40 cts.; ¼ lb. \$1.15; 1b. \$3.75, postpaid.

1114 True Giant Ponderosa The vines are of strong growth and bear well. The deep purple fruits are oblong in form, generally ridged or ribbed. They are solidly fleshy, with small seed-cells; of extra-sweet flavor. Planted in good soil, fruits frequently attain a weight of one pound or more. A favorite variety in the South. *Selected seed of our own growing at FORDHOOK FARMS.* Pkt. 15 cts.; oz. 65 cts.; ¼ lb. \$2.00; 1b. \$6.50, postpaid.

1066 Acme This is an old variety of medium size and spreading growth. The fruits are produced in clusters of from 3 to 5, somewhat flattened, and show a tendency to grow irregularly. The skin is an even purple-red color, and the flesh is dark red, fine in texture, and slightly acid. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; 1b. \$3.50, postpaid.

1082 Turner Hybrid or MIKADO Introduced by Burpee in 1886. Quite distinct in having broad, very much crumpled, and potato-like foliage. The plants make a vigorous, slightly upright growth. The fruits are large, somewhat flattened, and slightly irregular. The rich purple-red color is evenly developed from blossom scar to stem-end. The light red flesh is firm, slightly subacid, and fine in texture.

Pkt. 10 cts.; oz. 30 cts.; ¼ lb. 85 cts.; 1b. \$2.75, postpaid.

1136 Golden Queen Yellow-fruited tomatoes are not as widely grown as the red ones, even though they are preferred by some people on account of their flavor. GOLDEN QUEEN is a standard main-crop variety, bearing a large crop of smooth, flattened, pure yellow fruits. Pkt. 10 cts.; oz. 50 cts.; ¼ lb. \$1.50; 1b. \$5.00, postpaid.

1134 Burpee's Whole-Salad Tomato

A choice "Individual" Tomato. This unique variety is decidedly the best "individual" tomato to serve whole (as is the general custom in Europe) that we have ever grown. It bears so tremendously and continuously that 20 plants should yield more than an average family could eat in a season.

The vines are of vigorous growth and, when trained on a trellis, attain a height of from 6 to 8 feet. The fruits are borne in clusters along practically the entire vine. We have counted as many as 375 ripe and green tomatoes on a single plant at one time; they measure 2 to 2½ inches in diameter by 1½ to 1¾ inches from stem to blossom end, and weigh 3 to 4 ounces each. They are always solid, smooth, and firm; of a rich, bright scarlet color right up to the stem. The firm fruits are just the right size for serving whole, and the flavor is the best we have ever found in a "whole-salad" tomato. Fordhook-grown Seed. Pkt. 10 cts.; ½ oz. 35 cts.; oz. 60 cts.; ¼ lb. \$1.80; 1b. \$6.00, postpaid.

A fine crop of Burpee's Whole-Salad—reproduced from a snapshot sent us by MR. G. H. HEITKEMPER, of Portland, Oregon

SMALL-FRUITED TOMATOES

These are easily grown, immensely productive and very delicious for preserves. The seed has all been grown on FORDHOOK FARMS and, like all Fordhook specialties, is the best that can be produced.

1137 Yellow Plum Size and shape just like a plum; of a bright lemon-yellow; fleshy and of excellent flavor. Very much used for marmalade. Pkt. 10 cts.; oz. 45 cts.; ¼ lb. \$1.35; 1b. \$4.50, postpaid.

1139 Yellow Pear Tomato This is an attractive small-fruited tomato of typical pear shape. The plants are enormously productive and the small fruits make excellent salad or may be used for marmalade. They are sweet and delicious. Pkt. 10 cts.; oz. 50 cts.; ¼ lb. \$1.50; 1b. \$5.00, postpaid.

1141 Peach The fruits average 1½ inches in diameter. The skin is covered with a slight bloom or pubescence, as in a peach, and is of beautiful pinkish coloring. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; 1b. \$3.50, postpaid.

1145 Yellow Cherry The small yellow fruits are borne in clusters, each fruit averaging half an inch in diameter. Pkt. 10 cts.; oz. 40 cts.; ¼ lb. \$1.15; 1b. \$3.75, postpaid.

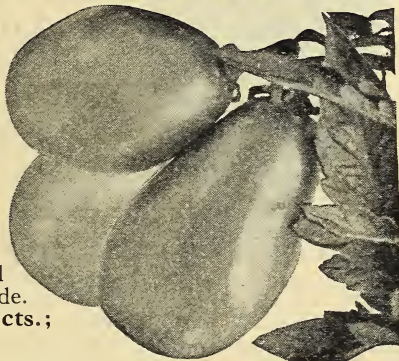

1147 Red Cherry Attractive small fruits of a bright scarlet color. Sweet in flavor and fine for marmalade. Pkt. 10 cts.; oz. 45 cts.; ¼ lb. \$1.35; 1b. \$4.50, postpaid.

1149 Red Pear The fruit is bright red, of true pear shape. Rich and distinct in flavor. Fine for "tomato figs." Pkt. 10 cts.; oz. 50 cts.; ¼ lb. \$1.50; 1b. \$5.00, postpaid.

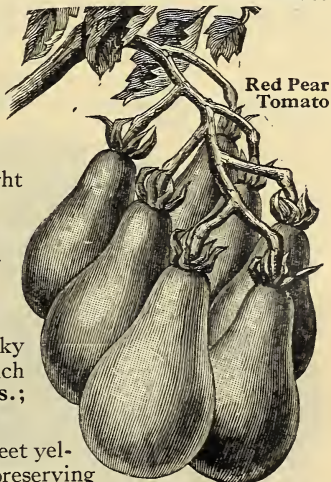

1143 Burbank Preserving Of dwarf stocky growth. Clusters of small round scarlet fruits of rich sweet flavor. Fine for marmalade. Pkt. 10 cts.; oz. 45 cts.; ¼ lb. \$1.35; 1b. \$4.50, postpaid.

1151 Strawberry or HUSK TOMATO The small, sweet yellow fruits are each inclosed in a husk. Highly esteemed for preserving or making pies. Pkt. 10 cts.; oz. 50 cts.; ¼ lb. \$1.50; 1b. \$5.00, postpaid.

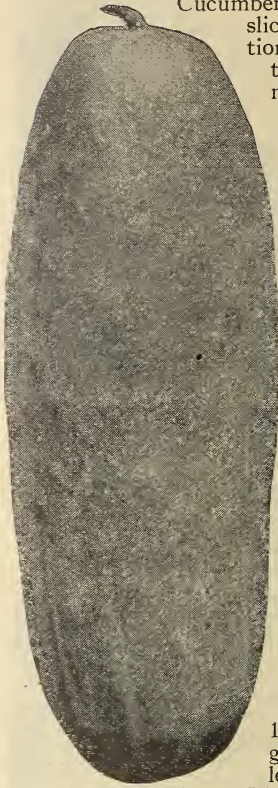

Yellow Plum Tomato

Red Pear Tomato

Burpee's Cucumbers

Cucumbers should be grown in every garden, to furnish both large fruits for slicing for the table and small young fruits for pickling. In most sections it will be best to make two sowings: one as early in the spring as the weather permits, to supply fruits for the table during the summer months, and a second about the last of June or first of July, to furnish fruits for fall use. This late sowing will also give the best supply of young fruits for pickling purposes; the cool fall months are the best time to put them up for winter use. One ounce is sufficient for 100 hills.

Arlington White Spine $\frac{1}{4}$ lb. 45 cts.; 1b. \$1.35, postpaid.

381 Arlington White Spine The cucumbers are very regular in outline, uniform in size, averaging 7 to 8 inches in length, straight, and of a rich dark green color.

Flesh white, crisp, and solid, with comparatively few seeds. Vines of vigorous growth and very productive. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 40 cts.; 1b. \$1.15, postpaid.

385 Extra - Long White

Spine or EVERGREEN Smooth,

round, handsomely colored fruits 8 to 10 inches long, and very regular in size and form; of excellent quality. Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; 1b. \$1.20, postpaid.

399 London  or IMPROVED LONG GREEN

The young cucumbers make very fine pickles. Under favorable conditions the dark green fruits grow from 10 to 12 inches in length. Skin a deep rich green; flesh solid, crisp, and of excellent quality. Pkt. 10 cts.; oz. 20 cts.;

London or Improved Long Green

379 Burpee's Extra-Early White Spine 

This is a special strain of the popular White Spine, which is most desirable for its extreme earliness. It is earlier than our Fordhook and the Boston forcing strains. The fruits are slightly smaller in size, but of smooth, regular form, well colored, and of excellent flavor. Most valuable to plant for early market as the handsome fruits command a good price.

Pkt. 10 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; 1b. \$1.25, postpaid.

Burpee's Extra-Early White Spine

400 Davis' Perfect  See illustration. Within recent years this variety has gained considerably in favor. The fruits measure from 7 to 9 inches in length and their circumference is about 7 inches in the middle. They are slightly tapering at both ends with an *intensely rich dark green skin*. The fruits are very handsome and sell very readily in the markets. The flesh is solid and *of superb quality for slicing*. It is thick, with a small seed cavity containing but few seeds.

DAVIS' PERFECT has proven to be a fine all-around variety. It is extensively grown by home gardeners who do appreciate a really good cucumber, and market gardeners have quickly taken to it because they found that the public demanded cucumbers of this type and they could get a better price for it. Quite often the fruits are mistaken for hot-house grown.

DAVIS' PERFECT does not only make very attractive thick fruits, but it is also valued on account of its prolificness. The vines are strong and healthy and bear the fruits from early in the season until late. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; lb. \$1.20, postpaid.**

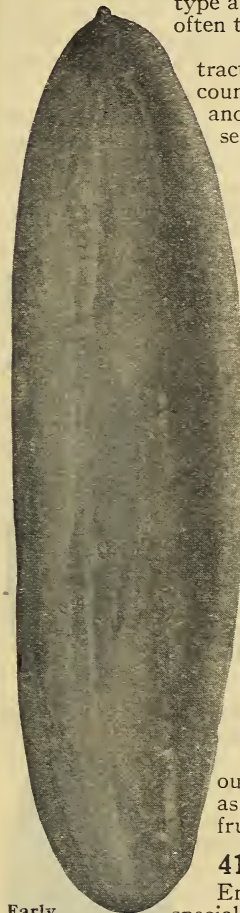

401 Early Fortune This wonderful cucumber resembles in some respects the Davis' Perfect. It is of comparatively recent introduction and considered the finest market cucumber of the White Spine type. The vines grow vigorously and set fruits very freely. The cucumbers when fully grown measure 9 inches in length and are slightly tapering at both ends. The color *of the skin is a rich dark green* and it does not fade when the fruits are shipped to distant markets.

EARLY FORTUNE is a cucumber of finest quality. *The flesh is thick and of an attractive pure white color.* It is firm and has a small seed cavity which contains few seeds. Home gardeners and market gardeners alike are now extensively growing EARLY FORTUNE. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; lb. \$1.25, postpaid.**

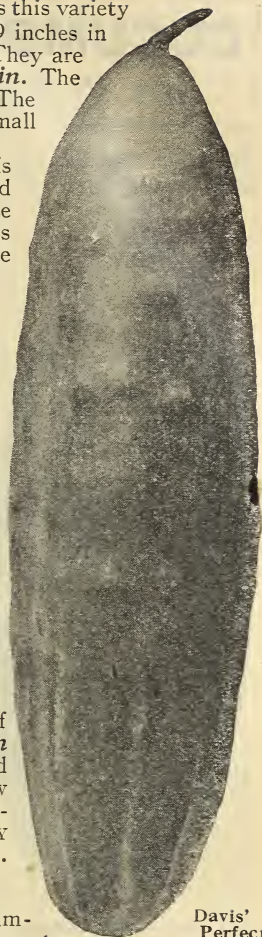

406 Japanese Climbing The cucumbers are from 12 to 16 inches in length. Skin smooth dark green, turning to brown, and netted when ripe. The flesh is pure white, crisp, and of mild flavor. This is an easy climbing variety which can be trained to climb up fences, wire netting, or trellises. Some of our customers have written us that they are using this variety extensively as an ornamental climber besides enjoying the agreeable flavor of the fine fruits. **Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 45 cts.; lb. \$1.50, postpaid.**

413 English Frame or TELEGRAPH See illustration. The

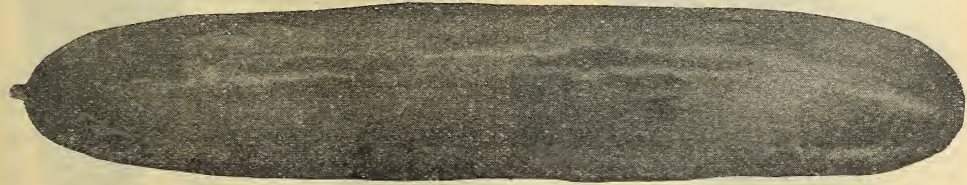

English forcing cucumbers are seldom grown out-of-doors, but possess special merit for forcing in the greenhouse. The plants grow thriftily and are exceedingly prolific. The fruits of this special strain of "Rollison's Telegraph" measure from 18 to 24 inches in length and individual specimens have been grown which weighed over 10 pounds. The long green cylindrical fruits contain only very few seeds. The skin is a most attractive rich deep green and holds its color well after being taken from the vines. The flesh is pure white and of superb quality. ENGLISH FRAME can be highly recommended to all who wish to grow cucumbers in the greenhouse. *Seed very costly.* **Small packets. Pkt. 25 cts.; 5 pkts. for \$1.00; oz. \$3.50, postpaid.**

Early Fortune

Davis' Perfect

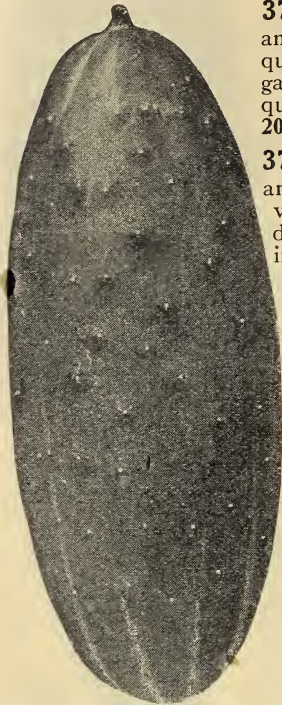

English Frame Cucumber

CUCUMBERS for Pickling

yield their first crop late in July and continue bearing until frost. The fruits for pickling are gathered when they are from 2½ to 5 inches in length.

The growing of cucumbers for pickles is a very important industry in certain sections of the United States. Cucumbers for pickles are usually planted in checks 6 by 6 feet or 6 by 3 feet apart, or in drills 6 feet apart. The time for planting pickling cucumbers varies according to the locality but usually they are sown from the first of June to about July 1st. The early plantings

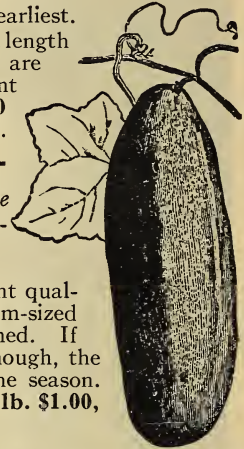

Early Green Cluster

371 Early Green Cluster The fruits are of slender form and most desirable for pickling. They are very prolific and frequently set in clusters of two and three. If the fruits are kept gathered, the vines will continue long in bearing. Of excellent quality; meaty and has a small seed-cavity. **Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; lb. \$1.20, postpaid.**

375 Everbearing  See illustration. This is a very early and extremely prolific variety. If the fruits are kept gathered, the vines will continue in bearing throughout the season. The fruits are dark green in color, averaging from 4 to 5 inches in length by 1½ inches in diameter. It is an excellent variety to grow for small pickles. **Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; lb. \$1.20, postpaid.**

369 Early Russian This is the earliest. The fruits are small, being about 3 inches in length and 1½ inches in diameter. The plants are productive and the fruits are of excellent quality for pickling. **Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; lb. \$1.25, postpaid.**

377 Extra-Early Green Prolific  or **BOSTON PICKLING** See illustration. This is a very prolific variety, largely grown for pickles. The fruits average 4 to 5 inches in length when large enough for slicing, and are of excellent quality; but it is chiefly for producing medium-sized pickles that this variety is so highly esteemed. If the fruits are gathered as soon as large enough, the vines will continue bearing throughout the season. **Pkt. 5 cts.; oz. 15 cts.; ¼ lb. 40 cts.; lb. \$1.00, postpaid.**

Everbearing

409 West India Gherkin A very prolific, small-fruited variety, used exclusively for pickling. The fruits are 2 to 3 inches in length, thick and rounded, closely covered with spines. Vines rather sparse, with small leaves, but of strong growth. **Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 50 cts.; lb. \$1.65, postpaid.**

373 Early Frame or **EARLY SHORT GREEN** Desirable for producing pickles of medium size and of fine quality when sliced for table use. Matures early and bears continuously if the fruits are picked regularly and before they become too large. **Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; lb. \$1.10, postpaid.**

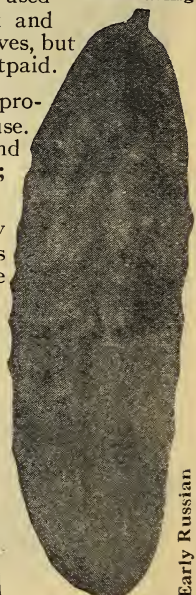

397 Cumberland Pickling The vines are hardy and bear very freely. The young cucumbers are thickly set with small spines, and possess the distinctly roughened surface so much desired for small pickles. The large fruits average 9 to 10 inches in length by 2½ inches in diameter. **Pkt. 5 cts.; oz. 15 cts.; ¼ lb. 40 cts.; lb. \$1.00, postpaid.**

Extra-Early Green Prolific

Dill Pickles!

Pack the fresh cucumbers in a stone jar, placing them in layers separated by dill branches. Grape or cherry leaves may also be mixed with the dill. Pour over them a brine made of one cup of salt to a gallon of water. Cover with a lid and weight to keep the pickles below the brine. Let stand for 3 or 4 weeks.

Early Russian

393 Burpee's Fordhook Famous Cucumber

Illustrated in Color on the Front Cover

The Largest, Most Handsome Cucumber—The Most Fleshy and Finest in Flavor of the White Spine Type.

This was introduced by Burpee in 1902. The vines make a tremendous growth. They are unusually vigorous, bearing an enormous crop. The foliage is rich dark green and is quite resistant to diseases and insect attacks.

Burpee's Fordhook Famous

makes perfectly straight fruits. They average about 12 inches in length, and grown under suitable conditions will reach 17 inches. They are thickest in the middle of the fruits, where they average from 2 to 3 inches across. The handsome fruits taper gently toward the ends, holding their thickness well until they run off into a round stem and blossom end. The skin of the fruits is a beautiful **rich dark green** set with a number of the characteristic white spines. We have many enthusiastic letters from customers who have proclaimed it the most beautiful and best of all long green cucumbers. A most remarkable feature of BURPEE'S FORDHOOK FAMOUS is the fact that it retains the beautiful deep green color of the skin until it is fully ripe. When overripe, it turns lighter until it becomes almost white, but it never turns yellow.

Burpee's Fordhook Famous

is practically all flesh, containing but very few seeds. The thick flesh is a beautiful greenish white. It is crisp, juicy, and of the most delicious flavor. Some years ago one of our customers made the remark that BURPEE'S FORDHOOK FAMOUS was "**All flesh and no seeds.**" It is essentially a quality cucumber which is absolutely unequalled for market or home use.

The fine large fruits are wonderful for slicing, but if picked when of small size, they make extremely fine pickles. The vigorous vines bear continuously, particularly if the fruits are picked as soon as they have reached a good size. We have reports that it has yielded as many as 67 bushels of fruits from 10 hills, and the fruits were so fine that they brought a higher price than any other cucumber on the market. **Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 45 cts.; 1b. \$1.50, postpaid.**

410 Burpee's White Wonder

BURPEE'S WHITE WONDER CUCUMBER was introduced by us in 1893. The original seed was sent to us in the spring of 1890 from a customer in Western New York who described it as follows:

"The cucumbers are white from the time they begin to grow, and are the best I have ever seen, either for eating fresh or pickling."

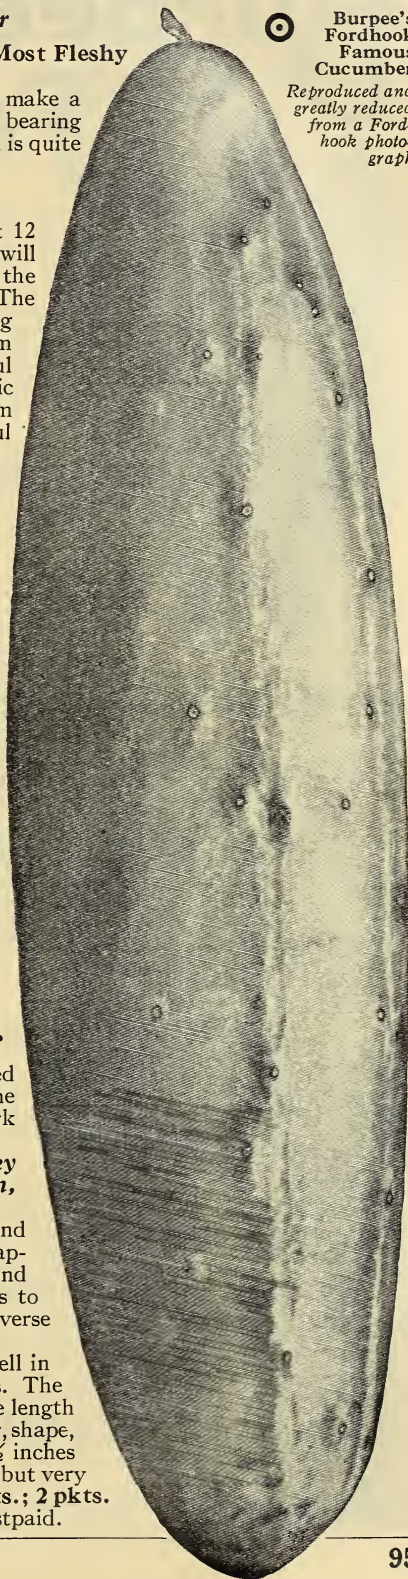

Our trials prove that the claims made by our friend were more than true. The fruits are of handsome appearance and fine quality, while its strong, vigorous, and extremely healthy habit of growth enables the vines to produce a large crop of perfect fruits even under adverse weather conditions.

BURPEE'S WHITE WONDER CUCUMBER will do well in seasons when other cucumbers will not bear any fruits. The cucumbers are borne profusely throughout the length of the vine and are remarkably uniform in color, shape, and size. They average 8 inches long by 2½ inches thick. The pearly white skin is extremely thin but very tough and the flesh is of wonderful quality. **Pkt. 15 cts.; 2 pkts. for 25 cts.; oz. 35 cts.; ¼ lb. \$1.00; 1b. \$3.50, postpaid.**

Reproduced and greatly reduced from a Fordhook photograph

Burpee's Farm Seeds

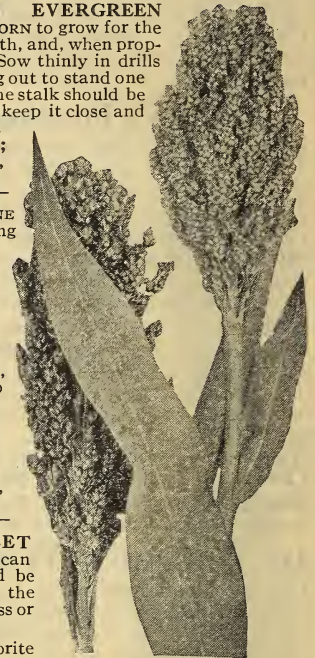

Broom Corn

The farmer of today is fully aware that it pays him in dollars and cents to use seeds of known quality only. He knows that good seed is the first requirement for a good crop. Cheap seeds waste time, labor, and fertilizer that have been used in preparation for the crop, and no after-care in cultivation can bring profitable returns. Complete tests, including all our varieties and many samples from various other sources, enable us to keep in the lead and to offer to our customers seeds of known quality. Besides the seeds listed below and on the following pages, various root crops are considered farm seeds. Mangel Wurzel and Sugar Beets are listed on page 11; Carrots for Stock Feeding, on page 13; Turnips and Rutabagas, on pages 14 and 15.

Prices fluctuate according to the market. We reserve the right to change prices without notice

6005 BROOM CORN IMPROVED EVERGREEN

This is the most popular variety of BROOM CORN to grow for the market, the brush being firm and of good length, and, when properly cured, retains the light green coloring. Sow thinly in drills 4 feet apart when the trees are in leaf, thinning out to stand one foot apart in the row. The upper portion of the stalk should be bent over when the straw is well developed, to keep it close and straight. Planted in hills, 6 to 8 lbs. per acre. Sown in drills, 10 lbs. per acre. **Pkt. 10 cts.; 3 lbs. 30 cts.; 3 lbs. 85 cts., postpaid.** By express, 10 lbs. or more, at 18 cts. per lb.

Sugar Cane

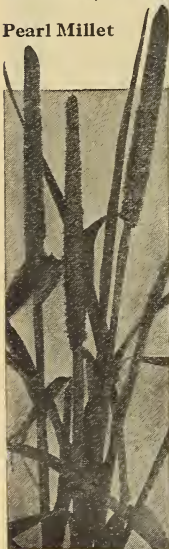

6073 SUGAR CANE EARLY ORANGE SUGAR CANE

or Sorghum is desirable for planting either for feeding green or making into ensilage. The stalks are tender and filled with rich, sweet sap. The plants branch freely and will sprout out a second time if not cut too closely in the green state. Sow 10 to 12 pounds to the acre. Yields a large quantity of fodder. **Pkt. 10 cts.; lb. 25 cts.; 3 lbs. 70 cts., postpaid.** By express or freight, 10 lbs. or more, at 14 cts. per lb.

6047 KAFFIR CORN

The stout stalks grow stiffly erect, from 6 to 10 feet in height, according to location and richness of the soil. The stalks and blades cure into good fodder and are also desirable to furnish green forage during the summer months. The seed is borne in a loose branching head, 10 to 12 inches in length, at the top of the stalk. On good land KAFFIR CORN will yield 50 bushels per acre. The seeds are esteemed for feeding to both stock and poultry. Sow in drills 3 to 6 lbs. per acre. For fodder sow 10 to 12 lbs. per acre. **Pkt. 10 cts.; lb. 30 cts.; 3 lbs. 85 cts., postpaid.** By express or freight, 10 lbs. or more, at 15 cts. per lb.

Pearl Millet

MILLET 6050 HUNGARIAN MILLET

(*Panicum Germanicum*) Seed can be sown early in July. To make the best hay it should be cut before the seeds become hard. Fifty pounds to the acre. **Lb. 30 cts.; 3 lbs. 85 cts., postpaid.** By express or freight, 10 lbs. or more, at 15 cts. per lb.

6049 GOLDEN MILLET (*Chaetochloa*) This is the favorite variety for planting in good land to produce a large crop of hay or forage during the summer months; of strong growth. Sow 50 pounds to the acre. *Tennessee-grown.* **Lb. 30 cts.; 3 lbs. 85 cts., postpaid.** By express or freight, 10 lbs. or more, at 15 cts. per lb.

6052 PEARL MILLET (*Pencillaria*) Sown in drills 4 feet apart and cultivated like corn, the plants attain a height of 8 to 10 feet, with slender stalks and slender, long-bladed leaves. It should be cut while young and tender; 8 to 10 lbs. per acre. **Lb. 35 cts.; 3 lbs. \$1.00, postpaid.** By express or freight, 10 lbs. or more, at 18 cts. per lb.

6051 JAPANESE MILLET (*Panicum crus-galli*) JAPANESE MILLET, also called Japanese Barnyard Millet, was introduced in the United States in 1889, and after a few years' trial gained quite a reputation as a valuable forage crop. The forage is tender and highly relished. Yield, 20 tons per acre. Furthermore, it is a fine ensilage and hay crop. JAPANESE MILLET does best on rather rich, retentive soils, but it will not endure drought. Sow in spring, about the time corn is planted; broadcast at the rate of 12 to 14 pounds per acre. **Lb. 30 cts.; 3 lbs. 85 cts., postpaid.** By express or freight, 10 lbs. or more, at 15 cts. per lb.

6077 TEOSINTE (*Euchlana mexicana*) The seed should not be sown until all danger of frost is past. Yields two or more good cuttings in a season. Drill the seed thinly in rows 4 feet apart, leaving the plants one foot apart in the row. The forage is exceedingly tender and is greedily eaten by horses as well as cattle and sheep. Six pounds per acre. Planted in hills 4 to 5 feet apart, 3 pounds per acre. **Pkt. 10 cts.; lb. 60 cts.; 3 lbs. \$1.70, postpaid.** By express or freight, 10 lbs. or more, at 45 cts. per lb.

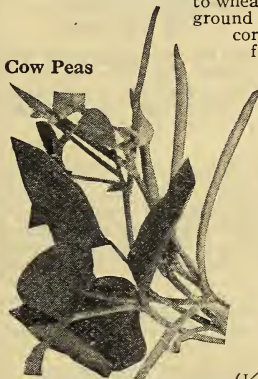

SOY BEANS These do well even on poor soils. They are extensively grown in the corn belt. Sow the seed any time after all danger of frost has passed—about the time corn is planted. Plant 2 inches deep. If intended for hay, the crop should be cut any time from the setting of the seed until the leaves begin to turn yellow. **SOY BEANS** are often planted with corn or sorghum for silage. If planted in rows 2 to 3 feet apart, 20 to 30 pounds of seed are needed per acre. For broadcasting use 60 to 90 pounds per acre.

6069 MAMMOTH YELLOW A late variety, requiring 140 days in which to mature seed. Usually grown for hay or green manure, ready for cutting in 120 days, and giving an unusual yield of hay. Commonly grown in the South, where it does exceptionally well. **Pkt.** ($\frac{1}{4}$ lb.) 10 cts.; lb. 25 cts.; 3 lbs. 70 cts., postpaid. By express or freight, 10 lbs. or more, at 10 cts. per lb.

6071 BLACK WILSON Medium size, black seed. Considered the best all-around variety for the North. Of rather upright growth, with a good amount of foliage and a slight tendency to vine on fertile soil. Matures seeds in 125 days and is ready for cutting in 110 days. A heavy seed-producer. **Pkt.** ($\frac{1}{4}$ lb.) 10 cts.; lb. 25 cts.; 3 lbs. 70 cts., postpaid. By express or freight, 10 lbs. or more, at 10 cts. per lb.

COW PEAS This is the most important legume in the cotton belt, and is also very important for forage, hay, pasture, and green manure as far north as Pennsylvania. In our Southern States the seeds are used for human food. The green feed is fully as valuable as red clover, and nearly equal in food value to alfalfa or to wheat bran. The seed should be sown after the ground becomes well warmed, about 2 weeks after corn planting, but not later than 90 days before the first killing frost. In the latitude of Philadelphia a good hay crop can be harvested from seed sown any time during June. If the seed is broadcasted, 60 to 120 pounds are needed to sow 1 acre. Sown in drills, 75 pounds of seed are required per acre; if planted for seed in rows 3 feet apart, 15 to 20 pounds of seed suffice for an acre. Quite often it is planted between corn with the last cultivation, using 45 pounds per acre.

Cow Peas

6016 NEW ERA A small-seeded variety with bluish seeds, forming compact bushes. It is the earliest to mature, requiring about 75 days in which to produce ripe seed-pods. On account of its neat growth it is easily handled. **Pkt.** ($\frac{1}{4}$ lb.) 10 cts.; lb. 25 cts.; 3 lbs. 70 cts., postpaid. By express or freight, 10 lbs. or more, at 10 cts. per lb.

6017 WHIPPOORWILL Probably more than half of the acreage planted in the United States is devoted to this variety. It ripens early, and if planted by mid-May, the crop may be harvested in time to plant winter grain in the fall. **Pkt.** ($\frac{1}{4}$ lb.) 10 cts.; lb. 25 cts.; 3 lbs. 70 cts., postpaid. By express or freight, 10 lbs. or more, at 10 cts. per lb.

6010 CANADA FIELD PEAS

Field peas require a moderate temperature and do best on a loamy soil. They should be sown as early as all danger of frost is passed, and will be ready for hay in 75 to 100 days after sowing. The seed matures in 90 to 120 days. When peas and oats are sown together, 120 pounds of peas and 40 pounds of oats per acre are recommended. Sown alone, 120 to 180 pounds of seed are used for 1 acre. **Pkt.** ($\frac{1}{4}$ lb.) 10 cts.; lb. 25 cts.; 3 lbs. 70 cts., postpaid. By express or freight, 10 lbs. or more, at 10 cts. per lb.

RAPE This is grown largely as a fattening food for sheep in the autumn. It is also especially desirable for pasturing hogs during the summer months. In the Northern States seed may be sown at any time from early spring until the end of August, but in the warm Southern States it should not be sown until September or October for winter pasturing. Sow 8 pounds per acre broadcast and harrow in lightly, or 4 to 5 pounds in drills 15 inches apart. Its fattening properties are estimated to be twice as great as those of first-class clover.

Japanese Buckwheat

6066 TRUE DWARF ESSEX This is the leading variety. **Pkt.** 10 cts.; lb. 30 cts.; 3 lbs. 85 cts., postpaid. By express or freight, 10 lbs. or more, at 12 cts. per lb.

BUCKWHEAT **6007 JAPANESE** Sow 25 pounds per acre planted in drills. Broadcasting requires 50 pounds of seed per acre, and for a heavy cover-crop in orchards use 75 pounds per acre. This is a highly desirable variety. Sown the same day as Silver Hull, it ripens slightly later and yields nearly double. The plant is of stronger growth than common buckwheat, and the kernels are fully twice the size. The flour is equal in quality to that of other buckwheats. **Pkt.** ($\frac{1}{4}$ lb.) 10 cts.; lb. 25 cts.; 3 lbs. 65 cts., postpaid. By express or freight, 10 lbs. or more, at 6 cts. per lb.

6008 SILVER HULL This is a very useful variety, having a large, plump, silvery gray grain. The plant continues to bloom longer than common buckwheat, thus producing a larger crop. **Pkt.** ($\frac{1}{4}$ lb.) 10 cts.; lb. 25 cts.; 3 lbs. 65 cts., postpaid. By express or freight, 10 lbs. or more, at 6 cts. per lb.

A fine stand of Soy Beans

Dwarf Essex Rape

BURPEE-QUALITY GRASS SEED

Orchard Grass

Nothing is more important to the farmer than that the grass seed he sows be pure and clean. The seed should also be plump, heavy, and well ripened, so as to insure a good stand. First-class, thoroughly re-cleaned seed, even though considerably more costly in the first place, is really much cheaper in the end than the light, chaffy grades generally sold at much lower prices, even if the latter is free from weed seeds. Heavy, plump seed, germinating better, will produce a much greater number of strong plants.

Where large quantities are desired or SPECIAL MIXTURES are wanted for different soils, we will be pleased to advise as to the proper varieties and prices.

Write for prices on large quantities!

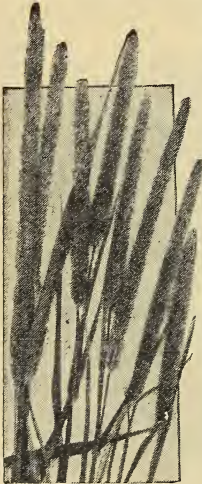

Red Top Grass

6131 ORCHARD GRASS (*Dactylis glomerata*) This is one of the most desirable pasture grasses for stock and also for producing large crops of hay. It succeeds well in quite shady places, hence the name of ORCHARD GRASS. 25 to 30 lbs. to the acre. **Lb. 40 cts.; 3 lbs. \$1.10**, postpaid. By express or freight, 10 lbs. or more, at 25 cts. per lb.

6139 TIMOTHY (*Phleum pratense*) Of the easiest culture, and with us is usually sown in connection with winter grain in the fall, to which a seeding of clover is added early in the spring; 20 to 30 lbs. to the acre. **Lb. 30 cts.; 3 lbs. 85 cts.**, postpaid. By express or freight, 10 lbs. or more, at 14 cts. per lb.

6133 RED TOP GRASS (*Agrostis vulgaris*) It is a most valuable variety to sow with timothy and clover to form a close sward for pasturage. Sown alone, 10 lbs. per acre. RED TOP is particularly valuable on land too wet for timothy, and will even thrive on land too wet for cultivation. A broadcast seeding over the unplowed area will usually establish the grass. Extra fancy. **Lb. 45 cts.; 3 lbs. \$1.25**, postpaid. By express or freight, 10 lbs. or more, at 35 cts. per lb.

Timothy

6127 KENTUCKY BLUE GRASS (*Poa pratensis*) As is well known, this is the grass for which the State of Kentucky is famous. Although it is preëminently a pasture grass, it is frequently used in making lawns. When KENTUCKY BLUE GRASS is used for lawn purposes, the seed is generally sown at the rate of 30 to 40 lbs. to the acre. If White Dutch Clover is desired, this seed should be added at the rate of about ½ pound to every 15 lbs. of grass seed. **Lb. 60 cts.; 3 lbs. \$1.65**, postpaid. By express or freight, 10 lbs. or more, at 45 cts. per lb.

6114 BERMUDA GRASS (*Cynodon dactylon*) BERMUDA GRASS is adapted to hot and dry locations in the South, making good lawns and pasturage on the sandy soils of the Gulf States. A well-kept Bermuda lawn is decidedly beautiful during summer. Where

BERMUDA GRASS does well it cannot be excelled for pasturing and makes a continuous growth even during the hottest weather. Sow 5 to 7 lbs. per acre. **Lb. 60 cts.; 3 lbs. \$1.65**, postpaid. By express or freight, 10 lbs. or more, at 45 cts. per lb.

6126 CANADA BLUE GRASS (*Poa compressa*) This is quite similar to the Kentucky Blue Grass and is used for pasture on sandy soils in the far North. It also does well on heavy clay soils. **Lb. 60 cts.; 3 lbs. \$1.60**, postpaid. By express or freight, 10 lbs. or more, at 35 cts. per lb.

6138 SUDAN GRASS (*Andropogon sorghum*) After 7 years' experimenting at FORDHOOK FARMS we find that SUDAN GRASS in this section of Pennsylvania could easily take the place of the millets or of any other annual hay. The seed is sown during the early part of May, and the crop should be ready for the first cutting in July. If preferred, the second crop may be pastured. Yields as high as 5 tons per acre. For broadcast sowings use 18 to 25 lbs. per acre. Sown in rows 2 feet apart, plant 4 to 6 lbs. per acre. **Lb. 35 cts.; 3 lbs. \$1.00**, postpaid. By express or freight, 10 lbs. or more, at 20 cts. per lb.

6119 ENGLISH RYE GRASS (*Lolium perenne*) A most valuable grass for both pasture and meadows. It thrives in a cool and moist climate, adapting itself to a great many different kinds of soil. A strong and vigorous grower, curing into a fine hay of sweet flavor. Much relished by cattle and horses. **Lb. 40 cts.; 3 lbs. \$1.10**, postpaid.

6115 CREEPING BENT (*Agrostis stolonifera*) For lawn and pasture mixtures. **Lb. \$2.25; 3 lbs. \$6.50**, postpaid.

6117 CRESTED DOGSTAIL (*Cynosurus cristatus*) For pasture mixtures. **Lb. 75 cts.; 3 lbs. \$2.10**, postpaid.

6121 HARD FESCUE (*Festuca duriuscula*) For lawns on light soils. **Lb. 85 cts.; 3 lbs. \$2.35**, postpaid.

6125 ITALIAN RYE GRASS (*Lolium italicum*) Used in quick pastures. **Lb. 40 cts.; 3 lbs. \$1.10**, postpaid.

6129 MEADOW FESCUE (*Festuca pratensis*) For pasture mixtures. **Lb. 50 cts.; 3 lbs. \$1.35**, postpaid.

6134 RED or CHEWING'S FESCUE (*Festuca rubra*) Fine for hay. **Lb. 85 cts.; 3 lbs. \$2.40**, postpaid.

6135 ROUGH-STALKED MEADOW GRASS (*Poa trivialis*) **Lb. \$1.25; 3 lbs. \$3.50**, postpaid.

6137 SHEEP'S FESCUE (*Festuca ovina*) Does well on light soil. **Lb. 85 cts.; 3 lbs. \$2.35**, postpaid.

6141 WOOD MEADOW GRASS (*Poa nemoralis*) For shady places. **Lb. \$1.35; 3 lbs. \$3.65**, postpaid.

For Lawn Grass Mixtures, see pages 4 and 5

Grass Mixtures

Our special mixtures for pasture, meadow, and hay field are all composed of heavy and plump, full-of-vitality seeds. They are made up from the best grasses suited for their particular purpose. We are sure that our mixtures will give entire satisfaction.

6143 PERMANENT PASTURE A special mixture of the best grasses and clovers for establishing a permanent pasture; 40 lbs. per acre. **Lb. 50 cts.; 3 lbs. \$1.35; 5 lbs. \$2.15**, postpaid. By express or freight, 10 lbs. or more, at 35 cts. per lb.

6148 MEADOW or HAY FIELD A special mixture of grasses and clovers in suitable proportions for the average soil to produce a large crop of hay and after-

math for pasture; 35 lbs. per acre. **Lb. 45 cts.; 3 lbs. \$1.25; 5 lbs. \$1.85**, postpaid. By express or freight, 10 lbs. or more, at 30 cts. per lb.

6150 SPECIAL LOWLAND MEADOW A mixture of grasses and clovers adapted for moist or slightly sour lands, for cutting or pasturing; 35 lbs. per acre. **Lb. 45 cts.; 3 lbs. \$1.25; 5 lbs. \$1.85**, postpaid. By express or freight, 10 lbs. or more, at 31 cts. per lb.

ALFALFA AND CLOVERS

Alfalfa

Prices for clover seed fluctuate
Write for prices on large quantities

ALFALFA or **LUCERNE** (*Medicago sativa*) This strongly resembles clover in habit of growth and feeding value, but withstands drought much better. It ranks as the third most important forage crop in America. It is a perennial plant on well-drained soils, so that when once established, it will continue to produce large yields for over 20 years when properly cared for. ALFALFA succeeds in almost any kind of soil. Deep soils are particularly suitable on account of its great root development. Liming the soil increases the yield, and good drainage is essential for a good stand. Under ordinary conditions the roots penetrate the soil to a depth of 6 feet. The seed-bed must be in fine condition, moist, well settled, and free from weeds. According to the climate, the seed should be sown in the spring, late summer, or early fall. In the colder section spring seeding is most successful because the plants must be well rooted by winter. Sow the seed $\frac{1}{4}$ to 1 inch deep. The first cutting for hay is usually made shortly after the first blossoms appear. If permanency is desired, it must be cut every time it comes into bloom. Sow 25 to 35 pounds per acre broadcast; 15 to 25 pounds per acre in drills. ALFALFA is a very important crop and, before planting, write to your Agricultural Experiment Station for free literature on Alfalfa.

6100 ALFALFA, KANSAS-GROWN This seed has been produced in a section where alfalfa grows to perfection. Lb. 45 cts.; 3 lbs. \$1.25, postpaid. By express or freight, 10 lbs. or more, at 29 cts. per lb.

6100a ALFALFA, MONTANA-GROWN or **GRIMM TYPE** This is a strain selected for hardiness. It has proved valuable where ordinary alfalfa suffers from severe winter weather. Lb. 80 cts.; 3 lbs. \$2.25, postpaid. By express or freight, at purchaser's expense, 10 lbs. or more, at 55 cts. per lb.

6101 ALSIKE or **HYBRID CLOVER** (*Trifolium hybridum*) A long-lived perennial and very hardy, thriving equally well on wet or dry soils. Does especially well in cool climates with abundant moisture. Sow at the rate of 8 to 12 pounds to the acre. Lb. 45 cts.; 3 lbs. \$1.25, postpaid. By express or freight, at purchaser's expense, 10 lbs. or more, at 28 cts. per lb.

6103 SWEET CLOVER, WHITE BLOSSOM (*Melilotus alba*) Biennial. Also known as *Bokhara clover*. Plants grow 4 feet during the first season and 6 to 12 feet the second year. Will do on any kind of soil, including the very poorest. A fine bee food and used for pasturage, hay, green manure, soiling, and ensilage; 20 to 30 pounds per acre sown broadcast; 15 to 25 pounds per acre in drills. Lb. 35 cts.; 3 lbs. 95 cts., postpaid. By express or freight, at purchaser's expense, 10 lbs. or more, at 16 cts. per lb.

6105 CRIMSON or **ITALIAN CLOVER** (*Trifolium incarnatum*) An annual variety providing large crops of green forage or, if cut while in bloom, will make excellent hay. It is for use as a green manure and cover crop that this plant is most highly esteemed. Seed should be sown early in August or September; 20 to 30 pounds per acre broadcast; 12 to 15 pounds per acre in drills. Lb. 45 cts.; 3 lbs. \$1.10, postpaid. By express or freight, at purchaser's expense, 10 lbs. or more, at 26 cts. per lb.

6107 MAMMOTH or **PEA-VINE** (*Trifolium pratense perenne*) Also known as *Sapling Clover*; this grows much taller than *Red Medium*, with larger, leafier stalks; 8 to 12 pounds of seed per acre. Lb. 60 cts.; 3 lbs. \$1.50, postpaid. By express or freight, 10 lbs. or more, at 34 cts. per lb.

6109 RED MEDIUM (*Trifolium pratense*) This is the common red clover so largely grown; 8 to 12 pounds per acre. Lb. 50 cts.; 3 lbs. \$1.40, postpaid. By express or freight, 10 lbs. or more, at 34 cts. per lb.

6113 WHITE DUTCH CLOVER (*Trifolium repens*) Also called *Trefoil*. This thrives in almost every soil and climate, succeeding equally well on heavy moist land and thin dry hillsides. A very useful pasture plant; 9 to 12 pounds per acre if sown alone. Lb. \$1.00; 3 lbs. \$2.85, postpaid. By express or freight, at purchaser's expense, 10 lbs. or more, at 70 cts. per lb.

Red Medium Clover

6112 Hubam **NEW ANNUAL WHITE SWEET CLOVER.** Hubam is a variety of Sweet Clover that has received more attention during late years than any other plant discovered. In contrast to the biennial Sweet Clover, Hubam Clover is an annual and grows from 5 to 7 feet high within 4 to 7 months. It has set a record which is unequalled by any other forage crop. It is extremely drought-resistant and will grow on soils too poor for any other crops. Sow in cultivated rows at the rate of 3 to 4 pounds per acre or broadcast 12 pounds per acre. It yields from 5 to 8 bushels of good seed per acre. Being hardy, it may be planted early in the spring in a firm seed-bed. Pkt. 10 cts.; $\frac{1}{4}$ lb. 30 cts.; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.50. By express or freight, at purchaser's expense, 10 lbs. or more, at 65 cts. per lb.

Hairy or Winter Vetch

VETCH

6079 **VICIA SATIVA—SPRING VETCH, COMMON VETCH, or TARES**

Strictly an annual, sown in the South during September and October, and one of the most valuable of our field crops for use as a green manure or grown for hay. Also grown to furnish early spring pasture. Frequently sown with oats, using 60 pounds of Vetch with 40 pounds of oats per acre, or alone at the rate of 60 to 100 pounds to the acre broadcast. Lb. 30 cts.; 3 lbs. 95 cts., postpaid. By express or freight, 10 lbs. or more, at 10 cts. per lb.

6080 VICIA VILLOSA—HAIRY, SAND, or WINTER VETCH A hardy, pea-like plant which grows strongly during the late fall and early spring months, remaining green all winter; 40 to 60 pounds per acre if sown alone, or 20 to 25 pounds of vetch with the usual quantity of grain. Lb. 45 cts.; 3 lbs. \$1.10, postpaid. By express or freight, 10 lbs. or more, at 28 cts. per lb.

BURPEE'S FIELD CORN

Northern Grown Seed

These varieties have all been grown especially for seed. The seed has been well cured and is *true to name*.

Much has been said regarding the care and breeding of stocks and the improving of standard varieties, but yet there are planters who are somewhat loath to displace varieties that have been in their families for years and are satisfied with yields smaller than could be obtained by the planting of improved stocks of old varieties or new sorts which have, on trial, proved bountiful yielders. It pays to renew your seed stock of Field Corn. Sow 14 pounds of seed per acre if planted in hills. For silage, from 16 to 18 pounds are planted in rows. For soiling, sow 50 to 100 pounds per acre, either broadcasted or, better, planted thickly with a grain drill.

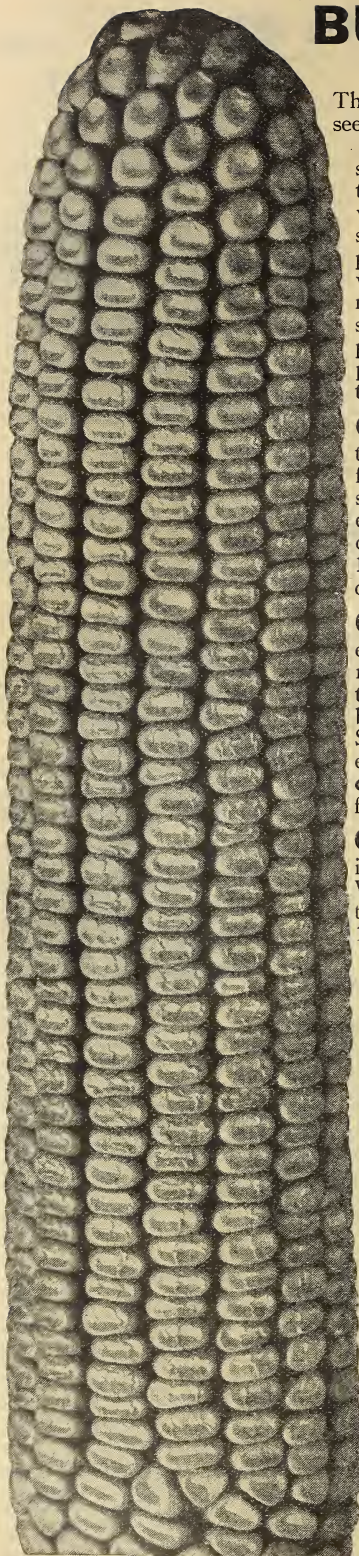

6020 Canada Yellow Flint The flint corns are the hardest and earliest in maturity and can be grown satisfactorily much farther north than the dent corns. Our strain is of an improved type, producing long, well-filled ears with 8 rows of quite large grains. It is much more productive than the ordinary strains of flint corn. $\frac{1}{4}$ lb. pkt. 10 cts.; 1b. 25 cts.; 3 lbs. 70 cts., postpaid. By express or freight, 10 lbs. or more, at 8 cts. per lb.

6022 Chester County Mammoth The ears are of extra-large size, containing from 14 to 18 rows of medium-sized, deep yellow grains, which are rich and nutritious, making excellent meal when ground. It is one of the best yellow varieties for good land in this latitude and the South, but cannot be relied upon to mature sufficiently early farther north than Pennsylvania. $\frac{1}{4}$ lb. pkt. 10 cts.; 1b. 25 cts.; 3 lbs. 70 cts., postpaid. By express or freight, 10 lbs. or more, at 8 cts. per lb.

6023 Cloud's Yellow Dent In the East this is one of the most popular varieties of Yellow Dent Corn. We have been very fortunate in securing some from one of the best growers in the East, a very fine lot of this splendid 120-day corn. In sections where the season will permit, CLOUD'S YELLOW DENT is one of the heaviest yielders, and by reason of the type of growth is valuable alike for silage or feeding corn. $\frac{1}{4}$ lb. pkt. 10 cts.; 1b. 25 cts.; 3 lbs. 70 cts., postpaid. By express or freight, 10 lbs. or more, at 7 cts. per lb.

6030 New Sussex White SUSSEX WHITE is particularly adapted for growing on light sandy soils and will give a good yield on land that is too poor to grow any other variety, and it seems to be comparatively drought-resistant. We have tested it on poor sandy soils in southern New Jersey and found it would outyield all other corns under those conditions. SUSSEX WHITE makes a very early crop of fair-sized ears with rather broad, white dent kernels and a good yield of fodder. It will make it possible to grow good corn on land where it has been unprofitable to plant corn heretofore. Excellent for replanting. $\frac{1}{4}$ lb. pkt. 10 cts.; 1b. 25 cts.; 3 lbs. 70 cts., postpaid. By express or freight, 10 lbs. or more, at 9 cts. per lb.

6032 Improved Leaming On good land the stalks grow tall, often producing 2 good ears to a stalk. The ears are long, with small red cob well filled with grains of medium size, of a rich golden color. It ripens in from 100 to 110 days. A sure cropper even in dry seasons. Excellent for fodder. $\frac{1}{4}$ lb. pkt. 10 cts.; 1b. 25 cts.; 3 lbs. 70 cts., postpaid. By express or freight, 10 lbs. or more, at 8 cts. per lb.

Improved Leaming

6026 Burpee's Golden Beauty

This most popular variety produces the largest yellow grains of any field corn now known. The ears are perfect in form and grow to remarkable size, well filled to the extreme tip with 10 to 14 regular rows of bright golden grains. The cobs are unusually small. At FORDHOOK FARMS it requires a season of 110 to 120 days to mature a crop. $\frac{1}{4}$ lb. pkt. 10 cts.; 1b. 25 cts.; 3 lbs. 70 cts., postpaid. By express or freight, 10 lbs. or more, at 9 cts. per lb.

6025 Luce's Favorite

LUCE'S FAVORITE is a hybrid between the Yellow Flint and Early Golden Dent. It is in all respects like a flint variety with a slight dent. The ears are large and produced two at a plant. Matures ears in 100 days; good for ensilage. $\frac{1}{4}$ lb. pkt. 10 cts.; 1b. 25 cts.; 3 lbs. 70 cts., postpaid. By express or freight, 10 lbs. or more, at 7 cts. per lb.

6028 Hickory King

This has the largest grains with the smallest cob of any white corn. Of strong growth, the stalks take a firm hold in the ground and stand upright. It yields splendid crops on light soil, and is undoubtedly the most productive white field corn for the South. $\frac{1}{4}$ lb. pkt. 10 cts.; 1b. 25 cts.; 3 lbs. 70 cts., postpaid. By express or freight, 10 lbs. or more, at 7 cts. per lb.

6029 Johnson County White

A large-eared variety for heavy soils, extensively used for ensilage. JOHNSON COUNTY WHITE has been found to be an excellent feeding corn for the Southeast and Central West. $\frac{1}{4}$ lb. pkt. 10 cts.; 1b. 25 cts.; 3 lbs. 70 cts., postpaid. By express or freight, 10 lbs. or more, at 8 cts. per lb.

6039 Eureka Ensilage

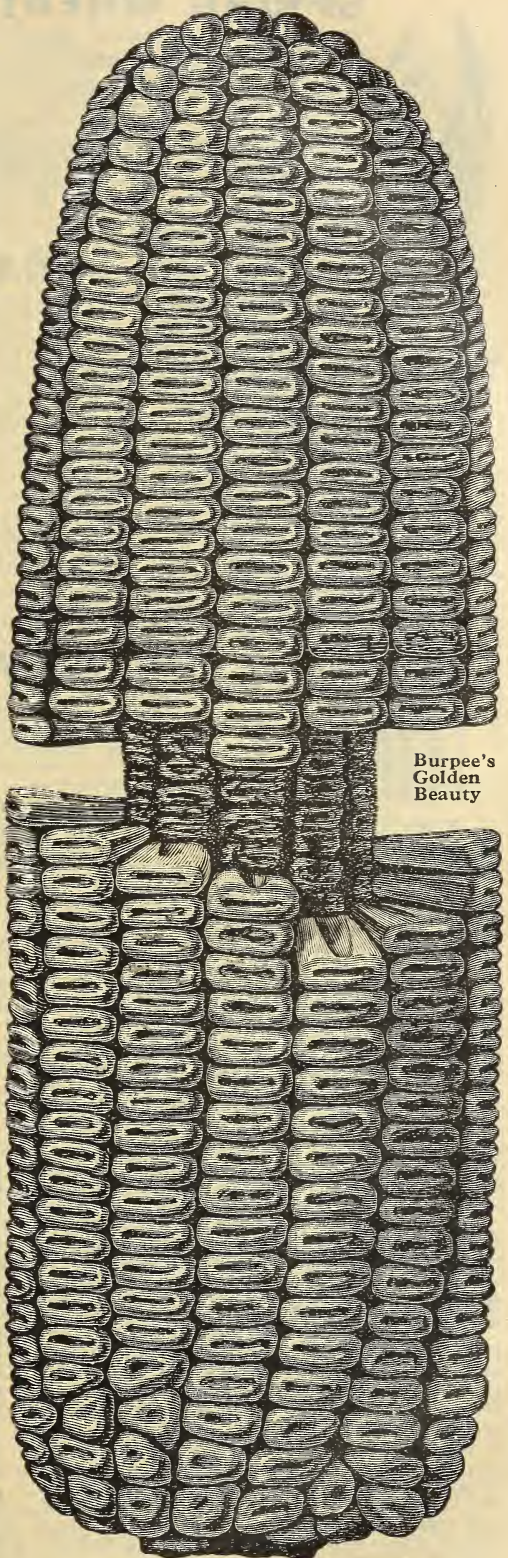

This variety is a careful selection from the old Southern Prolific Corn, and originated in Virginia. The variety has been selected toward increased foliage and larger ears. Does not mature ears as far north as Philadelphia, but makes a large growth of fodder for ensilage. $\frac{1}{4}$ lb. pkt. 10 cts.; 1b. 25 cts.; 3 lbs. 70 cts., postpaid. By express or freight, 10 lbs. or more, at 8 cts. per lb.

6042 Hundred Day Bristol

A select early-maturing strain of White Cap Dent. Valuable for ensilage as well as grain. The stalks are stout, 6 to 7 feet high, with abundant foliage. Ears 8 to 10 inches in length, well filled, having 16 to 18 rows of deep grains. $\frac{1}{4}$ lb. pkt. 10 cts.; 1b. 25 cts.; 3 lbs. 70 cts., postpaid. By express or freight, 10 lbs. or more, at 9 cts. per lb.

6045 Sugar Corn for Green

Fodder This seed is grown especially for fodder purposes. Sow at the rate of 80 to 100 lbs. per acre in drills 4 feet apart. $\frac{1}{4}$ lb. pkt. 10 cts.; 1b. 25 cts.; 3 lbs. 70 cts., postpaid. By express or freight, at purchaser's expense: 10 lbs. or more, at 9 cts. per lb.

Burpee's
Golden
Beauty

SPRING WHEAT

The hard spring wheat area includes Minnesota, the eastern portion of North Dakota and South Dakota, northern Wisconsin, and spreads eastward toward Pennsylvania and New York State.

6087 MARQUIS A most productive variety of spring wheat, introduced into the United States in 1913. Tests made by the United States Department of Agriculture proved it to be a better yielder than Bluestem and Fife. MARQUIS WHEAT is beardless, with 2 or 3 short awns on the top, as usually found on beardless wheats. A good spring variety, growing 36 to 48 inches, according to season. The heads are short but very thick and plump, carried on stiff and strong straw. The kernels are very broad and heavy, ripening in 98 to 120 days. It is, therefore, one of the earliest varieties, so much wanted since it escapes summer droughts and fall rains. **Lb. 25 cts.; 3 lbs. 70 cts.; 5 lbs. \$1.10, postpaid.** By express or freight, 10 lbs. or more, at 8 cts. per lb.

Swedish Select Oats

OATS

Oats appear to reach their highest development in quality and yield somewhat north of the Corn Belt, yet they are extensively raised in the Corn Belt as a crop to rotate with corn. Oats are convenient as a crop to follow corn, and the grain and straw are both very useful. All the oats north of the Cotton Belt are spring-sown. The fall-sown varieties of the more southern regions are mostly winter types, and the same varieties are sown as spring oats farther north.

6060 WHITE TARTAR KING This variety has been thoroughly tested and has yielded as high as 40 bushels an acre. It makes a good growth, with stiff, strong straw, 3 feet in height, setting heavy plump white grains, borne in close, compact, branching heads, free from smut. **Lb. 25 cts.; 3 lbs. 70 cts.; 5 lbs. \$1.10, postpaid.** By express or freight, 10 lbs. or more, at 9 cts. per lb.

6055 SWEDISH SELECT This is similar to, but a better variety for general use than, the Danish Island which we listed in previous years. The culms are erect, medium large, and stiff. The panicles are medium, rather broad, stiff, and erect. Grains practically white, plump, and short-pointed. The awns are very numerous in the panicle and black at the base. A very good yielder, with stiff straw. **Lb. 25 cts.; 3 lbs. 70 cts.; 5 lbs. \$1.10, postpaid.** By express or freight, 10 lbs. or more, at 8 cts. per lb.

SUNFLOWER

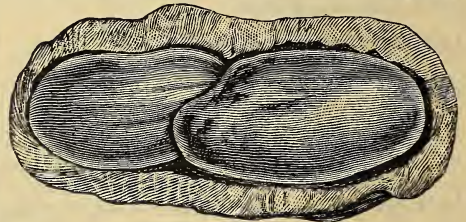

Single heads measure 12 to 22 inches in diameter, and contain an immense quantity of seed, highly valued as food for fowls. They eat it greedily, fatten well on it, and attain a bright, lustrous plumage and strong, healthy condition. It is the best egg-producing food known for poultry. Every farmer should plant some of the seed on an odd piece of ground any time from early spring up to the middle of July; 12 lbs. of seed per acre for drills 20 inches apart; 5 lbs. of seed per acre in drills 36 inches apart.

6075 MAMMOTH Pkt. 10 cts.; lb. 35 cts.; 3 lbs. \$1.00; 5 lbs. \$1.55, postpaid. By express or freight, 10 lbs. or more, at 18 cts. per lb.

PEANUTS

Peanuts are cultivated primarily for their seed, which is used as human food, but the herbage is mostly saved for hay. Sometimes the whole crop is used for pasturing hogs.

They do best on sandy or silty soils, and are well adapted for regions with long and hot summers. Plant the seed in rows 28 to 36 inches apart late in the spring, after the ground has thoroughly warmed up; 50 pounds of pods are needed per acre, placing the pods 9 to 12 inches apart in the row.

Mammoth Bush Peanut

6062 MAMMOTH BUSH These nuts make compact bushes 18 inches high, with heavy, erect stalks and large leaves. They produce a large quantity of the mammoth nuts, adapted for culture in our northern climate, especially in light or sandy soils. **Pkt. 10 cts.; lb. 50 cts.; 3 lbs. \$1.35; 5 lbs. \$2.00, postpaid.** By express or freight, 10 lbs. or more, at 30 cts. per lb.

6064 SPANISH This is an excellent forage plant for light land in dry, hot seasons. The tops are cut and cured for hay just before frost. The plants also set a large crop of the small nuts, which make an excellent fattening food for hogs. **Pkt. 5 cts.; lb. 30 cts.; 3 lbs. 85 cts., postpaid.** By express or freight, 10 lbs. or more, at 20 cts. per lb.

6013 CHUFAS

OR EARTH ALMONDS Used extensively in warm, dry sections for hay, and for fattening hogs and poultry on the roots; 15 pounds per acre. **Pkt. 10 cts.; lb. 45 cts.; 3 lbs. \$1.25, postpaid.** By express or freight, 10 lbs. or more, at 25 cts. per lb.

TOBACCO

is one of the most profitable crops and, with the present high prices, its cultivation should be seriously considered by every farmer whose soil and climate are suited to its culture. One ounce for 5000 plants.

RADISH, Burpee's Rapid Red
RADISH, White Icicle
SALSIFY, Sandwich Island Mammoth
TURNIP, Petrowski
SWISS CHARD, Lucullus
CABBAGE, Fordhook Mainstay Early
CABBAGE, Burpee's Surehead
LETTUCE, Burpee's Brittle-Ice
LETTUCE, Big Boston
PARSLEY, Extra Curled Dwarf

Also two packets each: BEAN, Burpee's Fordhook Favorite and POLE LIMA BEAN, Burpee's Giant-Podded

Burpee's Home Garden Collection contains 28 packets of 26 different varieties of vegetables. If purchased separately, it would cost \$2.90. Mailed complete to any address for \$2.00.

Suburban Garden Collection

7005

A Complete Vegetable Garden, 50 x 80 Feet

Our Suburban Garden Collection makes an ideal garden for the average size family. It occupies a space of 50 x 80 feet. With the careful planning of this garden one will be much astonished to see the large number of vegetables that can be grown on this plot. The garden is laid out as simple as possible so that even a child could succeed with it. Everything is planned to make work easy and yet give a large quantity of produce from the garden. Beginning with radishes early in the spring, the garden will yield a great assortment of all the best vegetables. If you have ever had a garden before you will know what it means to eat fresh vegetables which have just come out of the ground. There is nothing so delicious that could compare with them. The Collection includes 40 different varieties of 25 different vegetables. A carefully tried-out Garden Plan, together with an Instruction Sheet, gives every step in planting and growing. The box contains:

Burpee's Sweet Peas

7300 Superb Collection of Sweet Peas *Four Famous Burpee Sweet Peas*

The superb collection of Spencers will make a wonderful display of Sweet Peas. The colors have been chosen to give a perfect harmony and the collection will provide plenty of flowers for many fine bouquets. The Burpee Sweet Peas are grown on BURPEE'S FLORADALE FARMS in the Lompoc Valley, California. Our Superb Collection of Sweet Peas for 1923 includes the following four Summer Flowering varieties, all with large flowers and of strong growth:

25c

Floradale Fairy This takes first place among all cream-flowered Sweet Peas.

Fiery Cross A glowing orange-scarlet which glitters in the bright sunlight.

Hercules Magnificent soft rose-pink; the flowers are always very large.

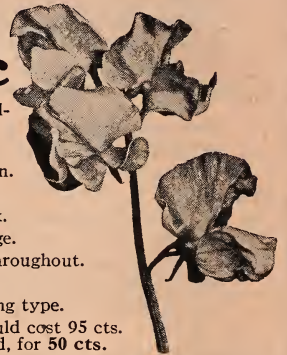

Orchid This is a rich tone of lavender found in the Cattleya Orchids.

For those who have only a small space to grow Sweet Peas, but prefer straight colors, this collection will be ideal. Whether bunched alone, or two, three, or may be all four together, this will make a most artistic display. If purchased separately, this assortment would cost 40 cts. It will be mailed to any address, postpaid, for 25 cts.

7350 Fordhook Collection of Sweet Peas *Eight Early Flowering Sweet Peas*

The Early or Winter Flowering type of Sweet Peas is most valuable for our southern states, Australia, and South Africa. They are found everywhere grown in the greenhouse during the winter and are of value in our northern states where early flowers are wanted. The collection contains one packet each of the following 8 varieties:

50c

Bluebird The large flowers are a charming shade of light blue.

Daybreak Pleasing rich rose-pink on cream ground, suffused with salmon.

Enchantress A bright rose-pink, becoming deeper toward the edges.

Flamingo Light orange standard with wings of a delicate orange-pink.

Glitters The standard is bright fiery orange and the wings deep orange.

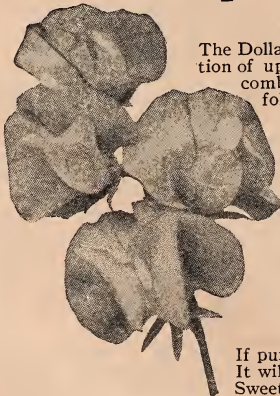

Lavender King The large flowers are a rich shade of deep lavender throughout.

Rosebud Color a bright shiny rose with a bronzy sheen.

Snowstorm Improved The finest white variety in the Early Flowering type.

If purchased separately, these 8 packets of Early Flowering Sweet Peas would cost 95 cts. The Fordhook Collection will be mailed to your door complete, postpaid, for 50 cts.

7310 Burpee's Dollar Box of Sweet Peas *Twenty Packets of Burpee's Sweet Peas*

The Dollar Box of Burpee's Sweet Peas is a most wonderful collection of up-to-date varieties in a complete and harmonious color combination. The collection contains one packet each of the following 20 varieties:

\$1.00

Barbara A fine salmon.

Brocade Pink and lavender.

Dainty White, edged pink.

Floradale Fairy Rich cream.

George Herbert Rosy carmine.

Hawmark Pink True pink.

Hercules Bright rosy pink.

Hope Light cerise self.

Jack Cornwell Fine dark blue.

King White Glistening white.

Margaret Atlee, Imp. Cream-pink.

Margaret Madison Clear azure-blue.

Mavis Rose-pink on white.

Mrs. Arnold Hitchcock Salmon-pink.

Mrs. C. P. Tomlin Crimson-scarlet.

Royal Purple Warm rosy purple.

Sparkler Rose, creamy-rose wings.

The President Orange-scarlet.

Valentine A fine light pink.

If purchased separately, the Burpee's Dollar Box of Sweet Peas would cost \$2.00. It will be mailed to any address, together with the Burpee Leaflet, "How to Grow Sweet Peas," postpaid, for \$1.00.

7312 Sunburst Collection of Sweet Peas

35 Packets, Including Many of the Newest Varieties

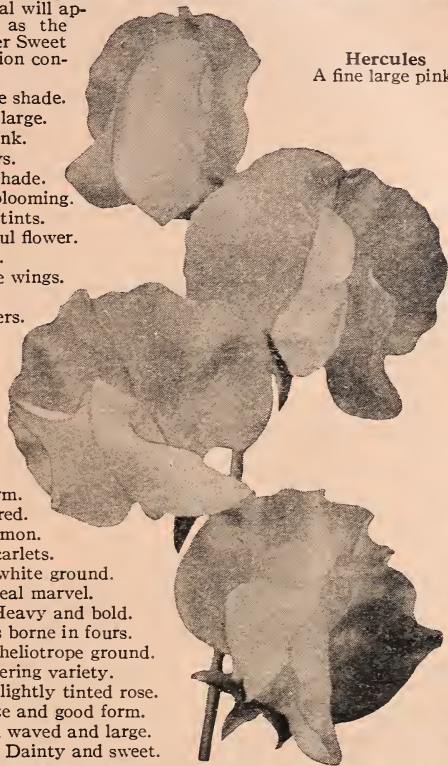

\$2.00

Very few cut-flowers have such a wide range of beautiful colors and shades as Sweet Peas. Every lover of this wonderful annual will appreciate our Sunburst Collection as the most complete assortment of Spencer Sweet

Peas in all the desirable colors and shades. The collection contains one packet each of:

- Barbara** A superb salmon-colored self. An exquisite shade.
- Beryl** A lovely shade of pink, suffused salmon. Very large.
- Brocade** A combination of salmon, lavender, and pink.
- Charity** Rich brilliant crimson; four-flowered sprays.
- Cherub** Deep rich cream, edged rose. A beautiful shade.
- Dainty** Beautiful pink-edged on white ground. Free-blooming.
- Daisybud** A combination of delicate apple-blossom tints.
- Doris** Large flowers of soft salmon-cerise. A graceful flower.
- Elegance** Beautiful blush-lilac; very large and bold.
- Fiery Cross** Orange-scarlet standard; cherry-orange wings.
- Floradale Fairy** The large flowers are deep cream.
- George Herbert** Very large, rich rosy carmine flowers.
- Hawlmarm Maroon** A very deep mahogany-red.
- Hawlmarm Pink** A magnificent true pink.
- Hercules** Soft rose-pink self; very large blooms.
- Hope** Undoubtedly the finest light cerise self.
- Jack Cornwell** A fine dark blue of excellent form.
- King White** A pure glistening white. Extra large.
- Liberty** This is a very beautiful new salmon.
- Margaret Atlee Imp.** A well-waved cream-pink.
- Margaret Madison** Clear azure-blue flowers; good form.
- Mavis** Rich rose-pink on a white ground; four-flowered.
- Mrs. Arnold Hitchcock** Soft pink, flushed with salmon.
- Mrs. C. P. Tomlin** A leader among the crimson-scarlets.
- Mrs. W. J. Unwin** Rich orange-scarlet flakes on white ground.
- Picture** Cream and pink in a perfect blending. A real marvel.
- Royal Purple** A rich warm shade of rosy purple. Heavy and bold.
- Royal Scot** A very fine new cerise with large flowers borne in fours.
- Senator** The flowers have chocolate stripes on light heliotrope ground.
- Sincerity** Rich glowing cerise; a large and free-flowering variety.
- Sparkler** A bright rose standard with cream wings slightly tinted rose.
- Tangerine** An orange-colored Sweet Pea of great size and good form.
- The President** A most brilliant orange-scarlet; well waved and large.
- Valentine** A soft and pleasing shade of light pink. Dainty and sweet.
- Wedgwood** A very fine lavender color; bears four flowers on a stem.

Hercules
A fine large pink

This Sunburst Collection of Sweet Peas contains 35 packets. If purchased separately, it would cost \$4.00. We will mail the collection complete, to any address, postpaid, for \$2.00.

7315 Prize Collection of Sweet Peas

\$5.00

Those of our many friends who are Sweet Pea enthusiasts will be delighted with our Prize Collection for 1923. Only the very best varieties with large and well-

waved flowers have been included in this year's collection. It is, without question, the finest ever offered, and will plant a row about 300 feet long. It contains one ounce each:

- Brilliant** Large flowers of a brilliant cerise shade.
- Caress** Lovely soft pink on cream ground.
- Charity** A sunproof, rich brilliant crimson.
- Commander Godsall** An attractive violet-blue.
- Daisybud** Lovely apple-blossom tints with cream.
- Doris** A particularly attractive shade of cherry-pink.
- Elegance** Delicate blush-lilac on a white ground.
- Hawlmarm Pink** Rich rose-pink flushed with salmon.
- Hebe** Large flowers of rich bright pink.
- Austin Frederick, Improved** Lovely rich lavender.
- Liberty** A brilliant glowing salmon-orange.
- Loyalty** Attractive violet-blue flakes on white.
- Vermilion Brilliant** Rich deep scarlet flowers.
- Mrs. J. T. Wakefield** Pink edge on cream ground.
- Picture** A harmonious blend of cream and pink.
- Royal Scot** Well-waved flowers of rich scarlet.

A bunch of
King White

- King White** The most magnificent white.
- Rosabelle** Deep rose self of large size.
- Wedgwood** Exquisite "Wedgwood" blue.
- Queen Victoria** Rich cream flushed with rose.

This assortment of 20 ounces purchased separately would cost \$9.65. Mailed, postpaid, for \$5.00.

Early or Winter Flowering Sweet Peas

Burpee's Early or Winter Flowering strain of Spencer Sweet Peas is the result of more than ten years' careful scientific work. The results of our hybridizing work surpassed all expectations. The Burpee Early Flowering Sweet Peas are recognized as leaders in their various colors, and they are grown extensively by all who demand the very best.

The Winter Flowering Spencers are invaluable to florists for greenhouse culture, and they are also adapted to outdoor planting in warmer climates, such as our own Southern States, Australia, and South Africa, where the Summer Flowering Spencers cannot be grown successfully. In cooler climates they are of value because they bloom a week or ten days sooner than the Summer Flowering varieties. This is a decided advantage where early blooms are an important consideration, but the plants will not flower as freely and continuously.

Burpee's Sweet Peas are famous wherever Sweet Peas are known, and all the seed of our Early or Winter Flowering Sweet Peas is grown on BURPEE'S FLORADALE FARMS in California.

White 3391 **Burpee's White Star** A first-class black-seeded white Sweet Pea, lacking any suspicion of pink or other coloring. Fully described on page 110. Pkt. 25 cts.; ½ oz. \$1.05; oz. \$2.00; ¼ lb. \$6.00; lb. \$20.00.

3392 SNOWSTORM IMPROVED This is by far the finest of all white winter-flowering varieties. The flowers are extra-large, of fine form, with a magnificent and boldly waved standard. A vigorous grower, with enormous flowers which are invariably borne in fours on very long stems. Pkt. 15 cts.; ½ oz. 45 cts.; oz. 85 cts.; ¼ lb. \$2.55; lb. \$8.50.

3390 EARLY SANKEY This fine black-seeded white was awarded a special Silver Medal when exhibited at the Great International Show in New York, March 20, 1915; also Certificate of Merit at the Spring Show of the Pennsylvania Horticultural Society, Philadelphia, March 23, 1915. Pkt. 10 cts.; oz. 65 cts.; ¼ lb. \$2.00; lb. \$6.50.

Cream 3375a **Lemon Beauty** As the name indicates, this variety is a soft primrose or pale lemon color, the standard and wings being softly tinted amber, and sometimes lightly veined with rose-pink. Pkt. 20 cts.; ½ oz. 55 cts.; oz. \$1.00; ¼ lb. \$3.00; lb. \$10.00.

3342 Canary Bird This is a splendid rich deep cream or primrose-colored self. The flowers are of great size, beautifully waved, borne three or four on a stem. Pkt. 10 cts.; oz. 50 cts.; ¼ lb. \$1.65; lb. \$5.50.

3384 PRIMROSE BEAUTY A pleasing shade of deep primrose, flushed with rose. Grown under glass, this variety attains a height of only five to six feet. Pkt. 10 cts.; oz. 60 cts.; ¼ lb. \$1.80; lb. \$6.00.

Light Pink 3382 **Peach Blossom** A pale amaranth-pink which deepens somewhat around the edges of the standard and wings. A true self, standard and wings being of the same shade. A vigorous grower and free-flowering, with stems of great length. It is a great flower of a fine shade. Pkt. 20 cts.; ½ oz. 55 cts.; oz. \$1.00; ¼ lb. \$3.00; lb. \$10.00.

3376 Loveliness The entire flower is suffused soft pink until it reaches the edges, which are distinctly pitted with rose-pink. A very free-flowering and strong-growing variety. Pkt. 15 cts.; ½ oz. 40 cts.; oz. 70 cts.; ¼ lb. \$2.10; lb. \$7.00.

3395 SWEET BRIAR Color a lovely shade of pink throughout, with a soft salmon or amber suffusion, this being more accentuated in the younger flowers and buds. Grown under glass, this variety attains a height of only 5 to 6 feet. Pkt. 15 cts.; ½ oz. 40 cts.; oz. 70 cts.; ¼ lb. \$2.10; lb. \$7.00.

Cream-Pink 3348 **DAYBREAK** A pleasing shade of rich rose-pink on cream ground, the color becoming deeper toward the edge of standard and wings. The entire flower is lightly suffused with salmon. The plants make a sturdy and strong growth and bear a wonderful crop of fine long-stemmed blooms. Pkt. 10 cts.; oz. 65 cts.; ¼ lb. \$2.00; lb. \$6.50.

3386 RISING SUN Rose-pink on cream. A bright and most attractive flower. Grown under glass, the plants attain a height of only 5 to 6 feet. Pkt. 10 cts.; oz. 60 cts.; ¼ lb. \$1.80; lb. \$6.00.

3394 Sunburst Improved A strong-growing rich salmon-pink with large well-waved flowers borne on long stems. Fully described on page 110. Pkt. 20 cts.; ½ oz. 55 cts.; oz. \$1.00; ¼ lb. \$3.00; lb. \$10.00.

Deep Pink 3351 **ENCHANTRESS** A bright rose-pink, becoming deeper toward the edges of standard and wings, gradually softening in tone toward the center of the flower. The large, well-waved flowers are carried on strong stems, usually borne in fours. The vines grow most vigorously and are simply covered by masses of flowers. A standard for the winter market. Pkt. 10 cts.; oz. 65 cts.; ¼ lb. \$2.00; lb. \$6.50.

3383 Pink Beauty The color is a soft rose-pink on white ground, richer toward the edges, gradually softening in color as it reaches the center of standard and wings. This is one of the best of all deep pinks. Pkt. 10 cts.; oz. 60 cts.; ¼ lb. \$1.80; lb. \$6.00.

3389 ROSE QUEEN A most pleasing shade of rich pink with a suffusion of rose. Blooms profusely and early. The flowers are large, well waved, and are borne on long strong stems. Pkt. 15 cts.; ½ oz. 40 cts.; oz. 70 cts.; ¼ lb. \$2.10; lb. \$7.00.

3343 CHEERFUL Rich begonia-pink. Fully described on page 110. Pkt. (15 seeds) 25 cts.; ½ oz. \$2.55; oz. \$5.00; ¼ lb. \$15.00; lb. \$50.00.

3337 ZVOLANEK'S ROSE Many growers consider this variety one of the best in the deep pink class. The flowers are large and bold. They are carried in fours on long and strong stems. A free-blooming and easily grown variety. Pkt. 15 cts.; ½ oz. 45 cts.; oz. 85 cts.; ¼ lb. \$2.55; lb. \$8.50.

Rose 3387 **Rosebud** The flowers are of immense size and freely produced in threes and fours. Color bright shining rose with a suspicion of bronzy suffusion throughout the standard. Very attractive and free-blooming. Pkt. 10 cts.; oz. 60 cts.; ¼ lb. \$1.80; lb. \$6.00.

3362 Fordhook Rose, Improved A charming shade of rosy carmine. The flowers are of largest size and usually borne in threes and fours on long stiff stems. The plants grow vigorously and bloom profusely. It is a favorite variety on all larger markets. Pkt. 10 cts.; oz. 50 cts.; ¼ lb. \$1.65; lb. \$5.50.

3393 SPLENDOR A magnificent deep rose self. The rich rose-crimson color is accentuated by the distinct white blotch at the base of standard and wings. The flowers are of great size, usually borne in fours on very long stems. The vines are strong and vigorous. Pkt. 10 cts.; oz. 60 cts.; ¼ lb. \$1.80; lb. \$6.00.

Salmon 3369 **MRS. KERR** (Burpee's) The Best Early Flowering Salmon first introduced by us last year. Experts have pronounced it a marvel of creation. Fully described on page 110. Pkt. 25 cts.; ½ oz. \$1.05; oz. \$2.00; ¼ lb. \$6.00; lb. \$20.00.

3334 APRICOT Glowing deep salmon self, suffused with orange. Grown under glass, the color is particularly rich, and under artificial light, it is magnificent. Although the flowers are not of largest size, this is more than compensated for in the coloring. Pkt. 15 cts.; ½ oz. 45 cts.; oz. 85 cts.; ¼ lb. \$2.55; lb. \$8.50.

Orange-Scarlet 3366 **GLITTERS** No variety we know of approaches GLITTERS in richness, brightness, and live-fire effect. It glitters and scintillates, with a fire-like sheen radiating over the flowers. The standard is a bright fiery orange, and the wings are deep orange. Pkt. 15 cts.; ½ oz. 55 cts.; oz. \$1.00; ¼ lb. \$3.00; lb. \$10.00.

Orange

3336 BURPEE'S ORANGE The most outstanding orange Sweet Pea. Introduced by us this year for the first time. Fully described on page 110. Pkt. (15 seeds) 25 cts.; ½ oz. \$2.55; oz. \$5.00; ¼ lb. \$15.00; lb. \$50.00.

3360 FLAMINGO The flowers are truly enormous in size, usually produced in threes and fours on very long stiff stems. The broad and well-waved standard is light orange, with a suffusion of bright salmon, and the wings are a delicate shade of orange-pink. Pkt. 15 cts.; ½ oz. 55 cts.; oz. \$1.00; ¼ lb. \$3.00; lb. \$10.00.

3349 DAZZLER Flowers of good size and form, usually borne in threes or fours. Standard rich orange, wings rosy salmon tinted and suffused orange. Under artificial light the color is rich, glowing orange-scarlet. Pkt. 10 cts.; oz. 50 cts.; ¼ lb. \$1.50; lb. \$5.00.

Cerise

3359 Fire King This is an early or winter-flowering Fiery Cross. The color is scorching fire-red or cerise-scarlet. In bright sunlight it has a glory all its own, and under glass the color is greatly intensified. Pkt. 15 cts.; ½ oz. 40 cts.; oz. 75 cts.; ¼ lb. \$2.25; lb. \$7.50.

3370 Gorgeous A charming soft salmon-cerise self. The flowers are of great size, and generally borne in threes and fours on very long stout stems. Pkt. 10 cts.; oz. 65 cts.; ¼ lb. \$2.00; lb. \$6.50.

3373 ILLUMINATION The flowers are of great size; color glowing salmon-cerise, with a suspicion of orange suffusion. A most wonderful color under artificial light. Vigorous and strong in habit, the flowers are usually borne in fours on long strong stems. Pkt. 15 cts.; ½ oz. 45 cts.; oz. 85 cts.; ¼ lb. \$2.55; lb. \$8.50.

3344 CHERRY RIPE A particularly bright and taking color and quite new in this section. It might be described as a glowing cherry or salmon-cerise self. Pkt. 10 cts.; oz. 65 cts.; ¼ lb. \$2.00; lb. \$6.50.

Crimson

3374 EARLY KING The finest early-flowering crimson. The flowers are of great size, perfect form, averaging fully 2 inches in diameter. Pkt. 10 cts.; oz. 65 cts.; ¼ lb. \$2.00; lb. \$6.50.

Lavender

3375 Lavender King A first-class lavender. This glorious variety is a rich true deep lavender throughout. The flowers are of large size, beautifully waved form, and borne in threes and fours on stems of great length. The vines make a vigorous growth. Pkt. 10 cts.; oz. 65 cts.; ¼ lb. \$2.00; lb. \$6.50.

3385 PRINCESS A vigorous grower and most floriferous, the large flowers being freely produced in fours on long stout stems. Color a lovely shade of soft lavender suffused mauve. The flowers are most attractively fluted or waved. Pkt. 15 cts.; ½ oz. 40 cts.; oz. 75 cts.; ¼ lb. \$2.25; lb. \$7.50.

3399 ZEPHYR This is a delightful shade of light lavender. It might be briefly described as a silvery blue self. A dainty and charming variety, blooming very profusely. Pkt. 10 cts.; oz. 60 cts.; ¼ lb. \$1.80; lb. \$6.00.

Blue

3341 Mrs. Warren G. Harding (Burpee's) A beautiful shade of silvery blue, so well known by the name "Harding Blue." Fully described on page 110. Pkt. 25 cts.; ½ oz. \$1.30; oz. \$2.50; ¼ lb. \$7.50; lb. \$25.00.

3396 True Blue A charming shade of true blue; a color much wanted in this type. Flowers of great size, much waved or crimped; strong and vigorous in growth and most floriferous. Pkt. 15 cts.; ½ oz. 45 cts.; oz. 85 cts.; ¼ lb. \$2.55; lb. \$8.50.

3338 BLUE BIRD This is a charming shade of blue. Somewhat similar to the summer-flowering variety Wedgwood, but more of a true self, especially as the flower ages. The flowers are carried on long stems. Pkt. 10 cts.; oz. 65 cts.; ¼ lb. \$2.00; lb. \$6.50.

Dark Blue

3340 Blue Jacket This will certainly become popular with all Sweet Pea lovers who prefer the dark shades. It is a rich dark navy-blue self. Extremely free-flowering, with large blooms of excellent form and usually produced in fours. Pkt. 15 cts.; ½ oz. 45 cts.; oz. 85 cts.; ¼ lb. \$2.55; lb. \$8.50.

Mauve

3380 Mauve Beauty Color a pleasing shade of rosy mauve. The flowers are of immense size, exquisitely waved and of best Spencer form. A strong, vigorous grower and very free-flowering. Pkt. 10 cts.; oz. 65 cts.; ¼ lb. \$2.00; lb. \$6.50.

Purple

3367 Glorious An early-flowering Royal Purple. A charming shade of warm rosy purple. The flowers are of great size and invariably produced in threes and fours on very long stems. Of strong, sturdy growth, blooming profusely. Pkt. 10 cts.; oz. 60 cts.; ¼ lb. \$1.80; lb. \$6.00.

Maroon

3377 MAROON PRINCE This fine variety will appeal to those having a preference for the darker and richer colors. The flowers are of great size, beautifully waved, and borne freely in threes and fours. Color a deep rich glowing reddish maroon. The plants grow vigorously and bear flowers in great profusion. Pkt. 10 cts.; oz. 65 cts.; ¼ lb. \$2.00; lb. \$6.50.

Art Shades

3356 Fairy Queen A most pleasing pastel or art shade, the color being bluish-pink with pale salmon suffusion, having darker veinings of rose. A most vigorous and free-flowering variety. Pkt. 10 cts.; oz. 65 cts.; ¼ lb. \$2.00; lb. \$6.50.

Picotée

3346 DAININESS A strong grower with flowers of largest size and usually produced in fours. Pure white, edged rose. This makes a particularly attractive bunch. Pkt. 10 cts.; oz. 65 cts.; ¼ lb. \$2.00; lb. \$6.50.

3352 EXQUISITE The ground color is a soft shade of primrose, the edge of the standard and wings being beautifully "picotéed" with deep rose-pink. Pkt. 10 cts.; oz. 50 cts.; ¼ lb. \$1.65; lb. \$5.50.

Bicolor

3353 Fairy A flower of great size and exquisitely waved. Color rich cream, the standard being suffused with pinkish apricot. A strong vigorous grower and extremely free-flowering, doing well at any season. Pkt. 10 cts.; oz. 65 cts.; ¼ lb. \$2.00; lb. \$6.50.

3358 FAVORITE A very free and strong-growing variety. Color similar to the old Apple Blossom. Rosy pink standard and blush wings. Excellent. Pkt. 10 cts.; oz. 50 cts.; ¼ lb. \$1.65; lb. \$5.50.

3361 FORDHOOK PINK AND WHITE A great favorite for greenhouse culture, having a bright rosy pink standard with creamy white wings, lightly suffused rose. A free-flowering and strong growing variety. Pkt. 10 cts.; oz. 50 cts.; ¼ lb. \$1.65; lb. \$5.50.

3398 YARAWA Bright rose-pink on clear cream. Pkt. 10 cts.; oz. 50 cts.; ¼ lb. \$1.65; lb. \$5.50.

3347 COLUMBIA A remarkably fine variety with immense and heavy flowers borne in fours on long and strong stems. The standard is a rich rose-pink and the wings a fine delicate creamy rose. As soon as better known, this will be one of the leading varieties for the large cut-flower markets. Pkt. 15 cts.; ½ oz. 45 cts.; oz. 85 cts.; ¼ lb. \$2.55; lb. \$8.50.

Striped

3335 AURORA White, artistically flaked rich orange-scarlet. An Australian variety introduced to America by Burpee. Pkt. 15 cts.; ½ oz. 45 cts.; oz. 85 cts.; ¼ lb. \$2.55; lb. \$8.50.

3345 COLUMBINE White, the entire flower being striped and flaked rich rose. The flowers are large. Pkt. 10 cts.; oz. 50 cts.; ¼ lb. \$1.65; lb. \$5.50.

3372 HARLEQUIN Light heliotrope ground striped and flaked deep chocolate and claret. A vigorous grower; the immense flowers are borne freely and continuously on long stems, usually in threes and fours. Pkt. 10 cts.; oz. 65 cts.; ¼ lb. \$2.00; lb. \$6.50.

3357 FANTASY Striped and marbled with rich rose-pink on a creamy white ground. Exceedingly bright and makes a telling bunch when cut. Pkt. 10 cts.; oz. 50 cts.; ¼ lb. \$1.65; lb. \$5.50.

Mixed

3400 SUNRISE MIXTURE It is a carefully composed blend of the finest of the many named varieties of Early-Flowering Spencers, together with a number of new seedlings from our California workshop. As with all our blends, we have taken care to determine the right proportion of the different colors to produce the most harmonious and pleasing effect. All Floradale-grown seed. Pkt. 10 cts.; oz. 45 cts.; ¼ lb. \$1.35; lb. \$4.50.

3401 SPECIAL MIXTURE OF LIGHT SHADES In contrast to our Sunrise Mixture, this Special Mixture contains only light shades—such as white, cream, pink, salmon, lavender, etc., which some of our customers prefer. It is sure to please the lover of light shades. Pkt. 10 cts.; oz. 50 cts.; ¼ lb. \$1.50; lb. \$5.00.

Burpee Novelties

Early Flowering Sweet Peas for 1923

3336 Burpee's Orange

A Glistening Orange Sweet Pea

Introduced by Burpee in 1923. BURPEE'S ORANGE is in every way distinct from all other so-called orange varieties. There is no trace of pink or orange-pink in either standard or wings. It is a true glowing orange self, practically the shade of a bright ripe orange fruit. The rich glistening color compels attention in any light, but under artificial light it is indeed outstanding.

BURPEE'S ORANGE has been proclaimed by experts and the press alike as being the greatest advance of many years in this type of Sweet Pea. It has been awarded a Certificate of Merit at The International Flower Show, New York, March, 1921. Pkt. (15 seeds) 25 cts.; $\frac{1}{2}$ oz. \$2.55; oz. \$5.00; $\frac{1}{4}$ lb. \$15.00; 1b. \$50.00.

3343 Cheerful

(BURPEE, 1923) This fine novelty is an entirely new shade among the Early or Winter Flowering Sweet Peas. It is most appropriately named, the color being a soft, "cheerful" shade of Begonia-pink. Few varieties make such an imposing bunch as this fine novelty. The flowers combine immense size with good form. The standard is broad and well waved. The wings are also much frilled and in size of the right proportion to the magnificent spreading standard.

Cheerful

A "cheerful" shade of bright rich pink

Awarded Certificate of Merit at The International Flower Show, New York, March, 1921

Pkt. (15 seeds) 25 cts.; $\frac{1}{2}$ oz. \$2.55; oz. \$5.00; $\frac{1}{4}$ lb. \$15.00; 1b. \$50.00.

3394 Sunburst Improved

(BURPEE, 1923) A tall-growing Sunburst has long been wanted and is now supplied in our new SUNBURST IMPROVED. The color is a pleasing and attractive shade of rich salmon-pink, intensified toward the outer portion of the standard and wings, which are overlaid with a suffusion of amber and salmon. The flowers are borne on long stout stems and the habit of the plant is vigorous, beginning to bloom early and continuing for a long time. A variety of rare beauty. Pkt. 20 cts.; $\frac{1}{2}$ oz. 55 cts.; oz. \$1.00; $\frac{1}{4}$ lb. \$3.00; 1b. \$10.00.

3341 Mrs. Warren G. Harding (BURPEE, 1922) MRS. WARREN G. HARDING is a deep shade of silvery blue—the color that is already so well known as the "Harding Blue." The color is pure throughout with no suspicion of mauve or rose. The flowers are immense in size, with a broad and much frilled standard. The wings are also well waved and a large number of the flowers are duplex or double, which lends weight, size, and beauty to the bunch. It is a vigorous grower, with deep green foliage. Awarded Certificate of Merit at The International Flower Show, March, 1921. Pkt. 25 cts.; $\frac{1}{2}$ oz. \$1.30; oz. \$2.50; $\frac{1}{4}$ lb. \$7.50; 1b. \$25.00.

3369 Mrs. Kerr (BURPEE, 1922) *The Best Early Flowering Salmon.* This magnificent novelty has been hailed by experts as being the finest Sweet Pea in its class. In addition to its unique and dainty color, the plant is of most vigorous habit and extremely free-flowering. The flowers are of immense size and exquisite shape. They are a pleasing shade of rich salmon overlaid with a soft tinge of orange. Awarded Certificate of Merit at The International Flower Show in New York, 1920. Pkt. 25 cts.; $\frac{1}{2}$ oz. \$1.05; oz. \$2.00; $\frac{1}{4}$ lb. \$6.00; 1b. \$20.00.

3391 White Star (BURPEE, 1922) WHITE STAR is a first-class black-seeded white Sweet Pea, lacking any suspicion of pink or other coloring. The flowers are of enormous size, freely produced in fours, all beautifully waved and well placed on long and strong stems. The plants are robust and bloom freely. Awarded Certificate of Merit at The International Flower Show, New York, March, 1921. Pkt. 25 cts.; $\frac{1}{2}$ oz. \$1.05; oz. \$2.00; $\frac{1}{4}$ lb. \$6.00; 1b. \$20.00.

New Burpee Sweet Peas

Summer Flowering Varieties for 1923

3497 Burpee's Lilac-Pink

BURPEE'S LILAC-PINK has given us a distinct and entirely new shade in Sweet Peas; in fact, a blending of colors that is difficult to describe. In this exquisite novelty we find a charming combination of salmon, amber, and pale lilac-pink, on cream ground. In the standard the delicate lilac color is heavily suffused with salmon-pink. Wings are slightly deeper in tone, while the underlying creamy primrose ground gives a particularly pleasing and lovely color harmony.

The name LILAC-PINK describes the impression one receives when a few flowers are bunched together. A sturdy, strong grower, with very large flowers produced freely, four on a stem. Outstanding and distinct in every way, it is perfectly true and fixed to type and color. Sure to become very popular. Pkt. (12 seeds) 25 cts.; 5 pkts. for \$1.00, postpaid.

3465 Fordhook Orange

FORDHOOK ORANGE is a decided advance in its color, and, unlike other orange and salmon varieties, it withstands sunshine much better than all others of similar shades, though, when grown primarily for exhibition purposes, we recommend that a certain amount of shading be given just previous to the show. FORDHOOK ORANGE is a glorious shade of deep rich salmon, heavily suffused with bright orange. It is a wonderful and entirely new shade.

FORDHOOK ORANGE is unsurpassed not only in color, but also eclipses all other orange-colored varieties with its strong and sturdy growth. FORDHOOK ORANGE has been given unstinted praise by all who have seen it in our fields and trial-grounds. It should prove to be one of the "best twelve" varieties now in commerce. We anticipate FORDHOOK ORANGE will meet with a hearty reception—it is of such outstanding merit. Pkt. (12 seeds) 25 cts.; 5 pkts. for \$1.00, postpaid.

3481 Burpee's Honor Bright

We consider this grand novelty to be the best of all the cream-pink Sweet Peas. It is perfectly true and fixed to type and color, and will be of great value either for exhibition or cutting purposes.

BURPEE'S HONOR BRIGHT has flowers which are really immense in size, and it is a particularly strong grower, though it does not run to coarseness. The flowers, invariably borne in fours, are a rich, glowing, deep rose-pink on cream ground. The standard is softly suffused with salmon, while the wings are a delightful shade of pinkish rose on salmon. There is a distinct blotch of buff-primrose at the base of both standard and wings.

The large blooms are well placed on their long stems, and are most beautifully waved or crimped.

Pkt. (20 seeds) 25 cts.; 5 pkts. for \$1.00, postpaid.

BURPEE'S
HONOR BRIGHT

SIX GRAND NEW SWEET PEAS

All Introduced by Burpee and Illustrated in Colors on the Back Cover

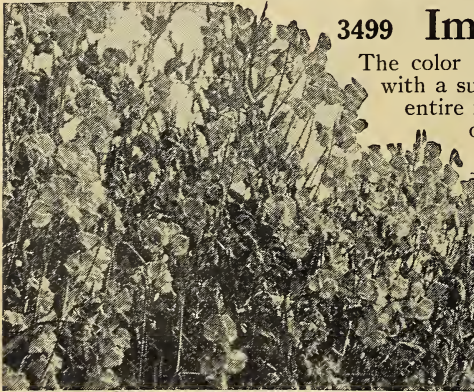

3475 Burpee's Giant White GIANT WHITE is well and truly named. It is gigantic in size, exquisite in form, and pure in color. GIANT WHITE is black-seeded; therefore perfect germination may always be depended upon. It is almost impossible to imagine anything more exquisite than this new variety. GIANT WHITE has been awarded Certificate of Merit by both The American Sweet Pea Society and The Pennsylvania Horticultural Society. Pkt. (30 seeds) 15 cts.; $\frac{1}{2}$ oz. 80 cts.; oz. \$1.50; $\frac{1}{4}$ lb. \$4.50; lb. \$15.00.

3457 Burpee's Floradale Purple FLORADALE PURPLE is a rich warm shade of rosy purple. The standard has a decided lustrous sheen, giving the entire flower a shining brightness quite distinct from other Sweet Peas of similar shades. The younger flowers are still a little lighter in color, which warms and changes as they age. Vigorous and strong in habit, the flowers are correspondingly large and usually borne in fours on very long stout stems. Awarded Certificate of Merit by The American Sweet Pea Society, June, 1921, and The Pennsylvania Horticultural Society, June, 1920. Pkt. (30 seeds) 15 cts.; $\frac{1}{2}$ oz. 80 cts.; oz. \$1.50; $\frac{1}{4}$ lb. \$4.50; lb. \$15.00.

3571 Burpee's Scarlet Duplex The name "SCARLET DUPLEX" describes briefly both color and form; but to fully realize the outstanding beauty of the flowers they must be seen. The color is an intense rich glowing scarlet-crimson. It does not scald or burn even in the hottest sun. On the sprays of four flowers usually the three lower blooms are double, adding greatly to the weight and beauty of the flowers. In contrast to other "Duplex" varieties this is a strong and sturdy grower. Awarded Certificate of Merit by The American Sweet Pea Society at Boston, July, 1920, and by The Pennsylvania Horticultural Society, June, 1920. Pkt. (20 seeds) 15 cts.

3565 Burpee's Rosalind The blooms are extremely large and usually borne in fours on stout stems of great length. ROSALIND is extremely vigorous and free-flowering. The rich rose-carmine color of ROSALIND is softened and improved by the delicate salmon suffusion, which is noticeable toward the base of the standard and wings. ROSALIND was awarded a Certificate of Merit by The Pennsylvania Horticultural Society, 1920, and by The American Sweet Pea Society, 1921. Pkt. (50 seeds) 10 cts.; $\frac{1}{2}$ oz. 40 cts.; oz. 70 cts.; $\frac{1}{4}$ lb. \$2.10; lb. \$7.00.

3538 New Wedgwood Experts and Sweet Pea enthusiasts agree that Burpee's NEW WEDGWOOD is the most distinct and outstanding blue Sweet Pea ever introduced. The flowers are a bright delphinium blue. They are not only very large, but also of heavy substance. The blooms are beautifully waved and crimped, and invariably come four on a stem of great length. Pkt. (40 seeds) 10 cts.; $\frac{1}{2}$ oz. 40 cts.; oz. 75 cts.; $\frac{1}{4}$ lb. \$2.25; lb. \$7.50.

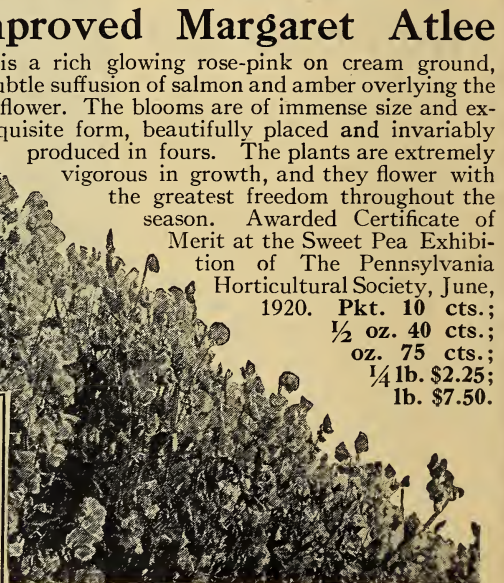

3499 Improved Margaret Atlee

The color is a rich glowing rose-pink on cream ground, with a subtle suffusion of salmon and amber overlying the entire flower. The blooms are of immense size and exquisite form, beautifully placed and invariably produced in fours. The plants are extremely vigorous in growth, and they flower with the greatest freedom throughout the season. Awarded Certificate of Merit at the Sweet Pea Exhibition of The Pennsylvania Horticultural Society, June, 1920. Pkt. 10 cts.; $\frac{1}{2}$ oz. 40 cts.; oz. 75 cts.; $\frac{1}{4}$ lb. \$2.25; lb. \$7.50.

7330 Back Cover Collection

This is a most wonderful collection, containing the Six Grand New Sweet Peas fully described on this page and illustrated in colors on the back cover. The range of colors could not have been selected with better care and the varieties represent the finest in their color classes. They were all introduced by Burpee. We will mail this collection to any address, postpaid, for **50 cts.**

Improved Margaret Atlee in full bloom

SUMMER FLOWERING SWEET PEAS

We recommend these for general outdoor growing throughout the United States, except in the extreme South, where Sweet Peas flower during the winter and where the Early Flowering type gives best results. Many Sweet Pea lovers plant a short row of the Early Flowering kinds to get the advantage of early blooms, but we recommend the Summer Flowering Sweet Peas for your principal crop for outdoor planting either during the spring or fall.

King White—from a Fordhook photograph

White

3490 KING WHITE Remarkable for the glistening purity of the whiteness and the perfect finish of the flower. Of truly gigantic proportions. Strong and very free flowering. It is the finest white-seeded white variety. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3475 BURPEE'S GIANT WHITE This is truly the finest black-seeded white in existence. Of enormous size. Fully described on page 112. Pkt. 15 cts.; ½ oz. 80 cts.; oz. \$1.50; ¼ lb. \$4.50; lb. \$15.00.

3435 CONSTANCE HINTON A well-known and popular black-seeded, white-flowered variety. The flowers are of large size and come at times with a bluish tinge. Vines of strong and vigorous growth. Pkt. 10 cts.; oz. 30 cts.; ¼ lb. 90 cts.; lb. \$3.00.

Cream

3456 Floradale Fairy A very deep rich cream, and for many years the finest in its class, but now surpassed in richness, color, and size of flower by our Floradale Fairy Improved, which is described on page 118. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3554 QUEEN VICTORIA The background is deep primrose flushed with rose. The flowers are large and of good texture. A strong grower and profuse bloomer. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3454 FLORADALE FAIRY IMPROVED Exquisitely waved flowers of wax-like texture and rich deep cream color. It is the most deeply colored cream variety. Fully described on page 118. Pkt. 15 cts.; ½ oz. 40 cts.; oz. 75 cts.; ¼ lb. \$2.25; lb. \$7.50.

Blush

3449 ELEGANCE Delicate and beautiful in color, robust and free in growth and habit, this charming new with long stems; fully described on page 111. Pkt. (12 seeds) 25 cts.; 5 pkts. for \$1.00.

3583 Valentine This is a newer variety of great merit. The plants make a strong vigorous growth and bear large flowers of a most pleasing shade of light pink. Beautifully waved and well placed on the long, stout stems. It is unsurpassed for cutting or exhibition. Pkt. 10 cts.; oz. 45 cts.; ¼ lb. \$1.35; lb. \$4.50.

3497 BURPEE'S LILAC-PINK Burpee Novelty for 1923. A grand new lilac-pink with large, well-waved flowers borne on long stems; fully described on page 111. Pkt. (12 seeds) 25 cts.; 5 pkts. for \$1.00.

3583 Valentine This is a newer variety of great merit. The plants make a strong vigorous growth and bear large flowers of a most pleasing shade of light pink. Beautifully waved and well placed on the long, stout stems. It is unsurpassed for cutting or exhibition. Pkt. 10 cts.; oz. 45 cts.; ¼ lb. \$1.35; lb. \$4.50.

Picotee

3440 DAINTY A beautiful standard variety in this most charming class. The flowers are large, well frilled, and have a beautiful and distinct pink edge on a white ground. It makes up into very pretty bunches. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3433 CHERUB One of the most attractive of all picotee varieties. A deep rich cream, charmingly edged with bright rose. Very large and free flowering. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

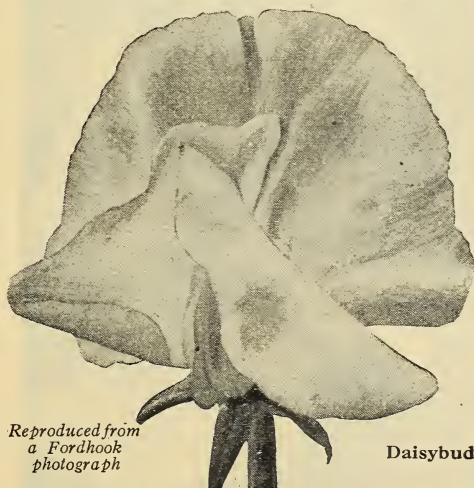

3526 MRS. J. T. WAKEFIELD An extremely dainty and attractive variety, the color being particularly pleasing. The fine, large, and charmingly waved flowers are edged and suffused with bright deep pink on a cream ground. Of fine habit and most floriferous. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3530 MRS. TOWNSEND White with a clear picotee edge of bright blue around both standard and wings. The flowers are large and well waved, and make a delicate and airy bunch. Of strong growth and free-blooming. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3408 ANNIE IRELAND In this beautiful picotee variety we find a fine but sharp edge of rose-carmine on the silvery white petals. The flower is of good size and elegant form. First class in every respect. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

Light Pink

3509 MAVIS A charming shade of soft yet rich pink on white ground. One of the really worthwhile varieties. The flowers are very large, well waved, and usually borne in fours. Vigorous and free in habit and producing the fine flowers profusely. Pkt. 10 cts.; oz. 45 cts.; ¼ lb. \$1.35; lb. \$4.50.

Reproduced from a Fordhook photograph

Daisybud

3439 DAISYBUD The color of the flowers is a harmonious combination of apple-blossom tints with a suggestion of cream-pink. The texture of the flowers is substantial but dainty. Extra large and beautifully waved. Pkt. 10 cts.; oz. 45 cts.; ¼ lb. \$1.35; lb. \$4.50.

3549 Pink Pearl A pleasing shade of clear pearl-pink. Fully described on page 118. Pkt. 15 cts.; ½ oz. 35 cts.; oz. 60 cts.; ¼ lb. \$1.80; lb. \$6.00.

3450 ELFRIDA PEARSON The color is a lovely pink; buds and flowers tinted with salmon-pink. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3437 Conquest A distinct and unusually attractive variety, valuable for exhibition and cutting purposes. The flowers are large, much waved, flushed, and heavily suffused with salmon-pink on a glistening pure white ground. Pkt. (20 seeds) 25 cts.; ½ oz. \$1.05; oz. \$2.00; ¼ lb. \$6.00; lb. \$20.00.

Cream-Pink

3426 Bridesmaid This is a magnificent new cream-pink variety of immense size and rich coloring, the coloring being a most pleasing shade of rich pink on a buff or ivory-cream ground resembling almond blossoms. A very profuse bloomer. Pkt. 15 cts.; oz. 65 cts.; ¼ lb. \$2.00; lb. \$6.50.

3481 BURPEE'S HONOR BRIGHT This beautiful novelty for 1923 is fully described on page 111. The color is a deep rose-pink on cream ground. The flowers are enormous in size and of very refined, well-waved shape. Pkt. (20 seeds) 25 cts.; 5 pkts. \$1.00.

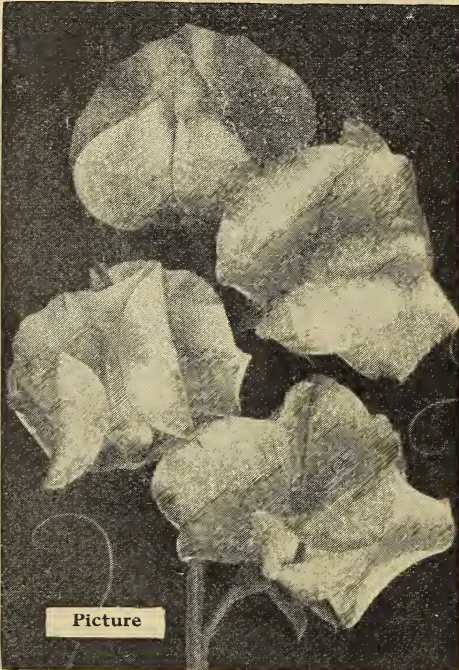

3499 IMPROVED MARGARET ATLEE An outstanding cream-pink variety that has quickly become a great favorite on account of its size, good form and magnificent coloring. Fully described on page 112. Pkt. 10 cts.; ½ oz. 40 cts.; oz. 75 cts.; ¼ lb. \$2.25; lb. \$7.50.

3453 FAERIE QUEEN A uniquely colored and fascinating variety. The standard is broad and erect, much frilled, and of a warm cream color with a ray of apricot-salmon across the center. The wings are a rich and deep shade of pink and cream, thus creating a most distinct and pleasing color harmony. It is a novelty of great beauty and charm. Pkt. (12 seeds) 25 cts.

3428 Caress Immense, well-formed flowers which are beautifully frilled and usually produced in fours on long stems. The color is a beautiful shade of soft and rich shell-pink, deeply toned and suffused with cream-buff. Pkt. 10 cts.; oz. 65 cts.; ¼ lb. \$2.00; lb. \$6.50.

3421 Beryl A lovely shade of pink, heavily suffused with salmon. The general appearance is a bright salmon-pink self. This makes a most telling bunch. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3516 Mrs. A. Hitchcock A most charming shade of soft pink, flushed with salmon on a cream ground. A remarkably vigorous grower, invariably bearing four-flowered sprays of large, well-formed flowers. Pkt. 10 cts.; oz. 40 cts.; ¼ lb. \$1.20; lb. \$4.00.

3548 PICTURE This is as big as anything we have in Sweet Peas. The large size flowers are well waved and exquisitely frilled on the edges. The color is a blend of cream and pink shades, having a deeper flush on the wings. A strong, vigorous grower, usually carrying four large flowers to a stem. Pkt. 15 cts.; oz. 60 cts.; ¼ lb. \$1.80; lb. \$6.00.

Burpee's Sweet Peas are grown on Burpee's Floradale Farms in California, where soil and weather conditions form an ideal combination to produce the finest Sweet Pea seed in the world.

Rosalind
A most excellent
rose color

The flowers of Rosalind are large, well waved, and of heavy texture

Deep Pink

3478 HEBE A rich clear pink self with a very broad and outstanding standard. The plants make a robust and vigorous growth and the immense flowers are usually borne in fours on very long stems. Pkt. 10 cts.; oz. 50 cts.; ¼ lb. \$1.50; lb. \$5.00.

3484 HERCULES This is a magnificent deep rose-pink. The standard is of enormous size and frequently measures two and one-half inches across. The whole flower is of excellent form, much waved and fringed. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3477 HAWLMARK PINK This most beautiful Sweet Pea is unsurpassed for either exhibition or general cutting purposes. The color is a most beautiful shade of rich rose-pink, deeply flushed and shaded with salmon. The wings are bright rose-pink, whereas the standard is somewhat lighter in color and slightly toned down with salmon. Large, well-waved blooms, usually borne in fours. Pkt. 10 cts.; oz. 40 cts.; ¼ lb. \$1.20; lb. \$4.00.

3407 ANNIE BOWNASS Flowers of largest size; rich bright pink, suffused salmon and amber on white. Pkt. 10 cts.; oz. 30 cts.; ¼ lb. 90 cts.; lb. \$3.00.

3503 Hawlmark Salmon-Pink This is a leader in its class. The color is a rich deep pink, attractively tinted with salmon and orange. The plants make a sturdy, strong growth, and produce flowers of the largest size and finest form. Pkt. (20 seeds) 15 cts.; ½ oz. 80 cts.; oz. \$1.50; ¼ lb. \$4.50; lb. \$15.00.

Rose

3472 GEORGE HERBERT The flowers are the most magnificent rich rosy carmine. The blooms are large and well waved. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3567 Rosabelle Deep rose self with a white blotch at the base of the standard and wings. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3565 Rosalind Burpee's ROSALIND is a revelation of daintiness and beauty. It produces flowers of enormous size and is charmingly fluted and waved. The color is a rich rosy carmine. Fully described on page 112. Pkt. 10 cts.; ½ oz. 40 cts.; oz. 70 cts.; ¼ lb. \$2.10; lb. \$7.00.

3577 SUNSET A truly magnificent variety, with large flowers of rich rose and a golden blotch at the base of the standard. Fully described on page 118. Pkt. (20 seeds) 15 cts.; ½ oz. \$1.35; oz. \$2.50.

3561 Renown A new English variety with large, well-waved flowers of a clear carmine-rose color. Pkt. (20 seeds) 25 cts.

Salmon

3416 Barbara A superb salmon-colored self that makes a telling bunch either for exhibition or table decoration. Requires shading against strong sun. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3575 STIRLING STENT The color is a rich glowing deep salmon self, suffused with orange. Blooms freely. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3494 Liberty A brilliant glowing salmon with an orange cast perfectly distinct from other salmon varieties. It is a vigorous grower and blooms very freely, producing four-flowered sprays in the greatest abundance. Pkt. 10 cts.; oz. 50 cts.; ¼ lb. \$1.50; lb. \$5.00.

Light Cerise

3444 Doris This is one of our most charming varieties.

It is a strong grower with an abundance of flowers. It is perfectly sunproof and retains its color until the end. Valuable alike for exhibition and cutting, with its fine blooms of rich cherry-pink. Pkt. 10 cts.; oz. 50 cts.; ¼ lb. \$1.50; lb. \$5.00.

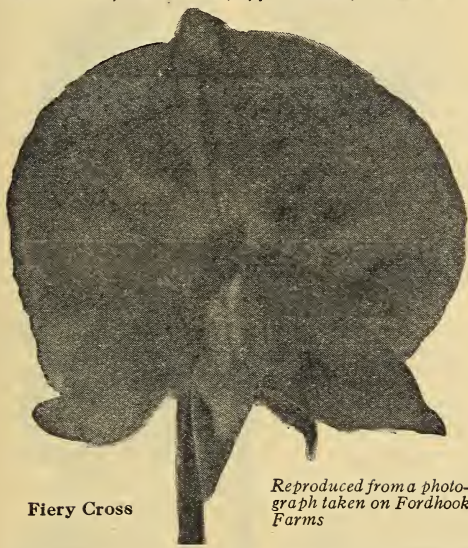

3568a Royal Cherry The color is a bright salmon-cerise which becomes deeper as it reaches the edge of the standard, where it assumes a clearly defined deep rose. The plant is of strong constitution and very free flowering. A valuable addition. Pkt. (12 seeds) 25 cts.

3502 Hawmark Cerise This is an outstanding variety, with large flowers of a glowing rose-cerise on cream ground. The blooms are large, charmingly waved, and borne freely in fours on very long stems. It received an Award of Merit from the National Sweet Pea Society of England. Pkt. (20 seeds) 25 cts.; ½ oz. \$1.05; oz. \$2.00; ¼ lb. \$6.00; lb. \$20.00.

3483 HOPE Undoubtedly the finest light cerise self. HOPE is certain to become one of the most popular varieties. The color has also been described as soft rose and is a great advance on the once popular Edith Taylor. A vigorous grower, with flowers of great size. Pkt. 10 cts.; oz. 40 cts.; ¼ lb. \$1.20; lb. \$4.00.

3485 ILLUMINATOR Glowing cerise-salmon with an indication of bright orange. Under artificial light, the flowers appear to be a glowing orange-scarlet. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3573 SINCERITY A unique, pleasing shade of bright glowing cerise. The large flowers are produced four on a stem. A strong grower and free bloomer. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

Fiery Cross

Reproduced from a photograph taken on Fordhook Farms

Deep Cerise

3455 FIERY CROSS

The standard is a scorching deep cherry-red with an orange-scarlet suffusion. It scintillates and glitters in the bright sunlight with a fire-like sheen that radiates over the entire flower. The wings are a rich cherry-orange, harmonizing perfectly with the deeper standard. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3570a Royal Salute A rich fiery cerise; bright and outstanding. Of vigorous habit and extremely free flowering. The color has been described as bright salmon-red with a suffusion of orange. Excellent. Pkt. 10 cts.; oz. 45 cts.; ¼ lb. \$1.35; lb. \$4.50.

3570 ROYAL SCOT The flowers of ROYAL SCOT are of heavy texture, beautifully waved and of large size. The color is a deep cerise, closely approaching a true scarlet. The plant is strong-growing and produces freely four-flowered stems. The lover of cerise shades will be delighted with this wonderful new variety. Pkt. 10 cts.; ½ oz. 40 cts.; oz. 70 cts.; ¼ lb. \$2.10; lb. \$7.00.

3426a Brilliant A brilliant cherry-cerise with large flowers borne freely in fours on good stems. The blooms are of great substance and, being placed gracefully on the stems, make very attractive bunches. Pkt. 15 cts.; ½ oz. 40 cts.; oz. 75 cts.; ¼ lb. \$2.25; lb. \$7.50.

The President
Large flowers of
dazzling orange-
scarlet

Orange

3566 ROBERT SYDENHAM A magnificent glowing orange self. The large flowers are usually produced four on a stem, well placed and beautifully waved. Requires slight shading to preserve the intensity of the color. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3465 FORDHOOK ORANGE This magnificent novelty introduced by us this year is truly the finest orange Sweet Pea in existence. Fully described on page 111. Pkt. (12 seeds) 25 cts.; 5 pkts. for \$1.00.

3580 TANGERINE This is the last word in orange-colored Sweet Peas. Deep orange, almost approaching the color of a tangerine orange. The flowers are of great size, beautifully waved and well placed. Pkt. 10 cts.; oz. 50 cts.; ¼ lb. \$1.50; lb. \$5.00.

3480 HELEN LEWIS Orange-rose wings and intense rich crimson-orange standard. An old favorite. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3469 GEORGE SHAWYER An English novelty of much distinction. The flowers are very large and are borne freely in fours on long stems. The standard is a clear shade of bright orange-salmon and the wings are more rose tinted. The flowers are of perfect formation and are beautifully waved. Pkt. (20 seeds) 25 cts.

Orange-Scarlet

3581 Thomas

StevenSON
Improved A

strikingly pretty variety with much frilled and well-waved flowers of a flaming orange-scarlet. The wings are rosy carmine shaded with orange. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3578 The President This is, without question, the most brilliant in this class. The flowers are of immense size, combined with good form. The color is a brilliant and scorching orange-scarlet. The flowers are usually borne in fours and carried on strong stems. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3473a Gloriosa This is an outstanding new English variety with large, well-formed flowers of a bright and glowing orange-scarlet self. Pkt. (20 seeds) 25 cts.

Charity

Large, brilliant crimson flowers of exquisite form

Crimson

3560 Red Ensign This bright and outstanding crimson Sweet Pea is a vigorous grower, with large flowers of magnificent form. Fully described on page 118. Pkt. (20 seeds) 15 cts.; ½ oz. \$1.50; oz. \$2.75.

3429 Charity A magnificent flower in size as well as in form. The blooms are a rich brilliant crimson which does not burn in the sun. The plants make a vigorous growth and produce their well-waved flowers on long stems, each carrying four large blooms. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3488 KING EDWARD This is the old standby in the crimson class, with large, well-waved and substantial flowers of a deep rich crimson shade. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

Scarlet

3522 Mrs. C. P. Tomlin This is now a leader in the scarlet class. Remarkable for its richness and substance. The color is scarlet, with just a touch of fiery red in it. The flowers are of large size and always of the most refined well-waved Spencer form. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3571 SCARLET DUPLEX Truly a glorious acquisition, with duplex flowers of giant size, heavy substance, and graceful form. The color of the flowers is most remarkable, being an intense and bright pure scarlet, which does not fade or burn even in the brightest sun. Fully described on page 112 and illustrated in colors on the back cover. Pkt. (20 seeds) 15 cts.

3587 Vermilion Brilliant The standard and wings of this old standby are an intense pure scarlet color. The flowers are large, of splendid form and heavy substance. It blooms freely and makes a strong growth. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

HOW TO GROW SWEET PEAS

This is the title of a most interesting Burpee Cultural Leaflet written by an eminent Sweet Pea expert. It gives complete cultural directions on the various methods of Sweet Pea growing. This leaflet should be in the hands of everyone who grows Sweet Peas. Ask for a free copy on your order.

Lavender

3543 Powerscourt A pure lavender self with flowers of mammoth size, yet refined and well placed on long stems. Of vigorous habit and extremely free flowering. We recommend it as one of the best of all lavenders. It received an Award of Merit from the National Sweet Pea Society of England. Pkt. (12 seeds) 35 cts.

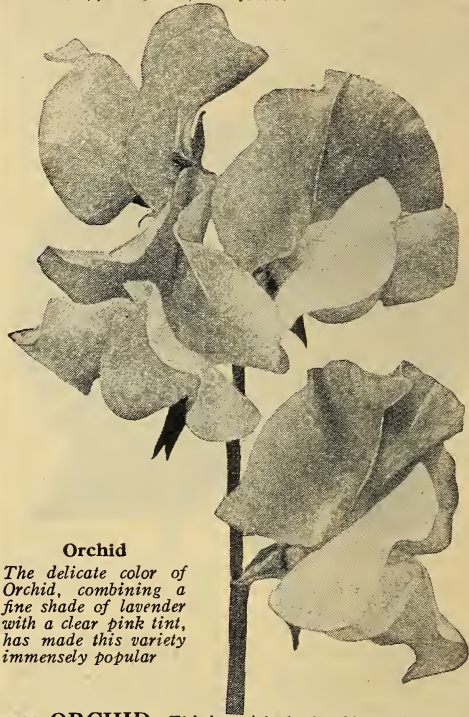

3564 R. F. Felton This has made many friends on account of its wonderful color and magnificent size. The blooms are a rich pinkish lavender. Pkt. 10 cts.; oz. 40 cts.; ¼ lb. \$1.20; lb. \$4.00.

3500 MARGARET MADISON A clear azure-blue self with flowers of good size and heavy substance. It blooms freely and the flowers are carried in fours. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3462 FLORENCE NIGHTINGALE A soft clear rich lavender enlivened by a faint sheen of rose-pink. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3476 Hawlmark Lavender This beautiful true lavender is fully described on page 118. Pkt. 15 cts.; ½ oz. 40 cts.; oz. 75 cts.; ¼ lb. \$2.25; lb. \$7.50.

3485b Austin Frederick Improved A flower of immense size, beautifully placed on very long stiff stems, with fours predominating. The color is a most pleasing shade of lavender, the standard being slightly deeper in shade. Pkt. 15 cts.; ½ oz. 40 cts.; oz. 75 cts.; ¼ lb. \$2.25; lb. \$7.50.

Orchid

The delicate color of Orchid, combining a fine shade of lavender with a clear pink tint, has made this variety immensely popular

3539 ORCHID This is a rich shade of lavender with a pink suffusion, which is quite similar to the most popular shade of the Cattleya Orchids. The plants make a strong and sturdy growth, blooming profusely with most stems carrying four large flowers. Pkt. 10 cts.; oz. 40 cts.; ¼ lb. \$1.20; lb. \$4.00.

Blue

3538 NEW WEDGWOOD There is nothing finer in the blue section than Burpee's NEW WEDGWOOD. The color is a lovely shade of bright blue. Fully described on page 112. Pkt. 10 cts.; ½ oz. 40 cts.; oz. 75 cts.; ¼ lb. \$2.25; lb. \$7.50.

3529 Mrs. Tom Jones Bright delphinium-blue. The flowers are very large and of great substance; beautifully waved, and usually borne four on a stem of great length. A first-class rich blue has long been wanted and we now have it in this charming novelty. Pkt. 10 cts.; oz. 45 cts.; ¼ lb. \$1.35; lb. \$4.50.

3424 Bluestone A most distinct and striking new shade of blue. Fully described on page 118. Pkt. 15 cts.; oz. 65 cts.; ¼ lb. \$2.00; lb. \$6.50.

Dark Blue

3425 BLUE MONARCH A splendid dark blue variety with flowers of large size and good substance. Of strong growth and blooms freely. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3486a JACK CORNWELL A very fine dark blue of enormous size and excellent form. Vigorous, bearing four flowers on a stem. Pkt. 10 cts.; oz. 45 cts.; ¼ lb. \$1.35; lb. \$4.50.

3434 COMMANDER GODSALL A welcome addition to the dark blue section. The color is an attractive shade of deep violet-blue. The flowers are large, of heavy substance, and attractively waved and fluted. They are produced abundantly in fours on long stems. Pkt. 15 cts.; oz. 60 cts.; ¼ lb. \$1.80; lb. \$6.00.

Mauve and Purple

3492 KING MAUVE This is a pleasing shade of rosy mauve and a flower of great size. The immense blooms are borne freely on extra long stiff stems. They are well placed and charmingly waved or frilled. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3492 KING MAUVE This is a pleasing shade of rosy mauve and a flower of great size. The immense blooms are borne freely on extra long stiff stems. They are well placed and charmingly waved or frilled. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3457 FLORADALE PURPLE Unexcelled by any other purple variety. Introduced by Burpee last year. Fully described on page 112. Pkt. 15 cts.; ½ oz. 80 cts.; oz. \$1.50; ¼ lb. \$4.50; lb. \$15.00.

3569 ROYAL PURPLE The color is a rich warm purple, the younger flowers being slightly softer in tone. Grows freely and blooms profusely. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

Maroon

3591 Warrior The color is a rich reddish maroon flushed with bronze. Lovers of dark shades will appreciate this fine color. A strong grower and free bloomer. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3479 Hawlmark Maroon Deep red-maroon. Fully described on page 118. Pkt. 15 cts.; ½ oz. 40 cts.; oz. 75 cts.; ¼ lb. \$2.25; lb. \$7.50.

3557 RAVENSWING A striking novelty of an intense shade of blackish maroon. In fact, it is the darkest of all Sweet Peas yet introduced. The flowers are of great size and perfectly waved and the plants make a strong robust growth. Pkt. (20 seeds) 25 cts.

Art Shades

3482 HELIO A distinct and first-class novelty. The standard has bronzy suffusion over lavender and the wings are a unique shade of lavender with just a suspicion of bronze. The bunch effect is a decided lilac. A most vigorous grower. Pkt. 15 cts.; ½ oz. 45 cts.; oz. 80 cts.; ¼ lb. \$2.40; lb. \$8.00.

3486 IRISH BELLE A lovely rich lilac flushed with pink. A beautiful and most distinctive art shade that lends itself particularly well for all kinds of decoration. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3547 PRINCE GEORGE The standard is rosy lilac with veinings of a richer rose, having a distinct dark rose blotch at the base. The wings are violet-rose. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3427 Brocade This fine art shade is a combination of salmon, rosy lavender, and rose-pink with a satiny finish. The flowers are large and finely shaped. Pkt. 10 cts.; oz. 50 cts.; ¼ lb. \$1.50; lb. \$5.00.

Bicolor

3518 MRS. CUTHBERTSON The standard is rose-pink and the wings are white flushed light rose. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3574 Sparkler A great flower for cutting and exhibition; of largest size. The color is a charming combination of rose and cream, the standard being bright rose; wings a lovely shade of rosy cream. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3442b Dora This is decidedly the best in the bicolor class. The standard is a deep rosy pink color with a suffusion of salmon, deepening toward the edge. The wings are rich cream. Pkt. 15 cts.; ½ oz. 45 cts.; oz. 80 cts.; ¼ lb. \$2.40; lb. \$8.00.

3422 BLANCHE FERRY SPENCER The standard is rich rose-pink; the wings are white, sometimes flushed with pink. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

Sparkler

Striped

3406 AMERICA The ground color is ivory-white, distinctly striped with brilliant crimson-red. It is a charming variety which blooms very freely and carries its striking blooms in threes or fours on fine long stems. It makes an exquisite bunch. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3572 SENATOR The color is a varying combination of deep chocolate and claret striped and flaked on light heliotrope. A strong grower and very profuse bloomer. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3532 MRS. W. J. UNWIN The brightest and best of all the flaked varieties. The ground color is white, beautifully flaked rich orange-scarlet. A strong and vigorous grower with large, well-waved flowers. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

3496 LOYALTY This is a lovely violet-blue flake on white ground. The effect of this combination is decidedly quaint and makes its best show when loosely arranged in a vase. Flowers of largest size and excellent form. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

Mixed

3599 THE BURPEE-BLEND Although the majority of our customers now plant Sweet Peas in separate named varieties, yet there are many thousands who like to have a showy row of the finest mixed Spencers. THE BURPEE-BLEND contains the cream of the very finest named Spencer varieties. It is the very best blend possible to produce today and will surely delight all who want a grand variety of colors. Pkt. 10 cts.; oz. 25 cts.; ¼ lb. 75 cts.; lb. \$2.50.

3600 MIXTURE OF LIGHT SHADES Some of our customers do not care for the deeper colors in Sweet Peas. This special mixture contains only the lighter shades, such as white, cream, pink, salmon, lavender, etc. Pkt. 10 cts.; oz. 30 cts.; ¼ lb. 90 cts.; lb. \$3.00.

3601 BURPEE NOVELTY MIXTURE This mixture is composed of the latest and very finest varieties of recent introductions. It also contains a number of new seedlings from our California workshop of Sweet Peas—FLORADALE FARMS. All the leading colors and shades are represented. Pkt. 15 cts.; ½ oz. 30 cts.; oz. 50 cts.; ¼ lb. \$1.50; lb. \$5.00.

Eight Beautiful New Sweet Peas

—Illustrated in Colors on the Opposite Page—

3479 Hawlmark Maroon A large, well-waved flower of a rich reddish maroon color with a glistening sheen resembling polished mahogany. A remarkably strong grower, blooming profusely for a long time. The magnificent flowers are gracefully carried on very long stems. They are usually borne in fours. Received an Award of Merit from The Royal Horticultural Society, England. Pkt. (40 seeds) 15 cts.; $\frac{1}{2}$ oz. 40 cts.; oz. 75 cts.; $\frac{1}{4}$ lb. \$2.25; lb. \$7.50.

3476 Hawlmark Lavender There is nothing quite so pure in lavenders as this splendid novelty. The color is difficult to describe accurately, as it is a blending of lavender shades. The flowers are of exquisite form, with a broadly expanded standard and large spreading wings. The whole flower is beautifully waved and crimped. It is easily the best of its class, producing the attractive four-flowered sprays on long and strong stems. Plants make a strong sturdy growth and are very floriferous. Pkt. (40 seeds) 15 cts.; $\frac{1}{2}$ oz. 40 cts.; oz. 75 cts.; $\frac{1}{4}$ lb. \$2.25; lb. \$7.50.

3577 Sunset In trials both at our FORDHOOK FARMS in Pennsylvania and at our FLORADALE FARMS in California, SUNSET was pronounced by experts as being in the front rank of distinct Spencer novelties. The color is a beautiful shade of soft though rich rose, the base of the flower being lightened by a golden yellow suffusion. The sprays are easily arranged in bunches which are wonderful for all kinds of decoration. The long strong stems usually bear four immense flowers each. The vines are strong and sturdy, producing a magnificent crop of large, well-waved blooms. SUNSET was honored with an Award of Merit by The Royal Horticultural Society of England, July, 1920, and by The National Sweet Pea Society at its trials, June, 1921. Pkt. (20 seeds) 15 cts.; $\frac{1}{2}$ oz. \$1.35; oz. \$2.50.

3426 Bridesmaid This is a magnificent new cream-pink variety with immense flowers and of rich coloring. The blooms are very large and of exquisite form. They are a pleasing shade of rich pink on a buff or ivory-cream ground, resembling almond blossoms. Usually four large blooms are carried gracefully arranged on each stem. Pkt. (50 seeds) 15 cts.; $\frac{1}{2}$ oz. 35 cts.; oz. 65 cts.; $\frac{1}{4}$ lb. \$2.00; lb. \$6.50.

3454 Floradale Fairy, Improved This is indeed a decided advance over all other cream-colored Sweet Peas. The flowers are not only a very rich deep cream but they are also of simply enormous size and of a charming shade. The standard and wings are both large and bold, but by no means coarse. They are exquisitely waved and crimped and of a wax-like texture. The large blooms are borne in fours on long and strong stems. The vines are completely covered with flowers. Pkt. (40 seeds) 15 cts.; $\frac{1}{2}$ oz. 40 cts.; oz. 75 cts.; $\frac{1}{4}$ lb. \$2.25; lb. \$7.50.

3424 Bluestone BLUESTONE is a most distinct and striking variety, a color not hitherto found in Sweet Peas. The standard is a pleasing shade of aniline-blue, flushed bluish violet; wings bright aniline-blue. It is a most lovely variety for all kinds of decorative work, and first class for exhibition purposes. The flowers are very large, and usually come in fours on good stems. It is so distinct and valuable that a place should be found for it in all collections. BLUESTONE is of such outstanding beauty that it will soon be seen everywhere. Pkt. (40 seeds) 15 cts.; $\frac{1}{2}$ oz. 35 cts.; oz. 65 cts.; $\frac{1}{4}$ lb. \$2.00; lb. \$6.50.

3560 Red Ensign We have in RED ENSIGN a bright and outstanding variety of much merit and beauty. The color is a brilliant scarlet-red, a great advance on all others of this and similar shades. A vigorous grower, the flowers are large and of full exhibition size. The beautifully placed flowers are most effective either in the garden or when cut for exhibition or home decoration. They are carried gracefully arranged four on a stem. Pkt. (20 seeds) 15 cts.; $\frac{1}{2}$ oz. \$1.50; oz. \$2.75.

3549 Pink Pearl This is a most charming and pleasing novelty, the color of which is very accurately described by its name, as it is a beautiful shade of clear pearly pink. The flowers are very large, much waved and well placed. The vines are of vigorous growth and habit; a most profuse and continuous bloomer. The bunch effect of the flowers when cut is exquisite. PINK PEARL will surely become one of the most popular of the newer varieties. Pkt. (40 seeds) 15 cts.; $\frac{1}{2}$ oz. 35 cts.; oz. 60 cts.; $\frac{1}{4}$ lb. \$1.80; lb. \$6.00.

7320 Novelty Collection of Sweet Peas

Our Novelty Collection of Sweet Peas offers a wonderful opportunity to all Sweet Pea enthusiasts to get acquainted with the remarkable improvements in Sweet Peas which have been made within recent years. Our collection contains one packet each of the 8 beautiful varieties fully described on this page and illustrated in colors on the right-hand page. Purchased separately this collection would cost \$1.20. It will be mailed to any address, postpaid, for

75 cts.

GIANT PURPLE

Burpee's Zinnias

This old garden favorite has been much improved and the fine strain of giant-flowered varieties and other remarkable new forms are taking a leading place in our flower gardens. Zinnias grow well and bloom freely even under the most adverse circumstances of location and weather, and may be counted upon for a continuous show of blooms from July until frost. Sow the seed outdoors as soon as the nights are quite warm. To secure early flowers, sow the seed indoors the middle of March and transplant into the garden early in May. The Giant varieties grow 2 to 3 feet tall and bear a profusion of mammoth size flowers measuring 4 and even 5 inches in diameter.

2822 GIANT GOLDEN YELLOW A lovely shade of yellow. The flowers are perfectly double and always of the largest size. Pkt. 10 cts.; ¼ oz. 45 cts.; oz. \$1.50.

2824 GIANT PRIMROSE Light lemon-yellow, deepening toward the center; a pleasing and delicate shade. Mammoth size. Pkt. 10 cts.; ¼ oz. 45 cts.; oz. \$1.50.

2825 GIANT SCARLET This is a rich shade of orange-scarlet. The flowers are always of immense size and fully double. Pkt. 10 cts.; ¼ oz. 45 cts.; oz. \$1.50.

2827 GIANT WHITE A magnificent pure white of large size. Pkt. 10 cts.; ¼ oz. 45 cts.; oz. \$1.50.

2829 GIANT PURPLE This is a particularly striking shade of light purple. A rich and impressive color that takes well. Pkt. 10 cts.; ¼ oz. 45 cts.; oz. \$1.50.

2814 GIANT FLESH-PINK Enormous flowers of this most attractive color. One of the finest light shades. Pkt. 10 cts.; ¼ oz. 45 cts.; oz. \$1.50.

2828 GIANT CRIMSON Rich crimson. A bold and impressive flower. Pkt. 10 cts.; ¼ oz. 45 cts.; oz. \$1.50.

2830 GIANT CANARY-YELLOW Clear canary- or lemon-yellow flowers of good size. The plants are free-flowering. Pkt. 10 cts.; ¼ oz. 45 cts.; oz. \$1.50.

2821 GIANT ROSE Beautiful rose flowers of perfect shape. It has been greatly admired by all who have seen it growing for the past two seasons on our FORDHOOK FARMS. It is a beautiful new color and always of largest size. Pkt. 15 cts.; ¼ oz. 60 cts.; oz. \$1.75.

2813 BURPEE'S GIANT MAMMOTH MIXED Our strain of this magnificent large-flowered type is unsurpassed. The blooms are of immense size when well grown, averaging 3½ to 4½ inches in diameter and often 3 to 4 inches in depth. In addition to the usual colors there will be found many other fine and rare shades. We grow our seed of this fine mixture on FORDHOOK FARMS and take particular care to include all colors. Pkt. 10 cts.; ¼ oz. 35 cts.; oz. \$1.25.

2820 BURPEE'S CURLED AND CRESTED The petals are elegantly twisted and curled, giving the flower a most attractive, crested-like appearance. The plant grows 18 inches high by 2 to 2½ feet in diameter and blooms freely until killed by severe frost. The colors range from white through many shades of yellow, rose-pink, and salmon to deepest crimson. Burpee's Curled and Crested is a wonderful cut-flower which will last considerable time in water. This new Zinnia has become very popular within a few years and has always attracted attention. Pkt. 10 cts.; ¼ oz. 45 cts.; oz. \$1.35.

2834 NEW DAHLIA-FLOWERED ZINNIAS In this fine new type of Zinnias the flower-petals stand well apart. This characteristic adds to the texture of the flowers and lends a graceful and airy appearance. The flowers have a close resemblance to Decorative Dahlias and include a complete range of bright and rich colors. Pkt. 15 cts.; ¼ oz. 75 cts.

2812 BURPEE'S NEW CACTUS-FLOWERED ZINNIAS Distinct in form from all other

Zinnias, as the petals are so quilled that they become almost tubular. They are straight, radiating from the center of the flowers, which thus greatly resemble a fine-petaled Cactus Dahlia. As the back of the petals are of a distinct color and as they incurve to form the tube, it gives the flower a bicolored appearance. The colors range through varying shades of yellow, orange, pink, and rose to scarlet and crimson. The flowers are borne in great abundance; on well-grown plants they will average 4 to 5 inches in diameter. An excellent variety for cut-flowers. Pkt. 15 cts.; 2 pkts. for 25 cts.

2832 PICOTEE, MIXED The flowers are always of the largest size. Pink, light and rich yellow, orange, etc.—all tipped rich mahogany-brown on the end of each petal. The darker flowers are tipped with a contrasting light shade. Pkt. 15 cts.; ¼ oz. 75 cts.

DWARF ZINNIAS This type is wonderfully adapted to borders or beds. The plants are compact and are covered with a multitude of flowers all during summer and fall. Well-grown plants measure 12 inches in height.

2817 DWARF FIREBALL (*Zinnia pumila coccinea plena*) Double flowers of a fiery scarlet. Free-flowering. Pkt. 10 cts.; ¼ oz. 30 cts.; oz. 90 cts.

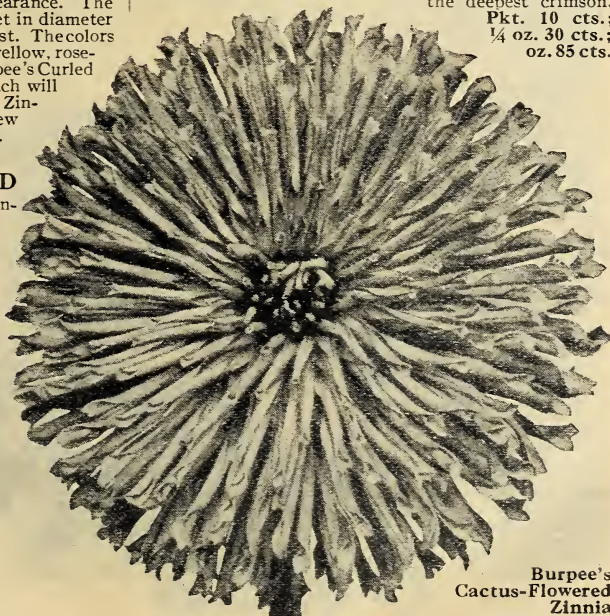

2819 DWARF SNOWBALL Very double Dahlia-like flowers, of the purest snow-white. Beautiful for beds or borders. Pkt. 10 cts.; ¼ oz. 30 cts.; oz. 90 cts.

2818 DWARF SALMON-ROSE A beautiful shade of soft salmon-rose; large flowers borne in great profusion. Pkt. 10 cts.; ¼ oz. 35 cts.; oz. \$1.00.

2826 PERFECTION MINIATURE Dwarf and compact plants averaging 9 inches in height and 2 feet in diameter, the whole becoming a complete mass of double flowers, ranging in color from yellow to brown, nearly all of which are perfectly double; 1¼ inches in diameter. Pkt. 10 cts.; ¼ oz. 35 cts.; oz. \$1.00.

2815 POMPON, MIXED The petals form a symmetric smooth cone. Colors range from pure white to the deepest crimson.

Pkt. 10 cts.;
¼ oz. 30 cts.;
oz. 85 cts.

Burpee's
Cactus-Flowered
Zinnia

7545 Zinnia Collection

A truly remarkable collection, including the finest and most improved varieties of Zinnias, all illustrated in full colors on the opposite page. They are: Giant White, Giant Purple, Giant Scarlet, Giant Flesh-Pink, Giant Canary-Yellow, and Giant Rose. These wonderful varieties should be in every garden. The collection will be mailed to your door, postpaid, for **50 cts.**

See Color Plate

Burpee's Asters

Asters have no equal for an autumn show flower. They do best in a deep, rich soil. The seed may be sown in a hotbed or indoors in boxes early in March. Sow outdoors early in May. To obtain good flowers the plants must be strong and stocky, and each plant should be given plenty of space to develop freely. Dwarf kinds are set 6 to 10 inches apart; tall kinds, 12 to 18 inches apart. The dwarf kinds are fine for borders or pot culture and the tall ones, with their long stems, make admirable cut-flowers. Ask for a free copy of the Burpee leaflet, "How to Grow the Finest Asters."

Queen of the Market White

Greatly reduced from a Fordhook photograph

1725 Dwarf Bouquet Asters

This is, in our opinion, the best of all dwarf bedding Asters. The plants are compact and very free-flowering. The blooms are of good size and come in many beautiful colors. Pkt. 10 cts.; 1/4 oz. 75 cts.; oz. \$2.25.

1728 Single Asters, Mixed

The single Asters have much gained in favor with the flower lovers. Our mixture contains a wonderful assortment of all the leading colors, well blended. Pkt. 5 cts.; 1/4 oz. 25 cts.; oz. 80 cts.

Comet Asters

The plants are of branching habit, 12 inches high, with large, ostrich-feather-like flowers composed of loose petals. Large and fully double flowers.

1685 GIANT WHITE Large flowers of the purest white; very desirable for cut-flowers and also very pretty in beds or borders. Pkt. 10 cts.; 1/4 oz. 50 cts.

1667 GIANT MIXED Contains a wonderful assortment of colors with many rare shades and some striped varieties. This is one of the finest European types. The compact growth of the plants makes them suitable for bedding, but the flower-stems are also long enough for cutting. Pkt. 10 cts.; 1/4 oz. 40 cts.; oz. \$1.25.

Queen of the Market

This is the earliest of all Asters to come into bloom. Since we have been producing the seed in America, this type has been greatly improved as to doubleness of the flowers. They are now very popular with florists for early cutting. Height, 18 inches.

- | | |
|-----------------|-----------------|
| 1680 CRIMSON | 1684 PURPLE |
| 1681 LAVENDER | 1686 DARK BLUE |
| 1682 SHELL-PINK | 1687 WHITE |
| 1683 ROSE-PINK | 1688 LIGHT BLUE |

Any of the above: Pkt. 10 cts.; 1/4 oz. 40 cts.

1689 QUEEN OF THE MARKET, MIXED This contains, besides the eight colors listed above, a number of other fine shades. Excellent for beds or borders, or for cut-flowers. Pkt. 10 cts.; 1/4 oz. 35 cts.; oz. \$1.00.

Daybreak Asters

A distinct American class. The plants are stiffly erect in habit of growth and attain a height of 18 to 20 inches. The flowers are ball-like in form, with incurved petals, and are about 2 1/2 inches in diameter. DAYBREAK ASTERS bloom during August and are excellent for beds or cutting.

1591 BLUEBIRD Of a beautiful azure-blue color. Very attractive. Pkt. 10 cts.; 1/4 oz. 65 cts.

1593 LAVENDER Flowers of a most beautiful shade of light lavender. Pkt. 10 cts.; 1/4 oz. 65 cts.

1597 DAYBREAK Silvery petals suffused with pink. Unequaled in daintiness. Pkt. 10 cts.; 1/4 oz. 65 cts.

1599 PURITY or WHITE DAYBREAK Snowy white; of unusually large size. Exceptionally fine for beds or borders. Pkt. 10 cts.; 1/4 oz. 65 cts.

1601 ROSE See illustration. A rich rose shade. Blooms freely and continuously. Pkt. 10 cts.; 1/4 oz. 65 cts.

1603 SALMON A most desirable light orange-salmon. An unusual color. Pkt. 10 cts.; 1/4 oz. 65 cts.

1605 MIXED All the above colors in a properly blended mixture. Always fully double and extra fine for beds. Pkt. 10 cts.; 1/4 oz. 60 cts.; oz. \$1.75.

1624 AMERICA In habit of growth, the same as the well-known Daybreak described above; the flowers are of the same color, but are larger and bloom a week later. Very free flowering. Pkt. 10 cts.; 1/4 oz. 60 cts.

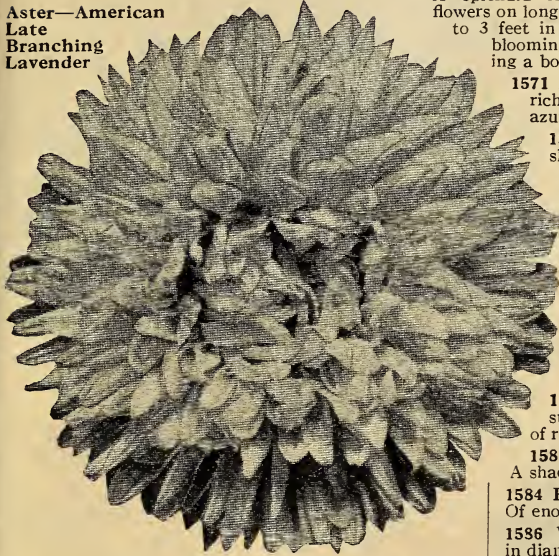

Daybreak Aster, Rose From a Fordhook photograph showing the compact habit and free-blooming character

7740 Collection of Early Asters

This assortment will give a wonderful display of Asters early in the season. It is well suited for northern locations where late Asters do not bloom well. One packet each: Queen of the Market Rose-Pink and Crimson; and Daybreak Bluebird and Purity. These four packets (value, 40 cts.) mailed, 25 cts. postpaid.

Burpee's American Late Branching Asters

Aster—American
Late
Branching
Lavender

A splendid American strain, producing handsome double flowers on long stems. The plants are of strong growth, from 2 to 3 feet in height, and branch freely. These grand late-blooming Branching Asters are unsurpassed for producing a bountiful supply of beautiful flowers.

1571 AZURE-BLUE Lovely large double flowers of rich true lavender—a shade approaching a deep azure-blue. Pkt. 10 cts.; $\frac{1}{4}$ oz. 50 cts.

1573 CRIMSON Large flowers of a beautiful shade of dark crimson. Of excellent and strong growth. Pkt. 10 cts.; $\frac{1}{4}$ oz. 50 cts.

1574 DARK BLUE A fine shade of deep violet-blue. Pkt. 10 cts.; $\frac{1}{4}$ oz. 50 cts.

1575 LAVENDER See illustration. Light lavender; the flowers are large and always fully double. Pkt. 10 cts.; $\frac{1}{4}$ oz. 50 cts.

1576 INVINCIBLE PINK A distinct shade of deep rose-pink; attractive in the garden or for table decoration. Pkt. 10 cts.; $\frac{1}{4}$ oz. 60 cts.

1578 LAVENDER-PINK These exquisite flowers open a bluish white, which changes to a lavender-pink. Pkt. 10 cts.; $\frac{1}{4}$ oz. 50 cts.

1579 MARY SEMPLE or SHELL-PINK The superb, large double flowers are a soft deep shade of rosy flesh. Pkt. 10 cts.; $\frac{1}{4}$ oz. 50 cts.

1581 PURPLE Large, rich dark purple flowers. A shade always admired. Pkt. 10 cts.; $\frac{1}{4}$ oz. 50 cts.

1584 ROSE-PINK A soft and attractive rose-pink. Of enormous size. Pkt. 10 cts.; $\frac{1}{4}$ oz. 50 cts.

1586 WHITE Large double white flowers, 4 inches in diameter. One of the best of the Branching type and unexcelled for cutting. Pkt. 10 cts.; $\frac{1}{4}$ oz. 65 cts.

1588 American Late Branching, Mixed All colors of this favorite long-stemmed strain in a complete and well-balanced mixture. Pkt. 10 cts.; $\frac{1}{4}$ oz. 45 cts.; oz. \$1.50.

Improved American Asters

The varieties below are all of American origin, and are the "cream" of the many distinct sorts originated in America. The lover of Asters should have every one of these in his collection. They represent the highest development in Asters.

1590 CRIMSON GIANT The plants are vigorous, of upright branching growth, with strong stems 18 inches long, carrying fine double bright crimson flowers 4 inches in diameter. Grows 24 inches high. Pkt. 10 cts.; $\frac{1}{4}$ oz. 50 cts.

1620 ROCHESTER or MIKADO This superb variety is a branching type of the Giant Comet. The double flowers average from $3\frac{1}{2}$ to 5 inches in diameter. The color is a charming shade of silvery lavender-pink. Pkt. 10 cts.; $\frac{1}{4}$ oz. 50 cts.

1622 WHITE MIKADO See illustration. The large, pure white flowers measure from 4 to 5 inches across, the long petals being artistically curled and twisted. The plants are of branching habit, 18 to 24 inches high, and bloom very freely. Pkt. 10 cts.; $\frac{1}{4}$ oz. 50 cts.

1630 PEERLESS PINK A most satisfactory variety for either bedding or cutting. The plants grow 24 to 30 inches high; of strong branching growth. The fine double flowers are of large size and keep extremely well after cutting. The color is a wonderful and most pleasing shade of rich pink which lightens up under artificial light. Pkt. 10 cts.; $\frac{1}{4}$ oz. 50 cts.

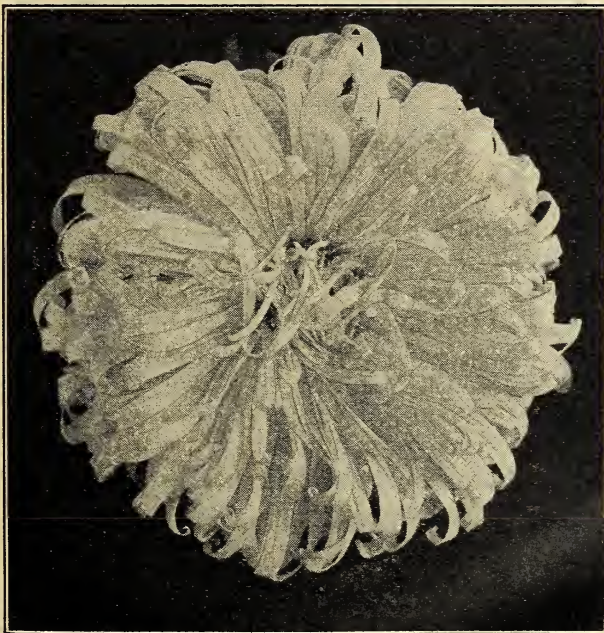

1623 PEERLESS WHITE Similar in growth and habit to Peerless Pink. The enormous flowers are pure snow-white and very double. Pkt. 10 cts.; $\frac{1}{4}$ oz. 50 cts.

1631 SENSATION The flowers are of a brilliant cardinal shade. The plant is of branching habit, attaining a height of 18 to 24 inches, and the flowers are borne on stems measuring 10 to 12 inches in length. As the name indicates, a "sensation." Pkt. 10 cts.; $\frac{1}{4}$ oz. 65 cts.

1635 LAVENDER GEM One of the finest feathery flowers in the beautiful Comet type. The coloring is silvery white when first opening, changing to the most delicate shade of lavender when fully expanded. An excellent bedding variety. Pkt. 15 cts.; $\frac{1}{4}$ oz. 75 cts.

7510 Dollar Collection of Asters

One pkt. each: Queen of the Market Rose-Pink; Daybreak Purity; American Branching, Mary Semple, and Purple; Crimson Giant; White Mikado; Peerless Pink; Sensation; Lavender King; Rose King; Violet King; Crego's Azure-Blue, Shell-Pink and Giant White; Royal Lavender and Rose; American Beauty and Purple Beauty. 18 pkts. (value, \$1.80) mailed, postpaid, **\$1.00**

White Mikado—A useful cutting and bedding Aster

Burpee's Beauty Asters

are robust, 2½ to 3 feet tall, bearing immense flowers 4 to 5 inches in diameter, gracefully carried on strong stems. They are invaluable as cut-flowers and fill the season between other late Asters and early Chrysanthemums.

1629 SEPTEMBER BEAUTY Delicate soft shell-pink—a beautiful and unusual color among Asters. The blooms are perfectly double, carried on strong stems. Pkt. 10 cts.; ¼ oz. 65 cts.

1632 LAVENDER BEAUTY The large, well-displayed flowers are an attractive clear lavender. They are always perfectly double and borne in great profusion. Pkt. 10 cts.; ¼ oz. 65 cts.

1626 WHITE BEAUTY This fine variety was added to our list only last year. Like all others of this type, it is fully double and of enormous size. A sure winner and particularly fine for cut-flowers. Pkt. 15 cts.; ¼ oz. \$1.50.

1627 CRIMSON BEAUTY This beautiful new color was offered by us for the first time last year. It is a very bright rich crimson. The flowers are always of the largest size. They are round and fully double, never showing any yellow center. Pkt. 15 cts.; ¼ oz. \$1.50.

The flowers are similar in growth and type to the well-known Late Branching Asters, but they bloom later and are carried on much longer, heavier stems. The plants to 5 inches in diameter, gracefully carried on strong stems. They are invaluable as cut-flowers and fill the season between other late Asters and early Chrysanthemums.

1633 AMERICAN BEAUTY Bright rosy carmine, the shade of the world-famous American Beauty Rose. Of perfect form and always of the largest size. First of Burpee Beauty Asters. Pkt. 10 cts.; ¼ oz. 65 cts.

1634 PURPLE BEAUTY Wonderful rich purple flowers of unusual size and perfect form. A strong grower and free bloomer. Pkt. 10 cts.; ¼ oz. 65 cts.

Carmine-Rose

New Early Beauty Asters

The New Early Beauty Asters are in every respect as beautiful as Burpee's Beauty Asters listed above, but they flower considerably earlier in the season. This is a decided advantage since the Burpee Beauty Asters bloom after the Semple's Branching and therefore cannot be grown without risk in cooler locations where the summers are short and early fall frosts are likely. The New Early Beauty Asters, coming into bloom at the time the Royal Asters leave off and before the King Asters appear, are early enough to be grown in any place where early Asters will bloom. The plants carry the wonderful characteristics of the late parents, being majestic in growth and of a strong upright character. It goes without saying that such strong plants produce an enormous mass of flowers. The blooming season extends over quite some time, and if the flowers are cut regularly the plants will continue to bloom until frost. The flowers are of enormous size, round, and fully double. The individual petals curve inward, giving the whole a ball-shaped appearance. The outer petals are turned backward and greatly add to the gracefulness and airy effect of the flowers. These fine blooms are always borne on long and strong stems, making them most suitable for cutting. The flowers measure 4 to 5 inches in diameter and are consistently of perfect round shape, never showing any yellow centers.

1735 FORDHOOK FAVORITE

ASTERS We pride ourselves on our Fordhook Favorite Mixture of Asters because we know from comparative trials made every year on our Fordhook Farms that there is no other mixture of Asters which can compare with our Fordhook Favorite. It is the best blend of double Asters ever offered for sale. All the seed has been carefully selected from our finest stocks of the most desirable types and colors. This mixture contains the proper proportion of colors and types so as to give a continuous display from June until frost. Pkt. 5 cts.; ¼ oz. 30 cts.; oz. \$1.00.

7745 Color Collection of Asters

We are sure that this special collection will please every one of our customers. It contains one packet each of the 5 varieties illustrated in the colors of nature on this and the preceding page. They are **Rose King, Crego's Giant White, Royal Pink, Early Beauty Carmine-Rose, and Early Beauty Shell-Pink.** The difference in the shape of the flowers gives an interesting variety to the collection. (Value, 60 cts.) Mailed, postpaid, **50 cts.**

1645 CARMINE-ROSE See illustration. The large flowers are a rich carmine-rose color. Very double and lasting well in water. Pkt. 15 cts.; ¼ oz. \$1.25.

1646 PURPLE A rich and strong color which goes well with the massiveness of the flowers. Blooms freely for quite a long period. Pkt. 15 cts.; ¼ oz. \$1.25.

1647 SHELL-PINK See illustration. A delicate yet rich shade seldom seen among our fall-blooming annuals. A particularly desirable color, looking its best as a table decoration. Pkt. 15 cts.; ¼ oz. \$1.25.

King Asters

The flowers are of large size and good substance, with long narrow petals which fold so much as to make them appear quilled. In season they follow the Royal Asters and reach their prime just before the American Late Branching Asters commence to bloom. The plants are about 2 feet high and very erect. The flowers are borne on long and stiff stems.

1615 CRIMSON KING A beautiful, bright clear crimson. Always of the largest size and finest form. Makes excellent bouquets. Pkt. 10 cts.; $\frac{1}{4}$ oz. 45 cts.

1615a LAVENDER KING This is a very exquisite shade of rich and pure lavender. Pkt. 10 cts.; $\frac{1}{4}$ oz. 45 cts.

1616 PINK KING Clear rich pink. A beautiful color that is much in demand. Pkt. 10 cts.; $\frac{1}{4}$ oz. 45 cts.

1617 ROSE KING See illustration. Fully double flowers of a fine rich shade of rose. Pkt. 10 cts.; $\frac{1}{4}$ oz. 45 cts.

1618 WHITE KING Pure white; always fully double in the center. Excellent for cutting, lasting a long time in water. Pkt. 10 cts.; $\frac{1}{4}$ oz. 45 cts.

1619 VIOLET KING Beautiful deep violet. The darkest of the King Asters. Pkt. 10 cts.; $\frac{1}{4}$ oz. 45 cts.

1621 KING ASTERS, MIXED A fine mixture of all the six colors listed above, properly blended in the right proportion to give a brilliant and glorious display. Pkt. 10 cts.; $\frac{1}{4}$ oz. 40 cts.; oz. \$1.25.

Rose King

Crego's Giant Asters

The flowers are of immense size, usually measuring 4 to 5 inches in diameter, and are borne on stems 12 inches or more in length. The petals of the flowers are most attractively curved and twisted, resembling in looseness an ostrich feather. The plants are of strong branching growth, and measure 2 to 2½ feet high. They bloom during midseason.

1606 GIANT SHELL-PINK

1607 GIANT AZURE-BLUE

1608 GIANT PURPLE

1609 GIANT LAVENDER

1610 GIANT ROSE-PINK

1611 GIANT CRIMSON

1612 GIANT WHITE

1613 GIANT DARK BLUE

Any of the above:

Pkt. 10 cts.; 3 pkts. 25 cts.; $\frac{1}{4}$ oz. 50 cts.

1614 CREGO'S GIANT, MIXED Our own mixture of the above, each grown separately and then carefully blended. Pkt. 10 cts.; $\frac{1}{4}$ oz. 45 cts.; oz. \$1.50.

Royal Asters

This new strain of early-flowering branching Asters is very useful. It comes into bloom right after the Queen of the Markets have passed. The magnificently shaped double flowers are very large, with incurving, broad petals; they are borne abundantly and always on extra long, strong stems. The plants average 2 feet in height, branching freely.

1636 ROYAL LAVENDER

1637 ROYAL PINK

1638 ROYAL PURPLE

1639 ROYAL WHITE

1641 ROYAL ROSE

Any of the above:

Pkt. 10 cts.; 3 pkts. 25 cts.; $\frac{1}{4}$ oz. 50 cts.

1642 ROYAL ASTERS, MIXED We have taken great care to include in this mixture the right quantity of each of the above five separate varieties to make a harmonious and pleasing display of colors. Unexcelled for general display in the garden or for cut-flowers. Pkt. 10 cts.; $\frac{1}{4}$ oz. 45 cts.; oz. \$1.50.

Crego's Giant White

Royal Pink

Burpee's Pansies

Our strains of Pansies are recognized to be far superior to the so-called large-flowered strains. The flowers are invariably of much larger size and heavier texture. Grown under favorable conditions, the plants will bloom for a long time. The varieties we list are all standards in their color classes and come true to name, with but an occasional sport, in contrast to the common large-flowered strains, which are to a marked degree impure or sporting.

Meteor

2441 GOLDEN BRONZE A fine large flower of an odd shade. Old gold or golden bronze with lighter margin. An odd and unusual shade, not found in any other flower. Pkt. 10 cts.; 3 pkts. for 25 cts.

2421 SNOW QUEEN A magnificent pure white, of large and heavy texture. A free bloomer. Pkt. 10 cts.; 3 pkts. for 25 cts.

2423 GOLDEN QUEEN The finest rich pure golden yellow Pansy in existence. Pkt. 10 cts.; 3 pkts. for 25 cts.

2427 CELESTIAL Medium-size flowers of an attractive light blue color. Excellent for bedding. Pkt. 10 cts.; 3 pkts. for 25 cts.

2429 LORD BEACONFIELD Ultramarine-blue, shaded with violet, gradually shading to a velvety white on the upper petals. Pkt. 10 cts.; 3 pkts. for 25 cts.

2430 PEACOCK A beautiful shade of violet-blue, as iridescent as the eye in peacock feathers. Blooms very freely. Pkt. 10 cts.

2431 IMPERIAL BLUE Remarkably pretty ultramarine-blue with deeper blotch. Strong and sturdy plants with rich green foliage. Flowers have long stems. Pkt. 10 cts.; 3 pkts. for 25 cts.

2433 ANDROMEDA This fine mauve variety gives an unusual opportunity for delicate color combinations. Large and bold. Pkt. 15 cts.; 2 pkts. for 25 cts.

2435 ROYAL PURPLE The flowers are remarkably large and bold. A beautiful deep rich royal purple, contrasting well with the green foliage. Beautiful and rich in color. Combines well with light shades. Pkt. 10 cts.; 3 pkts. for 25 cts.

2437 VICTORIA Pleasing wine-red or nearly blood-red flowers of medium size. Very fine for beds. Pkt. 15 cts.; 2 pkts. for 25 cts.

2442 METEOR The three lower petals are brown, with bright canary-yellow border, and the two upper ones vary from reddish brown to dark purple, margined with gold or silver. Pkt. 10 cts.; 3 pkts. for 25 cts.

2463 GIANT RUFFLED MASTERPIECE The truly giant-sized flowers are of the most striking character; the petals have so much substance that they are heavily ruffled, giving them the effect of a double flower. The colors are mainly rich dark shades, bordered, blotched, or marked in ray-like veinings with contrasting colors. The type of flower is well shown in our illustration.

Pkt. 15 cts.; 2 pkts. for 25 cts.

2443 BLACK KING Coal-black, of velvety texture. Pkt. 10 cts.; 3 pkts. for 25 cts.

2445 PRESIDENT CARNOT Large and well-waved flowers with a broad pure white border around a dark purple blotch. Pkt. 10 cts.; 3 pkts. for 25 cts.

2447 LORD BALTIMORE The large flowers are rich golden yellow with pure, shining black blotch. Pkt. 10 cts.; 3 pkts. for 25 cts.

2455 STRIPED, MIXED Produces many plants with striped and mottled flowers. Pkt. 10 cts.; 3 pkts. for 25 cts.

2453 AURICULA-FLOWERED Exquisite shades, resembling Auricula Primroses. Pkt. 10 cts.; 3 pkts. for 25 cts.

2449 HORTENSE ROSE Each flower-petal is blotched with rose, varying in shade, but all delicately beautiful. Of large size. Pkt. 15 cts.; 2 pkts. for 25 cts.

2451 MADAME PERRET The lower petals are usually canary-yellow, white, or rose-pink, marked with purple or crimson. The upper petals are either self-colored in bright red and deep purple or outlined with white. They are all beautiful. Pkt. 10 cts.; 3 pkts. for 25 cts.

2450 GIANT BRIDESMAID Beautiful apple-blossom shadings or lovely rose on white ground. Delicate and beautiful. Pkt. 15 cts.; 2 pkts. for 25 cts.

2460 CASSIER'S GIANT The flowers are of immense size, all of which are either three- or five-spotted. Very pretty. Pkt. 15 cts.; 2 pkts. for 25 cts.

Giant Ruffled Masterpiece

2513 Burpee's Blend of Giant Fancy Pansies *See illustration*

For the lover of fine Pansies, this blend cannot be surpassed. It contains the largest and most beautiful of all blotched Pansies that have been developed after many years of careful and close selection. The Burpee Blend contains only well-formed, expanded flowers of uniform large size with an unusual range of colors and markings. The texture of the blooms is heavy and thick, so that the blooms are well waved and crinkled on the edges. The large flowers are borne upon long stiff stems which hold them well above the green foliage and make them admirably suited for cutting.

In selecting the Burpee Blend, we have paid particular attention to include only compact, rounded plants of sturdy habit and profuse blooming qualities. Not only do the plants bloom profusely, but they also bloom continuously throughout the spring, summer, and fall, and where the weather remains cool the flowers will not decrease in size during the late season. The seed of Burpee's Blend is necessarily expensive but it is well worth all it costs. Pkt. 25 cts.; $\frac{1}{8}$ oz. \$1.50; $\frac{1}{4}$ oz. \$2.75.

2461 BUGNOT This is a very large-flowering strain with blooms of thick texture and rich coloring. Each petal has a large dark blotch and the color from this blotch radiates toward the margin of the petals. A unique and most beautiful strain that will please even the most particular lover of Pansies. Pkt. 15 cts.

2459 PARIS IMPROVED BLOTCHED This is another very fine large-flowered strain which blooms profusely and continuously. Each petal is marked with a well-defined, large dark blotch. Pkt. 15 cts.

**Burpee's
Blend of
Giant
Fancy Pansies**

2417 Orchid-Flowered Pansies

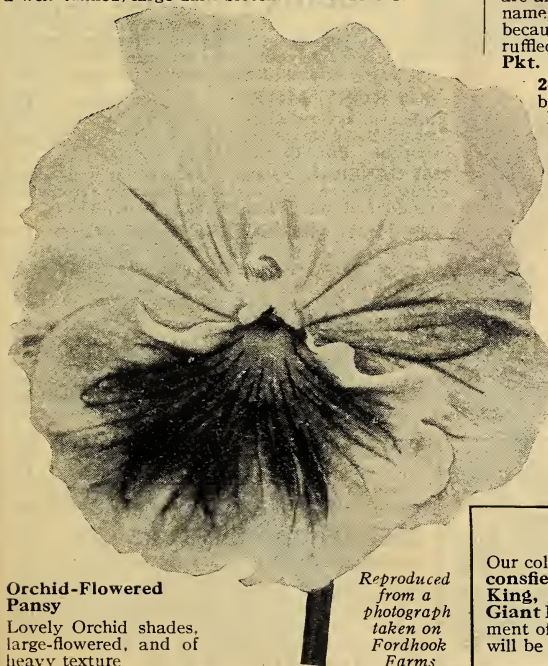

This distinct and beautiful strain of Pansies will appeal to those who prefer delicate tints and soft shades of coloring. The flowers are all of fine form and good size. They bloom freely from spring until late in the fall, and the unique colorings—including shades of chamois, terra-cotta, pink, lilac, rose, and orange—are altogether different from any other Pansies. The name "Orchid-Flowered" has been given to this type because these delicate tints, together with the finely ruffled edges, are not unlike the flowers of Orchids. Pkt. 20 cts.; $\frac{1}{8}$ oz. \$1.25; $\frac{1}{4}$ oz. \$2.25.

2457 TRIMARDEAU OR GIANT MIXED A beautiful mixture of all giant-flowered varieties. Pkt. 10 cts.; $\frac{1}{8}$ oz. 50 cts.; $\frac{1}{4}$ oz. 90 cts.

2420 EXTRA FINE BEDDING PANSIES, MIXED These are valuable for making beds where the size of the individual flower does not count so much. They are of stocky growth, and the plants are covered with blooms during the entire summer. They flower profusely from seed sown in the open early in the spring. Our mixture contains a remarkably large number of different colors. Pkt. 10 cts.; $\frac{1}{8}$ oz. 45 cts.; $\frac{1}{4}$ oz. 75 cts.; oz. \$2.50.

2500 Mastodon Pansies

Immense and well-shaped flowers with thick and well-waved petals. Includes everything from pure white to deep mahogany. The very fine lavender, rose, cerise, and light blue shades deserve special mention. This mixture is particularly fine for the greenhouse or for frames, but will do just as well out in the open. Pkt. 25 cts.; 5 pkts. for \$1.00; $\frac{1}{8}$ oz. \$1.50; $\frac{1}{4}$ oz. \$2.75; oz. \$8.50.

7535 Pansy Collection

Our collection contains: Golden Queen, Lord Beaconsfield, Imperial Blue, Royal Purple, Black King, President Carnot, Lord Baltimore, and Giant Bridesmaid. Purchased separately, this assortment of 8 packets would cost 85 cts. It will be mailed to your door, postpaid, for **50 cts.**

Burpee's Petunias

No other annual requires as little care as the Petunia, and yet rewards the gardener with such an enormous mass of gay blooms from June until November. Petunias are easily grown from seed sown early in the spring when the trees are starting out in leaf. For extra-early blooming the seed should be started indoors in boxes or pots early in March. The plants are set into the open by the end of April. We offer below a comprehensive list of the finest varieties belonging to the Dwarf and to the Bedding type. All of these have flowers of good size and are distinct and brilliant in coloring. They bloom profusely and make attractive beds or borders which are simply covered with a mass of flowers. These dwarf-flowering kinds should, however, not be confused with the large-flowering and double varieties. The seed of these is necessarily more expensive, since the plants require hand pollination.

Rosy Morn

Snowball

Howard's Star

We advise starting the seed of these during March and April, sowing thinly in shallow boxes of light rich soil, and placing in a sunny window of a warm room. When the plants are well started, transplant to small pots or other boxes. Do not discard the smaller plants, as these are likely to produce the finest flowers, especially in the double-flowering strains. When the weather becomes warm and the trees are well in leaf, the plants may be set out in rich soil 12 inches apart. After having started, they make a strong, vigorous growth, and will spread so rapidly that any smaller, poorer flowering plants may be pulled out and the finest ones will quickly cover the entire space.

Dwarf Petunias This beautiful type is particularly well suited for solid beds or borders. The plants form neat round bushes which are literally covered with thousands of flowers, beginning to bloom in June and lasting until frost.

2559 SNOWBALL See illustration. Neat and compact bushes of bright green leaves covered with a mass of small white star-shaped flowers. SNOWBALL looks particularly well in solid beds. Pkt. 10 cts.; 1/8 oz. 50 cts.

2550 ADONIS Soft rosy carmine flowers with white throats. One of the prettiest of all small-flowered Petunias. Very free blooming and extremely showy. Pkt. 10 cts.; 1/8 oz. 50 cts.

2551 BURPEE'S BABY BLUE The flowers are a soft reddish purple, but when seen *en masse* they appear a lovely blue. Pkt. 10 cts.; 1/8 oz. 45 cts.

2552 BRILLIANT ROSE This is a particularly attractive shade of rich rose. A most satisfactory free-blooming variety. Pkt. 10 cts.; 1/8 oz. 60 cts.

2554 INIMITABLE The white flowers are attractively starred and striped with contrasting rich crimson. Pkt. 10 cts.; 1/8 oz. 45 cts.

2556 ENCHANTRESS MIXTURE A mixture of all the finest small-flowering dwarf and compact bedding varieties. Most effective in solid beds or borders, giving a wonderful display. Pkt. 10 cts.; 1/8 oz. 45 cts.; oz. \$2.50.

Bedding Petunias

The Bedding Petunias are of a spreading growth, and much used for large beds or in broad and irregular borders. They bloom freely and grow luxuriantly even under adverse conditions. Recommended for porch boxes.

2560 ROSY MORN See illustration. The throat is silvery white, shading to soft rose-pink toward the edges of the flowers. Very dainty and beautiful. Pkt. 10 cts.; 1/8 oz. 65 cts.

2561 GENERAL DODDS The large and well-shaped crimson flowers are borne continuously throughout summer and fall. Pkt. 10 cts.; 1/8 oz. 45 cts.

2558 HOWARD'S STAR See illustration. The flowers are of good size. They are attractively marked with a distinct five-pointed white star on purplish crimson ground. The bushes are simply covered with flowers. Pkt. 10 cts.; 1/8 oz. 50 cts.

2564 STRIPED, MIXED The finest mixture of striped Bedding Petunias. Pkt. 10 cts.; 1/8 oz. 45 cts.

2565 HYBRIDA, MIXED A fine mixture of all the above bedding varieties and many others belonging to this class. Makes a gay attractive border; blooms continuously throughout the summer and fall until killed by frost. Pkt. 10 cts.; 1/8 oz. 35 cts.

2571 Grandiflora Mixed This mixture comprises a wonderful range of colors. The flowers are all large and beautiful and they are borne profusely. Pkt. 15 cts.; 2 pkts. for 25 cts.

2567 Burpee's Defiance Our Defiance strain of Petunias has a reputation for enormous size and range of colors. The colors are indescribably rich and varied, including many fine self colors and a good assortment of mottled, striped, blotched, and veined flowers. Start the seed indoors in boxes and set out in May. Pkt. 25 cts.; 5 pkts. for \$1.00.

7537 Petunia Collection 25 cts.

No flower garden is complete without Petunias. Easily grown and giving a continuous display of fine colors.

We offer a collection of four grand varieties; namely, *Rosy Morn*, *Snowball*, *Howard's Star*, and *Burpee's Baby Blue*. This assortment will give a wonderful display from early summer until way late into the fall and may be planted as beds, borders, or in window or porch boxes. If purchased separately, these 4 packets of Bedding Petunias would cost 40 cts. The collection will be mailed, postpaid, for 25 CTS.

BALCONY PETUNIAS

For window or porch boxes, dry banks, terraces, or among rock work, the Balcony Petunias may be depended upon to supply an unsurpassed floral effect throughout the summer until frost. The seed may be started indoors and the plants set out after the weather has become warm, or it may be sown thinly in a well-prepared seed-bed about the middle of April. Balcony Petunias grow vigorously and are most profuse bloomers. The flowers are quite large—close to 3 inches in diameter.

2553 BALCONY BLUE The flowers open up as a rich purplish blue, turning more reddish as they age. Pkt. 15 cts.; 2 pkts. for 25 cts.

2555 BALCONY WHITE See illustration. A magnificent pure white. The flowers are not only very large, but are borne abundantly, blooming until frost. Pkt. 15 cts.; 2 pkts. for 25 cts.

2557 BALCONY ROSE See illustration. Bright rose flowers with white throats. A profuse and continuous bloomer which grows quickly and luxuriantly. Pkt. 15 cts.; 2 pkts. for 25 cts.

7825 Balcony Petunia Collection It is difficult to realize the pleasure this collection of Balcony Petunias will provide. It contains one packet each of **Balcony Blue**, **Balcony White**, and **Balcony Rose**, **25 cts.** Mailed to any address, postpaid.

Double Petunias

This strain of carefully hand-pollinated seed will yield a large percentage of plants having double, finely fringed flowers in a wide range of colors. The double-flowered strains also bloom freely as pot-plants in the house. Our strain embraces a splendid variety of colors in many beautiful combinations, including delicate mauve, porcelain-blue, snowy white, rich garnet-red, and many dark velvety shades. The large number of beautiful blue and white flowers is particularly noteworthy.

2574 FORDHOOK FANCY FRINGED DOUBLE Start the seed indoors in shallow boxes filled with light, rich soil. Seed very costly. Small pkt. 25 cts.; 5 pkts. for \$1.00.

Salpiglossis—Velvet Flower

Salpiglossis succeed best in cool, moist soils. The seed should be sown thinly in shallow drills when the trees are starting out in leaf. Height, 18 inches.

2677 GRANDIFLORA, MIXED See illustration. Large flowers, most of them vividly veined on ground colors of deep blue, rose, violet, light yellow, reddish bronze, etc. Pkt. 10 cts.; 4 oz. 45 cts.

Schizanthus

2694 WISETONENSIS When in full flower, the foliage is practically hidden by the innumerable butterfly-like blooms which range in color from pure white through shades of cream and pink to crimson and mauve. These make excellent pot-plants. Sown early in January in rich soil they will form large compact bushes over 2 feet high, completely covered with beautiful small flowers. If the seed is sown in pots early in the fall, the plants will quickly grow into compact rounded bushes. As the plants increase in size they should be set into larger pots containing rich soil. Kept in a cool greenhouse, they will bloom freely during winter and early spring. Pkt. 10 cts.; 3 pkts. for 25 cts.

Schizanthus
Wisetonensis

Burpee's Tall Nasturtiums

These ever popular free-flowering annuals are of the easiest culture, growing and blooming in the greatest profusion, even in the poorest soils. They may be had in a great variety of shades and colors, to suit any taste, and with foliage of many different types. The tall Nasturtiums are very fine for massive beds or heavy borders. They are all of strong, vigorous growth, throwing out running shoots that may be trained upon strings or wires or may easily be made to climb ordinary fences or wire netting. They are very showy when planted at the top of a steep slope and allowed to run down the bank. They are equally beautiful if grown in large beds on level ground. Sow the seed when the maples are in leaf and where the plants are to bloom.

3061 BUTTERFLY (Burpee's) The color is a light lemon-yellow marked on the three broad lower petals with a blotch of rich terra-cotta red. The two upper petals are marked in shades of bright red. Large and heavy flowers. Pkt. 5 cts.; oz. 15 cts.; ¼ lb. 50 cts.

3067 DUNNETT'S ORANGE A beautiful deep orange marked with rich crimson blotches; of magnificent size. Pkt. 5 cts.; oz. 15 cts.; ¼ lb. 50 cts.

3069 FORDHOOK FASHION The large flowers are cherry-rose overlaid with a deeper veining of old rose. The petals are well rounded and overlap each other. The foliage is deep blue-green. A showy and free-flowering variety. Pkt. 5 cts.; oz. 15 cts.; ¼ lb. 50 cts.

3072 GOLDEN LEAVED SCARLET This fine variety is outstanding because of the contrast of the velvety maroon flowers against the golden yellow foliage. Pkt. 5 cts.; oz. 15 cts.; ¼ lb. 50 cts.

3078 MIDNIGHT The plants have very dark green foliage. The flowers are of a deep brownish red and of a soft velvety texture. A quaint and beautiful flower. Pkt. 5 cts.; oz. 15 cts.; ¼ lb. 50 cts.

3080 MOONLIGHT (Burpee's) Exquisite light straw-yellow flowers of unusual size; borne in great profusion. Pkt. 5 cts.; oz. 15 cts.; ¼ lb. 50 cts.

3092 TALL SCARLET The flowers are of magnificent size and of compact, rounded form. The color of the flowers is a brilliant and bright scarlet. Rich deep green foliage. Pkt. 5 cts.; oz. 15 cts.; ¼ lb. 50 cts.

3096 SUNLIGHT (Burpee's) A most beautiful variety with flowers of largest size. Clear rich golden yellow contrasting well with the rich green foliage. Pkt. 5 cts.; oz. 15 cts.; ¼ lb. 50 cts.

3097 TWILIGHT (Burpee's) This is a delicate salmon suffused with rosy salmon. The flowers are of excellent form and always of large size. The bushes are compact and bloom profusely all during summer and fall. Pkt. 5 cts.; oz. 15 cts.; ¼ lb. 50 cts.

3101 RUBY A beautiful variety with large flowers of a deep rich rosy red. Others are of a lighter rosy pink. Pkt. 5 cts.; oz. 15 cts.; ¼ lb. 50 cts.

3110 TALL FORDHOOK FAVORITES We have included in this special blend all of the best giant-flowering varieties in many colors and with both light and dark green foliage. The gardener who prefers a mixture will be well pleased with this special blend. Pkt. 5 cts.; oz. 15 cts.; ¼ lb. 50 cts.; lb. \$1.35.

3145 TOM POUCE TRAILING, MIXED This distinct class of *Tropaeolum minus* produces running stems which are closely set with small neat leaves and produce bright little flowers in wonderful profusion. The flowers are orange striped with carmine and rich carmine in mixture. It is valuable as a trailer for baskets or vases and also as a pot-plant for winter blooming in the house. Useful for planting in the rock-garden. Pkt. 10 cts.; oz. 30 cts.; ¼ lb. 75 cts.

3143 LOBB'S CLIMBING, MIXED Both foliage and flowers of this fine type are slightly smaller than those of the tall Nasturtiums, but the wonderful profusion of blooms and intense brilliancy of colors make it particularly desirable. Our mixture is composed of the finest and most distinct varieties in this grand free-flowering type. Easily trained on strings. Pkt. 5 cts.; oz. 20 cts.; ¼ lb. 50 cts.; lb. \$1.35.

3168 TALL IVY-LEAVED, MIXED The plants are of running growth, with star-like pointed leaves of rich green veined with white, having a marked resemblance to the foliage of the hardy English Ivy. The flowers are quite distinct in having narrow petals standing well apart and giving the whole an attractive, star-like appearance. Our mixture contains almost every color known in other types of Nasturtiums. Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 60 cts.; lb. \$1.50.

3060 BURPEE'S TALL ORNAMENTAL-LEAVED The flowers are of many bright colors, in charming contrast to the handsomely variegated foliage. Each leaf is in a different degree beautifully marked with yellow, white, and green, so that the plants would be worthy of culture almost for the foliage alone. Easily grown, free-flowering. Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 60 cts.; lb. \$1.50.

7532 Sunlight Collection of Nasturtiums

This assortment will give a wonderful display of all the finest colors of Nasturtiums found in the tall and dwarf types. They can be planted in beds or borders and will make a fine showing all during summer and fall. It contains one packet each of the following tall varieties: Butterfly, Dunnett's Orange, Fordhook Fashion, Midnight, Sunlight, Twilight, and one packet each of these Dwarf Nasturtiums: Aurora, Cloth of Gold, Cherry-Rose, Golden King, King Theodore, and Vesuvius. Purchased separately, this collection of 12 packets of Tall and Dwarf Nasturtiums would cost 60 cts. It will be mailed **50 cts.** to your address, postpaid, for

Dunnett's Orange

Burpee's Dwarf Nasturtiums

The dwarf Nasturtiums are of neat, compact growth, and are splendid for borders. They are very fine for cut-flowers, and the more they are cut, the more they bloom. They commence to flower in early summer and continue until frost, never failing to give abundant satisfaction. The Burpee Leaflet, "How to Grow NASTURTiums," gives full cultural directions and contains interesting information on the various types of Nasturtiums. Ask for a free copy when you order your Nasturtium seed.

2300 AURORA Bright chrome-yellow flowers veined with purplish carmine. Pkt. 5 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.50.

2302 DWARF BEAUTY The large flowers are glowing orange with suffused scarlet markings. A very attractive combination of intense colors. Pkt. 5 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.50.

2313 CLOTH OF GOLD The bright golden yellow leaves form most attractive compact plants above which the brilliant scarlet flowers stand out with a sharp but pleasing contrast. Pkt. 5 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.50.

2315 CHERRY-ROSE (*Ceruleum roseum*) The flowers are of an unusual and distinct shade. They are rich cherry-rose and always of the largest size. Pkt. 5 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.50.

2324 EMPRESS OF INDIA This variety shows a fine contrast between the rich salmon-scarlet flowers and the deep purplish green leaves. One of the finest for borders or beds. Pkt. 5 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.50.

2329 GOLDEN KING This is a very fine rich glowing orange-yellow and blends well with the dark purplish green foliage. The plants are sturdy, bearing many flowers. Pkt. 5 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 50 cts.

2333 KING OF TOM THUMBS Glowing pure scarlet flowers of large size and perfectly rounded shape. The foliage is dark green, making a fine background for the flowers. Pkt. 5 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 50 cts.

2335 KING THEODORE A fine variety with dark green foliage and rich velvety crimson flowers; the richest and deepest of all dark-flowered varieties. Pkt. 5 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.50.

2339 DWARF PEARL The large flowers are light lemon-yellow shading to a faint primrose. A most attractive and delicate color, combining well with the richer shades. Pkt. 5 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 50 cts.

2350 VESUVIUS The flowers are large; of fine form. The broad petals are salmon-rose, heavily veined with salmon-orange. Rich and beautiful in every respect. Pkt. 5 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.50.

2360 GOLDEN MIDNIGHT The foliage is light golden yellow and the flowers are dark red. They are carried on long stems above the foliage and form a sharp contrast. Pkt. 5 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 50 cts.

2354 BURPEE'S GORGEOUS, DWARF MIXED This mixture is composed of choice large-flowering varieties selected by us and grown both in mixture and separate strains, properly blended. Large blocks of it when in full bloom are extremely gorgeous and remarkable both for brilliancy of coloring and perfection of the individual flowers. Pkt. 5 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.50.

Dwarf Pearl

Dwarf Ornamental-Leaved

All the leaves in this type are showily spotted or variegated in contrasting shades of white and green, many of the leaves looking as if powdered with a white frost. This type is indeed fine enough to be grown for its beautiful foliage alone, yet the flowers are always of good size and fine form. The foliage of Dwarf Ivy-leaved is a shining rich green with white veins. They are star-like pointed and closely resemble the hardy English ivy.

2272 QUEEN OF TOM THUMBS Neatly rounded bushes with beautifully variegated and marbled leaves of silvery white. The flowers are a rich purplish crimson which are shown to the greatest advantage against the background of the brightly variegated creamy white leaves. Pkt. 5 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 50 cts.

2262 BURPEE'S DWARF CRYSTAL QUEEN The dense bushes of beautifully spotted leaves carry light straw-colored flowers of a delicate tint. Pkt. 5 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.50.

2264 ORANGE-SCARLET This rich shade stands out well from the green and white variegated foliage. Pkt. 5 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.50.

2266 GOLDEN YELLOW A true rich golden yellow that looks well with the frosted leaves. The flowers are of large size. Pkt. 5 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 50 cts.

2276 ORNAMENTAL-LEAVED, MIXED This mixture includes all the above and some other fine colors, all with that beautiful frosted foliage. Pkt. 10 cts.; oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.; lb. \$2.00.

2284 DWARF IVY-LEAVED, MIXED Our mixture contains a most remarkable range of colors, including some combinations that are not found in any other strain of Nasturtiums. Light green, ivy-like foliage. Pkt. 10 cts.; oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.

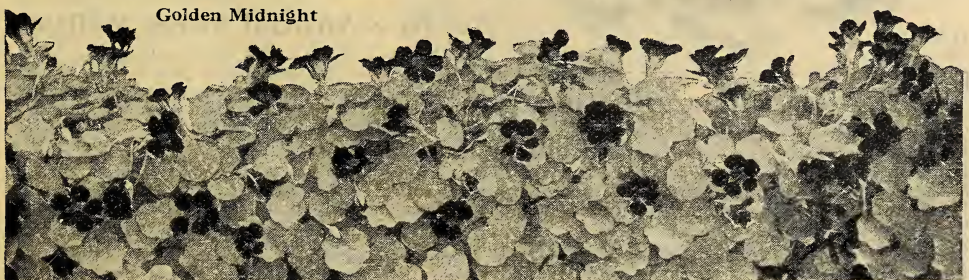

2295 MIXED DAVID BURPEE TYPE Perfectly round bushes, 9 to 12 inches high. The foliage is green, waved and curled on the edges. Flowers in all colors mixed. Pkt. 10 cts.; oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.

2367 Finest Lilliput, Mixed A dwarf and compact form of Nasturtiums with plain green foliage, and flowers in an unusual range of bright colors. Pkt. 10 cts.; oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.

7530 Brilliant Collection of Dwarf Nasturtiums

This fine collection contains one packet each: Dwarf Beauty, Golden King, Cherry-Rose, King Theodore, Vesuvius, and Dwarf Pearl. It will give a fine bed. Purchased separately, these 6 packets would cost 30 cts. We will mail it to any address, postpaid, for **25 cts.**

Golden Midnight

Burpee's Dianthus

The popular Chinese and Japanese Pinks Few flowers can equal these in beauty and profusion of blooms. They are easily grown and do well in almost any kind of soil and location. They make their finest display in a fairly heavy and fertile soil, developing into handsome plants which are simply covered with blooms all during late summer and fall. Height, 12 inches. Sow the seed the middle of April in the open.

1981 CHINENSIS, DOUBLE MIXED (Double Chinese Pinks) Handsome clusters of small double flowers of all colors, mostly edged with white. A strong-growing variety, unexcelled for borders, beds, or for cutting. Planted in spring, they bloom profusely during late summer and fall. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.; oz. 75 cts.

1989 HEDDEWIGII, FINEST SINGLE MIXED The individual flowers are 2 to 3 inches in diameter; borne on long stems. Pkt. 5 cts.; $\frac{1}{4}$ oz. 20 cts.; oz. 60 cts.

1994 HEDDEWIGII, DOUBLE MIXED An unusually fine mixture of double flowers in great variety; extra choice. An excellent free-flowering variety for bedding or cutting. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.; oz. 75 cts.

1996 MOURNING CLOAK See illustration. Large double flowers of a dark mahogany—almost black—edged with white. This lends itself well for borders and gives fine cut-flowers. A quaint and attractive flower. Pkt. 10 cts.; $\frac{1}{4}$ oz. 35 cts.; oz. \$1.00.

2001 DWARF SNOWBALL See illustration. Beautiful fringed double flowers. The growth of the plants is compact, giving a wonderful effect as a border; snow-white; 8 inches high. Pkt. 10 cts.; $\frac{1}{4}$ oz. 50 cts.; oz. \$1.50.

1999 DWARF FIREBALL See illustration. A fine counterpiece to Dwarf Snowball, with fully double flowers of a fiery scarlet. Pkt. 10 cts.; $\frac{1}{4}$ oz. 50 cts.; oz. \$1.50.

Dwarf Fireball

Mourning Cloak

7725 Dianthus Collection

In almost every garden there will be enough room to include this remarkable collection of Annual Dianthus. It contains 4 pkts.—one each of the four varieties illustrated—Salmon Queen, Dwarf Snowball, Dwarf Fireball, and Mourning Cloak. We will mail the collection (value, 40 cts.) to any address, postpaid, for **25 cts.**

Salmon Queen

2015 SALMON QUEEN See illustration. The large fringed single flowers are of an attractive salmon shade. Pkt. 10 cts.; $\frac{1}{4}$ oz. 40 cts.; oz. \$1.20.

2016 VESUVIUS Bright single flowers of a fiery red; fringed and lacinated. Blooms profusely. Pkt. 10 cts.; $\frac{1}{4}$ oz. 40 cts.; oz. \$1.20.

Dwarf Snowball

2014 MIRABILIS The flowers are single, with extra-large, deeply fringed petals, measuring $2\frac{1}{2}$ to 3 inches across. The fringed edges are most feathery in effect. In coloring, the flowers range from pure white to richest crimson, both in rich self-colors and petals ringed in contrasting shades. Pkt. 10 cts.; $\frac{1}{4}$ oz. 35 cts.; oz. \$1.00.

2021 LACINIATUS, DOUBLE MIXED This contains an interesting and large number of colors. The flowers are all attractively fringed on the edges of the petals. Pkt. 10 cts.; $\frac{1}{4}$ oz. 30 cts.; oz. 90 cts.

2032 FORDHOOK FAVORITES This carefully blended mixture is composed of all the finest single and double varieties. It contains all the various types, such as Chinensis, Laciniatus, and Heddewigii. Pkt. 5 cts.; $\frac{1}{4}$ oz. 25 cts.; oz. 75 cts.

1848 Carnation—Marguerite

From seed sown in the garden early in the spring the plants begin to bloom in about 4 months. They are quite hardy, flowering the first season until late in the fall and will live out all winter if given the protection of a mulch of long, strawy manure. The seed offered will produce a large percentage of double flowers in the choicest assortment of colors. Pkt. 10 cts.; $\frac{1}{4}$ oz. 45 cts.; oz. \$1.35.

2755 New Annual Sweet William

This is an entirely new type of Sweet William which we are sure will become very popular as soon as it is better known. In contrast to the ordinary Sweet William, this new Annual Sweet William will bloom freely the first year from seed. It is strictly an annual and dies down the first winter. Before offering this variety in our catalog two years ago we sent out the year previous many thousand trial packets to our customers and requested them to give us their opinion about it. Needless to say, we received an unusually large number of replies and all of them were full of praise for this new kind of Sweet William. Everyone who grows it is bound to be pleased with its free-flowering habit and wide range of attractive colors. Height, 15 inches. Pkt. 10 cts.; $\frac{1}{4}$ oz. 45 cts.; oz. \$1.35.

Burpee's Phlox

PHLOX DRUMMONDII GRANDIFLORA has for many years been one of the most largely cultivated flower-seed crops at our FORDHOOK FARMS. The fields in season are gorgeous; they resemble a great Turkish rug of vividly brilliant colors, and never fail to attract the attention of the visitors to FORDHOOK. Many acres are grown each year and the greatest care is used in the selection both for planting and in saving the seed. The famous FORDHOOK strains that we offer are unsurpassed.

Phlox is a very pretty free-flowering annual of quick growth, coming into bloom early in summer. When sown *en masse*, the coloring is varied and brilliant beyond description. Sow the seed thinly as early in the spring as the ground can be worked into a loose and mellow condition. Phlox makes beautiful borders.

2583 ALBA See illustration. Pure white. Very attractive for borders or beds. Blooms freely and continuously. Pkt. 10 cts.; ¼ oz. 50 cts.

2585 BLOOD-RED The darkest shade—deep maroon-red. Large flower-heads. Pkt. 10 cts.; ¼ oz. 50 cts.

2587 BRILLIANT See color illustration. Light pink with a distinct red eye. Pkt. 10 cts.; ¼ oz. 60 cts.

2589 CARNEA Light pink with a chamois center. A soft and delicate color. Pkt. 10 cts.; ¼ oz. 50 cts.

2591 CHAMOIS-ROSE WITH WHITE EYE A beautiful variety. Pkt. 10 cts.; ¼ oz. 60 cts.

2592 COCCINEA See color illustration. Bright dazzling scarlet. Pkt. 10 cts.; ¼ oz. 45 cts.

2603 PRIMROSE Attractive light primrose-yellow flowers of large size. Pkt. 10 cts.; ¼ oz. 50 cts.

2595 ROSEA ALBA OCULATA See illustration. Rich rose with white eye. Pkt. 10 cts.; ¼ oz. 50 cts.

2599 SPLENDENS Large flowers of rich red with a white eye. Very brilliant. Pkt. 10 cts.; ¼ oz. 50 cts.

2601 VIOLACEA Violet. Pkt. 10 cts.; ¼ oz. 50 cts.

2581 FORDHOOK FINEST, MIXED This is grown in mixture each season at FORDHOOK FARMS, where we are able to watch the plants closely when in bloom and to preserve a proper balance of shades and colorings. It is composed of the finest and most distinct varieties and will give a greatly varied assortment of brilliant colors. The trusses are large, well rounded, and closely formed, and the individual florets are of the largest size, firm substance, and most distinct and brilliant colorings.

Pkt. 10 cts.; ¼ oz. 45 cts.; oz. \$1.35.

2607 STARRED AND FRINGED This lovely type is quite a unique departure from the ordinary Phlox. The flowers are either starred or fantastically fringed. Many bright shades, all with a distinct white border. Very attractive in beds or borders. Pkt. 10 cts.; ¼ oz. 50 cts.; oz. \$1.50.

2615 LARGE-FLOWERING DWARF CECILY This dwarf, large-flowering strain of the annual Phlox Drummondii is most distinct and charming. The plants are only 6 to 8 inches in height when in full bloom. The broad and rounded flower-heads, as well as the individual florets, are of large size. The colors vary from light lilac through various shades of red and purple; nearly all have a large distinct white eye in the center. It is unsurpassed for beds or borders. Pkt. 10 cts.; ¼ oz. 65 cts.

Dwarf Phlox The plants average 5 to 6 inches in height and are covered with bright flowers. Excellent for small beds, borders, or for growing in pots or porch boxes.

2609 FIREBALL Pkt. 10 cts.; ¼ oz. 85 cts.

2611 SNOWBALL Pkt. 10 cts.; ¼ oz. 85 cts.

2613 FINE MIXED Pkt. 10 cts.; ¼ oz. 85 cts.

7539 Phlox Collection

An assortment of 4 packets of Annual Phlox (value, 40 cts.). One packet each of the varieties illustrated: Alba, Brilliant, Rosea Alba Oculata, and Coccinea, mailed to any address, postpaid, for **25 cts.**

2774 Queen Anne's Lace Flower

(*Didiscus carulea*) See illustration. This beautiful Australian annual, which was quite well known in the gardens of our grandparents, has come again to the foreground. QUEEN ANNE'S LACE FLOWER grows into an upright, very much branched plant of about 2 feet in height. Each branch ends in an umbel of light sky-blue flowers which spread out in an umbrella-like fashion, crowning each shoot with a beautiful and delicate head of flowers. Each individual bloom in the umbel is carried on a thin and long tube, giving the flower-heads a delicate and dainty touch. The name QUEEN ANNE'S LACE FLOWER is most appropriate since the blooms resemble in their quaint and artistic arrangement the most delicate and dainty lace.

QUEEN ANNE'S LACE FLOWER is a foremost cut-flower which lasts unusually long in water. It is very easily grown. The seed may be started indoors in March. The plants will be ready for setting out early in May. Or the seed may be sown right out-of-doors in a well-prepared seed-bed early in May. Pkt. 15 cts.; ¼ oz. 75 cts.

Queen Anne's Lace Flower

when the plants are about 4 inches high. Pkt. 10 cts.; ¼ oz. 35 cts.

2112 Santa Barbara Poppy

(*Hunnemannia fumariifolia*) This is one of our prettiest annuals. It is sometimes called *Bush Eschscholtzia* or *Giant Yellow Tulip Poppy*. The plants are of upright growth, with Poppy-green divided foliage. The magnificent golden yellow flowers are borne erect on stiff stems and will keep quite some time in water after cutting. The flowers are large, bright yellow, and measure 3 to 4 inches across. They are borne in great profusion from the middle of July until frost.

The plants are well adapted for borders or beds. They grow about 2 feet high and are very showy.

Pkt. 10 cts.; 3 pkts. 25 cts.; ¼ oz. 35 cts.

Santa Barbara Poppy
(*Hunnemannia*)

2088 Godetia

FINEST MIXED A charming annual of easy culture, forming compact bushes about a foot high and flowering profusely all summer long where the weather remains reasonably cool.

It is a plant which grows to perfection in cool locations and is, therefore, seen at its best throughout our Northern states and Canada. The plants are well suited for beds or borders and our mixture includes some lovely shades of rose, carmine, pink, cattleya-blue, and white.

Pkt. 10 cts.; 3 pkts. 25 cts.; ¼ oz. 35 cts.

Godetia

1767 Bartonia

AUREA A very attractive

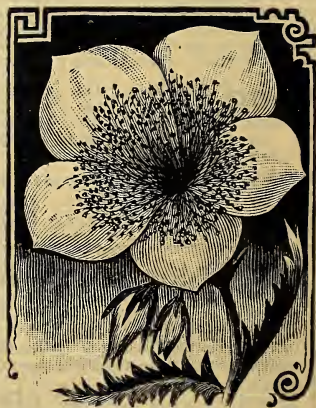

hardy annual which grows 12 to 18 inches high. The leaves are downy and thistle-like. It is very easily grown and thrives anywhere. The plants begin to flower early and bloom continuously throughout the summer and fall. The bright metallic-yellow flowers, which are not unlike Poppies, measure 2½ inches across and are borne in great profusion.

Pkt. 10 cts.; 3 pkts. for 25 cts.; ¼ oz. 35 cts.

2709 Sensitive Plant

(*Mimosa pudica*) This is a most curious plant from Brazil. When subjected to a strong drought or touched, the leaves fold up and the stems droop. It does best if planted indoors and transplanted into flower-pots. Grown in the greenhouse, it makes small inconspicuous flowers composed of a bunch of yellow stamens.

Pkt. 10 cts.; 3 pkts. for 25 cts.; ¼ oz. 35 cts.

Bartonia Aurea

MARIGOLD

Tall African The plants grow 2½ feet high, and produce a profusion of large double flowers, 2½ to 3 inches in diameter. Sow in shallow drills in the open garden early in the spring after all danger of frost is over. They bloom from July until frost and delight in rich soil.

2172 EL DORADO Bears a profusion of double flowers of enormous size. Rich golden yellow. Pkt. 10 cts.; ¼ oz. 30 cts.

2176 Lemon-Ball Extra large, round, double flowers of a clear canary-yellow. Seed sown early in the spring produces large round plants with attractive, dark green foliage; covered with flowers from July until frost. Our strain produces fully double flowers. Pkt. 10 cts.; 3 pkts. for 25 cts.; ¼ oz. 35 cts.; oz. \$1.00.

2178 Orange-Ball See illustration. Enormous double flowers of intense rich orange. Flowers produced in great profusion from July until cut down by frost. Pkt. 10 cts.; 3 pkts. for 25 cts.; ¼ oz. 45 cts.

2170 AFRICAN DOUBLE, MIXED A well-balanced mixture of the above and other fine Tall African varieties. Pkt. 5 cts.; ¼ oz. 25 cts.; oz. 75 cts.

Dwarf French This Dwarf French class forms ball-like bushes, 12 to 15 inches in height, with finely cut, fern-like foliage. This class is unsurpassed for borders, beginning to bloom in July and lasting until late in the fall.

2183 DOUBLE PULCHRA Rich golden-yellow flowers with deep velvety brown center. Always fully double. Pkt. 10 cts.; ¼ oz. 25 cts.; oz. 75 cts.

2185 DWARF ORANGE-BALL Ball-shaped flowers are a rich shade of orange. Pkt. 10 cts.; ¼ oz. 30 cts.

2187 COMPACT GOLD STRIPED Double mahogany flowers, striped with gold. A most attractive and charming combination. Pkt. 10 cts.; ¼ oz. 30 cts.

2190 FRENCH DOUBLE, MIXED This mixture contains the above and other fine varieties of the Dwarf French type in a well-balanced proportion. Pkt. 5 cts.; ¼ oz. 20 cts.

2194 LEGION OF HONOR Bright single flowers, carried upright above the foliage. Rich golden yellow, marked with crimson-brown. Pkt. 10 cts.; ¼ oz. 30 cts.

CALENDULA—Scotch Marigold

The seed should be started early indoors in pots or may be sown in shallow drills in the flower-bed early in spring, when the trees are starting out in leaf. For flowering in pots, the seed should be started in shallow boxes of light soil early in the spring or fall and the young plants put into flower-pots for blooming. Calendulas are excellent for borders or beds and last a long time in water as cut-flowers. Useful for winter blooming.

1802 ORANGE KING Fully double flowers of a rich and bright orange; borne abundantly. Pkt. 10 cts.; oz. 35 cts.

1800 LEMON QUEEN The best of this shade and an excellent companion to Orange King, which it resembles in general habit. The color is a rich lemon-yellow. Pkt. 10 cts.; oz. 35 cts.

1803 ROYAL "TRIANON" Sulphur-yellow with brown center and tipped with mahogany. An odd and pleasing combination of colors. Pkt. 5 cts.; oz. 30 cts.

1799 FAVORITE The petals are regularly placed like shingles. They are creamy white on the base with contrasting mahogany-brown tips. Pkt. 10 cts.; oz. 35 cts.

1806 METEOR Broad orange stripes on creamy white. A very fine color combination. Pkt. 5 cts.; oz. 30 cts.

1805 DOUBLE CALENDULAS, MIXED See illustration. A complete mixture, including the above and many other fine colors. Pkt. 5 cts.; oz. 20 cts.; ¼ lb. 60 cts.

1805a YELLOW STARFLOWER (*Calendula stellata*) This resembles a small Sunflower, growing 3 to 4 feet tall and carrying thousands of small yellow flowers throughout the season until cut down by frost. Pkt. 10 cts.; 3 pkts. for 25 cts.

Marigold—Orange-Ball

One of the most gorgeous of all. The large flower-heads are a brilliant and glistening orange

7710 Marigold Collection

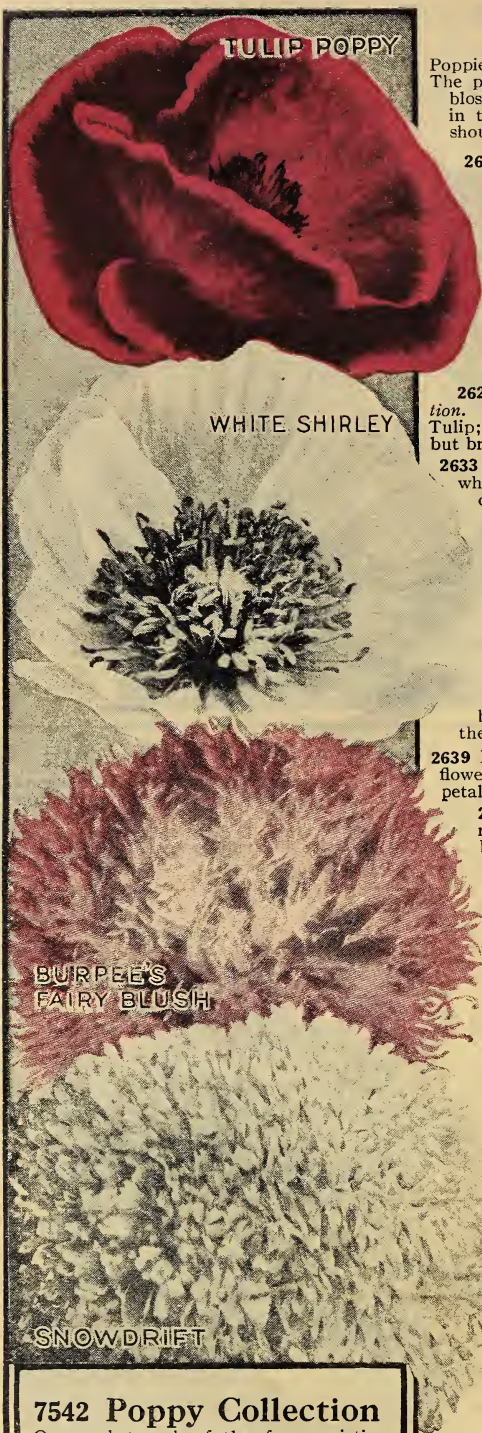

This assortment contains one packet each of: **Lemon-Ball, Orange-Ball, Double Pulchra, and Legion of Honor.** All four varieties are decidedly attractive, with their rich colors, and give a fine display. These 4 packets of Marigolds (value, 40 cts.) will be mailed to your door, postpaid, **25 cts.**

Double Calendulas

Burpee's Poppies

Poppies are so easily grown that they should be in every garden. The plants grow quickly and produce a wealth of gorgeous blossoms. Sow the seed thinly in drills or broadcast early in the spring where the plants are to bloom. The seeds should be barely covered from view.

2618 IMPROVED SHIRLEY POPPIES

This improved strain of the well-known Shirley Poppies embraces new colorings and produces large flowers of unusual beauty. Shades of delicate rose, pink, carmine, brilliant crimson, white, scarlet-edged white, and many others, are carefully blended in this strain. Grows 15 inches high and blooms very freely. Pkt. 10 cts.; oz. 35 cts.

2625 BURBANK'S SILVER LINING Single flowers; rich scarlet spotted with black; each spot appears to be covered with a shield of white tissue-paper; altogether unique. The plants grow 15 to 18 inches in height. Pkt. 10 cts.; oz. 35 cts.

2629 TULIP POPPY (*Papaver glaucum*) See illustration. Glowing scarlet flowers the color of the Duc Von Thol Tulip; 12 inches high. Very similar to the Flanders Poppy, but brighter in color. Pkt. 10 cts.; oz. 50 cts.

2633 DANISH FLAG Most striking rich flowers with a white spot at the base of each petal, forming a white cross on red ground. A very quick-growing and free-flowering variety that looks well in borders or large beds. Pkt. 10 cts.; 3 pkts. for 25 cts.; oz. 35 cts.

2627 SOMNIFERUM (*White Opium Poppy*) This is the true White Opium Poppy with gigantic single white flowers. Pkt. 5 cts.; oz. 25 cts.

2632 CARDINAL Enormous double cardinal-scarlet flowers. Carried upright on long and strong stems. The fine flower-petals lie closely together and make the blooms appear like solid balls. Pkt. 10 cts.; 3 pkts. for 25 cts.; oz. 35 cts.

2638 THE MIKADO The large double flowers are brilliant crimson-scarlet shading to white on the inside of the thick flower-balls. Pkt. 10 cts.; oz. 35 cts.

2639 BURPEE'S "SHRIMP PINK" Finely fringed double flowers of soft rosy pink with lighter shading at the ends of the petals. Pkt. 10 cts.; 3 pkts. for 25 cts.; oz. 40 cts.

2640 SNOWDRIFT See illustration. Pure white flowers; round and double. The heads measure 3 inches across. Pkt. 10 cts.; 3 pkts. for 25 cts.; oz. 35 cts.

2642 DOUBLE CARNATION-FLOWERED, MIXED Of dazzling richness and in a great variety of colors. A remarkably pretty Poppy. Pkt. 5 cts.; oz. 30 cts.

2644 DOUBLE PEONY-FLOWERED, MIXED Large double flowers of all colors. They closely resemble a small Peony. Pkt. 5 cts.; oz. 30 cts.

2636 FORDHOOK FAIRY POPPIES The blooms are made up of hundreds of elegantly fringed and twisted petals, covering a wide range of colors; 18 to 24 inches in height. Pkt. 10 cts.; oz. 35 cts.

2634 BURPEE'S FAIRY BLUSH The flowers are unusually large and the coloring is simply exquisite. The finely fringed petals are clear white near the base and tinted with rosy cream on the tips; 18 to 24 inches high. Visitors who come to our FORDHOOK FARMS where we annually grow many acres of Poppies are always much impressed with the beauty of this large-flowered variety. Pkt. 10 cts.; 3 pkts. for 25 cts.; oz. 45 cts.

2622 WHITE SHIRLEY See illustration. Pure white. The flowers range from single to semi-double; 15 inches high. They bloom most freely and make a wonderful display all during late spring and early summer. The flowers are fairly large and even though they only last a day or two they are borne continuously and large beds or borders always appear neat and attractive. Pkt. 10 cts.; oz. 45 cts.

2630 SHIRLEY, DOUBLE HYBRIDS These beautiful new hybrids produce large double and semi-double flowers in a wonderful range of colors. They are remarkable for their delicate shades of rose and salmon. Many of them are beautifully bordered with white or some contrasting deep color. These double Hybrids do not drop their petals as quickly as the single varieties and always present a most delightful appearance. Pkt. 15 cts.; oz. 75 cts.

2624 FIRE DRAGON (*Papaver larigatum*) This beautiful variety bears large single flowers of a rich deep scarlet color. A bright and attractive variety looking its best as a solid mass. Red Poppies have become very popular within late years and in this variety we find an intense scarlet color combined with a large flower. Pkt. 10 cts.; oz. 35 cts.

7542 Poppy Collection

One packet each of the four varieties illustrated, namely: Tulip Poppy, White Shirley, Burpee's Fairy Blush, and Snowdrift. This collection will make a fine show. Mailed to your door, postpaid, for **25 cts.**

Lady
Lenox

White Lady Lenox

Early-Flowering
Crimson

Burpee's Cosmos

This is one of our most superb fall flowers. In addition to its value as a background plant or for solid beds, the stately plants will yield an enormous number of elegant cut-flowers.

EARLY-FLOWERING This new strain is very early, coming into bloom two weeks before others. The flowers are of enormous size and well rounded. Height, 5 to 6 feet.

1937 CRIMSON Of immense size. Pkt. 10 cts.; ½ oz. 35 cts.

1939 ROSE A soft and delicate shade. Pkt. 10 cts.; ½ oz. 35 cts.

1941 WHITE A beautiful flower. Pkt. 10 cts.; ½ oz. 35 cts.

1942 MIXED The three colors mixed. Pkt. 10 cts.; ½ oz. 30 cts.

LATE FLOWERING The flowers are of enormous size and begin to bloom ten days to two weeks later than the Early-Flowering type. Height, 5 to 6 feet.

1944 GIANT CRIMSON Fine crimson flowers of marvelous size. The plants bloom profusely all during the fall until killed by frost. Pkt. 10 cts.; ½ oz. 25 cts.

1932 LADY LENOX See illustration. Lovely shell-pink flowers which measure 3½ to 4½ inches across. Very free blooming. Pkt. 10 cts.; ½ oz. 25 cts.

1933 WHITE LADY LENOX See illustration. A clear waxy white form of the above. Always carried on long stems. A very free and continuous bloomer, of strong and tall habit. Height, 5 to 6 feet. Pkt. 10 cts.; ½ oz. 25 cts.

1947 FINEST GIANTS, MIXED All giant-flowered varieties in a complete mixture. Pkt. 5 cts.; ½ oz. 20 cts.

1929 BURPEE'S CRIMSON-RAY See illustration. The petals are greatly increased in number. They are narrow and fluted, star-like, and of brilliant crimson. Pkt. 10 cts.; ½ oz. 35 cts.

1931 BURPEE'S WHITE-RAY See illustration. Similar to the above but with pure white flowers. A very unique departure from the ordinary Cosmos. Pkt. 10 cts.; ½ oz. 35 cts.

Double Crested Cosmos

The flowers are of good size, with fully double centers and an outer row or crest of broad ray-petals. This is the best of all Cosmos for cut-flowers. Produces a large number of doubles.

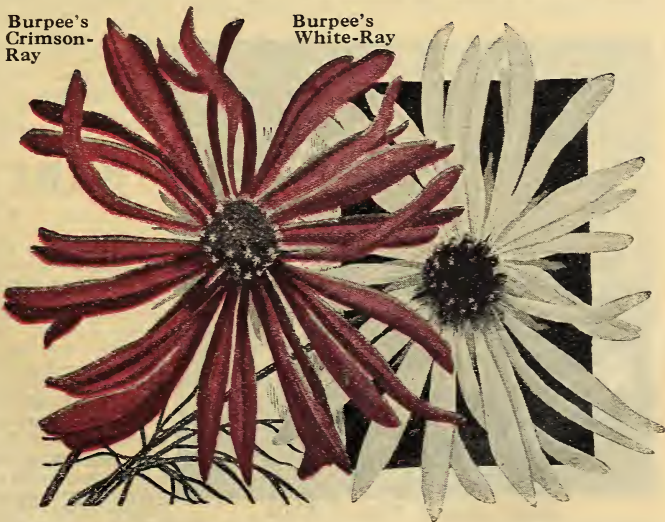

1946 CRIMSON KING A rich and most attractive shade of crimson. Pkt. 10 cts.; ¼ oz. \$1.00.

1948 PINK BEAUTY Delicate and pleasing light pink of large size. Pkt. 10 cts.; ¼ oz. \$1.00.

1949 WHITE QUEEN Pure and clear. Pkt. 10 cts.; ¼ oz. \$1.00.

1950 DOUBLE CRESTED, MIXED The three colors mixed. Pkt. 10 cts.; ¼ oz. 85 cts.

Burpee's
Crimson-
Ray

Burpee's
White-Ray

7730 Cosmos Collection

One packet each of Lady Lenox, White Lady Lenox, Early-Flowering Crimson, and Rose. Gives a wonderful display all during fall. Mailed, postpaid, **25 cts.**

GAILLARDIA—Blanket Flower

Single and Double Gaillardias

These are very bright and gay-colored flowers. They are strong growers and commence to bloom quite early and continue to do so until frost. They are of the easiest culture and succeed well even in dry and poor soils. They are natives of Mexico. The plants grow 10 to 12 inches in height, and throw up many flower-stems which grow 18 inches and more in length, bearing the beautiful flowers way above the fine foliage. The seed should be sown outdoors about the middle of April, and the showy flowers will be borne freely for several months from July on until cut down by heavy frost. The double varieties terminate in an almost globular head composed of many florets, brilliantly marked with the brightest colors.

2084 SINGLE, FINE MIXED A wide range of colors, including lemon-yellow, golden yellow, orange, etc.; all single flowers. Wonderful in beds or borders, or for cut-flowers. Pkt. 5 cts.; $\frac{1}{4}$ oz. 25 cts.; oz. 75 cts.

2085 DOUBLE MIXED (*Picta Lorenziana*) One of the prettiest and best early-flowering annuals. The heads are of rounded form, composed of many individual florets. These are variously and gayly colored in shades of yellow, orange, brown, bronze, and deep maroon. The deeper colors are usually tipped with contrasting shades of yellow and creamy white. Few annuals can compare in usefulness and beauty with this fine flower. Whether grown in solid beds or in a long border the effect will be simply charming. They also last quite some time as cut-flowers. Pkt. 10 cts.; $\frac{1}{4}$ oz. 30 cts.; oz. 90 cts.

For the Perennial Gaillardia, see page 167.

The Burpee Leaflet, "The Annual Flower Garden," will help you to have the finest garden in your neighborhood.

Forget-Me-Not—Alpestris, Blue

FORGET-ME-NOT (*Myosotis*)

These succeed best in cool moist soils, blooming most freely during the spring and fall months. They will flower also as a house plant in a cool room. The seed should be sown thinly in shallow drills early in the spring, and when well started, may be thinned out or transplanted to stand 6 inches apart. They will spread quickly and cover the entire space. Planted in a single row around a bed or along the garden walks, they make a beautiful border. Most varieties bloom freely the first season and still more profusely the second spring.

2068 PALUSTRIS This is the Marsh Forget-Me-Not; blue flowers. The foliage is heavy, of a dark green color. Blooms very freely and grows to perfection in cool, moist locations. Pkt. 10 cts.; $\frac{1}{4}$ oz. \$1.00.

2070 ALPESTRIS, BLUE Dwarf, free-flowering bushes. Excellent for borders or beds. Light blue flowers standing out sharply from the rich green foliage. Pkt. 10 cts.; 3 pkts. for 25 cts.; $\frac{1}{4}$ oz. 35 cts.

2072 ALPESTRIS, WHITE Pure white flowers. Otherwise identical to Alpestris Blue. Blooms freely and continuously. It is worthy of a place in every garden. Pkt. 10 cts.; 3 pkts. for 25 cts.; $\frac{1}{4}$ oz. 35 cts.

Baby's Breath—Elegans, White

2071 ALPESTRIS, ROSE Quite a good shade of rose. A color which is rather rare among the Forget-Me-Nots. Pkt. 10 cts.; 3 pkts. for 25 cts.; $\frac{1}{4}$ oz. 35 cts.

2074 SEMPERFLORENS Blue; flowers early and continuously. Particularly well suited for beds or borders. Pkt. 15 cts.; 2 pkts. for 25 cts.; $\frac{1}{4}$ oz. \$1.25.

BABY'S BREATH— Gypsophila

A quick-growing annual with myriads of small, open, bell-shaped flowers borne in great profusion. At home in the Caucasus Mountains. It does well in almost any soil in an open situation, and is much esteemed for bunching with other flowers, adding grace and lightness to any bouquet. The plants grow 10 to 15 inches high and the rows can be planted quite closely together. Sow the seed the latter part of April where the plants are to bloom and cultivate freely to preserve the moisture.

2091 ELEGANS, WHITE The plants are covered with small, star-shaped pure white flowers on dainty stems. Pkt. 10 cts.; oz. 35 cts.; lb. \$2.50.

2093 ELEGANS, ROSE. Similar to Elegans, White, but the flowers are a fine rose. A profuse bloomer that mixes well with other annuals, adding lightness and gracefulness. Pkt. 10 cts.; oz. 35 cts.; lb. \$2.50.

“LOVE-IN-A-MIST”—*Nigella*

This is one of our prettiest old-fashioned annuals. It is odd in every respect and adds beauty and interest to any garden. It will grow well even under adverse weather conditions and withstands considerable heat and drought. The flowers come in blue and in white, and the thin, moss-like foliage runs close up to the blooms, giving an appearance of a wreath of mossy fibers. The foliage is thin but very graceful. The large seed-pods are quite ornamental and attractive. *Nigella* is wonderfully well adapted for mass planting or for making borders, and it is just as good a cut-flower. Sow in April or May in light soil and thin to stand 10 inches apart. The plants grow 12 to 15 inches high.

2382 DAMASCENA, DOUBLE MIXED Attractive blue and pure white flowers, followed by curiously shaped seed-pods. It does well in medium soil and a cool location. **Pkt. 5 cts.; oz. 35 cts.**

2383 MISS JEKYLL See illustration. The plants grow 15 inches high. The double flowers are a deep rich blue, contrasting well with the dainty light green foliage. Few flowers give such an artistic effect as these beautiful true blue *Nigellas*. **Pkt. 10 cts.; oz. 45 cts.**

2256 Dwarf Morning Glories

Dwarf Morning Glories are very valuable for beds or borders. The plants grow 10 to 12 inches high and measure 2 feet across. They are of low, spreading growth, and bear a profusion of flowers which resemble the tall varieties. They remain open, however, much longer in the day than the flowers of the tall, climbing sorts. This mixture contains

Love-in-a-Mist—Miss Jekyll

many self colors and also striped and flaked varieties. Sow the seed when the maples are coming into leaf, covering with one-half inch of fine soil. **Pkt. 5 cts.; oz. 25 cts.; ¼ lb. 75 cts.**

For Tall Morning Glories, see page 162

Asperula 1568 **AZUREA SETOSA** (*Oriental Wood-ruff*) This is a very beautiful annual, brought to us from the Caucasus Mountains. It is a wonderful bloomer and is well suited for massive beds or borders. It blooms profusely all during late spring and summer. The elegant pale blue

flowers are borne in tufts and are sweet scented. The plants do particularly well in a half-shady place and prefer lots of leafmould to grow in. Sow the seed thinly when the maples are in leaf and cover with one-quarter inch of fine soil. Thin the young plants to stand 4 inches apart. Height, 9 to 12 inches. **Pkt. 10 cts.; oz. 35 cts.**

Asperula

2713 STEVIA SERRATA (*Piqueria trinervia*) Most of us have seen *Stevia* used by florists for mixed bouquets or just a few spikes added to some Roses or Sweet Peas. *Stevias* are easily grown during summer in the garden or during winter in a cool greenhouse. The small white flowers are fragrant. It is also well adapted for a border plant. *Stevia* is a native of Mexico and delights in a warm and sunny situation, where the plants can have plenty of moisture. Sow the seed thinly outdoors when the maples are in leaf and cover lightly with fine soil. **Pkt. 15 cts.; 2 pkts. for 25 cts.**

2040 Burpee's Bush Dolichos

This distinct variety comes entirely true to the dwarf bush habit of growth. It has been developed from the tall types which are at home in the East Indies. The plants proper average only 10 inches in height and have large bean-like leaves. The flowers are borne in beautiful large spikes, carried well above the foliage. The individual flowers quite often measure an inch across and are pure snowy white, maturing into creamy white pods. The magnificent flower-spikes are borne profusely and grow from 10 to 15 inches above the foliage. Sow the seed after the maples are in full leaf and when the nights are quite warm. **Pkt. 10 cts.; oz. 45 cts.**

For Climbing Dolichos, see page 161

Stevia Serrata

Burpee Quality Seeds are the best that it is possible to grow. We yearly produce many kinds of flower seeds on Burpee's Fordhook Farms in Pennsylvania, Burpee's Sunnybrook Farms in New Jersey, and Burpee's Floradale Farms, "The California Home of Flowers." Burpee's Seeds are tested on Fordhook Farms

SCABIOSA—Mourning Bride

Quite hardy plants, flowering freely in cool locations all during late summer and fall. The seed should be sown thinly in shallow drills early in spring when the trees are starting out in leaf. When well started, thin out or transplant to stand 6 inches apart. The tall sorts form compact rounded plants of dark green foliage, 8 to 10 inches in height. The flowers are borne above the foliage on tall, slender, but quite stiff stems, nearly 2 feet in height, and are of fine rounded full-centered form.

2701 AZURE-FAIRY This magnificent Scabiosa bears an abundance of perfectly double, long-stemmed flowers that come uniformly of a lovely sky-blue color. The outer petals are particularly broad and the flowers are larger than any other variety. Most attractive in the garden. There are but few flowers so useful for cutting as **AZURE FAIRY SCABIOSA**. Pkt. 10 cts.; $\frac{1}{4}$ oz. 35 cts.

2703 TALL DOUBLE BLACK See illustration. Elegant deep black-purple flowers with white pistils. Blooms very freely and continuously. Pkt. 10 cts.; $\frac{1}{4}$ oz. 35 cts.

2705 TALL DOUBLE SNOWBALL See illustration. Charming double white flowers; gracefully carried on long slender stems. An excellent variety with long stems for cutting. Pkt. 10 cts.; $\frac{1}{4}$ oz. 35 cts.

2704 TALL DOUBLE RED See illustration. This is indeed a most desirable shade of rich red. The flowers are large and double. Pkt. 10 cts.; $\frac{1}{4}$ oz. 35 cts.

2706 TALL DOUBLE ROSE See illustration. A delicate yet rich shade of rose blending well with the other four colors. Pkt. 10 cts.; $\frac{1}{4}$ oz. 35 cts.

2707 TALL LARGE-FLOWERED DOUBLE, MIXED The colors range from white to rich pink, crimson to deep red, lilac to almost black. Pkt. 5 cts.; $\frac{1}{4}$ oz. 20 cts.

2699 DWARF, DOUBLE MIXED Of compact habit; globe-shaped double flowers. Pkt. 5 cts.; $\frac{1}{4}$ oz. 20 cts.

7755 Scabiosa Collection

One packet each of the four varieties illustrated in colors, mailed, postpaid, for **25 cts.**

Scabiosa—Mourning Bride

The illustration shows **Tall Double Red, Tall Double Black, Tall Double White, and Tall Double Rose**

SUNFLOWERS—Helianthus

These are all hardy annuals of easiest culture, simply requiring that the seed be sown in rich soil early in spring when the trees are starting out in leaf. When well started, the plants should be thinned out to stand 2 feet or more apart. Grown in clumps or borders, they are extremely showy and form a decorative background for other flowers, as well as serving excellently to hide fences or other unsightly objects.

Double Chrysanthemum-flowered Sunflower

base of each leaf, which makes the whole plant extremely ornamental. It grows erect, about 5 feet in height, with only a single stalk, but at each leaf-joint is a short stem terminating in a fine double flower. Of particular value for the background. Pkt. 10 cts.; oz. 30 cts.

2765 DOUBLE CHRYSANTHEMUM-FLOWERED See illustration. The grandest of all double Sunflowers. Grows 7 feet high. Perfectly double; the color is the brightest golden yellow. The flowers are so perfect in form that they resemble double Chrysanthemums borne on long stems. Free blooming. Pkt. 10 cts.; oz. 45 cts.

2762 RED SUNFLOWER Grows 5 to 6 feet tall. The flowers are very numerous, of good form, usually having large long rays and small discs. The color varies greatly—some plants produce flowers of a rich chestnut-red, others red flowers tipped with yellow, others washed with red. Most attractive and unique color combinations of red, mahogany, and yellow. Pkt. 10 cts.; oz. 50 cts.

2756 SINGLE STELLA Of bushy growth, 3 to 4 feet high. Beautiful small single flowers of purest golden yellow, each with a black disc; borne gracefully on long stems above the small green foliage. Pkt. 10 cts.; oz. 45 cts.

2760 MINIATURE (*Helianthus cucumerifolius*) Covered with hundreds of brightest yellow, small single flowers; of pyramidal growth, with bright neat foliage. Grows 3 feet tall. The flowers are fine for cutting. Pkt. 10 cts.; oz. 60 cts.

2767 MANY-FLOWERED DOUBLE (*Helianthus flore pleno multiflora*) The handsome flowers are produced at the

LARKSPUR

Quick-growing and free-flowering annuals which produce stiffly erect spikes of beautiful flowers in great profusion. They are

strictly annuals, being distinct from the *Delphinium* or Hardy Larkspur in this respect. When the young plants are well started, thin out or transplant to stand 6 to 12 inches apart. Very showy and easily cultivated. The plants do best in cool and moist ground. Larkspurs are admirably adapted for borders or beds, but they are also very useful for cutting. Within late years florists have been growing large quantities for cut-flowers during summer as well as in winter time.

Tall Double This type of Larkspur produces tall spikes, averaging 30 inches in height, closely set with finely petaled double flowers. The individual blooms are an inch or more in diameter. The plants make a strong growth and produce the magnificent spikes in great profusion. Sow the seed when the maples come into leaf.

2125 WHITE See illustration. Pure snow-white elegant flowers set closely on long and stately spikes. The light green foliage is also attractive. Pkt. 10 cts.; 1/4 oz. 35 cts.; oz. \$1.00.

2123 ROSE See illustration. A lovely companion to Double White, with large flowers of a lovely rose shade. The spikes are long and graceful. Pkt. 10 cts.; 1/4 oz. 35 cts.; oz. \$1.00.

2127 SKY-BLUE Beautiful sky-blue. The spikes are large and compact. Blooms freely and continuously in cool sections. Many people prefer this color to all others. Pkt. 10 cts.; 1/4 oz. 35 cts.; oz. \$1.00.

2135 PURPLE A rich shade of purple. The flowers are large and, being closely set on the flower-stem, make an attractive and heavy spike. Pkt. 10 cts.; 1/4 oz. 35 cts.; oz. \$1.00.

2136 FLESH-PINK A delicate shade of flesh-pink. Very beautiful. Pkt. 10 cts.; 1/4 oz. 35 cts.; oz. \$1.00.

2138 LUSTROUS CARMINE See illustration. The brightness and luster contrast well with the fine light foliage. Strong and closely set spikes. Pkt. 10 cts.; 1/4 oz. 35 cts.; oz. \$1.00.

2139 DARK BLUE Dark blue flowers of large size, set so closely on the stem as to form a solid spike of color. Blooms freely and continuously. Pkt. 10 cts.; 1/4 oz. 35 cts.; oz. \$1.00.

2121 NEW RED The plants average 30 inches in height and carry many large and compact flower-spikes. The color is a pleasing rosy red. This color is comparatively new and is considered a worthwhile addition. Pkt. 10 cts.; 1/4 oz. 35 cts.; oz. \$1.00.

2124 MIXED This fine mixture comprises all the above and other fine shades of the tall annual Larkspur in a proper proportion of colors. Pkt. 5 cts.; 1/4 oz. 25 cts.; oz. 75 cts.

2122 DOUBLE DWARF ROCKET, MIXED These dwarf Larkspurs make neat little plants about a foot tall. They are grown mostly as beds or borders, or mixed in with other annuals or perennials. The plants branch freely and send up numerous flower-spikes which are thickly set with finely petaled double flowers of many colors. With this mixture one can make an attractive little bed or a border for tall growing flowers, but the spikes are also long enough for cutting. Pkt. 5 cts.; 1/4 oz. 25 cts.; oz. 75 cts.

Rose

ANNUAL LARKSPUR

7750 Larkspur Collection

We will mail one packet each of the three varieties of Annual Larkspur illustrated above: White, Rose, Lustrous Carmine, and also a packet of Sky-Blue, to your door, postpaid, for **25c**

DARK CRIMSON

GIANT HYACINTH-FLOWERED

CANDYTUFT

CANDYTUFT These belong among the most useful of hardy annuals. The plants bear neat clusters of flowers in great profusion. A most attractive border and cut-flower, blooming profusely in cool weather. Sow early in the spring; 12 inches high.

1816 GIANT HYACINTH-FLOWERED See illustration.

Most desirable for cut-flower purposes, producing very large, elongated heads of pure white florets. Also very pretty in borders. Pkt. 10 cts.; 1/4 oz. 25 cts.; oz. 75 cts.

1819 LITTLE PRINCE Dwarf. Pure white. Hyacinth-like flower-heads. Pkt. 10 cts.; 1/4 oz. 25 cts.

1826 UMBELLATA, DARK CRIMSON A large-flowered variety of clear crimson color. Few flowers make such a wonderful display. Pkt. 10 cts.; oz. 45 cts.

1829 UMBELLATA, LILAC A pretty shade of soft lilac. Large heavy flower-heads. Pkt. 10 cts.; oz. 45 cts.

1830 UMBELLATA, MIXED The above and many others in a complete mixture. Pkt. 5 cts.; oz. 25 cts.

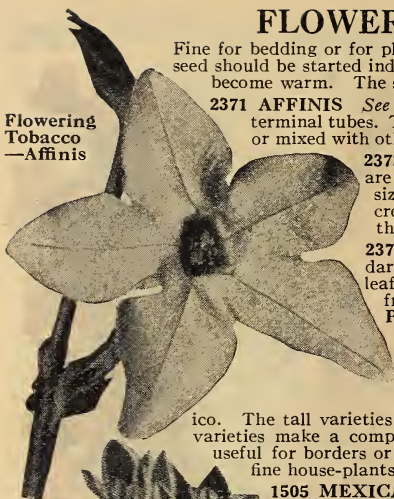

7830 Candytuft Collection

The four varieties of Candytuft included in this collection all belong to the improved large-flowering strains. They bloom profusely and make a fine display with their large and heavy trusses of flowers. The collection contains one packet each: Giant Hyacinth-Flowered, Little Prince, Umbellata, Dark Crimson, and Umbellata, Lilac. **25 cts.** Mailed to your door, postpaid, for

FLOWERING TOBACCO—*Nicotiana*

Fine for bedding or for planting as a background in borders for lower growing plants. The seed should be started indoors in March and the plants set out in May when the weather has become warm. The stately plants bloom from midsummer on.

Flowering Tobacco—*Affinis*

2371 AFFINIS See illustration. Splendid pure white Bouvardia-like flowers on long terminal tubes. The attractive flowers are very fragrant. Fine for solid beds, borders, or mixed with other annuals or perennials. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.; oz. 75 cts.

2372 AFFINIS—NEW HYBRIDS The plants average 3 feet in height, are pyramidal in form, and bloom profusely. The flowers are of large size and have a delicious fragrance. In colors they range through creamy white and rose tints to bright red and crimson. Very good for the background of borders. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.; oz. 75 cts.

2375 SYLVESTRIS The plants have a large pyramidal growth of dark green leaves; 3 feet across and 3 to 4 feet in height. The tall leaf-stalks are thickly set with magnificent large clusters of long slender fragrant flowers of snowy whiteness. This is the most showy of all. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.; oz. 75 cts.

AGERATUM

An easily raised, quick-growing, and very free-flowering plant from Mexico. The tall varieties are fine for cutting. The dwarf varieties make a compact growth and are particularly useful for borders or beds in the garden. They make fine house-plants in pots during wintertime.

1505 MEXICANUM, BLUE A beautiful rich lavender-blue; 2 feet high. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.

1506 MEXICANUM, WHITE A vigorous grower and profuse bloomer. Plants grow 2 feet tall. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.

1508 TOM THUMB, BLUE See illustration. Compact little bushes 9 to 12 inches tall, covered all during summer and fall with fine blue flowers. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.

1509 TOM THUMB, WHITE Pure white. Very fine for borders or beds. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.

Ageratum Tom Thumb, Blue

Ageratum blooms early, freely, and continuously

EUPHORBIA

These are especially valuable for the showy variegation of the leaves. Plant the seed early in May.

2058 MARGINATA (Snow on the Mountain) See illustration. Of open, free-branching growth; 3 feet in height. The large dark green leaves are bordered with a broad band of snow-white. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.; oz. 75 cts.

2060 HETEROPHYLLA (Mexican Fire-Plant) This plant is somewhat similar to the Poinsettia and produces large bracts of brilliant scarlet leaves on top of each spike. Grows quickly from seed sown in the open in early May. Height, $2\frac{1}{2}$ to 3 feet. Pkt. 10 cts.; $\frac{1}{4}$ oz. 50 cts.

Euphorbia Marginata—Snow on the Mountain

HELIOTROPE Everyone loves the delightful fragrance and beauty of the Heliotrope but few know that it can be raised from seed as easily as the Verbena. To insure a long period of bloom, the seed should be sown indoors during February and the plants set out in rich, well-prepared soil when the maples are in full leaf.

2109 LEMOINE'S GIANT HYBRIDS, MIXED See illustration. Should we devote this entire page to an illustration it would fail to give an adequate idea of the great size and rare beauty of the flower-heads of this wonderful strain. Trusses measure 10 to 15 inches across. Their fragrance is delicious and pronounced. The colors range from white through shades of violet and blue.

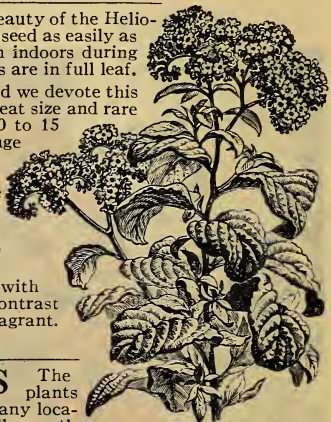

Heliotrope is a native of Peru. Our Special Fordhook-grown strain is unexcelled in size and fragrance. Pkt. 15 cts.; $\frac{1}{4}$ oz. \$1.25.

2100 BLACK KING A very dark purple. BLACK KING is the nearest approach to black. Pkt. 15 cts.; $\frac{1}{4}$ oz. \$1.25.

2104 LADY IN WHITE This, with its white flowers, forms a good contrast to Black King. Delightfully fragrant. Pkt. 15 cts.; $\frac{1}{4}$ oz. \$1.25.

Amaranthus—Salicifolius

Heliotrope—Lemoine's Giant Hybrids

AMARANTHUS

The plants are half-hardy and useful for many locations. On account of their tall growth they are well adapted for backgrounds of flower-beds or to be used as an ornamental hedge. Sow the seed indoors in February and transplant into the open in May or June. Sow outdoors early in May when the maples are in leaf.

1527 TRICOLOR SPLENDENS (Joseph's Coat) Grows 3 to 5 feet tall; beautiful variegated foliage, with crimson flower-heads. TRICOLOR is a native of the East Indies. Pkt. 10 cts.; $\frac{1}{4}$ oz. 30 cts.

1528 SALICIFOLIUS See illustration. A tall-growing kind with long hanging flower-heads. Fine for background planting or specimen plants in the lawn. Native of the Philippine Islands. Pkt. 10 cts.; $\frac{1}{4}$ oz. 30 cts.

**Centaurea
Cyanus, Blue**
The well-known
Bachelor's
Button

CENTAUREA or CORNFLOWER

Of the easiest culture and thrives well in any ordinary garden soil. The plants require lots of sunshine, air and moisture. Sow outdoors the middle of April. Blooms from June until frost. 15 to 24 inches tall.

1882 CYANUS, SINGLE BLUE See illustration. Of a rich, deep blue color. Pkt. 5 cts.; oz. 35 cts.

1884 CYANUS, SINGLE MIXED Including dark and light blue, pink, rose, white, and other fine shades. Excellent for beds or cutting. Pkt. 5 cts.; oz. 30 cts.

Double Cornflower Dainty double flowers of the Cyanus type. They are very attractive and bloom profusely.

1886 DOUBLE ROSE-PINK Large and double. Pkt. 10 cts.; oz. 50 cts.

1887 DOUBLE BLUE Perfectly double. Pkt. 10 cts.; oz. 45 cts.

1885 DOUBLE, MIXED COLORS Pkt. 5 cts.; oz. 35 cts.

1888 MARGUERITE Pure white. Pkt. 10 cts.; oz. 50 cts.

Centaurea Imperialis The plants grow 3 feet in height, with numerous graceful and large flowers, borne on long stems, blooming profusely all summer long; 20 inches tall. All the Imperialis varieties are extensively grown for cut-flowers, as they keep well and make up into graceful and artistic bunches.

1869 PURE WHITE Of wax-like texture. Pkt. 10 cts.; ¼ oz. 30 cts.

1871 DARK PURPLE A rich shade of purple. Pkt. 10 cts.; ¼ oz. 30 cts.

1876 FINEST MIXED The large flowers range in delicate shades from white, through lilac, rose-pink, to purple. Pkt. 5 cts.; ¼ oz. 25 cts.

1878 AMERICANA The largest-flowering and most showy, growing 3 feet tall. The flowers measure 4 inches across and have a unique, thistle-like appearance. Beautiful light lilac. Pkt. 10 cts.; ¼ oz. 60 cts.

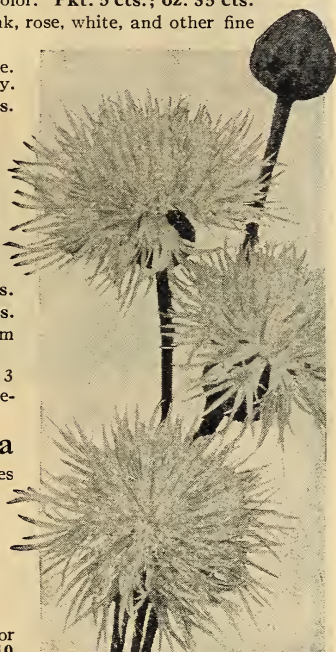

Dusty Millers—Foliage Varieties of Centaurea

These make an excellent border of distinction. The silvery white leaves look very well throughout the season. Grows 6 to 12 inches high.

1889 CANDIDISSIMA (*Cinerraria*) Thick, silvery white leaves—fine for bedding or borders. Pkt. 10 cts.; 3 pkts. for 25 cts.; ¼ oz. 65 cts.

1891 GYMNOCARPA Finely cut leaves of a silvery white. Beautiful for borders or edges. Pkt. 10 cts.; ¼ oz. 35 cts.

**Calliopsis
Drummondii**

Sweet Sultan, Pure White

Sweet Sultan The finely fringed flowers have a delightful fragrance. Of easiest culture; 20 to 24 inches tall. Fine for the border and excellent for cutting.

2752 YELLOW (*Centaurea suwolens*) The beautiful yellow flowers are agreeably sweet-scented. Pkt. 10 cts.; ¼ oz. 30 cts.; oz. 90 cts.

2754 FINEST MIXED A mixture of rich yellow, pure white, and mauve flowers with the proper proportion of each color. Pkt. 10 cts.; ¼ oz. 25 cts.

CALLIOPSIS—Golden Wave A half-hardy annual of quick growth,

doing well in almost any location, and blooming all throughout the season. It is exceedingly showy, and of easiest culture. Particularly pretty for cut-flowers. Sow the seed early in the spring when the maples are starting out in leaf.

1809 DRUMMONDII (*Golden Wave*) Brightly colored yellow flowers and a dark brown center. Produces its large flowers on long stems. Pkt. 10 cts.; 3 pkts. for 25 cts.; oz. 50 cts.

1812 TINCTORIA Attractive plants growing 1 to 3 feet tall. The petals are bright yellow and dark purple at the base. Blooms very freely throughout the summer and fall. Pkt. 10 cts.; oz. 35 cts.

1813 TALL MIXED Contains a great number of large- and small-flowering varieties, ranging in color from golden yellow to orange, bronze, and brown. Many of the flowers are tigered and spotted. Pkt. 5 cts.; oz. 30 cts.

1808 TIGER FLOWER (*Calliopsis radiata*) This pretty Calliopsis grows into neat and compact bushes, blooming from early in the season until frost. The flowers are star-shaped, coming in various shades of mahogany-tinged spotted with yellow. They are unsurpassed for cutting. Pkt. 10 cts.; 3 pkts. for 25 cts.; oz. 35 cts.

Burpee's
Magnificent
Crimson-
Scarlet

Burpee's Celosias

Burpee's Magnificent (*Celosia plumosa*) The plants are of broad rounded form, from 2 to 3 feet in height. Each branch or stalk ends in a large pointed head of richly colored bloom which later broadens to a loose, plummy head of the most brilliant color. To secure the finest and largest heads sow the seed thinly outdoors the end of April, where the plants are to bloom. When the plants are 2 to 3 inches tall thin out to stand not less than 18 inches apart.

1860 CARMINE The flower-heads are large and heavy. They are a rich carmine-crimson. A most impressive and strong color. It looks its best in combination with a lighter shade, such as Golden Yellow. Pkt. 10 cts.; ¼ oz. 35 cts.

1861 GOLDEN YELLOW The large flowers are an intense shade of rich yellow. Of enormous size and very showy in the border. Plant this variety together with any of the red shades. Pkt. 10 cts.; ¼ oz. 35 cts.

1862 ORANGE-RED This is a magnificent shade of reddish orange. A pure and strong color that brings life and warmth into the fall garden. The plants are sturdy and free flowering. Pkt. 10 cts.; ¼ oz. 35 cts.

1863 REDDISH PLUM The large flowers are of a plum color, shading to red. Matches the brighter shades of red very well and is relieved when combined with Golden Yellow. Pkt. 10 cts.; ¼ oz. 35 cts.

1865 CRIMSON-SCARLET A most brilliant and fiery crimson-scarlet that simply dazzles the eye in bright sunlight. The magnificent plumes are borne very profusely. Pkt. 10 cts.; ¼ oz. 35 cts.

1864 MIXED This fine mixture contains all the above beautiful colors, besides primrose, lemon, pink, and rose shades. It is a well-balanced and beautiful blend and contains only plants bearing immense and heavy plumes. Pkt. 10 cts.; ¼ oz. 30 cts.; oz. 90 cts.

Chinese Woolflower

(*Celosia Childsii*) The flowers are ball-shaped and resemble a ball of wool. The plants will average 2 feet in height. They branch freely, and by midsummer are simply covered with blooms. It keeps blooming all during the fall and retains its full beauty and color until severe frost destroys it. Besides being a most serviceable bedding flower, it is well suited for cutting, the blooms lasting in water almost a week. Sow outdoors right in the border the latter part of April, and thin the plants to stand 8 inches apart.

1859 CRIMSON See illustration. The plants are simply covered with the handsome balls of rich crimson. A magnificent variety which blooms from midsummer until frost. Pkt. 10 cts.; 3 pkts. for 25 cts.; ¼ oz. 50 cts.

1868 PINK See illustration. This is a delicate, yet rich shade of pink. Our illustration gives an idea of the beauty of this variety. Pkt. 15 cts.; ¼ oz. 75 cts.

1867 YELLOW This is a rich shade that blends well with the other two colors we are offering. Beautiful round and full flower-heads of magnificent size. Pkt. 15 cts.; ¼ oz. 85 cts.

Chinese
Woolflower
—Pink

1866 CELOSIA SPICATA

The light lilac-pink flowers are most useful because they are borne on long and rather thin flower-stems. It makes a fine addition to mixed bouquets; easily dried for winter bouquets. Sow outdoors end of April. Pkt. 10 cts.; ¼ oz. 30 cts.

Cockscomb

Almost everyone has at some time seen the COCKSCOMB, but many of our friends would be surprised to see the magnificent colors and the enormous size of the Burpee strain. The plants are very showy and develop unusually large velvety flower-heads or combs. When partly open the heads may be cut and hung up to dry in a cool shady place. They are very useful for winter bouquets. Sow the seed thinly early in May and thin out to stand 12 inches apart. They may also be started indoors and transplanted to the garden when the weather has become quite warm.

Chinese
Woolflower
—Crimson

1912 GIANT EMPRESS Rich purple flower-heads and fine bronze-colored foliage. A remarkable variety of immense size and compact growth. Pkt. 15 cts.; ½ oz. 50 cts.

1917 COCKSCOMB, MIXED This is a well-composed mixture belonging to the dwarf type. It contains many bright shades of pink, yellow, scarlet, and crimson, with both light and dark foliage. Excellent for bedding or cutting. Pkt. 10 cts.; ½ oz. 35 cts.

7515 Celosia Collection

This collection contains one packet each of the three beautiful varieties of Celosia illustrated above in color. It will be mailed to any address 25 cts. (value 40 cts.), postpaid, for

BURPEE'S DEFIANCE BALSAM

The seed of this superb strain is grown by us at FORDHOOK FARMS. The flowers are of the largest size, double, and full-centered, with the broad petals finely reflexed (curved outward), as in the *Camellia Japonica*. The individual flowers frequently measure 2½ inches across. The plants form symmetric, well-branched, erect bushes, the branches being almost covered with the magnificent double flowers. Balsam requires plenty of light and air, and during warm weather a lot of water. They thrive and develop into fine plants if grown in rich soil in a warm location. Native of India. Sow in the open the latter part of April or early May, or sow indoors early in April and set out to stand 12 inches apart the middle of May. Height, 2 feet.

Shining Scarlet

1741 CHAMMOIS-ROSE Pkt. 10 cts.; ¼ oz. 45 cts.

1743 PURE PINK Pkt. 10 cts.; ¼ oz. 45 cts.

1748 ROYAL PURPLE Pkt. 10 cts.; ¼ oz. 45 cts.

1750 SHINING SCARLET Pkt. 10 cts.; ¼ oz. 45 cts.

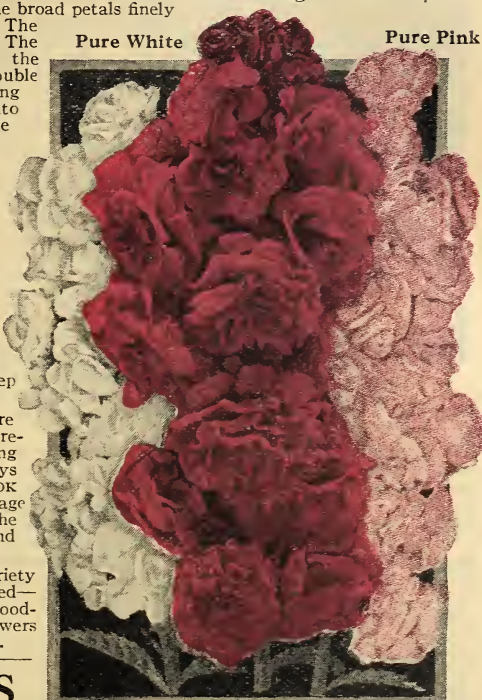

1754 PURE WHITE Pkt. 10 cts.; ¼ oz. 45 cts.

1759 MIXED DEFIANCE A well-balanced mixture of all the above. Pkt. 5 cts.; ¼ oz. 35 cts.; oz. \$1.00.

1742 BURPEE'S "EXQUISITE" This combination of dainty shades is truly exquisite, the ground color being a faint creamy buff, suffused and splashed with deep apricot. Blooms profusely. Pkt. 10 cts.; ¼ oz. 45 cts.

1761 FORDHOOK FANCY The individual flowers are often 2 inches across. The petals, which are beautifully reflexed, exhibit tones of soft and rich salmon-pink. Among our many trials of Balsam, FORDHOOK FANCY has always been most admired by the many visitors to FORDHOOK FARMS. It differs from other varieties by having less foliage and therefore the large flowers are more prominent. The flowers are set closely on the stem and make a heavy and compact spike of blooms. Pkt. 10 cts.; ¼ oz. 45 cts.

1762 FORDHOOK TRICOLOR This remarkable variety is striking in the color of its flowers, which are three-colored—first, a white ground; then, in high contrast, irregular blood-red stripes, which seem to cast a soft shade of pink. It flowers freely, and is very sturdy. Pkt. 10 cts.; ¼ oz. 45 cts.

Pure White

Pure Pink

BEDDING BEGONIAS

Few plants which can be grown so readily from seed will afford such a profusion and brilliancy of flowers as Begonias. We are the largest growers of Begonia seed in America, and the seed offered is all produced on our own FORDHOOK FARMS. Start the seed indoors any time during February, March, or April, and transplant to the open the middle of May.

1772 DUCHESS OF EDINBURGH Plants of fine form with large, beautiful leaves. The flowers are crystalline-white, margined beautifully with carmine-rose. A strong-growing and very free-flowering variety, one which is well suited for the center of large beds. Pkt. 10 cts.; 3 pkts. for 25 cts.

1774 GRACILIS ALBA The bushy plants are literally covered with pure white flowers, which droop gracefully in large panicles. The stems and flower-stalks are of a deep rich reddish brown; leaves rich dark green and slightly hairy. The contrast between the dark foliage and the white flowers is charming. Pkt. 15 cts.; 2 pkts. for 25 cts.

1776 GRACILIS PRIMA DONNA The plants are of compact bushy habit, averaging 9 to 12 inches in height; each plant is almost smothered in bloom during the entire summer until frost. The flowers are rich coral-pink. The unopened buds are bronzy pink. Rich dark glossy green foliage. Pkt. 15 cts.; 2 pkts. for 25 cts.

1781 BEGONIA, SEMPERFLORENS ALBA This is the finest of all white Begonias. The plants are of upright bushy growth, compact, and simply covered with a mass of pure white flowers of a crystalline texture. The foliage and stems are light green and free from any purplish or pink tints. SEMPERFLORENS ALBA is an excellent bedding variety and may be grown in pots for winter blooming. Cut the plants back when they become overgrown. Pkt. 15 cts.; 2 pkts. for 25 cts.

1778 VERNON Flowers deep red, magnificently set off by bronze-purple foliage. Very attractive if used for borders or beds, and an excellent pot-plant. Pkt. 15 cts.; 2 pkts. for 25 cts.

1780 BURPEE'S VULCAN This grand new variety is similar to the Vernon, but eclipses it in rich brilliancy. Each plant is covered with flowers, which are of the most intense fiery scarlet color. It stands the strongest heat of summer without wilting, and blooms freely until frost. It is easily grown as a pot-plant for winter-blooming. Pkt. 15 cts.; 2 pkts. for 25 cts.

1782 FORDHOOK PINK See illustration. No other bedding Begonia makes such a magnificent display as our new FORDHOOK PINK. It is positively the most free-flowering Begonia we have ever seen. The compact bushy plants are completely covered with large and heavy trusses of flowers. The individual blooms are large and well formed. The color is a bright rich pink which actually glows in bright sunlight. Pkt. 50 cts.

1784 BURPEE'S SPECIAL MIXTURE We have taken particular care to make this mixture the finest that can be had anywhere. It contains all the varieties listed above and many other fine shades, all of the free-flowering type. Pkt. 10 cts.; 3 pkts. for 25 cts.

For Tuberos-Rooted Begonia Seed see page 164.

7800 Balsam Collection

We will mail one packet each of Pure White, Shining Scarlet, Pure Pink, and also a packet of Royal Purple, post paid, for 25 cts.

Fordhook Pink Bedding Begonia

Lavatera Loveliness

LAVATERA The Lavatera is a splendid annual for cool locations and these beautiful varieties are decidedly the finest and most charming of this family. The plants average 2 feet in height, branching freely and flowering most profusely from July until fall. Sow the seed outdoors after the weather has become settled, covering thinly with fine soil.

2129 PURITY This beautiful pure white variety is a fine companion to Lavatera Loveliness, described below, habit, height, and size of flower being similar. Pkt. 10 cts.; 3 pkts. for 25 cts.; oz. 45 cts.

2130 LOVELINESS See illustration. The flowers are an exquisite shade of soft pink, with a rich rose or carmine suffusion, which becomes deeper toward the center. The flowers average 3 inches in diameter and are borne profusely from midsummer until frost. This makes a very attractive border or a fine large bed. Pkt. 10 cts.; 3 pkts. for 25 cts.; oz. 45 cts.

LOBELIA The annual Lobelias are plants of dwarf growth, 4 to 6 inches in height, covered with numerous small star-like flowers. The compact varieties are very pretty when grown as an edging for flower-beds or in formal beds. The gracilis varieties are of spreading growth and make fine house plants during the winter. They are grown extensively in hanging baskets or in porch boxes, where they can hang gracefully over the edges. Seeds should be sown in boxes in a warm sunny window, or in shallow drills outdoors when the trees are starting out in leaf, barely covering the seed from view. The plants will bloom continuously from June until frost.

2146 GRACILIS, BLUE A dwarf spreading vapor-porch boxes. Pkt. 10 cts.; 1/8 oz. 30 cts.

2147 FINEST MIXED A carefully blended mixture of the best varieties. Pkt. 10 cts.; 1/8 oz. 25 cts.

2145 CRYSTAL PALACE (Erinus compacta) See illustration. Small compact bushes covered with deep azure-blue flowers. Makes a very attractive border and blooms early in the season until frost. Pkt. 15 cts.; 1/8 oz. 50 cts.

2151 WHITE GEM Dense balls covered with snow-white flowers. Pkt. 10 cts.; 3 pkts. for 25 cts.; 1/8 oz. 35 cts.

2155 Lobelia—Tenuior It forms a bush of upright, compact growth, 8 to 12 inches in height. The beautiful ultramarine-blue flowers are thrown quite above the plant on erect, wire-like stems. The flowers are fully 4 times larger than the dwarf type, blooming from June until frost. A very fine variety for smaller beds or borders. Pkt. 10 cts.; 3 pkts. for 25 cts.

Lobelia, Crystal Palace

SPIDER PLANT—Cleome The plants make a quick growth, 4 to 5 feet high. The flowers are quite open and curious in construction, the feathery petals and stamens giving them an Orchid-like effect. When these drop off they are succeeded by long seed-pods on slender stems, giving them the effect of a many-legged spider, with a bunch of flowers as the head.

Spider Plant, Giant Rose

1909 GIANT ROSE Grows freely from seed and thrives luxuriantly. Fine as a hedge or background for other plants. The flowers are a delicate rose, and the plants bloom during summer and fall. Pkt. 10 cts.; 1/2 oz. 50 cts.

1910 GIANT WHITE Similar in growth and appearance to the Giant Rose, but the large flower-heads are pure white. SPIDER PLANT is considered an excellent food for bees. Pkt. 10 cts.; 1/2 oz. 50 cts.

1514 ROSE OF HEAVEN

(*Agrostemma*) See illustration. A beautiful annual, suitable for borders or for planting in groups. Plants grow 1 foot high, with bright rose flowers. Blooms throughout the summer. Sow the seed thinly where the plants are to bloom, when the maples are coming into leaf. Pkt. 10 cts.; oz. 30 cts.

1979 ANGEL'S TRUMPET

(*Datura*) MIXED

A large, strong-growing plant with trumpet-shaped flowers of immense size. They range in colors from pure white to yellow. There is also a variety with a creamy white mouth of the corolla and the outside marbled with deep purple. Daturas are well suited for borders or for specimen plants on the lawn, or for the center of ornamental beds. The plants grow 2 to 4 feet high and bloom very freely. They may be taken up in the fall and transplanted into large flower-pots for winter blooming. Pkt. 10 cts.; oz. 45 cts.

Angel's Trumpet

Rose of Heaven

2038 Golden African Daisy (*Dimorphotheca aurantiaca*)

This beautiful new and extremely showy annual was discovered in South Africa. On account of its easy culture, free-blooming habit, and bright appearance, it is rapidly becoming a great favorite. Start the seed indoors in March and set out the end of April, or sow in the open the middle of April. It is an extremely showy variety of easiest culture. The hardy plants are of neat branching habit. They grow 12 to 15 inches high and flower profusely. The Marguerite-like blossoms, $2\frac{1}{2}$ to $2\frac{3}{4}$ inches in diameter, are of a peculiarly rich glossy orange-gold. Its strikingly brilliant coloring is rendered even more conspicuous by the dark colored disc surrounded by a black zone. It bears its showy flowers very soon after being planted out in the open ground in a sunny situation. Pkt. 10 cts.; $\frac{1}{4}$ oz. 45 cts.

Golden African Daisy

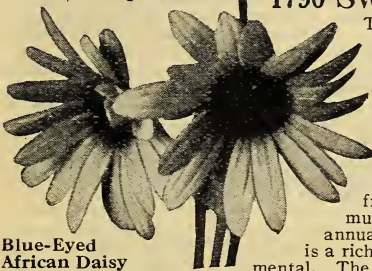

2033 African Daisy Hybrids (*Dimorphotheca aurantiaca hybrida*)

A magnificent range of colors, including purest white, red, bluish white tints, sulphur, lemon, bright golden yellow, golden orange, reddish yellow changing to light salmon-rose, superb shades of salmon and very light to deep orange-salmon. There are also varieties with different colored zones, such as white with a broad sulphur-yellow zone around the black disc, and soft salmon with a deep salmon-red inner circle. Height, 1 foot. Pkt. 10 cts.; 3 pkts. for 25 cts.; $\frac{1}{4}$ oz. 45 cts.

1566 Blue-Eyed African Daisy (*Arctotis grandis*)

See illustration. Easily grown from seed, each plant quickly forms a bush 2 to 3 feet across, with silvery white deeply cut foliage. The Daisy-like flowers measure $2\frac{1}{2}$ inches across. They are silvery white with a sky-blue eye surrounded by a narrow yellow zone. The under part of the petal is lilac-blue. Borne on long stems above the foliage. One of our most attractive annuals. Pkt. 10 cts.; $\frac{1}{4}$ oz. 35 cts.; oz. \$1.00.

1790 Swan River Daisy (*Brachycome iberidifolia*)

This charming little plant delights in a sunny situation and is useful for edging. The small, light blue Cineraria-like flowers are produced in great profusion. Sow outdoors in the late spring. Pkt. 10 cts.; $\frac{1}{4}$ oz. 35 cts.

Swan River Daisy

Chrysanthemums

French Marguerites, or Painted Daisies

Blue-Eyed African Daisy

produce single Daisy-like flowers of many bright colorings. Sow seed thinly in shallow drills early in the spring. They bloom profusely from July until October.

These are altogether different from the large-flowered Chrysanthemums grown by florists. They are hardy annuals from Northern Africa. The foliage is a rich dark green, finely cut and quite ornamental. The plants grow 12 to 18 inches high, and produce single Daisy-like flowers of many bright colorings. Sow seed thinly in shallow drills early in the spring. They bloom profusely from July until October.

1896 FINEST MIXED See illustration. This embraces seed of all the single Painted Daisies. The flowers come in many fine colors and are borne in great profusion. Pkt. 10 cts.; 3 pkts. for 25 cts.; oz. 45 cts.

1903 CORONARIUM, DOUBLE, MIXED Native of Sicily.

Compact bushy growth, 18 inches in height. The flowers are quite double, and range in color from white to orange. Pkt. 10 cts.; 3 pkts. for 25 cts.; oz. 45 cts.

1904 SNOWBALL (*Inodorum plenissimum*) Beautiful double white flowers which are fine for cutting. It is a hardy annual, often persisting through the winter and blooming again the second year.

Pkt. 10 cts.; 3 pkts. for 25 cts.; $\frac{1}{4}$ oz. 40 cts.

For Perennial Chrysanthemum, see page 167

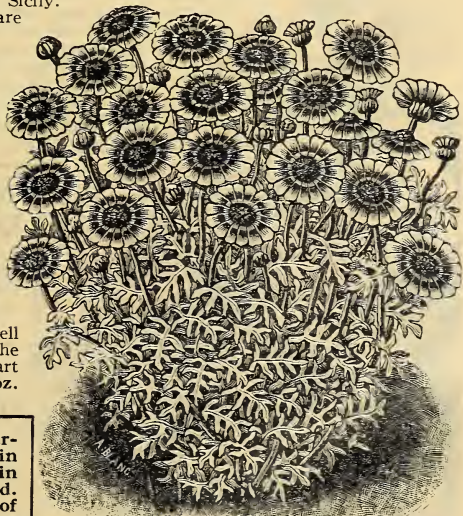

Feverfew

2064 Feverfew (*Chrysanthemum parthenium fl. pl.*)

See illustration. An old garden favorite with dark green finely cut foliage, throwing up clusters of pure white double flowers; 12 to 15 inches high. Well adapted for borders. Sow the seed outdoors the latter part of April. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.; oz. 75 cts.

Grow flowers in your garden, on your porch, in your window boxes, or in pots for the flower stand. They will give you lots of pleasure and happiness

Chrysanthemum, Finest Mixed

SCARLET SAGE or SALVIA

The well-known Scarlet Sage is a handsome flowering plant of branching, bush-like growth, 2½ feet in height. To have *Salvia splendens* in bloom early in summer, the seed should be sown in March, in boxes of light rich soil, placed in a warm, sunny window, and when the young plants are well started they should be set in pots and kept growing rapidly until the nights are warm and trees well out in leaf. Then they should be planted 3 feet apart in the flower-bed. Farinacea and Patens are blue-flowering varieties. We grow yearly many acres of Scarlet Sage on our FORDHOOK FARMS. Anyone who has seen these blazing acres of Scarlet Sage on a bright sunny day will never forget this glorious display.

SCARLET SAGE

plant in a warm room during the winter. Also known as Blue Sage. Pkt. 25 cts.; ¼ oz. \$1.25.

2689 Splendens (Large-Flowering Scarlet Sage) See illustration.

This is by far the largest-flowering variety of Scarlet Sage. Well-grown plants measure 4 feet across and 3 to 4 feet high. Of all fall-blooming annuals, Scarlet Sage is, without question, the richest and most impressive in color—a scorching scarlet of unsurpassed brilliancy. Whether grown in the border or in solid beds, it always looks attractive.

Pkt. 10 cts.; 3 pkts. for 25 cts.; ¼ oz. 75 cts.; oz. \$2.25.

2687 DARK BLOOD-RED (*Salvia splendens atrosanguinea*)

This is the same type of growth and flower as the original Scarlet Sage, but the large spikes of flowers are distinctly richer and more intensely glowing in color but has smaller flowers.

Pkt. 10 cts.; 3 pkts. for 25 cts.; ¼ oz. 70 cts.; oz. \$2.00.

2691 AMERICA or GLOBE OF FIRE

The dwarf plants are of compact rounded growth. Each spike is closely set with mammoth size flowers of the most brilliant scarlet. It begins to bloom early in the season and continues until cut down by frost. Grown in solid beds, it is an impressive sight, since the flower-spikes hide the foliage completely and look just like a mass of fire. It makes a particularly fine border. Pkt. 15 cts.; 2 pkts. for 25 cts.; ¼ oz. \$1.25.

2685 ZURICH

A dwarf type of the well-known Scarlet Sage. The plants are of neatly rounded form and only 18 inches high, the small rounded bushes being closely set with erect spikes of bright scarlet flowers. A useful bedding variety, blooming very profusely. Pkt. 10 cts.; 3 pkts. for 25 cts.; ¼ oz. \$1.00; oz. \$3.25.

2681 FARINACEA Rich bright green foliage, with long spikes of beautiful light blue flowers. An excellent cut-flower, either alone or for mixed bouquets, but just as useful for beds. Pkt. 10 cts.; ¼ oz. 50 cts.

2683 PATENS A tender perennial variety with erect stems, bearing large, broad, tubular-lipped flowers of a most superb rich blue coloring. Can be kept as a house

VINCA—Periwinkle

These are very bright annuals which should be included in every garden. They are most attractive, with their dark green glossy leaves and their beautiful and large flowers. The compact plants grow 15 inches tall. Whether used for borders or solid beds, they will always attract attention. Upon approach of freezing weather the plants may be lifted and transplanted into large flower-pots for winter blooming in the house. They are also useful for planting in porch boxes or window boxes. The flowers, when well grown, measure 1½ inches across. They are of a five-petaled star shape. Sow the seed thinly after the trees are out in leaf and thin out to six inches.

2796 ROSE See illustration. Fine rose-colored Phlox-like flowers, blooming profusely throughout the summer and fall until frost. Pkt. 10 cts.; ¼ oz. 35 cts.

2798 WHITE WITH ROSE EYE See illustration. A truly beautiful flower with large white petals and a rose eye. Pkt. 10 cts.; ¼ oz. 35 cts.

2799 PURE WHITE See illustration. Clear pure white.

Very effective in masses or borders along walks.

Free flowering. Pkt. 10 cts.; ¼ oz. 35 cts.

2801 MIXED The above three varieties in a well-balanced mixture. Pkt. 10 cts.; ¼ oz. 35 cts.

VINCA

7810 Vinca Collection

One packet each of the three separate varieties, Rose, White with Rose Eye, and Pure White, mailed, post-paid, for 25 cts.

2137 CRIMSON

FLAX (*Linum grandiflorum rubrum*)

See illustration. This is a very pretty dwarf annual. The rich crimson flowers last only a day but they are borne continuously until frost. Makes a splendid subject for massing

Pkt. 10 cts.; ½ oz. 25 cts.

CRIMSON FLAX

or may be planted as an edging for borders or lawn.

PORTULACA—Moss Rose

A beautiful hardy annual, unsurpassed in brilliancy by any other annual in cultivation. The plants are low-growing and creep along the ground. They thrive well in almost any location and can withstand the hottest summer weather. They love the full sunlight, but the finest flowers are produced the latter part of August and in September, when there are heavy dews at night. This is particularly true of the double varieties. Sow the seed thinly early in the spring and keep free of weeds.

2653 DOUBLE ORANGE A fine shade of rich orange. Flowers large and perfectly double. Pkt. 10 cts.; $\frac{1}{8}$ oz. 65 cts.

2655 DOUBLE RED The bright red flowers are large and full. A very gorgeous variety. Pkt. 10 cts.; $\frac{1}{8}$ oz. 65 cts.

2657 DOUBLE WHITE Pure white flowers. They are large and fully double, showing their rich yellow stamens as the flowers age and expand. Pkt. 10 cts.; $\frac{1}{8}$ oz. 65 cts.

2659 DOUBLE MIXED Is unsurpassed for brilliancy and beauty. Pkt. 10 cts.; 3 pkts. for 25 cts.; $\frac{1}{8}$ oz. 50 cts.

2662 GIANT-FLOWERED PARANA The color is quite distinct—bright bluish rose, making a most effective display from early June to October. Pkt. 10 cts.; $\frac{1}{8}$ oz. 35 cts.

2652 SINGLE MIXED A complete mixture, including orange, white, red, salmon, buff, and other delicate and rich shades in the proper proportions. Pkt. 5 cts.; $\frac{1}{4}$ oz. 20 cts.

7805 Portulaca Collection

We believe that this will be one of the most popular collections this season. It contains one packet each: **Double Orange, Double Red, and Double White.** It will be mailed, postpaid, for **25 cts.**

DOUBLE RED AND
DOUBLE WHITE
PORTULACA

Lupines

The annual Lupines are of easy cultivation and, in addition to their value as border plants, are admirably adapted for cutting. They attain a height of 15 inches, producing long flower-spikes, which keep a long time in water. Sow the latter part of April.

2158 SUBCARNOSUS (The Deep Blue Texan Lupine) Lovely long spikes closely set with deep blue flowers. Pkt. 10 cts.; 3 pkts. for 25 cts.; oz. 50 cts.

2159 HIRSUTUS, LARGE BLUE Beautiful clear blue. Closely set large flowers. Pkt. 10 cts.; oz. 30 cts.

2160 HIRSUTUS, LARGE ROSE

The flowers are a fine soft rose, shading to white. Extremely dainty and very beautiful. Pkt. 10 cts.; oz. 30 cts.

2161 HIRSUTUS, LARGE WHITE Clear snow-white flowers; beautiful light green leaves. A most beautiful cut-flower. Pkt. 10 cts.; oz. 30 cts.

2162 MIXED This mixture contains a well-balanced assortment of the varieties listed above and some other fine annual Lupines. Pkt. 5 cts.; oz. 25 cts.

7815 Lupine Collection

This is a wonderful collection of these fine flowers. One packet each of **Subcarnosus, Large Blue, Large Rose, and Large White,** postpaid, for **25 cts.**

FOUR-O'CLOCK—

Marvel-of-Peru

The flowers have the strange habit of remaining tightly closed until about 4 o'clock in the afternoon, when they all open together and the plants become a glowing bank of vivid coloring, filling the air with their delightful fragrance. Sow early in the spring. Height, 2½ feet.

2196 MARVEL-OF-PERU, TALL MIXED
Pkt. 5 cts.;
oz. 25 cts.

2198 TALL VARIEGATED-LEAVED
Brilliant flowers, in rich contrast to the golden-hued foliage.
Pkt. 10 cts.; oz. 30 cts.

Four-O'Clock

LARGE ROSE AND LARGE WHITE LUPINE

2200 TOM THUMB, MIXED See illustration. Compact plants, with variegated golden foliage and numerous brilliant flowers—yellow, deep red, and striped and blotched. Height, 18 inches. Pkt. 10 cts.; oz. 35 cts.

Castor-Oil Bean—Ricinus

Semi-tropical plants, grown largely for their picturesque foliage. The plants are surmounted by large spikes of flowers and brilliantly colored seed-pods. Seed is best sown in boxes indoors early in the spring and the young plants potted up until middle or end of May, when it is warm enough to set them out. The seed can also be sown right in the flower-bed about the middle of May. Height, 8 to 10 feet.

Castor-Oil Bean—Ricinus Zanzibarensis

2671 ZANZIBARENSIS See illustration. The plants attain a height of 12 to 14 feet. The enormous, beautifully lobed leaves measure $2\frac{1}{2}$ to nearly 4 feet across. The plant makes a perfect pyramid of foliage with gigantic leaves and presents a beautiful tropical appearance.

Pkt. 10 cts.; oz. 25 cts.; $\frac{1}{4}$ lb. 60 cts.; lb. \$1.75.

2663 CAMBODGENSIS Magnificent large plants with immense palm-like leaves of a brilliant bronzy maroon. The stalks and fruit capsules are almost black. Pkt. 10 cts.; oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.

2665 SANGUINEUS The foliage is rich green, but the stems and fruits are scarlet-red. A strong grower. Pkt. 10 cts.; oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.

2669 MIXED The above and many other varieties in mixture. All very beautiful and tall growing. They are useful as a background and make excellent specimen plants on a large lawn.

Pkt. 5 cts.; oz. 20 cts.; $\frac{1}{4}$ lb. 45 cts.; lb. \$1.35.

Coleus The seed should be sown in shallow boxes placed in the sunny window of a warm room. As soon as the plants are $\frac{1}{2}$ inch high, transplant to small pots. Plant out in the flower-beds when the trees are in full leaf and the nights quite warm. When a solid mass of color is desired, set the plants 10 inches apart each way and pinch off the center flower-stems to make them branch freely. Where large specimen plants are wanted, set the plants 2 feet apart each way in rich soil. Coleus is very useful and highly ornamental when grown in pots or vases on the porch or lawn, and as a house plant for warm rooms in winter. They do particularly well in rich and moist soils.

1921 BURPEE'S SUNSET See illustration. The leaves are extremely large, and the colors, variegations, and markings are rich and brilliant. The diversity of shades and combinations of colors are wonderful—seldom is it possible to find two plants alike. We have measured leaves 10 to 13 inches long by 9 to 12 inches broad. We have developed this special large-leaved strain on BURPEE'S FORDHOEK FARMS. Pkt. 15 cts.; 2 pkts. for 25 cts.

1927 MIXED COLEUS This fine mixture of Coleus contains a wonderful assortment of different types and different colors. The plants are all of tall strong growing habit, and the leaves are exceptionally bright in color. It does not, of course, compare with Burpee's Sunset. Pkt. 10 cts.; 3 pkts. for 25 cts.

Coleus, Burpee's Sunset

1928 Burbank's Rainbow Corn

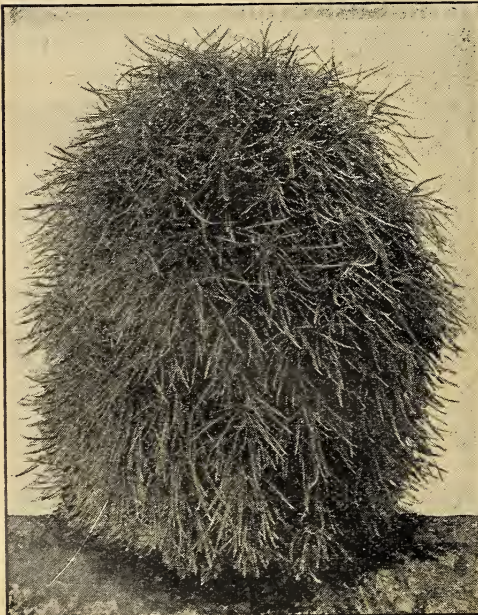

The ornamental stalks, including tassel, grow 5 to $5\frac{1}{2}$ feet tall, and are clothed with many variegated leaves 3 inches wide and 2 feet long. The leaves (both on main stalks and on suckers) are all superbly striped, with broad bands of crimson, yellow, rose, white, and bronze. The small hardy seed can be planted early and, as it does not ripen until very late, the plants present their rich tropical beauty for a long season. Pkt. 10 cts.; oz. 25 cts.

Burning Bush—Kochia

This most popular ornamental annual is also known as **Summer Cypress**. It is very quick growing, and may be sown in the open when the trees are coming out in leaf. The plants branch freely and are perfectly round. Late in the season the slender light green foliage changes to a rich crimson. Very useful for the background of a border and unexcelled for hedges. The plants may be trimmed to any shape.

2118 TRICOPHYLLA Also called **Burning Bush** and **Summer Cypress**. The plants branch freely and the stems are clothed with light green leaves. Early in the fall the whole plant turns to bright scarlet. The plants grow 4 feet tall. Pkt. 5 cts.; oz. 20 cts.

2119 GIANT CHRISTMAS See illustration. This new variety grows more vigorously than Tricophylla. It remains light green until quite late in the fall, and then turns to a most beautiful deep crimson-purple. The plants hold their color well until Christmas and even later. Pkt. 10 cts.; oz. 25 cts.

Burning Bush—Giant Christmas

STOCKS—Mammoth Beauty of Nice

This wonderful type produces stocky plants about 24 inches tall, sometimes growing as tall as 36 inches, each bearing 6 to 8 fully developed flower-stalks. It is the strain extensively grown by florists for pot culture and for bouquets. Our seed produces a high percentage of double flowers. The most suitable time for sowing the *Mammoth Beauty of Nice* Stocks is early May. By the beginning of September the plants are lifted with as much dirt adhering to the roots as possible and set into large flower-pots.

2731 MONT BLANC Beautiful pure white spikes of great length.

2732 MONTE CARLO The flowers are clear canary-yellow.

2734 BEAUTY OF NICE A most popular shell-pink variety.

2738 MONACO One of the richest. A bright crimson of rare beauty. It blooms freely and can be relied upon to come true.

2740 COTE D'AZURE Most attractive delicate light violet flowers. A particularly fine shade, with solid flower-spikes; always much admired.

2741 SUMMERNIGHT A quaint but attractive shade of dark violet.

Any of the above Mammoth Beauty of Nice Stocks:

Pkt. 10 cts.; 3 pkts. for 25 cts.; $\frac{1}{8}$ oz. 40 cts.

2743 BEAUTY OF NICE MIXTURE This remarkable blend contains all of the above and a large number of other fine colors. It will produce a large percentage of beautiful double flowers.

Pkt. 5 cts.; $\frac{1}{8}$ oz. 35 cts.; oz. \$2.00.

2744 PRINCESS ALICE—CUT AND COME AGAIN Beautiful pure white double flowers borne on fine strong stems. Particularly fine for cutting. Grows 18 inches tall and blooms all summer long where the weather remains cool. Pkt. 10 cts.; $\frac{1}{8}$ oz. 40 cts.

Large-Flowering Ten Weeks Stocks The bushy plants grow from 15 to 18 inches high and are suitable for borders, florists' designs, or for pot culture. As they succeed best during cool weather, the seed should be started indoors during February or March. Stocks prefer a sunny location but must be protected against severe weather. All of them have a delicate fragrance.

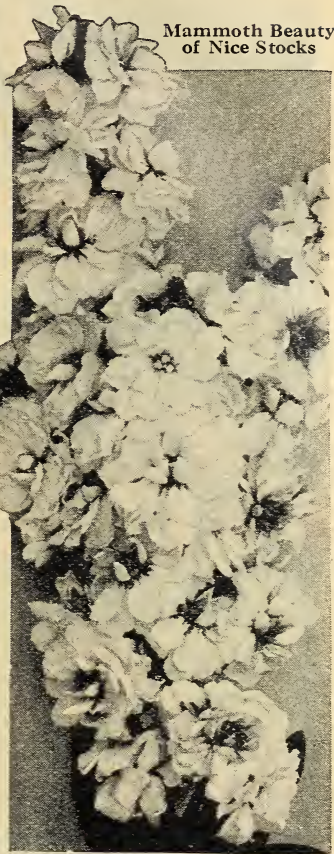

2718 PURE WHITE A pure, clear color.
2719 CANARY-YELLOW Beautiful.
2721 BRIGHT PINK A fine shade.
2723 BLOOD-RED Quaint deep red.
2725 LIGHT BLUE A sky-blue tint.
2727 PURPLE Rich and showy color.
The above: Pkt. 10 cts.; $\frac{1}{8}$ oz. 40 cts.

2730 TEN WEEKS, MIXED Comprises the above separate varieties and many other colors. Pkt. 5 cts.; $\frac{1}{8}$ oz. 35 cts.; $\frac{1}{4}$ oz. 60 cts.; oz. \$2.00.

7700 Collection Ten Weeks Stocks Stocks are in high favor with all flower lovers, as they combine rare beauty of the flowers with a delicious fragrance. We are confident that this collection of six colors will be in great demand. Mailed to any address, postpaid, for **50 cts.**

White, Large-Flowering Ten Weeks Stock

Mammoth Beauty of Nice Stocks

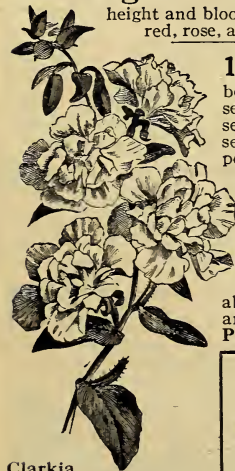

2809 Virginian Stocks MIXED (*Malcolmia maritima*) An early-blooming, small-flowered annual, largely grown for edging and borders. The plants are 6 inches in height and bloom continuously during cool weather. A complete mixture, including various shades of red, rose, and white. Pkt. 5 cts.; oz. 25 cts.

1503 Abutilon MIXED (*Flowering Maple*) These plants grow rapidly and make fine large plants, bearing a great profusion of elegant bell-shaped flowers. To get them in bloom early, the seed should be started in the house and the young plants set out in the garden when the weather is warm and settled. The plants can be taken up in the fall and potted for winter blooming after being cut back. Pkt. 10 cts.; 3 pkts. for 25 cts.; $\frac{1}{8}$ oz. 65 cts.

1906 CLARKIA FINEST DOUBLE MIXED A fine annual, growing to perfection in a cool climate. The plants are hardy and the seed should be sown when the trees start into leaf. Of branching growth and easy culture; very showy and profuse-flowering. Most desirable for mass planting. Rosy purple, rose, salmon, white, and many other delicate shades in mixture. Pkt. 10 cts.; 3 pkts. for 25 cts.; $\frac{1}{4}$ oz. 30 cts.

"The Annual Flower Garden"

This is the title of an eight-page Burpee leaflet giving complete descriptions on how to grow flowers in your garden. Ask for a copy of this leaflet with your order. It is free.

Clarkia

Virginian Stocks

Graceful in habit, rich in colors, early and free-blooming, the California Poppies rank among our most popular annuals. They are beautiful in beds or borders

California Poppies— Eschscholtzia

The California Poppy is one of our most showy and free-flowering annuals. It flowers early, and where the weather remains cool keeps on blooming until frost. The plants are particularly well adapted for beds or borders. The habit of the plant is dwarf and spreading and the fine flowers are carried above the finely divided Poppy-green foliage. Within late years we have added some very exquisite new colors to our list of varieties. With the exception of Douglasii, which is a very early and profuse-blooming small-flowered variety, they all have large, well-rounded flowers with a satiny finish. Sow the seed early in April in a well-prepared bed and later thin to stand four inches apart.

2042 PURE WHITE (Alba) Pearly white flowers with fine green foliage. Pkt. 10 cts.; ½ oz. 25 cts.

2043 PRIMROSE QUEEN A beautiful primrose, quite new and pretty. Pkt. 10 cts.; ½ oz. 25 cts.

2049 GOLDEN WEST See illustration. Bright yellow with a large blotch of deep orange at the base of the petals. Very large. Pkt. 10 cts.; ½ oz. 25 cts.

2050 ORANGE KING See illustration. Large flowers of an intense orange shading lighter toward the margin of the broad petals. Pkt. 10 cts.; ½ oz. 25 cts.

2044 BURBANK'S ROSE-CRIMSON See illustration. The lovely flowers are a most attractive clear rosy crimson. This is a rare color among the Eschscholtzias. Of large size. Pkt. 10 cts.; ½ oz. 25 cts.

2047 FIRE FLAME A magnificent variety with large and well-formed flowers of a brilliant orange-scarlet. Blooms continuously. Pkt. 10 cts.; ½ oz. 25 cts.

2054 VESUVIUS Brilliant scarlet flowers with yellow stamens. Blooms profusely. Pkt. 10 cts.; ½ oz. 35 cts.

2048 THE GEISHA Rich golden yellow inside; orange-red outside. Attractively crimped and fluted. A beautiful new type. Pkt. 15 cts.; ¼ oz. 35 cts.

2053 ROSE-CARDINAL Large and bold flowers of a soft creamy white backed with rosy pink of a beautiful and rich satiny finish. Pkt. 10 cts.; ½ oz. 25 cts.

2052 ROSE QUEEN The flowers are an attractive shade of rich rose-pink. Pkt. 10 cts.; ½ oz. 25 cts.

2055 SUNSET MIXTURE A well-balanced mixture of all the above and many other fine varieties of California Poppies. Grown as a border or as solid beds they will make a fine display all during the summer and fall, lasting until frost. Pkt. 5 cts.; ½ oz. 20 cts.

2046 DOUGLASII A distinct species with small yellow flowers. The earliest of the Eschscholtzias. Blooms very profusely. Pkt. 5 cts.; ½ oz. 20 cts.

7735 California Poppy Collection

The collection contains four packets of this easily grown annual: **Golden West, Orange King, Burbank's Rose-Crimson, and Vesuvius**, all illustrated in colors on the opposite page. Purchased separately they would cost 40 cts. Mailed to your door, postpaid, for **25 cts.**

VERBENAS

Verbenas thrive in almost any situation and in all good garden soils. They make attractive borders and beds, blooming profusely from June until October. Fine for pot culture. Sow the seed during March or April indoors, and set out during May. Within recent years our strains of Verbena have been greatly improved in regard to the size of the individual flowers and the flower-head, as well as in the number of fine colors. We are growing Verbena seed on our FORDHOOK FARMS in Pennsylvania and our FLORADALE FARMS in California, and individual flowers the size of a quarter are by no means rare in our special strains. Sometimes the seeds require as long as three weeks to germinate.

2778 BURBANK'S MAYFLOWER Mr. Burbank has developed a strain in which the flowers are of extra-large size, mostly shades of pink, and more fragrant than in any other strain. Pkt. 15 cts.; ¼ oz. 75 cts.

2786 MAMMOTH PINK SHADES This includes various shades of pink. Pkt. 10 cts.; ¼ oz. 60 cts.

2788 MAMMOTH BLUE SHADES Very large flower-heads, blooming profusely and running in many fine shades of blue and purple. Pkt. 10 cts.; ¼ oz. 60 cts.

2795 YELLOW (Lutea) This is a large-flowered, very fine yellow Verbena. Pkt. 10 cts.; ¼ oz. 60 cts.

2789 SCARLET DEFIANCE True; intensely rich, brightest scarlet. Pkt. 10 cts.; ¼ oz. 60 cts.

2791 PURE WHITE (Sea Foam) A wonderful variety with large and well-rounded flower-heads of the purest white, composed of large individual blooms. Blooms profusely and continuously. Pkt. 15 cts.; ¼ oz. 75 cts.

2776 Fordhook Famous

This MAMMOTH VERBENA produces magnificent trusses in a wide range of colors. Some individual blossoms are larger than a silver quarter. The colors are rich and varied, embracing all the brighter shades. Well adapted for borders or porch boxes. They delight in a sunny location. Pkt. 10 cts.; 3 pkts. for 25 cts.; ¼ oz. 60 cts.

7820 Verbena Collection

All who admire this wonderful free-flowering annual for its richness in colors will find the four varieties offered in this collection and illustrated in colors on the opposite page very satisfactory. We will mail one packet each of **Pure White, Scarlet Defiance, Mammoth Blue Shades, and Mam-** **25 cts.** **mooth Pink Shades**, postpaid, for

MAUVE
BEAUTY

FIREBRAND

BURPEE'S SNAPDRAGONS

The Snapdragons, also known under the botanical name *Antirrhinum*, are favorites in American gardens. This is not to be wondered at when we consider the long season during which they bloom, together with the exquisite beauty of their flowers. As a cut-flower, few annuals equal in brilliancy of color and beauty the glorious spikes of Snapdragons. They are easily raised from seed sown indoors in March or outdoors the middle of April, and bloom profusely from June throughout the summer until frost.

Half-Dwarf Varieties

The half-dwarf varieties grow about 15 inches in height and form compact round bushes which are literally covered with magnificent spikes of closely set large flowers. This type is particularly well adapted for beds or borders in the garden, yet the spikes are long enough to make excellent cut-flowers.

1529 Amber Queen Large heavy spikes of well-shaped flowers; the color is a rich yellow, overlaid with chamois-pink. A beautiful combination of colors. Pkt. 10 cts.; $\frac{1}{16}$ oz. 35 cts.; $\frac{1}{4}$ oz. 90 cts.

1533 BRILLIANT ROSE Very effective bright rose flowers. The blooms are of the largest size and perfect form. The bushes are always of compact and neat appearance, with flower-stems long enough for cutting. Pkt. 10 cts.; $\frac{1}{16}$ oz. 35 cts.; $\frac{1}{4}$ oz. 90 cts.

1530 Black Prince This is an outstanding variety with rich deep crimson flowers. The foliage is a very dark purplish crimson with a lustrous sheen. Pkt. 10 cts.; $\frac{1}{16}$ oz. 35 cts.; $\frac{1}{4}$ oz. 90 cts.

1531 Carmine Queen A brilliant and bright shade of rose-carmine; the flowers are very large and are closely set on the stems. Blooms freely and continuously. Pkt. 15 cts.; $\frac{1}{16}$ oz. 45 cts.; $\frac{1}{4}$ oz. \$1.25.

1550 COTTAGE MAID In this variety we have an attractive rich pink lightened up by a bright yellow lip. The flowers are large and closely set on the stem. Pkt. 10 cts.; $\frac{1}{16}$ oz. 35 cts.; $\frac{1}{4}$ oz. 90 cts.

1535 Dainty Queen To those who prefer the delicate shades, DAINTY QUEEN will be most appealing. The flowers are large, well shaped, and are closely set on the heavy stems. Their color is a variation of salmon-buff shades standing out sharply from the rich green foliage. Pkt. 10 cts.; $\frac{1}{16}$ oz. 35 cts.; $\frac{1}{4}$ oz. 90 cts.

1537 Defiance This has, for many years, been considered one of the brightest among the Snapdragons. The flowers are large, well formed, of a glowing vermilion with an orange cast. A magnificent variety. Pkt. 10 cts.; $\frac{1}{16}$ oz. 35 cts.; $\frac{1}{4}$ oz. 90 cts.

1553 FIREBRAND Many gardeners consider this a real rival to Defiance as far as brilliancy of color is concerned. The flowers are large and of a rich deep scarlet shade. The long spikes are always fully set. Pkt. 15 cts.; $\frac{1}{16}$ oz. 45 cts.; $\frac{1}{4}$ oz. \$1.25.

1543 GOLDEN QUEEN A standard variety which has proven its worth for many years. Of excellent habit, with fine lemon-yellow flowers tipped with rich golden yellow on the lip. The best yellow Snapdragon. Pkt. 10 cts.; $\frac{1}{16}$ oz. 35 cts.; $\frac{1}{4}$ oz. 90 cts.

1536 HAWLMARK SALMON The bronzy salmon flowers are shaded with yellow on the lip and are most impressive either in borders or as cut-flowers; comes perfectly true to color and half-dwarf habit. Pkt. 10 cts.; $\frac{1}{16}$ oz. 35 cts.; $\frac{1}{4}$ oz. 90 cts.

1551 MAUVE BEAUTY This color is comparatively new among the Snapdragons. It is an attractive shade of soft mauve with flowers of large size. Pkt. 15 cts.; $\frac{1}{16}$ oz. 45 cts.; $\frac{1}{4}$ oz. \$1.25.

1538 Nelrose Rich silvery pink; a favorite shade with many gardeners. Of excellent habit and large size. Extensively grown for the flower market. Pkt. 15 cts.; $\frac{1}{16}$ oz. 45 cts.; $\frac{1}{4}$ oz. \$1.25.

1540 Philadelphia Pink This variety is of recent introduction and has made quite a "hit" among Snapdragon lovers; a deep shade of rich silvery pink. Pkt. 25 cts.; $\frac{1}{32}$ oz. 75 cts.; $\frac{1}{16}$ oz. \$1.35.

7540 Snapdragon Collection

We will mail one packet each of the 6 Half-Dwarf Snapdragons: namely, Golden Queen, Brilliant Rose, Cottage Maid, Hawlmark Salmon, Mauve Beauty, and Firebrand, all illustrated in colors on the opposite page (value, 50 cts.), to any address, postpaid, for

1542 Prima Donna A large strong grower with immense flowers of a rich terra-cotta shade. Pkt. 20 cts.; $\frac{1}{32}$ oz. 65 cts.; $\frac{1}{16}$ oz. \$1.20.

1545 Prince Chamois An attractive golden chamois shaded rose. The spikes are closely set with large flowers. This color lends itself particularly well to borders, but the stems are also long enough for cutting. Pkt. 10 cts.; $\frac{1}{16}$ oz. 35 cts.; $\frac{1}{4}$ oz. 90 cts.

1544 Purity The pure glistening whiteness of the flowers is most impressive, contrasting sharply with the rich green foliage. It is a beautiful new, pure white. Pkt. 15 cts.; $\frac{1}{16}$ oz. 45 cts.; $\frac{1}{4}$ oz. \$1.25.

1547 Queen of the North The white flowers are of good size. They are borne freely on good size stems and bloom profusely for a long time. Pkt. 10 cts.; $\frac{1}{16}$ oz. 35 cts.; $\frac{1}{4}$ oz. 90 cts.

1546 Scarlet King As the name indicates, the King among scarlet varieties with large flowers and of excellent habit. A strong grower and most profuse bloomer. Pkt. 15 cts.; $\frac{1}{16}$ oz. 45 cts.; $\frac{1}{4}$ oz. \$1.25.

1534 Shell-Pink This has proven to come true to its color and habit. The flowers are large; of a soft shell-pink color with a satiny finish and of excellent form. Pkt. 10 cts.; $\frac{1}{16}$ oz. 35 cts.; $\frac{1}{4}$ oz. 90 cts.

1554 Sparkler Quite an odd shade, with rich cherry-rose flowers which are marked with a few large white spots on the margin of the lips. Fine for bouquets. Pkt. 10 cts.; $\frac{1}{16}$ oz. 35 cts.; $\frac{1}{4}$ oz. 90 cts.

1552 The Fawn A fine combination of salmon, buff and chamois. Blooms freely and is of extra large size. Pkt. 10 cts.; $\frac{1}{16}$ oz. 35 cts.; $\frac{1}{4}$ oz. 90 cts.

1541 Velvet Gem This belongs to the deeper colored varieties with large flowers of a deep blackish maroon. The foliage is also of a rich deep bronzy color. Pkt. 10 cts.; $\frac{1}{16}$ oz. 35 cts.; $\frac{1}{4}$ oz. 90 cts.

1548 Vesuvius The large flowers are a deep vivid orange or flame color; very striking in beds or borders. Pkt. 10 cts.; $\frac{1}{16}$ oz. 35 cts.; $\frac{1}{4}$ oz. 90 cts.

1549 FANCY MIXED A complete mixture of all the above and many other fine half-dwarf varieties. Pkt. 10 cts.; $\frac{1}{16}$ oz. 25 cts.; $\frac{1}{4}$ oz. 75 cts.

Tall Varieties

The tall varieties grow 3 to 4 feet high, and are used extensively for cut-flowers. The flower-stems are long and closely set with large flowers. They keep well as cut-flowers, lasting a long time in water.

1565 Giant White Pure white with a faint yellow lip. The flowers are of enormous size and closely set. Pkt. 10 cts.; $\frac{1}{16}$ oz. 35 cts.; $\frac{1}{4}$ oz. 90 cts.

1556 Giant Yellow Magnificent clear and rich yellow. The flower-stalks are robust and well set with flowers. Extensively grown for the cut-flower market. Pkt. 10 cts.; $\frac{1}{16}$ oz. 35 cts.; $\frac{1}{4}$ oz. 90 cts.

1564 Giant Silver-Pink A much admired shade of delicate pink. This variety sells readily as a cut-flower. The handsome spikes are borne in great profusion. Pkt. 10 cts.; $\frac{1}{16}$ oz. 35 cts.; $\frac{1}{4}$ oz. 90 cts.

1563 Giant Rose Fine rose-pink on white ground. The tall spikes are closely set with gigantic blooms. Pkt. 10 cts.; $\frac{1}{16}$ oz. 35 cts.; $\frac{1}{4}$ oz. 90 cts.

1558 GIANT MIXED A complete mixture of all the finest tall varieties, including the above four varieties. Pkt. 10 cts.; $\frac{1}{16}$ oz. 25 cts.; $\frac{1}{4}$ oz. 75 cts.

Dwarf Varieties

Small and compact bushes, growing 8 to 10 inches high. This dwarf type is unsurpassed for borders or beds.

1557 DWARF MIXED A complete blend, including a wide range of colors in both rich and soft shades. It will produce a most attractive border. Pkt. 10 cts.; $\frac{1}{16}$ oz. 25 cts.; $\frac{1}{4}$ oz. 75 cts.

MIGNONETTE

Mignonette is a native of Egypt. It is one of the most delicately scented of all flowers.

The plants grow rapidly from seed sown in the open ground early in spring. Mignonette should be planted in light sandy soil, since the fragrance of flowers grown in heavy soil is not nearly as intense. The long blossom spikes are produced abundantly during the cool moist weather of early spring and late fall. Mignonette can be had in flower almost any time of the year. For winter blooming sow the seed in pots or the open border during July, where the plants receive plenty of light and air. Reset 4 to 6 plants in a 5-inch pot during September and place in a cool room. They will begin blooming in November, and with proper care will remain in flower until the following March. For a garden display sow the seed when the maples are in leaf.

2213 GIANT-FLOWERED MACHET Large florets of a gray color. A greatly improved *Machet*. Delightfully fragrant. This fine variety does well in any garden soil and blooms freely all summer. It is easily grown during winter-time in pots and used extensively for cut-flowers. Pkt. 10 cts.; ¼ oz. 35 cts.; oz. \$1.00.

2217 GOLDEN SUNSET A magnificent golden yellow; very sweet-scented. In our opinion this is one of the most distinct varieties of Mignonette. Easily grown, lasting a long time after cutting. Pkt. 10 cts.; ¼ oz. 35 cts.; oz. \$1.00.

2218 Goliath See illustration. The plants are of robust growth in candle-labra-like form. The broad, massive spikes are closely set with large, coppery red florets. Pkt. 10 cts.; ¼ oz. 45 cts.; oz. \$1.35.

2226 Pearl or White Goliath This is the best white Mignonette. The heads are thick and heavy. Pkt. 10 cts.; ¼ oz. 50 cts.; oz. \$1.50.

2229 RED MONSTER This impressed us as the best outdoor Mignonette we have ever seen. Of neat, robust growth, the plants are crowned with broad massive heads of large, rich red florets, which are most deliciously fragrant. Pkt. 10 cts.; ¼ oz. 40 cts.; oz. \$1.25.

2232 Fordhook Finest, Mixed We have made a selection of the finest types, which we offer in this special mixture. Pkt. 10 cts.; ¼ oz. 25 cts.; oz. 75 cts.

2578 PHACELIA CAMPANULARIA One of the most charming early annuals for border planting. From seed sown early in April it begins to bloom early in May and all summer long where the weather remains cool. The flowers are a beautiful clear deep blue color, with contrasting white stamens, and are produced in remarkable profusion against a background of rich green foliage. Pkt. 10 cts.; ¼ oz. 30 cts.

2388 EVENING PRIMROSE, MIXED (*Enothera*) See illustration. This widely known free-flowering annual produces brightly colored single flowers which open on approach of twilight. Blooms from July until frost. Pkt. 10 cts.; ¼ oz. 25 cts.; oz. 75 cts.

12039 DIASCIA BARBARÆ A delicate annual which grows 9 to 12 inches in height. The dainty spurred flowers are freely produced in sprays on wiry stems. The flowers are ⅞ inch in diameter and are of a soft salmon-rose color. Pkt. 10 cts.; ⅛ oz. 50 cts.

SWEET ALYSSUM A free-flowering annual of quick growth, beginning to bloom early in spring and continuing throughout the season. Excellent for borders, as it is of close, compact habit and uniform in height. It is also desirable for hanging-baskets or vases, trailing over the sides, producing a profusion of fragrant blooms. Sow the seed thinly early in the spring in shallow drills where the plants are to stand.

1520 SWEET ALYSSUM (Maritimum) See illustration. Pure white flowers. Good for porch boxes, hanging-baskets, and borders. Pkt. 5 cts.; oz. 30 cts.

1523 LILAC QUEEN Beautiful soft lilac flowers, changing to white. It is a free and continuous bloomer of dwarf and creeping habit. Pkt. 10 cts.; oz. 60 cts.

1524 LITTLE GEM The plants are very dwarf and spreading, growing only 3 to 4 inches high. It is one of the quickest growing dwarf border plants, and will bloom continuously from early spring until late fall, where the summers are cool. Easily grown from seeds for winter blooming in pots or boxes. Pkt. 10 cts.; oz. 50 cts.; ¼ lb. \$1.50.

2810 Wild Flower Garden Mixture This is a very complete mixture of all easily grown annuals which have proven to do well and bloom freely under widely different conditions of soil and weather. If sown thinly either in rows or broadcasted, it will make a beautiful display from early in the spring until way late in the fall. The mixture has been carefully composed and contains only the very best seeds, full of vitality. For the best display it should be sown in quantity. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; 1 lb. \$3.50, postpaid.

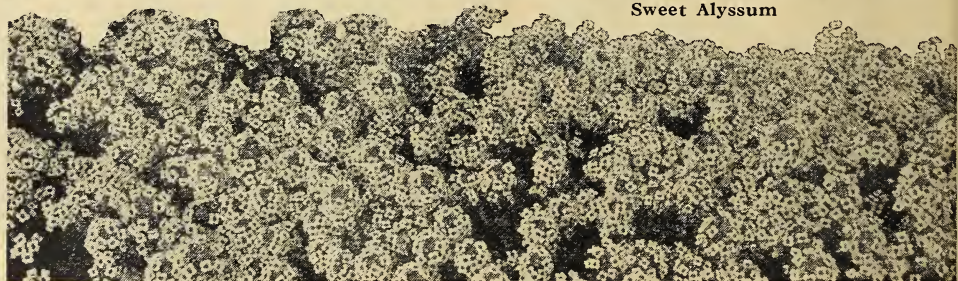

Mignonette
Goliath

Evening Primrose

Sweet Alyssum

OXALIS Small free-flowering plants with clover-like leaves and thickly starred with small bright flowers from June until frost. Fine for growing in pots or baskets during winter. Sow the seed in the spring where the plants are to bloom, covering thinly with fine soil.

2392 TROPÆLOIDES (*Corniculata atropurpurea*) The plants grow into neat, dwarf, and thick bushes. They measure 7 to 8 inches in height. The golden yellow flowers contrast well with the dark brown-purple shamrock-shaped leaves. Blooms freely and continuously. Pkt. 10 cts.; ¼ oz. 65 cts.

2394 VALDIVIENSIS Of dwarf and compact growth, excellent for low borders. Bright lemon-yellow flowers. Easily grown in pots or in pans for winter blooming. It makes a beautiful dwarf border. Pkt. 10 cts.; 3 pkts. for 25 cts.

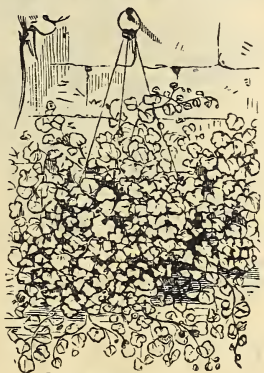

Oxalis—Valdiviensis

1501 SAND VERBENA (*Abronia umbellata*) A rapid growing trailing plant which throws up numerous clusters of rosy lilac flowers somewhat resembling a flower-head of Verbena. It is a native of California, where it is called the *Wild Verbena* or *Sand Verbena*. The flowers are quite fragrant and the seed is best sown right in the place where the plants are to bloom. Suitable for baskets, rockeries, or open borders. Pkt. 10 cts.; ¼ oz. 35 cts.; oz. \$1.00.

Sand Verbena

2131 KENILWORTH IVY (*Linaria cymbalaria*) See illustration. A well-known trailing species which will seed itself from year to year and is most useful for covering rock-work or stumps. Small, inconspicuous, lilac-colored flowers. It can be sown in boxes or hanging baskets any time of the year. Pkt. 10 cts.; ¼ oz. 45 cts.; oz. \$1.35.

Kenilworth Ivy

2120 LANTANA FINEST MIXED See illustration. This well-known shrubby plant with clusters of Verbena-like flowers makes a splendid display the first season sown from seed. The plants flower freely throughout the entire summer and can be potted for winter blooming. Height, 18 inches. Pkt. 10 cts.; oz. 50 cts.

1793 BROWALLIA MIXED (*B. demissa*) See illustration. A handsome annual from South America, growing 12 to 18 inches tall. Seeds may be sown in the open border or started indoors and transplanted about the middle of May. Bright blue and pure white flowers. Pkt. 10 cts.; ¼ oz. 45 cts.; oz. \$1.35.

Browallia

2116 ICE PLANT (*Mesembryanthemum crystallinum*) This is a most interesting plant which trails over the ground and is admirably suited for rockeries or hanging baskets. The flowers are inconspicuous. The leaves are thick and fleshy and their surface is covered with large cells which are filled with water, giving the whole plant a unique ice appearance. Sow the seed outdoors in May. Pkt. 10 cts.; ¼ oz. 25 cts.; oz. 75 cts.

Lantana

TORENIA Charming plants for beds, borders, vases, and hanging baskets. They flower freely and succeed well in the open ground from seed started indoors. Bloom all during summer and fall. May be potted up for winter blooming.

2770 FOURNIERI Velvety blue flowers, with three large spots of darkest blue and a bright yellow throat. Pkt. 15 cts.; ⅛ oz. 65 cts.

2772 WHITE WINGS (*Fournieri alba*) Ivory-white, delicately tinted rose at the throat. Very attractive and free-flowering. Pkt. 15 cts.; ⅛ oz. 65 cts.

Torenia

2385 WATER LILY TENDER VARIETIES, MIXED (*Nymphaea*) These showy Water Lilies can be grown from seed. The flowers are beautifully shaded with deep rose-pink or rich sky-blue on the different plants. The seed should be planted early in the spring in a shallow dish or pan of water partly filled with rich soil. This should be placed in a warm sunny window and when the young plants are well started they can be transplanted to large tubs or small ponds after the maples are in full leaf. These Water Lilies are not hardy and should be brought indoors during the winter. Pkt. 20 cts.; ⅛ oz. 90 cts.

Water Lily

CANNA SEED—Indian Shot

Canna, Improved Large-Flowering—grown from seed

alike agree that this distinct new race is unique in habit (many seedlings blooming freely the first year), size of flower, rare colors, shading, and marking. Pkt. 15 cts.; 1/4 oz. 65 cts.; oz. \$2.00.

Gladioli bulbs are listed on pages 178 and 179.

Very showy plants, having large tropical foliage surmounted by handsome spikes of blooms in many glowing colors. Fine plants can easily be raised from seed started in pots indoors during March and set in the open during May. The roots must be lifted in the fall and stored in dry soil.

1845 IMPROVED LARGE-FLOWERING, MIXED See illustration. Seed saved from the newest and best varieties. Pkt. 10 cts.; 1/4 oz. 25 cts.; oz. 70 cts.

Canna Roots are listed on pages 180 and 181.

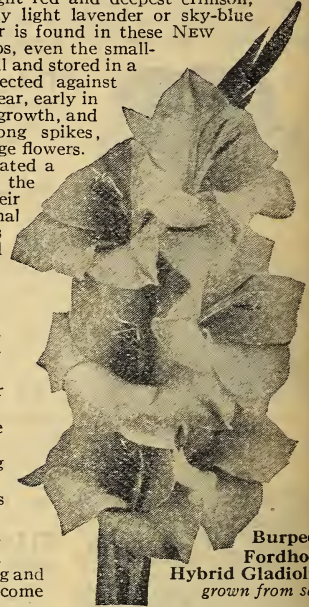

GLADIOLI SEED

2090 Burpee's Fordhook Hybrids

See illustration. Planted early in good soil, many of the plants flower freely the first year from seed! This distinct strain originated at FORDHOOK.

The flowers frequently measure 4 to 5 inches in diameter, and range in color from creamy white, lemon, clear yellow, soft salmon-pink, to bright red and deepest crimson, and there are also lovely light lavender or sky-blue shades. Practically every color is found in these New FORDHOOK HYBRIDS. The bulbs, even the smallest, should be taken up in the fall and stored in a cool, frost-proof room, protected against mice. Planted out the next year, early in May, they will make a quick growth, and will produce long and strong spikes, closely set with beautiful large flowers.

FORDHOOK HYBRIDS have created a sensation wherever shown. They have set the Gladiolus world talking and marveling at their unequalled beauty. Amateur and professional

Burpee's Fordhook Hybrid Gladioli—grown from seed

DAHLIA SEED

Dahlias can easily be grown from seed. If the seed is planted early in the season, many plants will bloom the first year. They produce their flowers in great abundance from August until frost.

1952 DECORATIVE, MIXED A large-flowering strain with double or semi-double flowers in many colors. Pkt. 15 cts.; 1/4 oz. 65 cts.

1953 LARGE-FLOWERED DOUBLE A wonderful assortment of fine colors. Blooms all very large. Pkt. 15 cts.; 1/4 oz. 75 cts.

1956 POMPON, MIXED These Pompon varieties bloom freely, producing small ball-shaped flowers in all colors. Pkt. 15 cts.; 1/4 oz. 70 cts.

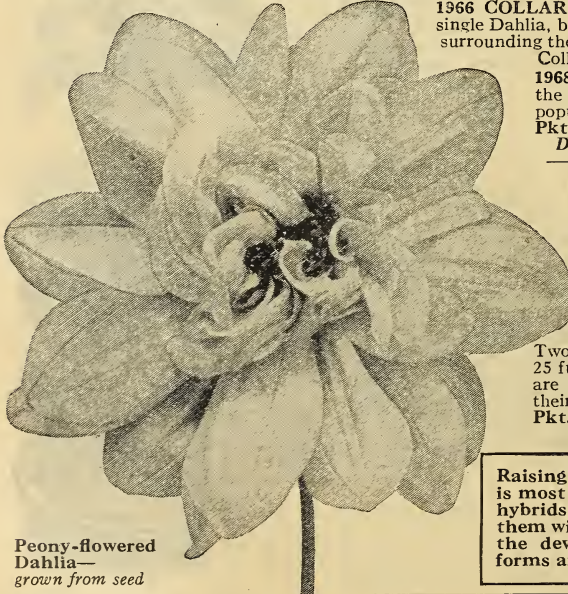

1964 CACTUS-FLOWERED, MIXED This type is well-known. Flowers of large size and many colors. Pkt. 20 cts.; 1/4 oz. 85 cts.

1965 PEONY-FLOWERED, MIXED See illustration. These flowers are generally semi-double and the petals are twisted and curled in a most pleasing manner. The Peony-Flowered Dahlias are very free-flowering and carry their long-stemmed, large and bold flowers above the foliage. They come in an unusually large number of fine colors. Pkt. 10 cts.; 1/4 oz. 50 cts.

1966 COLLARETTE, MIXED The blooms are similar to the single Dahlia, but each flower has a row or collar of fluted florets surrounding the yellow stamens in the center, hence the name—Collarette. Pkt. 10 cts.; 1/4 oz. 45 cts.; oz. \$1.35.

1968 SUPERB SINGLE, MIXED Within late years the large-flowered single Dahlias have become very popular and our seed is saved from the finest blooms. Pkt. 10 cts.; 1/4 oz. 45 cts.; oz. \$1.35.

Dahlia roots are listed on pages 172 to 177.

Peony-flowered Dahlia—grown from seed

TRITOMA SEED

3893 EARLY HYBRID This is an entirely new strain of the popular *Poker Plant*. If seed is started in a warm place during February or March, the plants will flower freely the first year. With a mulch of leaves or rough litter during winter, they are perfectly hardy and begin blooming in May the second season, continuing to flower freely until frost.

Two- or three-year-old plants frequently bear 18 to 25 fully expanded spikes at one time, and if these are cut as they fade, new spikes will quickly take their place. Height, 3 feet.

Pkt. 15 cts.; 1/4 oz. 50 cts.; oz. \$1.50.

Tritoma Roots are listed on page 187.

Raising Cannas, Gladioli, and Dahlias from seed is most fascinating, since all of these flowers are hybrids, and in raising plants from seed no two of them will be alike. It is real fun and joy to watch the development and see Nature creating new forms and colors in one's own garden.

Everlasting Flowers

The Everlastings or "*Straw Flowers*," with their rich and bright colorings, are most valuable for winter decorations. Plants grow readily from seed sown in the open ground when the trees are starting out in leaf. The blooms should be cut as soon as they open, tied in small bunches, and dried slowly in a cool, shady place, hanging the flowers downward to keep the stems straight.

STRAW FLOWERS (*Helichrysum*)

Of all Everlastings, the *Straw Flower* or *Helichrysum* is the best known. The plants grow 2 to 3 feet high and are literally covered with fine large double flowers. The colors are most brilliant, including white, pink, yellow, and scarlet. They are attractive when grown in beds in the garden and keep well as cut-flowers or dried for winter bouquets.

- 2840 FIREBALL** Large double flowers of the richest crimson. Keeps its color well when dried. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.; oz. 75 cts.
- 2842 GOLDEN BALL** Rich golden yellow flowers borne in great profusion on strong and sturdy plants. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.; oz. 75 cts.
- 2844 SNOWBALL** Large double flowers; pure white, occasionally showing a yellow center. Exceedingly showy. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.; oz. 75 cts.

2847 ROSE QUEEN Bright rose. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.; oz. 75 cts.

2848 SALMON QUEEN Soft salmon. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.; oz. 75 cts.

2849 VIOLET QUEEN Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.; oz. 75 cts.

7615 Collection Straw Flowers We will send one packet each of Fireball, Golden Ball, Rose Queen, and Violet Queen, postpaid, for **25 cts.**

2846 MONSTROSUM, MIXED See illustration. Contains all the brightest colors. Pkt. 10 cts.; $\frac{1}{4}$ oz. 20 cts.; oz. 60 cts.

2833 ACROCLINIUM, MIXED An everlasting hardy annual with all the good qualities of an attractive border plant. The beautiful straw-like flowers come in white and pink shades. Grows 1 foot high. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.; oz. 75 cts.

2838 GLOBE AMARANTH (*Gomphrena*) See illustration. An attractive Everlasting that is a native of India. The globe-shaped flowers remind one of the blooms of Dutch Clover. Grows 2 feet high and blooms profusely. A mixture of white, lilac, and bronzy yellow shades. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.; oz. 70 cts.

2850 RHODANTHE, MIXED Dainty flowers carried gracefully on thin but airy stems. Native of Western Australia. Pink, white, and dark red shades. One of the most graceful of all Everlastings. Very fine for the border. Pkt. 10 cts.; $\frac{1}{4}$ oz. 30 cts.; oz. 85 cts.

2852 XERANTHEMUM, MIXED Plants 2 feet high, producing small double flowers which are easily dried for winter bouquets. Grows readily from seed sown early in the spring. The flowers are very graceful. Pkt. 10 cts.; $\frac{1}{4}$ oz. 30 cts.; oz. 85 cts.

2854 MIXED EVERLASTINGS A great variety of Everlastings in all colors. This mixture is sure to please. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.; oz. 65 cts.

ORNAMENTAL GRASSES Of most graceful growth, blooming during the summer and fall. If sprays are cut when freshly opened (before seed forms) and slowly dried in a cool place, they will lend a graceful, airy effect to bouquets of dried Everlasting flowers.

2858 CLOUD GRASS (*Agrostis nebulosa*) Fine and feathery. Beds of it give a cloud-like effect. Fine for bouquets mixed with flowers. Sow the seed thinly in rows early in the spring. Pkt. 10 cts.; $\frac{1}{4}$ oz. 45 cts.

2863 QUAKING GRASS (*Briza maxima*) See illustration. Large racemes of rattles. Fine for Everlasting bouquets. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.; oz. 65 cts.

2868 JOB'S TEARS (*Coix lachryma*) The seeds are strung up in the same way as beads. A strong grower. Pkt. 5 cts.; oz. 35 cts.

2870 PAMPAS GRASS (*Erianthus Ravenae*) A beautiful ornamental grass, and entirely hardy; 3 to 6 feet tall. Pkt. 10 cts.; oz. 50 cts.

2881 FOUNTAIN GRASS (*Pennisetum Ruppelii*) See illustration. Long, feathery, purplish plumes. Adapted for planting near streams; 3 feet tall. Pkt. 10 cts.; $\frac{1}{4}$ oz. 30 cts.; oz. 90 cts.

2883 PLUME GRASS (*Trycholæna rosea*) Attractive pale pink plumes used for winter bouquets; 2 feet tall. Pkt. 10 cts.; oz. 60 cts.

7547 Collection of Four Ornamental Grasses. We will mail one pkt. each: Cloud Grass; Pampas Grass; Fountain Grass; Plume Grass, postpaid, for **25 cts.**

Straw Flowers, Mixed

Globe Amaranth

Fountain Grass

Climbing Flowers

Climbers add greatly to the beauty and interest of the flower-garden. They occupy but little space, and because of their attractive foliage and graceful habit, may be used to good advantage to hide some stiff fence or provide shade for the veranda, etc. They grow rapidly and easily and climb readily if a trellis of wire, strings, or brush is provided. Some varieties are most decorative on account of their ornamental foliage, whereas others flower profusely, affording a brilliant display of dazzling colors. The more hardy kinds, such as Morning Glories, Cobæa, Moonflowers, etc., require more warmth to start into growth and should not be planted outdoors until the second week of May.

A flower garden is hardly complete without some climbers. They give a touch which cannot be rendered by any other flowers. There are some quick-growing varieties like Morning Glories, Moonflowers, Dolichos, Japanese Hop, and Kudzu Vine which cannot be equaled where a tall-growing climber is wanted for giving shade to the porch or the veranda. Others again are more dainty in their growth. They will make a good covering and give a fair amount of shade. Quite a few of those listed are adapted for growing in window-boxes. A combination of these fine trailers, such as Cypress Vine, Cardinal Climber, Balloon Vine, Climbing Foxglove, Maurandya, together with some of the Balcony Petunias, will make some admirably pretty window-boxes.

2906 Balloon Vine (*Cardiospermum halicacabum*) "Love in a Puff" is a graceful climber of rapid growth. The foliage is light green, with inconspicuous flowers. The seed-pods are balloon-shaped. Grows 10 feet tall. Pkt. 10 cts.; oz. 40 cts.

Balloon Vine

Cardinal Climber

good shade, admitting, however, plenty of air when planted on the porch. The brilliant scarlet flowers are not large, but are borne in such profusion as to almost cover the vines from top to bottom. They bloom all during summer and fall until frost. Pkt. 15 cts.; ¼ oz. \$1.00.

2912 Cardinal Climber

(*Ipomoea cardinalis*) We feel that everyone who has a flower garden should give this a trial. It is a most favorite climber, delicate and beautiful, yet most impressive in its distant effect. The leaves are deeply laciniated and resemble those of a fine Japanese Maple. They cover the vines completely and give

Cobæa Scandens

2913 Cobæa Scandens

See illustration. A Mexican climber of very rapid growth, 10 to 20 feet high. In our northern climate the seed should be started indoors and the plants set out when the nights have become quite warm. Large, bell-shaped purple flowers. Pkt. 10 cts.; ¼ oz. 25 cts.

Cypress Vine

A slender climber of quick divided dark green foliage. The vines are thickly starred with small, brightly colored flowers. Very desirable for small ornamental trellises or wire supports. The seed should be sown when the trees are starting out in leaf, or farther north may be started in boxes in March to be planted in the garden when the trees are out in leaf.

2919 SCARLET See illustration. Intensely rich scarlet flowers borne in great profusion. Pkt. 10 cts.; ½ oz. 40 cts.; oz. 75 cts.

2921 WHITE Pure paper-white; rich green finely divided foliage. Pkt. 10 cts.; ½ oz. 40 cts.; oz. 75 cts.

Cypress Vine, Scarlet

Canary Bird Flower

2911 Canary Bird Flower

See illustration. The flowers are a rich golden yellow, very bright and attractive. Deeply divided light green foliage. It succeeds best in rather cool locations. Very useful for trellis work, porch boxes, or hanging baskets. Pkt. 15 cts.; ½ oz. 35 cts.; oz. 65 cts.

Dolichos—Hyacinth Bean Of extra-rapid

growth, making a dense and attractive screen of foliage. The seed should not be planted until the weather has warmed up. Fine for fences or the porch. Native of the East Indies.

2927 DARKNESS See illustration. The color of the stems and leaves of DARKNESS is a purplish red. It mixes well with other climbers and gives a good variety. The numerous long spikes of pea-like flowers are deep reddish maroon, not unlike Wistaria. The blooms are followed by beautiful metallic purple seed-pods. Pkt. 10 cts.; ½ oz. 25 cts.; oz. 45 cts.

2929 DAYLIGHT A climber of rapid growth that always attracts attention. The vines grow quickly to a height of 8 to 10 feet and blossom profusely from base to summit. The large pure white flower-spikes stand out boldly from the rich green foliage. As the flowers drop they are succeeded by broad white pods which remain fresh for a long time. Pkt. 10 cts.; ½ oz. 25 cts.; oz. 45 cts.

Dolichos
Darkness

ORNAMENTAL GOURDS

The seed should be sown in rich soil when the trees are well out in leaf and at sufficient distance for the large varieties to have ample room in which to run, the vines frequently attaining 20 to 30 feet in length.

2935 NEST-EGG See illustration. This is a small, white-fruited variety, the fruits resembling hens' eggs. When properly dried, these fruits are light and durable. As they do not crack and are not affected by cold or wet weather, they make the best of nest-eggs. Pkt. 10 cts.; oz. 35 cts.;

Nest Egg Gourd ¼ lb. \$1.00.

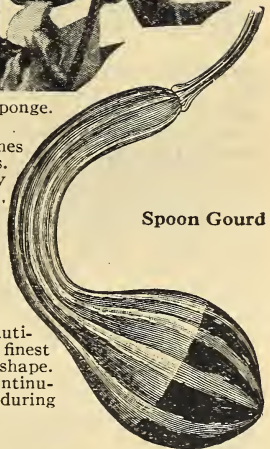

2948 SUGAR TROUGH The shell, when dried, is thick and hard, extremely light, but very durable. The fruits are very ornamental and can be used for practical as well as ornamental purposes. Pkt. 10 cts.; oz. 35 cts.

2937 DIPPER A well-known variety. Grown on the ground, the stems are curved, but when climbing, they grow straight. If hollowed out when ripe, the bowl will hold 2 to 3 pints of water. Pkt. 10 cts.; oz. 30 cts.; ¼ lb. 90 cts.; lb. \$2.85.

2938 DISHCLOTH or LUFFA The fruits should be allowed to hang on the vines until well ripened, when the skin can be removed and the fibrous or sponge-like interior be taken out, cleaned and dried. This makes a fine dishcloth or can be used for bathing instead of a sponge. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

2933 SPOON GOURD See illustration. Small fruits with slender necks 4 to 5 inches long, brilliantly marked in green and orange with white on light green stripes. By slicing off a portion on the side of the bowl and drying the shell, a spoon may be made. They will be found quite useful also in darning stockings and glove-fingers, and the dry fruits with the seeds left in make fine rattles for the baby. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

2953 GOURDS Fine Mixed A most interesting mixture of Ornamental Gourds. It includes a wide variety of large- and small-fruited kinds, ranging from small, apple-shaped fruit to long and large club-shaped and crooknecked forms. Many of them are peculiarly marked. Pkt. 10 cts.; oz. 30 cts.; ¼ lb. 90 cts.

Spoon Gourd

2975 Climbing Foxglove (*Lophospermum scandens*) A beautiful Mexican climber and one of our finest trailing annuals. The graceful flowers are of large size and resemble Foxgloves in shape. They are of a rich rosy purple color. The foliage is of a velvety texture. Blooms continuously from July on and is fine for outdoor or indoor culture. Start the seed indoors during April in a box containing good garden soil and cover thinly with fine soil, or sow outdoors when the maple leaves are expanding. Pkt. 15 cts.; ¼ oz. 65 cts.

Climbing Foxglove
(*Lophospermum scandens*)

2979 Maurandya FINEST MIXED See illustration. A graceful, rather delicate climber from Mexico. Fine for baskets and vases in sheltered portions. Elegant alike in flower and foliage. Blue, white, and mauve, in mixture. Of graceful growth and well suited for light trellises. During March start the seed indoors in pots and set out when the weather is quite warm. Blooms continuously from August on. Plant in fine soil, covering thinly but firmly, and give plenty of light and air to the young plants. Pkt. 10 cts.; ¼ oz. 50 cts.

Maurandya Mixed

7835 Window Box Climbers
Window boxes add greatly to the beauty of any house. This collection of four climbers will be a source of pleasure all during summer and fall. It contains one packet each of: Canary Bird Flower, Balloon Vine, Maurandya, and Thunbergia (value, 45 cts.). **25 cts.**
Mailed, postpaid, to your door for

MORNING GLORIES

No climber is more justly popular than the Morning Glory. It may be sown as early in the spring as the soil can be dug in a fine loose condition. The Japanese Morning Glories and the Brazilian Morning Glories should not be sown until the trees are starting out in leaf. Morning Glories are most useful on account of their quick growth. They will grow 15 feet high and bear thousands of flowers of both brilliant and soft delicate shades.

3019 WHITE Large, pure waxy white flowers.

3020 AIRY FAIRY Delicate blush-rose.

3017 ROSE A rich warm shade of bright rose.

3011 DARK RED A beautiful and rich shade of red.

3013 LIGHT BLUE Large flowers of a delicate light blue.

3009 DARK BLUE Rich and impressive, with light purple creases.

Any of the above: Pkt. 10 cts.; oz. 25 cts.

3021 FINE MIXED This is a mixture of all the above and many other fine colors of this beautiful type. Pkt. 5 cts.; oz. 20 cts.; ¼ lb. 60 cts.

3024 ROCHESTER Very large flowers of a beautiful light blue with a broad edge of silvery white. An early and free bloomer. Pkt. 10 cts.; oz. 65 cts.

3028 IMPERIAL JAPANESE, MIXED A strong grower with enormous flowers in many soft and delicate shades. Do not sow until the weather is quite warm and the nights are settled. Pkt. 10 cts.; oz. 35 cts.; ¼ lb. 95 cts.

3026 DOUBLE WHITE TASSEL Very double and fringed flowers; white, with delicate purple markings in the center. Pkt. 15 cts.; ¼ oz. 50 cts.

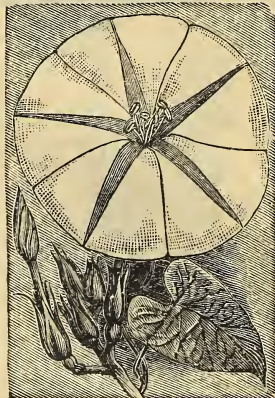

3027 SNOW FAIRY Attractive semi-double flowers; pure white; borne profusely on vigorous vines. Pkt. 10 cts.; ¼ oz. 25 cts.; oz. 75 cts.

2962 BRAZILIAN MORNING GLORY (*Ipomoea setosa*) A very quick-growing vine that forms a most dense and attractive screen. The rose-colored flowers measure 3 inches across with a five-pointed star of satiny pink. Excellent to give shade. Pkt. 10 cts.; ½ oz. 45 cts.; oz. 80 cts.

2968 FUCHSIA-FLOWERED MORNING GLORY The vines are gracefully slender; very densely covered with five-fingered, deep green leaves, bearing small, light rose-pink flowers. Pkt. 10 cts.; ¼ oz. 25 cts.; oz. 65 cts.

Brazilian Morning Glory

Moonflower—White-Seeded

MOONFLOWER These beautiful climbers grow rapidly, and will reach a height of 20 to 30 feet in a single season. The foliage is large, dense, and luxuriant, affording splendid shade for porches. Plant the seed ½ inch deep in rich soil in spring, when the trees are well out in leaf. For the Northern States, seed should be started indoors the middle of March, setting the vines outdoors when the trees are in leaf. The flowers open at sundown, and most varieties have a delightful fragrance.

2983 WHITE-SEEDED The vines bear thousands of immense white flowers, many measuring 6 inches across. Pkt. 10 cts.; ½ oz. 45 cts.; oz. 80 cts.

2985 NEW CROSS-BRED Of great value for the North, as it is in full bloom one month before the White-Seeded. The flowers are 4 to 6 inches across, pure white, and very numerous. Pkt. 10 cts.; ½ oz. 45 cts.; oz. 80 cts.

2991 SKY-BLUE Of strong, vigorous growth, the plants quickly attain 12 to 15 feet in height. Large sky-blue flowers in September. The flowers measure nearly 4 inches across and are surpassingly beautiful—of the softest cerulean blue, shading to white at the throat. Pkt. 10 cts.; ½ oz. 45 cts.; oz. 80 cts.

2987 EARLY-BLOOMING SKY-BLUE (*Ipomoea grandiflora rubro-cerulea*) The plant grows quickly and climbs well. The seed should not be sown until the maples are well out in leaf. The beautiful sky-blue flowers, measuring 5 to 6 inches across, are borne in great numbers. Prefers a sunny situation. Pkt. 15 cts.

2986 GIANT PINK HYBRID Beautiful new color with flowers of enormous size. Large leaves of a sub-tropical appearance. Pkt. 10 cts.; ½ oz. 45 cts.

Japanese Variegated Hop

2960 Japanese Variegated Hop

(*Humulus japonicus variegatus*) See illustration. Where an attractive climber is desired that will stand rough usage, there is nothing better. The leaves are strikingly variegated; the first color is bright deep green, distinctly marked and blotched with silvery white tinged with yellow; now and then a leaf will be almost snowy white, and another one almost pure green. A strong grower—20 to 30 feet in a few weeks' time; not injured by heat or insects. Sow early in May. Pkt. 10 cts.; $\frac{1}{2}$ oz. 40 cts.; oz. 75 cts.

Momordica

These are very interesting annual climbers, with smooth, shining foliage, brought to us from India. The flowers are inconspicuous, of a cream color with brown spots. Does best in a warm location and requires light rich soil and plenty of moisture. Sow indoors during March and set out during May.

2993 BALSAMINA

(*Balsam Apple*) See illustration. Attractive creamy flowers followed by small fruits about the size of a lemon; rich orange when ripe. The pulp of the fruit is blood-red and contains large black seeds. Fine for trellises. Pkt. 10 cts.; $\frac{1}{2}$ oz. 45 cts.; oz. 85 cts.

Momordica Balsamina

2995 CHARANTIA

(*Balsam Pear*) Rapid growing with beautiful fruits of a rich golden yellow color, which when ripe open, disclosing the seeds encased in a carmine covering. Pkt. 10 cts.; $\frac{1}{2}$ oz. 45 cts.; oz. 85 cts.

Momordica Charantia

7560 Pergola Collection

Climbers occupy a most important place in our gardens. They add a touch of gracefulness which can hardly be obtained without them. Unsightly fences or walls may be completely covered with them. They are indispensable for garden houses or porches, shelter and shade. Our collection will be found most useful for all these purposes. It contains one packet each of: *Airy Fairy Morning Glory*, *Dolichos Darkness*, *Cypress Vine Scarlet*, *Cobæa Scandens*, *Brazilian Morning Glory*, *Canary Bird Flower*, *Early Blooming Sky-Blue Moonflower*, and *Variegated Japanese Hop*. Mailed, postpaid, for **50 cts.**

2974 Kudzu Vine

This is a perennial climber which yearly starts new shoots from the crown of the roots. One of the most rapid growing of all climbers, providing a dense screen of large, rich green leaves. The purple flowers are borne in clusters and resemble *Wistaria*. Well-grown vines attain a length of 40 to 50 feet in a single season. The seed should be started indoors in March and the young plants set out early in May. Protect the roots with straw during severe freezing. Pkt. 10 cts.; oz. 80 cts.

3700 Thunbergia—Black-

eyed Susan

See illustration. A very elegant, slender-growing climber from Africa, rapidly covering wire trellises and also useful

for vases in the garden or house. They are very attractive if grown simply trailing on the ground. The colors are white, light yellow, and deep orange, and of each color there is a variety with white eye and also with black eye.—the latter is often called "*Black-eyed Susan*." Blooms continuously from June until October. Sow the seed indoors in March or April, or outdoors in May.

Pkt. 10 cts.; $\frac{1}{4}$ oz. 50 cts.

Thunbergia—Black-Eyed Susan

FLOWERS FOR THE HOUSE

All of these are easily grown from seed and will grow to perfection in either a greenhouse or the conservatory. Flowers in the home are an essential and not merely a luxury. For winter blooming, the seed should be sown in shallow boxes any time during the spring or summer. Write for our free leaflet, "SUGGESTIONS ON SEED SOWING," which tells you how to start the seed.

Calceolaria

ASPARAGUS This pretty foliage plant is quite well known under the name Asparagus Fern. It is extensively grown in pots, but is just as useful for cutting. An admirable house-plant for summer or winter.

3900 PLUMOSUS NANUS A graceful foliage plant with fern-like leaves of a rich green color. The leaves are very finely divided and are very useful for cutting. An excellent pot-plant. Pkt. 15 cts.; 1/4 oz. 75 cts.; oz. \$2.00.

3902 SPRENGERI (Emerald Feather) This variety is well known under the name "Asparagus Fern" and makes a magnificent pot-plant with its long, drooping branches. Also grown extensively for cutting. Pkt. 10 cts.; 1/4 oz. 85 cts.

TUBEROUS-ROOTED BEGONIAS These tuberous-rooted Begonias are much prized for their gigantic blooms, which sometimes reach a diameter of 16 inches. They come in many beautiful shades and there is a single as well as a double strain. The seeds, being very small, should be sown carefully in boxes any time during January, February, and March. Grandmother's method of sowing, as fully described in the Burpee leaflet, "SUGGESTIONS ON SEED SOWING," is sure to give good results.

3905 SINGLE MIXED Unsurpassed for variety of colors. Pkt. 25 cts.

3907 DOUBLE MIXED A fine mixture of all colors. Pkt. 35 cts.

CALCEOLARIA **3913 HYBRID** Native of Chili and Peru, making fine pot-plants in the greenhouse. Each plant bears hundreds of showy, pocket-like flowers of various colors, including many beautiful spotted and tigered flowers. Pkt. 25 cts.

Cineraria

CARNATION Few plants are as much admired by everyone as Carnations. The seed can be sown indoors any time during the spring, and when the plants are about 2 inches high they may be set into their permanent place. Carnations are extensively grown in greenhouses for cut-flowers during winter time.

3915 PERPETUAL OR TREE, MIXED Special Floradale strain. This produces extra large flowers. Pkt. 15 cts.; 1/8 oz. 45 cts.; 1/4 oz. 80 cts.; oz. \$2.40.

CINERARIA Cinerarias are truly beautiful, with their bright colors and delicate fragrance. If plants are wanted for blooming around Christmas time, the seed should be sown during April. For blooming during early spring, June or July sowing should be made. Sow the seed in shallow pans or boxes containing a fairly sandy fine soil. Keep shaded and moist until the seedlings appear. Transplant, as soon as they are large enough to be handled, into other boxes, and set into small pots when the plants attain a fair size. Cinerarias delight in a rich soil containing plenty of plant food. They prefer cool and airy rooms and plenty of light.

3920 HYBRIDA GRANDIFLORA This large-flowered strain of Cinerarias is unsurpassed in size of flowers. The plants grow into round bushes, completely covered by the large and massive flower-heads. A large number of the flowers come in self colors, whereas others have a large white eye. There are many bright colors represented. Pkt. 20 cts.; 1/32 oz. \$1.90.

CYCLAMEN Cyclamens are, without question, one of our best house plants. They bloom any time between August and May. The best time to sow the seed is during August, September, or October, but it may also be sown any time during the spring. Sow in shallow pans containing finely sifted soil with a good admixture of leaf-mold. Keep warm and moist until the seeds sprout, which usually takes four weeks. When the plants are large enough to be handled, they should be transplanted into small pots to be repotted into larger ones as the plants increase in size.

3924 GIGANTEUM, MIXED The colors range from white to darkest crimson, with all intermediate shades. A splendid winter bloomer. Beautifully mottled leaves. Pkt. (15 seeds) 20 cts.; 100 seeds \$1.00.

3930 PURE WHITE Large, pure white flowers borne very freely. Pkt. (15 seeds) 25 cts.; 100 seeds \$1.25.

3931 LIGHT PINK This is a very attractive shade of pure pink. Pkt. (15 seeds) 25 cts.; 100 seeds \$1.25.

3932 DEEP PINK The large and well-shaped flowers are attractive. Pkt. (15 seeds) 25 cts.; 100 seeds \$1.25.

3933 SALMON A rather new and very beautiful shade of bright salmon. Pkt. (15 seeds) 25 cts.; 100 seeds \$1.25.

3934 CRIMSON A very deep and rich color. Blooms very freely. Pkt. (15 seeds) 25 cts.; 100 seeds \$1.25.

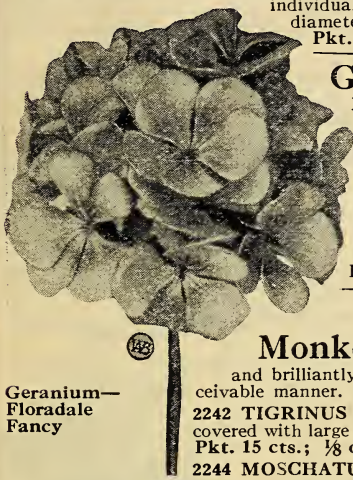

3935 WHITE, CARMINE EYE Large flowers borne profusely. Pkt. (15 seeds) 25 cts.; 100 seeds \$1.25.

Cyclamen

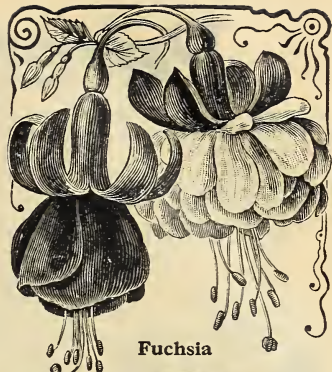

FUCHSIAS 3928 SINGLE AND DOUBLE, MIXED With us the Fuchsias, or *Lady's Ear-drops*, succeed best as pot-plants. In the South they are hardy enough to live out the whole year. During the hot summer months they will do best in partially shaded, cool locations, such as veranda stands or planted in beds in a shady place. Start the seed indoors in boxes. Pkt. 25 cts.

GERANIUMS 3937 FLORADALE FANCY The flower-trusses are 4 to 6 inches in diameter, and the individual flowers are often 1 1/2 inches in diameter. Our strain is unsurpassed. Pkt. 20 cts.; 1/8 oz. 75 cts.

Geranium—
Floradale
Fancy

GLOXINIAS 3955 GIANT-
FLOWERED, MIXED Showy, free-flowering plants, very desirable for pot culture or in partially shaded locations. The flowers measure 4 inches in diameter. Rich shadings of tigered markings show in the large open throat, as well as on the broad bands of coloring in the expanded petals. A wide range of colors and markings. Pkt. 20 cts.; 3 pkts. for 50 cts.

Fuchsia

MIMULUS

Monkey Flower Tender little plants, with singularly shaped and brilliantly colored flowers blotched in every conceivable manner. Excellent for baskets or vases.

2242 TIGRINUS GRANDIFLORUS Compact plants covered with large blooms, all of them tigered and spotted. Pkt. 15 cts.; 1/8 oz. 85 cts.

2244 MOSCHATUS (*Musk Plant*) The leaves are musk-scented; covered with small yellow flowers. An excellent pot-plant for the conservatory. Pkt. 15 cts.; 1/8 oz. \$1.00.

Mimulus

MUSA 3965 ENSETE (*The Abyssinian Banana Tree*) Strikingly effective as single specimens as well as in clumps or masses. The rapidity of its growth is astonishing; seed sown early in hotbeds and repotted several times will give plants 8 feet high the first summer. Pkt. (10 large seeds) 25 cts.

CHINESE PRIMROSE *Primula Sinensis Fimbriata*

The Chinese Primrose is the brightest and most free-flowering of all pot-plants for growing in the house during the winter months. They can be grown at home with very little trouble. Sow the seed the latter part of March or in April and keep the plants growing as rapidly as possible in a cool shady location.

3969 ALBA MAGNIFICA Flowers are pure white with bright yellow eye. The plants are stocky and free-flowering. Pkt. 20 cts.; 3 pkts. for 50 cts.

3971 BLUE A most beautiful and rich color. Pkt. 20 cts.; 3 pkts. for 50 cts.

3973 CRIMSON-VELVET A very rich color of a velvety texture. They stand out well from the rich green foliage. Pkt. 20 cts.; 3 pkts. for 50 cts.

3975 ROSY MORN The finely fringed flowers are of a beautiful carmine-rose. A very free bloomer with large flowers. Pkt. 20 cts.; 3 pkts. for 50 cts.

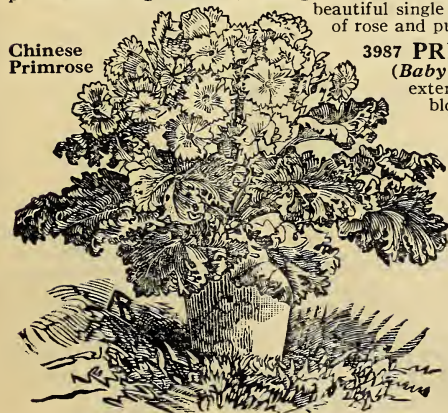

3977 BRIGHT RED (*Coccinea*) Most brilliant red of all Primulas. The flowers are large; borne in heavy clusters. Pkt. 20 cts.; 3 pkts. for 50 cts.

3984 LARGE-FLOWERING FRINGED, MIXED Embracing all the best colors of the large-flowering Chinese Primroses. Pkt. 15 cts.; 2 pkts. for 25 cts.

3986 FILICIFOLIA, MIXED A splendid mixture of fern-leaved Primulas with large flowers in a complete assortment of colors. Pkt. 20 cts.; 3 pkts. for 50 cts.

3988 PRIMULA OBCONICA, LARGE-FLOWERING, MIXED A lovely, profuse-blooming Primrose, bearing on long slender stems, about 9 inches in height, beautiful single flowers in many bright shades of rose and purple. Pkt. 20 cts.

Chinese
Primrose

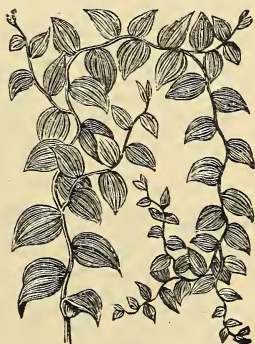

3987 PRIMULA MALACOIDES (*Baby Primrose*) This variety is extensively grown for winter blooming. The small lavender-pink flowers are borne in great profusion. Pkt. 15 cts.

SMILAX 3991 MYRSI-
PHYLLUM ASPARA-
GOIDES This popular *Boston Smilax* is a most desirable window vine, on account of its charming, glossy green graceful foliage. Pkt. 10 cts.; 1/4 oz. 25 cts.; oz. 65 cts.

Musa

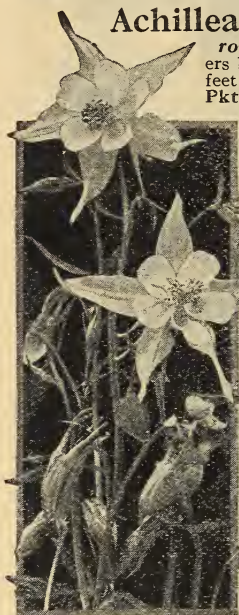

Smilax

STREPTOCARPUS 3999 NEW HYBRIDS An attractive greenhouse perennial. The plant is of easy culture, but must be planted indoors. Grows 10 inches tall. Pkt. 25 cts.

Perennial Flowers

Perennials are the chief standby of the old-fashioned gardens. They require little attention and respond generously to increased care and thorough cultivation. After once being established, they will not only last many years, but also increase in beauty with every season. The seed of perennials may be sown indoors in boxes during February, March, or April, and the young plants set out in their permanent place when 3 to 4 inches tall. Most gardeners sow right out in the open any time during April, May, June, or July. Ask for a free copy of the Burpee Leaflet, "PERENNIALS FROM SEED."

Achillea 3702 PTARMICA fl. pl. The Pearl (*Milfoil; Yar-row*) Small double white flowers borne in great profusion; 2 feet high. Excellent for cutting. Pkt. 15 cts.; $\frac{1}{16}$ oz. 75 cts.

Anchusa

3710 ITALICA Dropmore variety (*Alkanet or Bugloss*) One of our finest blue-flowered plants, growing 4 feet tall. Magnificent spikes from June on. Pkt. 10 cts.; $\frac{1}{4}$ oz. 50 cts.; oz. \$1.50.

Aquilegia

(*Columbine*) 3714 CERULEA (*The Rocky Mountain Columbine*) The long-spurred flowers are blue and white. Gives a most attractive display during May and June. Pkt. 15 cts.; $\frac{1}{4}$ oz. 60 cts.

3716 LONG-SPURRED HYBRIDS See illustration. The flowers range from pure white and yellow to deep blue, through all shades with combinations of white and yellow,

Aquilegia

white and blue, etc. Blooms in June. Pkt. 15 cts.; $\frac{1}{4}$ oz. 80 cts.; oz. \$2.40.

3718 SKINNERI The flowers are a vivid scarlet, tipped with yellow. About 80 per cent come true. Blooms early in May; 15 inches tall. An excellent and lasting cut-flower. Pkt. 15 cts.; $\frac{1}{4}$ oz. \$1.00.

Arabis 3720 ALPINA This is one of the very earliest of all perennials to come into bloom. Soon after the first signs of spring the rich green tufts of leaves begin to send forth pure white flowers. The blooms are produced in such great profusion that within a short time they completely cover the foliage and appear like a mass of snow. They are excellent for the rock garden, where they thrive luxuriantly, or for borders to other perennials, and make a very attractive display planted in masses somewhere in the corner of the garden. Pkt. 10 cts.; $\frac{1}{4}$ oz. 30 cts.

Perennial Baby's Breath

3807 (*Gypsophila paniculata*) The tiny white flowers are borne in myriads on such slender stems that they appear as clouds floating in the air. The plants grow 3 to 4 feet high and bloom from July on. Attractive in the garden and excellent for mixed bouquets. Pkt. 10 cts.; $\frac{1}{4}$ oz. 35 cts.; oz. 90 cts.

Bellis (*Double English Daisy*) Daisies are indispensable for cool shady places. They bloom very early in the spring and are fine for beds.

3724 LONGFELLOW Extra-large double flowers of a dark rose. They are wonderful for beds or borders and, where the weather is not too hot, will bloom almost all the year around. Pkt. 15 cts.; $\frac{1}{8}$ oz. 45 cts.

3725 SNOWBALL A free-blooming strain with large, double white flowers. Pkt. 15 cts.; $\frac{1}{8}$ oz. 50 cts.

3726 DOUBLE MIXED White and various shades of rose and red. Pkt. 10 cts.; $\frac{1}{8}$ oz. 45 cts.

3727 DOUBLE QUILLED, MIXED Large flowers with tubular petals. Pkt. 15 cts.; $\frac{1}{8}$ oz. 50 cts.

Boston Ivy 3708 (*Ampelopsis Veitchii*) The favorite hardy climber with large five-lobed leaves turning to a bright red color in the fall. Pkt. 10 cts.; $\frac{1}{2}$ oz. 35 cts.

Campanula (*Bellflowers*) The Campanulas are easily grown and make a wonderful show during the latter part of May and early June. The large-flowering varieties are mostly biennials but will persist for longer than two years if the conditions for growing are suitable. Other varieties, such as Carpatica, Persicifolia, and Pyramidalis, are all perennials and will live for many years, increasing in size and beauty with every season. They are well suited for rock gardens or mixed among the perennial border. Practically all of them make excellent cut-flowers which last a long time in water.

3733 SINGLE MIXED Large single flowers in white, pink, rose, blue, and purple shades. Very attractive early in the spring. Pkt. 10 cts.; $\frac{1}{4}$ oz. 35 cts.

3734 DOUBLE MIXED See illustration. The flowers are fully double and come in a wide range of colors. Pkt. 15 cts.; $\frac{1}{4}$ oz. 65 cts.; oz. \$2.00.

3735 CALYCANTHEMA, BLUE The blue Cup-and-Saucer Canterbury Bell. Pkt. 15 cts.; $\frac{1}{4}$ oz. 60 cts.

3737 CALYCANTHEMA, ROSE The rose Cup-and-Saucer Canterbury Bell. Pkt. 15 cts.; $\frac{1}{4}$ oz. 75 cts.

3739 CALYCANTHEMA, WHITE The white Cup-and-Saucer Canterbury Bell. Pkt. 15 cts.; $\frac{1}{4}$ oz. 75 cts.

3741 CALYCANTHEMA, MIXED The proper mixture of the above. Pkt. 15 cts.; $\frac{1}{4}$ oz. 75 cts.

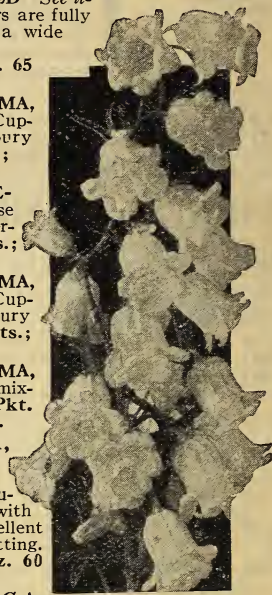

3743 CARPATICA, BLUE (*Carpathian Harebell*) Foliage dwarf, throwing up numerous wiry stalks with rich blue flowers. Excellent for rockeries or for cutting. Pkt. 15 cts.; $\frac{1}{4}$ oz. 60 cts.; oz. \$1.80.

3744 CARPATICA, WHITE A pure white-flowered form of the above; Double Bellflower 12 inches high. Pkt. 15 cts.; $\frac{1}{4}$ oz. 60 cts.; oz. \$1.80.

3746 PERSICIFOLIA, MIXED (*Peach Bells*) Beautiful bell-shaped flowers in blue and white. Pkt. 10 cts.; $\frac{1}{8}$ oz. 65 cts.; $\frac{1}{4}$ oz. \$1.20.

3747 PYRAMIDALIS, BLUE (*Chimney Bellflower*) Rich blue saucer-shaped flowers; 18 inches high. Pkt. 15 cts.; $\frac{1}{4}$ oz. 65 cts.; oz. \$2.25.

3745 PYRAMIDALIS, WHITE A pure white form. Pkt. 15 cts.; $\frac{1}{4}$ oz. 65 cts.; oz. \$2.25.

Campanula, Double Bellflower

Perennial Candytuft 3829 (*Iberis sempervirens*)

This is a very favorite perennial, bearing heavy trusses of pure white flowers. The plants are of dwarf growth, not more than 12 inches high, and are wonderfully adapted for edging or rockwork. They also make a fine display planted in solid masses somewhere in the corner of the garden. The blooms are produced from early until late in June. Pkt. 15 cts.; $\frac{1}{8}$ oz. 45 cts.; $\frac{1}{4}$ oz. 80 cts.

Carnations Sow the seed in the open ground during May or June and protect the plants against severe winter weather. They will bloom profusely and continuously during the following season.

3755 DOUBLE MIXED A very fine strain with large flowers. Pkt. 15 cts.; $\frac{1}{8}$ oz. 45 cts.

3757 EARLY DWARF VIENNA, MIXED Easily grown. Compact bushy plants with large flowers in all colors. Fine for edging. Pkt. 15 cts.; $\frac{1}{8}$ oz. 45 cts.

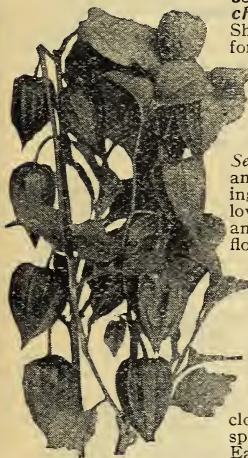

3915 PERPETUAL or TREE MIXED A fine strain, grown on FLORADALE FARMS. Excellent for greenhouse culture. The flowers are immense. Pkt. 15 cts. $\frac{1}{8}$ oz. 45 cts

Centaurea 3763 MONTANA (Hardy Cornflower) Grows 2 feet high and has large showy, thistle-like blue flowers. Blooms very freely. Pkt. 10 cts.; $\frac{1}{4}$ oz. 35 cts

Cheiranthus 3765 ALLIONII Lovely orange yellow flowers borne in great profusion during May. A neat little border plant. 12 inches high. Pkt. 10 cts.; $\frac{1}{4}$ oz. 45 cts.

Chinese Lantern Plant

3856 (Physalis Franchetti) See illustration. Showy scarlet fruits used for winter bouquets. Pkt. 15 cts.; $\frac{1}{4}$ oz. 60 cts.; oz. \$2.00.

Chinese Lantern Plant

are very fragrant and extremely dainty. Pkt. 10 cts.; $\frac{1}{4}$ oz. 50 cts.

3785 SCOTICUS, fl. pl. (Paisley or Florists' Pink) A very pretty double variety of the preceding. Grows 1 foot high and blooms profusely during June. This fine variety is extensively used for rockeries. Pkt. 15 cts.; $\frac{1}{4}$ oz. 65 cts.

Erigeron 3797 SPECIOSUS SUPERBUS (Fleabane) Single Daisy-like bright mauve-colored flowers produced in abundance throughout the summer. Height, 2 feet. Pkt. 15 cts.; $\frac{1}{4}$ oz. 50 cts.; oz. \$1.50.

Perennial Flax

Chrysanthemum

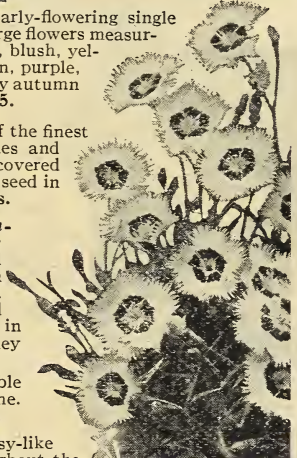

Chrysanthemum—Fordhook Early-Flowering

3750 FORDHOOK EARLY-FLOWERING See illustration. A magnificent Burpee strain of early-flowering single and semi-double perennial Chrysanthemums with large flowers measuring 3 inches across. The colors include pure white, blush, yellow, pink, rose, orange, terra-cotta, old gold, crimson, purple, and autumn shades. The most beautiful of all hardy autumn flowers. Pkt. 15 cts.; $\frac{1}{32}$ oz. 50 cts.; $\frac{1}{4}$ oz. \$3.75.

Clematis 3766 PANICULATA One of the finest perennial climbers for porches and trellises. In early fall the vines are literally covered with thousands of small white flowers. Start the seed in fine soil. Pkt. 10 cts.; $\frac{1}{4}$ oz. 35 cts.; oz. 90 cts.

Dianthus 3783 PLUMARIUS (Perennial or Pheasant-Eye Pink) See illustration. This is the original clove pink. Thick tufts of fine leaves with many thin spikes carrying small, star-like, rich rose flowers. Easily grown and very valuable for rock gardens and alpine plantings. The exquisite flowers are borne in great profusion all during June and early July. They are very fragrant and extremely dainty. Pkt. 10 cts.; $\frac{1}{4}$ oz. 50 cts.

Dianthus plumarius

Perennial Flax 3841 (Linum perenne sibiricum) See illustration. A rich blue-flowered flax. The attractive flowers last only a day, but they are borne continuously from July on; 15 inches high. Pkt. 10 cts.; $\frac{1}{4}$ oz. 35 cts.; oz. \$1.00.

Gaillardia 3805 GRANDIFLORA, Perennial Hybrids (Blanket Flower) Beautiful large flowers with yellow tips and crimson centers. Excellent for cutting. The plants grow 2 feet high. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.; oz. 80 cts.

Geum 3806 COCCINEUM Mrs. Bradshaw A pretty perennial of low growth sending up flower-stems 2 feet long. The flowers are double and measure 2 inches in diameter; rich orange-scarlet. This mixes well with dwarf-growing perennial border plants with its attractive strawberry-like foliage. Pkt. 15 cts.; $\frac{1}{8}$ oz. 45 cts.; $\frac{1}{4}$ oz. 80 cts.

3804 LADY STRATHEDEN This novelty is generally conceded to be the finest thing in new hardy plants sent out in many years. The grand double flowers are a magnificent golden yellow; 2 feet high. Very free blooming. Makes its best display in the foreground of the perennial border, where the flowers will be most prominent. Pkt. 25 cts.; 5 pkts. for \$1.00.

PERENNIALS FROM SEED This is the title of one of the Burpee leaflets, giving cultural directions on how to start the seed of perennials, transplanting, etc. It will help you to make your perennial garden a success. The leaflet will be sent FREE to Burpee customers.

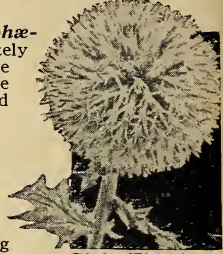

White Foxglove

Foxglove (*Digitalis*) 3787 FINE MIXED Beautiful tall spikes of white, pink, rose, and mottled flowers. Grows 4 feet high. It is a stately plant and useful for planting in the mixed border or for cutting. Pkt. 10 cts.; ¼ oz. 45 cts.; oz. \$1.45.

3789 WHITE See illustration. A most handsome variety with pure white flowers mottled yellow in the throat, being shown off to good advantage by the dark green foliage. Blooms during May and June. Pkt. 15 cts.; ¼ oz. 60 cts.; oz. \$1.80.

Globe Thistle 3793 (*Echinops sphaerocephalus*) A stately border plant with thistle-like foliage and large ball-shaped flower-heads. The flowers are blue changing to white. An excellent background for the perennial border. Height, 6 to 8 feet. Pkt. 10 cts.; ½ oz. 35 cts.; oz. 60 cts.

Globe Thistle

Hardy Gloxinia 3831 (*Incarvillea Delavayi*) The flowers are produced in clusters on long stems and are shaped like a Gloxinia. A fine shade of rose; well suited for shady places; requires protection during winter. Pkt. 20 cts.; ⅛ oz. 45 cts.

Helenium 3809 AUTUMNALE SUPERBUM (*Sneezewort*) A free and continuous-flowering plant with spreading heads of Daisy-like golden yellow flowers. Grows 6 to 8 feet tall and blooms during late summer and fall. It should be set in the background of the perennial border. Pkt. 15 cts.; ⅛ oz. 40 cts.

Heuchera 3811 SANGUINEA HYBRIDS The foliage is dwarf and compact, above which rise numerous graceful flower-spikes. The colors range from white and pink to rose and crimson. The spikes grow 12 inches long. Pkt. 20 cts.; ⅛ oz. 65 cts.

Iceland Poppy 3849 MIXED NUDICAULE (*Papaver*) The flowers are produced on long stiff stems 18 inches high, and come in white, yellow, and orange shades. They bloom profusely during spring. Pkt. 15 cts.; ¼ oz. 50 cts.; oz. \$1.50.

Lathyrus (*Perennial Peas*) These Perennial Peas, although lacking fragrance, are very valuable because they will last almost indefinitely. The vines grow vigorously, often from 8 to 10 feet long, and bear a mass of flowers throughout the summer. They may be used for hiding fences.

3837 GIANT WHITE PEARL See illustration. Bears large clusters of beautiful pearly white flowers. A very free bloomer, lasting way into the fall. Will last for many years. Pkt. 15 cts.; ¼ oz. 50 cts.; oz. \$1.75.

3833 PINK BEAUTY A particularly fine and rich shade of rose-pink. Makes a tremendous growth in rich moist soil and bears its heavy flower-spikes during summer and fall. Pkt. 10 cts.; ¼ oz. 40 cts.; oz. \$1.20.

3835 RED or PURPLE Reddish purple flowers similar to the color of Wistaria. May be used effectively in the wild flower garden or to cover unsightly fences or piles of stones. Pkt. 10 cts.; ¼ oz. 40 cts.; oz. \$1.20.

3839 MIXED All colors in mixture, properly blended and including the above three. Excellent for planting in clumps. Pkt. 10 cts.; ¼ oz. 25 cts.; oz. 75 cts.

Lobelia 3843 CARDINALIS (*Indian Pink or Cardinal Flower*) Thrives best in moist and slightly shaded positions. The flowers are rich crimson. The foliage is bright green. Height, 2 to 4 feet. Excellent for the wild flower garden. Pkt. 15 cts.; ¼ oz. 50 cts.; ¼ oz. \$1.75.

Lupines These are truly beautiful. They are biennials blooming the second season after sowing. The flowers are borne in terminal racemes and make a fine showing. Of easy cultivation; they thrive in any ordinary garden soil except those containing lime.

3844 WHITE Beautiful pure white flower-spikes, much used as cut-flowers because of their graceful habit. Pkt. 10 cts.; ½ oz. 35 cts.; oz. 60 cts.

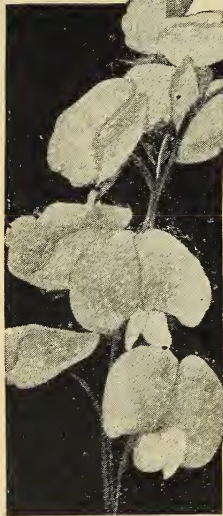

3844a ROSE A fine rich shade of rose. Pkt. 10 cts.; ½ oz. 80 cts.; oz. \$1.50.

3845 BLUE Spikes of bright blue flowers borne profusely during June; height, 3 feet. Pkt. 10 cts.; ½ oz. 35 cts.; oz. 60 cts.

3846 MOERHEIMI Rose and white flower-spikes. Pkt. 10 cts.; ½ oz. 35 cts.; oz. 60 cts.

Lychnis (*Burning Star*) 3853 CHALCEDONICA Corymbs of small, intensely bright scarlet flowers; 2 feet tall. A beautiful free and continuous bloomer. Pkt. 10 cts.; ¼ oz. 35 cts.; oz. \$1.00.

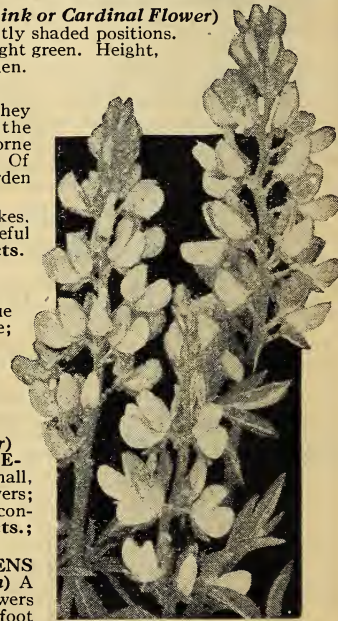

3846a VISCARIA SPLENDENS (*Maltse Cross; Ragged Robin*) A fine border plant with deep red flowers of large size. Blooms in June; 1 foot high. Pkt. 15 cts.; ¼ oz. 50 cts.

Lathyrus, Giant White Pearl

Lychnis Chalcedonica

White Lupines

Pentstemon

3854 GIANT FLORADALE
See illustration. Contains many beautiful shades. The flowers average 1½ inches in diameter; spikes grow 18 inches long. Thickly set with flowers. Pkt. 20 cts.; ½ oz. 50 cts.

Plume Poppy

3732 (*Boccia cordata*)
A stately plant growing 8 feet tall with handsome foliage. The flowers are creamy buff, borne in large panicles. Excellent for backgrounds. Pkt. 10 cts.; ½ oz. 35 cts.

Polyanthus

3859 LARGE FLOWERING, MIXED Charming early spring-flowering plants. Perfectly hardy and most effective for beds or masses. Useful as pot-plants. Pkt. 15 cts.; ½ oz. 45 cts.

Primula

3861 AURICULA This is a well-known Primula; excellent for beds or borders; many bright colors, including yellow, orange, copper, brown, and other pastel shades. Pkt. 15 cts.; ½ oz. 50 cts.; ¼ oz. 90 cts.

3865 VULGARIS (*English Primrose*) Large rich yellow flowers; very early. Pkt. 20 cts.; ½ oz. 70 cts.; ¼ oz. \$1.20.

Pyrethrum

3870 ROSEUM (*Insect Powder Plant*) See illustration. A fine hardy plant with large, daisy-like flowers in shades of white, pink, and rose. Pkt. 15 cts.; ¼ oz. 50 cts.

3868 PARTHENIUM AUREUM (*Golden Feather*) This makes dwarf bushes 6 inches high with rich yellow foliage. Extensively used for borders. Pkt. 10 cts.; ¼ oz. 35 cts.; ½ oz. 60 cts.

Rudbeckia

3874 SPECIOSA (*Cone Flower*) The plants grow about two feet tall and all during summer and fall send up numerous flower-stems with large, daisy-like flowers. The petals of the flowers are a brilliant rich yellow and the center is deep purplish brown. Pkt. 15 cts.; ¼ oz. 45 cts.

Saponaria

3875 OCYMOIDES (*Rock Soapwort*) Beautiful rose-colored flowers blooming from June until late in September. Of creeping habit and excellent for borders or dwarf beds. Six inches high. Pkt. 15 cts.; ¼ oz. 45 cts.; ½ oz. \$1.25.

Scabiosa

3876 CAUCASICA (*Pincushion Flower*) The perennial Scabiosa is very useful for the mixed border or for cut-flowers. The blooms are of large size. The color is a pleasing light blue. After once being established, the plants will bloom most freely all during summer and fall, and will last for many years. Two feet tall. Pkt. 15 cts.; ¼ oz. 85 cts.; ½ oz. \$1.50.

Shell Flower

3764 (*Chelone barbata*) CHELONE has few rivals among the perennials. The flower-spikes, closely set with the rich coral-red blooms, are most attractive in the border as well as when used for cut-flowers. Increase in beauty every year. Pkt. 15 cts.; ¼ oz. 50 cts.; oz. \$1.50.

Snow-in-Summer 3767 (*Cerastium tomentosum*)

A charming creeping plant with silvery foliage and white flowers. Useful for rockwork or edging. Blooms in May. Pkt. 15 cts.; ¼ oz. 60 cts.; oz. \$1.80.

Statice 3879 LATIFOLIA (*Sea Lavender*)

Masses of clear mauve flowers that can be dried and used for winter decorations; 15 inches high. Pkt. 15 cts.; ¼ oz. 60 cts.; oz. \$1.80.

Stocks 3880 EMPEROR OR PERPETUAL

These fine Stocks will live outdoors for several years if protected during winter. Many colors in mixture. Pkt. 20 cts.; ½ oz. 75 cts.; ¼ oz. \$1.35.

Stokesia 3882 CYANEA (*Cornflower Aster*)

A lovely hardy plant producing an abundance of handsome lavender flowers and blooming all summer. Indispensable for the border and for cutting. Pkt. 15 cts.; ¼ oz. 45 cts.; ½ oz. 80 cts.

Sweet Rocket 3872 MIXED (*Hesperis matronalis*)

The plants grow 2 feet high and are surmounted by large panicles of white and purple flowers. Pkt. 10 cts.; oz. 60 cts.

Sweet William

These are excellent for border plants and should be included in every garden. They are grown from seed sown right in the open about the middle of April, but they can be sown as late as the end of June. The fine strong bushes grow 15 inches tall and are a mass of flowers the following year from July on.

3886 PINK BEAUTY Beautiful salmon-pink. Pkt. 15 cts.; ¼ oz. 75 cts.; oz. \$2.25.

3890 S C A R L E T BEAUTY Attractive rich scarlet flowers. Pkt. 15 cts.; ¼ oz. 75 cts.; oz. \$2.25.

3884 PERFECTION SINGLE, MIXED A splendid strain. Pkt. 10 cts.; ¼ oz. 35 cts.; oz. \$1.00.

3892 DOUBLE MIXED Fine double flowers in a great variety of colors. Very fine for beds or borders. Pkt. 15 cts.; ¼ oz. 45 cts.; oz. \$1.25.

Valerian (*Centranthus*) 3898 COCCINEA

The bright red flower-heads have a spicy fragrance. Pkt. 15 cts.; ¼ oz. 40 cts.

3899 WHITE A white-flowered variety which is also fragrant. Pkt. 15 cts.; ¼ oz. 40 cts.

Veronica 3893a SPICATA MIXED (*Speedwell*)

Bright blue, pink, and white flower-spikes during August; 18 inches tall. Pkt. 15 cts.; ¼ oz. 45 cts.; ½ oz. 80 cts.

Violas or Tufted Pansies

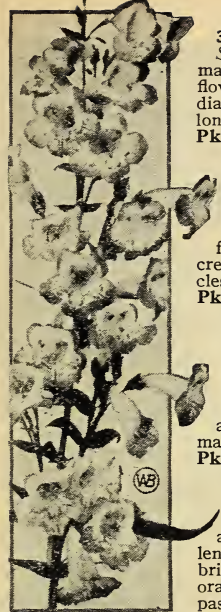

3896 FINEST MIXED (*Viola Cornuta*) Sow the seed in May and transplant during August or September in well-enriched beds. All colors mixed. Pkt. 10 cts.; ¼ oz. 45 cts.; ½ oz. 80 cts.

Wallflower

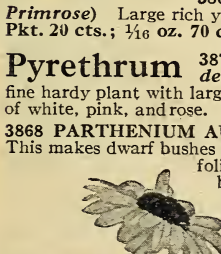

WALLFLOWERS are useful for beds, borders, and also as pot-plants or cut-flowers. For outdoor blooming sow the seed any time from early spring until August. Protect the plants against severe winter weather with a thick layer of straw. For pot-culture sow in May and transplant into good sized flower-pots any time during September or October.

3894 FINE DOUBLE, MIXED The spikes are closely set with double flowers of many shades, including chocolate-brown and orange-purple. The plants may be taken up in the fall and transplanted into pots. Pkt. 20 cts.; ½ oz. 85 cts.; ¼ oz. \$1.60.

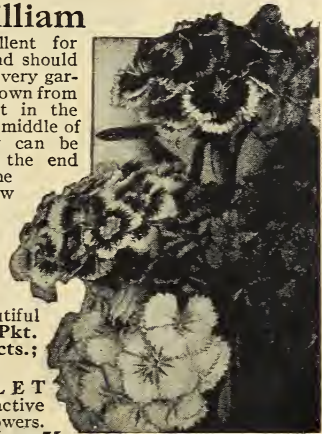

3897 EXTRA-EARLY PARISIAN Single golden yellow flowers, borne in great profusion during spring. Pkt. 15 cts.; ¼ oz. 45 cts.; oz. \$1.35.

Pentstemon

Pyrethrum Roseum

Sweet William

Oriental Poppy 3851 *ORIENTALE* This is the most showy of all the perennial Papavers. The plants make a strong vigorous growth, 3 feet in height. The foliage is dark green and thistle-like. The immense deep red flowers are borne profusely during June. The Oriental Poppy is one of our showiest perennials, with its large red flowers. Pkt. 10 cts.; ¼ oz. 45 cts.; oz. \$1.50.

3847 CHOICEST MIXED This fine mixture of Oriental Poppies is composed of a large number of excellent varieties. It includes various shades of pink and red. There are also some beautiful white flowers in the mixture. Of sturdy and healthy growth; height, 3 feet. Pkt. 15 cts.; ¼ oz. 60 cts.; oz. \$1.80.

Platycodon 3857 *GRANDIFLORUM MARIESII* A very attractive hardy perennial, which when sown early blooms the first year from seed. The bell-shaped rich blue flowers are borne profusely all during summer and early fall. Pkt. 15 cts.; ¼ oz. 50 cts.; oz. 90 cts.

Coreopsis 3768 *GRANDIFLORA* This fine perennial is most popular and can be seen almost everywhere. It takes a foremost place where perennials are grown for cut-flowers since the large well-shaped flowers are borne in greatest profusion all during the summer on long and slender stems. The color of the fine blooms is a most intense golden yellow. The petals are broad and open. If the blooms are cut regularly, the plants continue to bloom and will make a fine display all during the late spring and summer. Pkt. 10 cts.; ¼ oz. 35 cts.; oz. 95 cts.

Shasta Daisy 3770 (*Chrysanthemum Maximum*) Our many friends would be surprised to see the enormous size of these large-flowering Shasta Daisies. They were created by Luther Burbank and are also often called the "Giant White California Daisy." They are easily grown, perfectly hardy, and increase in size and beauty with every season. If planted in the perennial bed, they should be set in the foreground so that the long-stemmed pure white flowers will show up to the best advantage. Few perennials are as valuable for the border as the Shasta Daisy and they make excellent cut-flowers. Pkt. 10 cts.; ¼ oz. 35 cts.; ½ oz. 60 cts.

3771 Burpee's Floradale Daisy The lover of perennial flowers will welcome the introduction of this fine semi-double and double Shasta Daisy which we developed on our Floradale Farms in California. The flowers come about 60 per cent true. They are of enormous size, and the many fine loose petals remind one of a Chrysanthemum. The plants grow into round bushes, 2 feet high, and the blooms are excellent for cutting, lasting a long time in water. The plants are quite hardy, but should be covered with hay or straw during severe winter weather. Pkt. 25 cts.; ¼ oz. \$1.50; ½ oz. \$2.75.

BURPEE'S FLORADALE DAISY

Delphinium (*Perennial Larkspur*) Easily grown from seed sown any time from early in the spring until the forepart of August. They delight in fairly rich soil, but are rather susceptible to an excess of water. The two compact varieties offered below will bloom the first year from seed if sown early.

3776 FORMOSUM This makes a strong and sturdy plant, producing a large number of beautiful flower-spikes, measuring 3 to 4 inches in length and closely set with rich deep blue flowers. Blooms all during June. Pkt. 15 cts.; ¼ oz. 50 cts.; ½ oz. \$1.85.

3772 BELLADONNA SEEDLINGS This fine strain is particularly noteworthy on account of the large number of clear caerulean blue flowers it produces. The individual blooms are of large size and they are closely set on spikes which quite often measure 4 feet and more in length. The small white center which is found in every bloom adds greatly to the attractiveness of this variety. Pkt. 15 cts.; ¼ oz. 45 cts.; ½ oz. \$1.35.

3778 CHOICE MIXED Beautiful long spikes, ranging from almost white through the various shades of blue to rich royal purple. Pkt. 10 cts.; ¼ oz. 50 cts.

3775 COMPACT WHITE This is a beautiful bedding strain; useful for small bouquets. The pure white flowers are borne closely, set on spikes measuring 12 to 15 inches long. Pkt. 10 cts.; ¼ oz. 55 cts.; ½ oz. \$1.00.

3777 COMPACT BLUE This is a lovely companion to Compact White. Flowers are a rich sky-blue and are artistically arranged on the stems. Very profuse blooming. Pkt. 10 cts.; ¼ oz. 55 cts.; ½ oz. \$1.00.

Gold Dust 3706 (*Alyssum saxatile*) The plants are of low-growing, spreading growth and not more than 5 inches in height. Early in the spring the tufts are covered with thousands of small golden yellow flowers. Pkt. 10 cts.; ¼ oz. 35 cts.

Hibiscus 3812 *GIANT MALLOW MARVELS* The plants are perfectly hardy and bear their enormous blooms on long canes measuring 4 to 6 feet in height. The flowers are of gigantic size. They range in colors from pure white through various shades of pink and rose to deep rich crimson. Blooms from June until late in the fall and makes a most magnificent display. Pkt. 10 cts.; ½ oz. 60 cts.

Double Hollyhocks Here is a perennial that indeed needs little description as it has been a great favorite for many years. Our strain of Double Hollyhocks is particularly noteworthy for its strong growth, growing 6 to 8 feet in height and carrying on long stems large and perfectly double flowers which measure 3 to 4 inches in diameter. Hollyhocks should be sown any time from early spring until early August. They make a wonderful display during June and July.

- 3814 **LIGHT PINK** A delicate shade of light pink.
- 3815 **MAROON** Shining deep mahogany-brown.
- 3816 **ROSE** A beautiful pure rose; very double.
- 3817 **SCARLET** The large flowers are vivid scarlet.
- 3818 **YELLOW** Fine deep yellow; fully double.
- 3819 **WHITE** Exquisite white wax-like petals.
- 3820 **SALMON-PINK** Brightsalmon-pink. Extralarge.
- 3823 **CRIMSON** Rich crimson of unusual brightness.

Any of the above:
Pkt. 15 cts.; ¼ oz. 40 cts.; ½ oz. 75 cts.

3822 DOUBLE MIXED All the above colors and some other fine shades. The flowers are large and perfectly double, set closely together on long stems. Pkt. 10 cts.; ¼ oz. 35 cts.; ½ oz. 60 cts.

3826 ALLEGHENY The edges of the flower-petals are finely fringed and curved. Fairly double flowers of large size, including many colors. Pkt. 10 cts.; ¼ oz. 35 cts.; oz. \$2.00.

3828 SINGLE MIXED The single varieties flower more continuously than the double and are very showy. Pkt. 10 cts.; ¼ oz. 30 cts.; oz. \$1.75.

7610 Perennial Garden Collection
This fine assortment contains one packet each of the 8 perennials illustrated in full colors on the opposite page. If purchased separately, it would cost 95 cts. Mailed to any address, postpaid, for

50 cts.

Burpee's Dahlias

Four Grand New Peony-Flowered Varieties

Illustrated in colors on the opposite page from greatly reduced photographs taken on Fordhook Farms

8214 Burpee's Dainty Queen

BURPEE'S DAINTY QUEEN is, in the fullest sense of the word, an outstanding variety among the many hundreds of Dahlia trials which we yearly conduct on Burpee's FORDHOOK FARMS. BURPEE'S DAINTY QUEEN has been selected by many visitors as one of the finest of all. The plant is of medium height, branching freely, but making a comparatively strong growth. Few varieties show such a mass of flowers from early in the season until frost as does BURPEE'S DAINTY QUEEN. The shape of the flowers is very refined, the petals being long and pointed and gracefully curved. The color is a most pleasing shade of rosy lavender, the lower half of the petals being white while the center and smaller petals are altogether white, slightly becoming suffused with lavender toward the tips and forming a most dainty color combination. BURPEE'S DAINTY QUEEN is distinct in every way and is as fine for the garden as it is for home decoration. **Strong roots: 75 cts. each; 3 for \$1.90; 6 for \$3.65, postpaid.**

8205 Burpee's Autumn Beauty

Every lover of autumn shades will want this fine Burpee variety in his collection. It has proved to be a great favorite with all who have seen it. The habit of the plant is wonderfully strong and upright, and one of its most notable features is its free-blooming character; not only that the blooms are borne very early, but the stately bushes are simply covered with the fine flowers; and they make a most attractive show until way late in the season. The flowers are immense and are composed of very large curved and twisted petals, the inner ones at times incurving so that they partly cover the yellow stamens. The color of the flowers is a lovely combination of autumn shades, combining the soft shades of yellow and buff with a suffusion of light rose. The flowers, being carried on long stems in an upright position, are well suited for cutting, but it is just as good a garden variety on account of its strong upright growth and wonderful blooming qualities. **Strong roots: 75 cts. each; 3 for \$1.90; 6 for \$3.65, postpaid.**

8222 Burpee's Fordhook Cerise

This is one of the most outstanding Dahlias we have ever seen. It is of stiff and perfectly upright growth, with long and wiry stems. The habit of the plants is so strong that they can withstand considerably more stormy weather than most other varieties we know of. The foliage is rich dark green and gives the plant a most attractive appearance. It surely helps to bring out the wonderful strong color of the blooms. These are a brilliant shade of rich cerise, with just a suspicion of orange toward the base of the petals. They are of refined formation, with the inner petals artistically incurving over the yellow stamens. They are borne upright on long and stiff stems and are wonderfully well adapted for cutting. FORDHOOK CERISE is an early bloomer, producing its flowers not only very early and profusely, but continues to flower throughout the season. It is a splendid garden variety on account of its strong growth and free blooming character. **Strong roots: 75 cts. each; 3 for \$1.90; 6 for \$3.65, postpaid.**

8237 Burpee's Fordhook White

BURPEE'S FORDHOOK WHITE is a wonderful companion to the other three Burpee varieties described above. It has the same characteristic strong and upright growth, and in season of bloom begins with the earliest and keeps up to produce a wonderful profusion of flowers until cut down by frost. BURPEE'S FORDHOOK WHITE has already made a record for itself. The flowers are of an exquisite, well-rounded form—with broad, pure white petals, the inner ones partially curling over the yellow stamens. They are carried upright on long and strong stems, always borne high above the foliage. A plant of BURPEE'S FORDHOOK WHITE seen in full bloom

is a magnificent sight, and due to its fine long stems it makes an excellent cut-flower for many purposes. BURPEE'S FORDHOOK WHITE is one of the most free blooming white Dahlias known. **Strong roots: 25 cts. each; 3 for 70 cts.; 6 for \$1.30, postpaid.**

9815 Color Collection of Dahlias

This assortment contains one root each of the four wonderful Burpee Dahlias described on this page. Every one of these is a marvel, with large and graceful flowers. Mailed, postpaid, to any address for

\$2.00

—See Color Plate—

PEONY-FLOWERED DAHLIAS

This type of Dahlia has quickly taken first place among all types. The flowers are large and particularly valuable on account of their artistic effect. They are bold usually with broad petals, which in many varieties are greatly curled and twisted. The yellow center of the blooms is quite often completely hidden by the small incurving petals.

Fordhook Beauty

A lovely autumn shade

8202 ALICE A splendid garden variety. Flowers a pleasing shade of light lemon-yellow, produced freely on long stems in great profusion well above all foliage. 75 cts. each; 3 for \$1.90; 6 for \$3.65, postpaid.

8209 CECELIA An extra-large flower borne on good stems. Color light canary-yellow, deeper toward the center. 75 cts. each; 3 for \$1.90, postpaid.

8213 COPPERSMITH This fine variety blooms early, freely, and continuously. A pleasing shade of light copper or bronze with a metallic-like suffusion, the reverse of the petals reddish bronze. The plants make a strong erect growth and carry the flowers upright above the foliage. 75 cts. each; 3 for \$1.90, postpaid.

8220 FORDHOOK BEAUTY A charming shade of bronzy red suffused with salmon and amber. 35 cts. each; 3 for 90 cts.; 6 for \$1.70, postpaid.

8223 FORDHOOK CREAM Light cream with a yellow suffusion, the color being more intense along the center of the inner petals. A strong-growing and free-flowering variety. The flowers are borne early and continuously. 35 cts. each; 3 for 90 cts., postpaid.

8226 FORDHOOK GEM (Burpee novelty for 1923) This great beauty may be classed as a Peony-Flowered Cactus because the petals recurve so much that at times they are almost fluted. Occasionally they come full in the center, resembling a Hybrid Cactus. In all its forms it is a most beautiful and striking flower. The blooms are very large and usually measure from 7 to 9 inches in diameter. The color is an attractive shade of iridescent rosy pink, showing a suffusion of white on the central petals. FORDHOOK GEM is bound to please. \$1.50 each; 3 for \$4.20, postpaid.

8229 FORDHOOK LILAC In this fine new variety we have a flower of great size and exquisite form. The color is a clear shining shade of lilac that is particularly attractive. The inner petals are very numerous, and twist gracefully over the yellow center, often entirely hiding it. An early and continuous bloomer with a fine exhibition flower. \$5.00 each.

8240 GOLDEN ROSE An attractive shade of yellow suffused rose, each petal having a distinct picotee edge of rose. Blooms freely and continuously. 35 cts. each; 3 for 90 cts.; 6 for \$1.70, postpaid.

8244 H. J. LOVINK White, beautifully flushed light lilac. The flowers are of perfect form. 35 cts. each; 3 for 90 cts.; 6 for \$1.70, postpaid.

8245 HORTULANUS BUDE Clear orange-scarlet; an excellent garden and exhibition variety. 35 cts. each; 3 for 90 cts.; 6 for \$1.70, postpaid.

8247 JOHN D. ROCKEFELLER Our extensive trials of Dahlias on BURPEE'S FORDHOOK FARMS have again given us full proof last season that JOHN D. ROCKEFELLER is one of the most outstanding varieties ever introduced. It is an extremely early- and free-blooming variety, with large, well-formed flowers of a pleasing shade of salmon buff. The blooms are borne on long wiry stems and are excellent for cutting. 45 cts. each; 3 for \$1.10; 6 for \$2.15, postpaid.

8248 LEMON QUEEN Elegant flowers of large size. The color is a rich shade of lemon-yellow. 35 cts. each; 3 for 90 cts.; 6 for \$1.70, postpaid.

8250 LILAC GEM (Burpee novelty for 1923) For garden decoration and for cutting this is one of the most dependable. The plants make a sturdy growth, attaining a height of 5 to 6 feet and become practically smothered with the large beautiful flowers. These elegant blooms are always borne on long and stiff stems. The color is a soft and pleasing shade of rosy purple with white suffusion. In general effect it is that of a soft rosy mauve or lilac. It is a wonderful novelty. \$1.00 each; 3 for \$2.70; 6 for \$5.00, postpaid.

8252 MME. VON BYSTEIN The large blooms are a soft tint of mauve, shading lighter toward the outer edges of the petals. An unusually attractive shade. 45 cts. each; 3 for \$1.10; 6 for \$2.15, postpaid.

8256 MRS. G. W. KERR This is without doubt one of the very finest, particularly in regard to fullness of blooms. The flowers are large with artistically arranged petals which nearly always completely cover the center. The color is a rich plum shading to lavender at the tips. 50 cts. each; 3 for \$1.30; 6 for \$2.45, postpaid.

8259 MRS. JOHN GRIBBEL Elegant flowers of a light salmon-pink shade heavily flushed with amber and salmon. It is an early and continuous bloomer that is laden with flowers all during the season. 50 cts. each; 3 for \$1.30; 6 for \$2.45, postpaid.

8261 MRS. W. E. WHINERAY The immense flowers are a most beautiful shade of rose suffused clear yellow. An early, profuse and continuous bloomer. 45 cts. each; 3 for \$1.10; 6 for \$2.15, postpaid.

8263 ORIENT A charming combination of orange-scarlet flaked with bright yellow. An early, free, and continuous bloomer. The flowers are borne on long stems. One of the most showy for garden and cutting. 45 cts. each; 3 for \$1.10; 6 for \$2.15, postpaid.

8266 QUEEN ELIZABETH Color clear bright pink; large flowers of perfect habit. Robust and strong plants. \$1.00 each; 3 for \$2.70; 6 for \$5.00, postpaid.

8267 ROMOLO PIAZZANI The color is a charming combination of yellowish salmon and rosy amber. Fine long stems, splendid for cutting. 50 cts. each; 3 for \$1.30; 6 for \$2.45, postpaid.

8269 ROSE MARIE A duplex variety of great beauty. Color a most pleasing shade of rose. Flowers of medium size, borne in the greatest profusion on long, stiff stems. Unsurpassed for garden decoration and cutting as it bears its flowers with the greatest freedom. \$1.00 each; 3 for \$2.70; 6 for \$5.00, postpaid.

8271 THE BRIDE Beautifully shaped white flowers with a suffusion of blush toward the center. 50 cts. each; 3 for \$1.30; 6 for \$2.45, postpaid.

8272 PEONY-FLOWERED MIXED A complete mixture, containing an amazingly varied assortment of the very finest Peony-Flowered Dahlias. 3 for 40 cts.; 6 for 70 cts.; 12 for \$1.30, postpaid.

Six Peony-Flowered Dahlias

This is a most wonderful collection of some of the very finest Peony-Flowered Dahlias in existence. It contains one strong root each of **Cecelia, Coppersmith, Fordhook Beauty, Hortulanus Bude, Orient and The Bride.**

Mailed postpaid, to any address (value \$3.15), for

\$2.50

Order Collection 9812

DECORATIVE DAHLIAS

This type of Dahlia produces large double flowers which are full to the very center. It is a free-blooming type, the flowers being rather flat and ball-shaped and having broad, loosely arranged floral rays with broad points or rounded tips. Some of the very finest Dahlias are included in this class.

8109 DELICE One of the most exquisite varieties, the color being a lovely shade of glowing rose-pink. The flowers are held well above the foliage on stout stems, and are perfect in form. Blooms very profusely. 35 cts. each; 3 for 90 cts.; 6 for \$1.70, postpaid.

8111 DR. TEVIS One of the largest and finest varieties, flowers being borne on long, strong stems. The color is a delightful shade of salmon-rose suffused with old gold, shading to a golden apricot. Considered one of the best. \$1.00 each; 3 for \$2.70, postpaid.

8127 HAZEL WELTON An unusual and much-admired color that might be described as reddish bronze, but having a silvery-like sheen. The large flowers are borne on stiff wiry stems and are produced most freely and continuously. \$2.00 each; 3 for \$5.50, postpaid.

8132 HORTULANUS FIET A very large and attractive flower; one of the most popular. Color rich salmon suffused amber and yellow. Easily grown. 75 cts. each; 3 for \$1.90; 6 for \$3.65, postpaid.

8142 JAN OLIESLAGERS An enormous flower, of an intense rich butter-yellow color. Blooms freely. 35 cts. each; 3 for 90 cts.; 6 for \$1.70, postpaid.

Jean Kerr

Awarded a Certificate of Merit by the American Dahlia Society, September, 1916

8143 JEAN KERR The most valuable of all white Decorative Dahlias. Let the weather be as it may, and no other Dahlias blooming, JEAN KERR will be a mass of flowers. In type it is a short-petaled decorative. Its outstanding merit is due to the fact that it never fails to flower freely. A pure white bloom carried gracefully on long and strong stems well above the foliage. Foremost for cutting and excellent for the garden. 75 cts. each; 3 for \$1.90; 6 for \$3.65, postpaid.

8144 JEANNE CHARMET The large flowers are borne on stiff wiry stems and in the greatest profusion throughout the season. The color is a most exquisite shade of lilac-pink shading to pure white toward the center. A wonderful flower for cutting. 35 cts. each; 3 for 90 cts.; 6 for \$1.70, postpaid.

8149 KING OF THE AUTUMN This is one of the most admired varieties. Of excellent habit, early, and free-blooming, the flowers being produced on very long stems. Color buff-yellow suffused terra-cotta. \$1.00 each; 3 for \$2.70; 6 for \$5.00, postpaid.

8150 LYNDBURST Beautiful vermilion-scarlet flowers. Carried gracefully on long and strong stems. Makes a strong sturdy growth and blooms profusely. 25 cts. each; 3 for 70 cts.; 6 for \$1.30, postpaid.

8155 MILLIONAIRE Flowers immense in size; in fact, one of the largest in cultivation. Color lavender shading to white. This variety has quickly become popular. \$1.50 each; 3 for \$4.00, postpaid.

Minnie Burgle

8156 MINNIE BURGLE This is the best red Dahlia in existence. The plants are of strong growth and the flowers are simply enormous in size. 50 cts. each; 3 for \$1.25; 6 for \$2.25, postpaid.

8157 MINNIE McCULLOUGH The large flowers are soft golden yellow, tipped with bronzy red. 25 cts. each; 3 for 65 cts.; 6 for \$1.20, postpaid.

8161 MRS. I. DE VER WARNER One of the very finest, whether for exhibition or garden decoration. Flowers are of great size, and it is an early, continuous, and free bloomer. The blooms are immense in size, beautifully formed, and a pleasing shade of mauve-pink. It is a new outstanding variety. \$10.00 each.

8170 PAUL BONYON A most beautiful shade of apricot-orange with a tinge of yellow at the base of the petals. Flowers borne on long stiff stems and of good size. \$1.00 each; 3 for \$2.70, postpaid.

8177 PRINCESS PAT A most beautiful shade of old rose. The flowers are of great size and depth; borne on extra strong stems. One of the best for the garden or for cutting. \$1.50 each; 3 for \$4.00, postpaid.

8180 PURPLE KING A pleasing shade of Phlox-purple, which is extremely bright under artificial light. Of sturdy, upright habit. Excellent for cutting. 35 cts. each; 3 for 90 cts.; 6 for \$1.70, postpaid.

8183 QUAKER MAID (Burpee Novelty for 1923) The flowers are of the finest form. They are borne in the greatest profusion clear above the foliage on wonderfully long stems. The color is a bright and lively shade of amaranth-pink, which becomes somewhat lighter toward the tips of the petals. \$1.00 each; 3 for \$2.70; 6 for \$5.00, postpaid.

8186 ROSA NELL This excellent variety has been called "the Dahlia without a fault." Habit, stem, and form are unsurpassed. Color a clear bright rose; should be in every collection. \$5.00 each.

8193 SYLVIA This is a glorious variety, with large and well-formed flowers. The color is a rich pink, tinting to light pink in the center. Blooms early, freely, and continuously. 25 cts. each; 3 for 70 cts.; 6 for \$1.30.

Six Decorative Dahlias

Our collection contains one strong root each of Jan Olieslagers, Delice, Minnie McCullough, Lyndhurst, Sylvia, and King of the Autumn. The 6 roots (value, \$2.45) will be mailed, postpaid, for

\$1.75

ORDER COLLECTION 9805

CACTUS DAHLIAS

This type is particularly valued on account of the fact that the flowers will keep in good condition longer after cutting than those of any other type. We have included in our list the Hybrid Cactus varieties, as well as the true Cactus type, in which the flowers are fully double, with long and narrow petals which are incurved or twisted. In the Hybrid Cactus type the petals are much shorter and considerably more broad and flat.

8014 EDITH CARTER A beautiful bright yellow, heavily suffused bright rosy carmine. The flowers are borne in great profusion above the foliage on long stiff stems. 50 cts. each; 3 for \$1.30, postpaid.

8015 E. F. HAWES The color is a lovely shade of clear salmon-pink. A splendid garden variety, blooming early, freely, and continuously. Most excellent for cut-flowers. 35 cts. each; 3 for 90 cts., postpaid.

8018 FRED. WENHAM An extra fine variety. The flowers are large and bold. Their form is graceful and refined. Color warm fawn-pink with soft salmon in the center. 75 cts. each; 3 for \$1.90, postpaid.

8019 F. W. FELLOWS One of the very best. Flowers are immense in size, early, and free blooming. The color is a most appealing bright orange-scarlet. 75 cts. each; 3 for \$1.90, postpaid.

8020 GEO. SCHOFFIELD The petals are narrow; partially whorled and much incurved. Color yellow in the center, deepening to apricot with white tips. 75 cts. each; 3 for \$1.90; 6 for \$3.65, postpaid.

8021 GEORGE WALTERS A splendid Hybrid Cactus that invariably does well, producing its immense flowers with the greatest freedom. Color a pleasing shade of salmon-pink, gradually becoming yellow at the base of the petals. Plants make a sturdy strong growth. 75 cts. each; 3 for \$1.90, postpaid.

8023 GLORY OF WILTS One of the best yellow varieties. The form is in every way good, while the color is a rich, bright and cheerful yellow. 35 cts. each; 3 for 90 cts.; 6 for \$1.70, postpaid.

8027 H. L. BROUSSON An excellent exhibition variety. Color rich rose with white center. The flowers are of great size with much incurved petals. 50 cts. each; 3 for \$1.30; 6 for \$2.45, postpaid.

8028 HOMER Color bright rich maroon. Flowers large and beautifully incurved. Of strong, sturdy habit. 50 cts. each; 3 for \$1.30; 6 for \$2.45, postpaid.

8032 IRRESISTIBLE Yellow, heavily suffused with rose. Splendid large flowers carried on fine stems. 50 cts. each; 3 for \$1.30; 6 for \$2.45, postpaid.

8033 JENNY WREN One of the very best garden Cactus varieties. Flowers produced on long stiff stems clear above all foliage. The color is a charming shade of bright yellow overlaid and suffused with pink. 35 cts. each; 3 for 90 cts.; 6 for \$1.70, postpaid.

8036 JOHN RIDING A sturdy grower, producing its fine flowers early and freely. The flowers are of immense size and depth. Color rich crimson. 50 cts. each; 3 for \$1.30; 6 for \$2.45, postpaid.

8042 LAWINE Fine large flowers; of good form, borne very freely. The color is white suffused blush. 35 cts. each; 3 for 90 cts.; 6 for \$1.70, postpaid.

8044 MARJORIE CASTLETON See illustration. This has always been a favorite with many Dahlia lovers. It is a wonderful variety with large flowers of the most charming color combinations. The elegantly formed flowers are a rich rose-pink tinted with lilac toward the center and tips. 35 cts. each; 3 for 90 cts.; 6 for \$1.70, postpaid.

8045 MARY PURRIER One of the best of its color. The large flowers are borne on good stems; very free blooming. Color rich scarlet. A magnificent variety. 75 cts. each; 3 for \$1.90; 6 for \$3.65, postpaid.

Marjorie
Castleton

8047 MELODY Color clear yellow on the lower half of the petals, the outer portion of which is pure white. The flowers are borne on good stems; wonderful for cutting. 50 cts. each; 3 for \$1.30, postpaid.

8049 MRS. A. C. JAMES Color rich salmon-buff with a suffusion of yellow; petals slightly incurving. A flower of good size, perfect form, strong growth and superior habit. \$1.50 each; 3 for \$4.00, postpaid.

8050 MRS. EDNA SPENCER This Hybrid Cactus is a delicate shade of orchid-pink. The flowers are almost perfect in shape and they are carried on long and strong stems. \$1.00 each; 3 for \$2.70, postpaid.

8058 MRS. W. E. ESTES Flowers of great size and depth, held above the foliage. This Hybrid Cactus is a clear pure white of remarkable purity and magnificent form. \$1.50 each; 3 for \$4.00, postpaid.

8063 PIERROT This is one of the very finest Cactus varieties. A giant in size. The color is deep amber tipped with pure white and sometimes shows a shading of bright yellow. It will be found that the color varies at times, but it is always beautiful. 60 cts. each; 3 for \$1.50; 6 for \$2.85, postpaid.

8064 RED CROSS A Hybrid Cactus of great merit, produced early and freely throughout the season. The stems are long, stiff, and wiry. The color is a fine combination of red and yellow; a variety we can highly recommend. \$1.50 each; 3 for \$4.00, postpaid.

8066 ROSA BONHEUR A rich dark scarlet Hybrid Cactus. Petals quite broad but rolled to a point at the tips. \$1.00 each; 3 for \$2.70; 6 for \$5.00, postpaid.

8069 RUTH C. GLEADELL A lovely soft yellow shading to apricot-bronze on the outer petals. Good stems; the large flowers are of excellent formation and are borne freely on fine long stems. Blooms very freely. \$1.00 each; 3 for \$2.70; 6 for \$5.00, postpaid.

8072 SOVEREIGNTY The flowers are a rich deep shade of pure yellow. A large flower with long, straight narrow florets. Excellent for exhibition. 75 cts. each; 3 for \$1.90; 6 for \$3.65, postpaid.

8074 STARLIGHT Rich deep yellow at the base of the petals, gradually lightening to palest lemon, and finally to white at the tips. Slightly incurved petals which are very narrow and pointed. Strong and sturdy. 75 cts. each; 3 for \$1.90; 6 for \$3.65, postpaid.

8075 SUCCESS Beautiful clear yellow. A free-blooming variety carrying the fine flowers on long stems. 35 cts. each; 3 for 90 cts.; 6 for \$1.70, postpaid.

8076 THE QUAKER A beautiful garden variety. The large flowers are white tinted light flesh-pink. Dwarf and wiry, producing its blooms in abundance. 45 cts. each; 3 for \$1.10; 6 for \$2.15, postpaid.

Six Cactus Dahlias

The collection contains one strong root each of the following six wonderful varieties which have proven to be favorites with many: Edith Carter, E. F. Hawes, F. W. Fellows, Glory of Wilts, H. L. Brousson, and Pierrot (value \$3.05). They will be mailed to your door, **\$2.50** postpaid, for

Order Collection 9801

POMPON DAHLIAS

The plants grow into neat little bushes which are covered with small, perfectly ball-shaped Dahlias, measuring up to 2 inches in diameter. The flowers are always double to the very center and in many varieties the petals are curled.

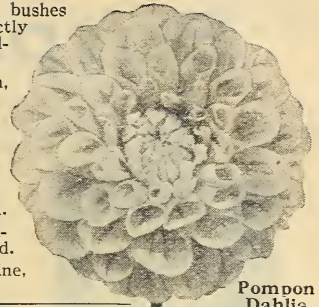

8273 ADRIENNE A first-class rich crimson-scarlet flower of perfect form, slightly tipped yellow. 25 cts. each; 3 for 70 cts.; 6 for \$1.30, postpaid.

8274 BACCHUS One of the best. Color bright crimson-scarlet. A small, neat, and compact flower, blooming profusely all during the fall until frost. 25 cts. each; 3 for 70 cts.; 6 for \$1.30, postpaid.

8285 NEATNESS Pale salmon with cream center. One of the most beautiful and distinct varieties in this type with neat little flowers composed of regularly arranged petals. 25 cts. each; 3 for 70 cts.; 6 for \$1.30, postpaid.

8288 QUEEN OF WHITES A free-flowering pure white; of excellent free-blooming habit. 25 cts. each; 3 for 70 cts.; 6 for \$1.30, postpaid.

8289 ROSA A beautiful shade of deep rose. A great little flower of fine, regular shape. 25 cts. each; 3 for 70 cts.; 6 for \$1.30, postpaid.

Pompon Dahlia Neatness

COLLALETTE DAHLIAS

As the name indicates, the Collalette Dahlias differ from all other types by having a distinct and attractive collar which appears in the form of irregularly arranged petals of a distinct color between the yellow center and the outer ray petals. Collalette Dahlias have become immensely popular within recent years and this is not to be wondered at when we consider their striking beauty and their usefulness for all kinds of decoration. It is the contrast of colors found in these flowers which never fails to attract attention, such as scarlet petals encircling a canary-yellow collar, deep crimson petals with a white collar, and other striking combinations.

Maurice Revoire

8085 FROGMORE Orange-scarlet tipped with yellow. The collar petals are rich canary-yellow, forming a sharp but harmonious contrast. 35 cts. each; 3 for 90 cts.; 6 for \$1.70, postpaid.

8087 MAURICE REVOIRE Deep crimson with large white collar. 35 cts. each; 3 for 90 cts.; 6 for \$1.70, postpaid.

8091 QUEEN ANNE A most distinct variety. The ray petals are glowing scarlet tipped with yellow; the collar petals are a rich pure yellow. 25 cts. each; 3 for 70 cts.; 6 for \$1.30, postpaid.

8094 COLLALETTE MIXED A grand mixture of all the finest Collalette Dahlias with many striking color combinations in contrasting shades. 3 for 50 cts.; 6 for 95 cts.; 12 for \$1.75, postpaid.

STAR DAHLIAS

Fashion seems to have decreed that these single-flowered Star Dahlias shall be considered one of the most beautiful for all purposes. The plants make a strong but dwarf growth, usually measuring not more than 2 feet in height. They are bushy and look well if planted as borders. The flowers measure between 2 and 3 inches across and are composed of a few rows of broad petals with a small yellow center. They are borne with the greatest freedom. The long stems hold the flowers above the foliage, adding greatly to their superior display qualities. The stems are long enough for cutting and the blooms make most attractive bunches.

8294 CRAWLEY STAR This resembles a large crimson Cosmos. Blooms very profusely and continuously. 50 cts. each; 3 for \$1.30, postpaid.

8296 NORTHERN STAR A distinct shade of deep satiny rose. The habit of the plant is superb and the flowers are produced in the greatest profusion throughout the fall. 75 cts. each; 3 for \$1.90; 6 for \$3.65, postpaid.

8297 ORANGE STAR A beautiful shade of deep orange. The bushes are dwarf and compact and the blooms are borne with the greatest freedom above the foliage. 75 cts. each; 3 for \$1.90; 6 for \$3.65, postpaid.

8299 WHITE STAR A magnificent miniature star-flowered variety; extremely free. Unsurpassed for cutting; pure white petals surrounding an orange-yellow center. 50 cts. each; 3 for \$1.30; 6 for \$2.45, postpaid.

White Star

8292 TRIAL GROUND MIXTURE

We are yearly testing in our trial grounds on FORDHOOK FARMS a large number of varieties, including the very finest and newest. This mixture includes a large number of these, as well as other standard varieties, all grown on our FORDHOOK FARMS in Pennsylvania. 3 for 49 cts.; 6 for 70 cts.; 12 for \$1.30, postpaid.

BURPEE'S SPECIALTIES IN DAHLIAS AND GLADIOLI

Dahlias have always been a specialty with us and within recent years we have made special efforts to include in our collection the very latest and finest varieties in all the different classes of Dahlias.

Burpee's Specialties in Dahlias and Gladioli is an interesting little sixteen-page book which offers a complete list of all the most popular Dahlias of recent introduction, as well as those standard sorts which have proven to be favorites with the Dahlia lover. It also contains a list of Gladioli, including twelve new Burpee Gladioli Seedlings which we are offering for the first time this year.

This little booklet will be mailed to you free of charge. Just write a postal card or ask for a copy of our Special Dahlia Catalog on your order.

Burpee's Gladioli

Niagara

Every flower-garden, however small, should contain some Gladioli. They are unusually well fitted as a flower for all purposes. They make attractive displays, either planted in masses or set in bunches of three or four amid beds of perennials and annuals. As cut-flowers they last remarkably long in water and develop perfect flowers from every bud on the spike. Plant the bulbs after the trees are out in leaf.

8303 America A beautiful lavender-pink. The flowers are of largest size and are borne on strong spikes 2 to 3 feet long. The spike is closely set with the beautiful blooms, which all face one way. This is a most popular variety for the garden and for cutting. 3 for 25 cts.; 12 for 85 cts.; 25 for \$1.60; 50 for \$3.00; 100 for \$5.50, postpaid.

8307 Baron Hulot The flowers are of good size and are closely set on a strong spike. They are an attractive and rare dark violet color. **BARON HULOT** makes a graceful and strong spike. 3 for 50 cts.; 12 for \$1.75; 25 for \$3.25, postpaid.

8312 Goliath The flowers are large and of excellent form. They are set closely on the spikes. The color is a rich dark purple. 3 for 30 cts.; 12 for \$1.00; 25 for \$1.75; 50 for \$3.25, postpaid.

8314 Halley This is one of the earliest of all Gladioli to come into bloom. The flowers are well formed and of magnificent size. The color is a delicate rose with a white blotch. 3 for 30 cts.; 12 for \$1.00; 25 for \$1.75; 50 for \$3.25; 100 for \$6.00, postpaid.

8320 Kunderdi Glory This attractive variety has large flowers and each petal is exquisitely ruffled and fluted. The color is a fine cream-pink with a neat crimson stripe. 3 for 30 cts.; 12 for \$1.00; 25 for \$1.75, postpaid.

8325 Mrs. Francis King Surely a stately flower with large blooms of a pleasing light scarlet. It is a strong grower and blooms profusely. 3 for 25 cts.; 12 for 85 cts.; 25 for \$1.60; 50 for \$3.00; 100 for \$5.50, postpaid.

8327 Mrs. Frank Pendleton, Jr. A strong-growing variety with large, well-expanded flowers of a lovely salmon-pink, having blood-red blotches in the throat. 3 for 35 cts.; 12 for \$1.20; 25 for \$2.10; 50 for \$4.00; 100 for \$7.50, postpaid.

8331 Mrs. Watt This is an unusual color among the Gladioli—a clear wine-red shade. The flowers are large and bold. They are closely set on a short stocky spike. 3 for 35 cts.; 12 for \$1.20; 25 for \$2.10; 50 for \$4.00; 100 for \$7.50, postpaid.

8336 Niagara A delightful cream shade, blending to canary-yellow on the lower petals. It is a strong grower, with extra-large flowers. 3 for 35 cts.; 12 for \$1.20; 25 for \$2.10; 50 for \$4.00; 100 for \$7.50, postpaid.

8339 Peace Beautiful white flowers with pale lilac penciling on the two lower petals. An exceptionally fine flower. 3 for 35 cts.; 12 for \$1.20; 25 for \$2.10; 50 for \$4.00; 100 for \$7.50, postpaid.

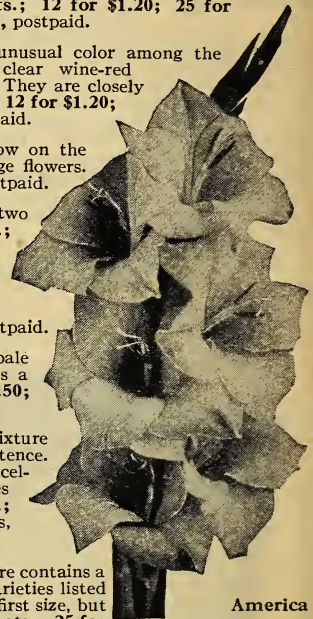

8341 Princepine Rich carmine-red flowers with deep shadings in the throat and contrasting white blotch on the lower petals. **PRINCEPINE** makes a very attractive bunch. 3 for 35 cts.; 12 for \$1.20; 25 for \$2.10; 50 for \$4.00; 100 for \$7.50, postpaid.

8345 Schwaben This excellent variety has flowers of a delicate pale yellow with a dark blotch in the center. It is a magnificent grower with large flowers and long spikes. 3 for 45 cts.; 12 for \$1.50; 25 for \$2.85; 50 for \$5.50; 100 for \$10.50, postpaid.

8360 Gladioli, Mixed **FIRST SIZE BULBS** This fine mixture includes the very best Gladioli in existence. It is a well-composed blend, taking in all the above varieties and many other excellent colors. We can highly recommend this mixture to anyone who loves Gladioli but does not care enough to plant the individual varieties. 3 for 20 cts.; 12 for 65 cts.; 25 for \$1.15; 50 for \$2.10; 100 for \$4.00, postpaid. By express, 100 for \$3.00; 1000 for \$28.00.

8361 Gladioli, Mixed **SECOND SIZE BULBS** This mixture contains a complete range of colors of all the varieties listed above and many other good ones. The bulbs are somewhat smaller than the first size, but they will all bloom the first summer if planted early. 3 for 15 cts.; 12 for 50 cts.; 25 for 90 cts.; 50 for \$1.65; 100 for \$3.00, postpaid. By express, 100 for \$2.50; 1000 for \$23.00.

8364 Light Shades, Mixed Many planters prefer a mixture containing only the lighter shades of Gladioli and we grow, therefore, a superb blend of the best varieties, running through various shades of pink, rose, salmon, lavender-pink, yellow, and white. We are sure this mixture will please everyone who prefers the delicate shades. 3 for 25 cts.; 12 for 85 cts.; 25 for \$1.60; 50 for \$3.00; 100 for \$5.50, postpaid. By express, 100 for \$5.00; 1000 for \$45.00

America

Collection of Gladioli This assortment includes one large size bulb each of the above 12 named Gladioli. Each bulb in this assortment is distinctly labeled. **\$1.25** Mailed to any address, postpaid, for **Order Collection 9830**

8310 New Gladiolus—Fordhook Pink

FORDHOOK PINK is an extremely early bloomer of sturdy habit, producing its flowers on stiff stems which are always erect and straight. The flowers are a most pleasing shade of clear pink, shading softer in the throat, where we find a small creamy white blotch. It is, however, almost a self color throughout. The flowers are of great substance, averaging four and one-quarter inches in diameter, and last well when cut.

FORDHOOK PINK is distinct and outstanding from all others in this section. The flowers have a sparkling and glistening lustre. The blooms are well placed and open widely, reflexing very slightly as they age. The flower stems are long and strong. The blooms are closely set on the stem and we have counted as many as ten flowers open at one time. \$1.00 each; 12 for \$9.00, postpaid.

8368 Burpee's Fordhook Hybrids

Burpee's Fordhook Gladioli are truly the finest Gladioli anyone could secure anywhere. They range in a wonderful assortment of exquisite colors and represent almost every imaginable shade of creamy white, pink, salmon-pink, blush, rose, lavender-pink, bright red, scarlet, and crimson. Many of the flowers are self colored; others have large or small blotches of contrasting colors in the throat. Again others are delicately marked or penciled in the throat. Some show fine picotee edges or a rich shade of pink or red, gradually changing to pure white in the throat. Fantasticly striped and blotched flowers are also represented. The "pastel" or art shades, in wonderful combinations of rose, pink, salmon, and amber, deserve particular mention.

Fordhook Hybrid Gladioli have created a sensation. They have set the Gladiolus world talking and marveling at their unequalled beauty.

Awarded the Silver Medal—the highest possible award—by the Pennsylvania Horticultural Society, 1914, and Certificate of Merit by the Ohio Gladiolus Society, 1915.

3 for 25 cts.; 6 for 45 cts.; 12 for 80 cts.; 25 for \$1.50; 50 for \$2.75; 100 for \$5.00, postpaid.

By express, at purchaser's expense: 100 for \$4.50; 1000 for \$42.00; 3000 for \$115.00.

Burpee's New Primulinus Hybrids This species of Gladiolus has received much attention during recent years and has created a sensation wherever it was exhibited. The blooms are distinct in their pleasing form and arrangement. Although the individual flowers are not large, they carry an air of grace altogether different from the more or less stiff effect of other Gladioli. Furthermore, these hybrids produce three and sometimes four fully developed flower-spikes from a single bulb planted in the spring.

8371 Adorable Beautiful white flowers with a delicate flush of pink in the lower petals. It is a strong grower, producing three flower-spikes to one bulb. 25 cts. each; 3 for 65 cts.; 12 for \$2.00; 25 for \$3.50; 50 for \$6.50; 100 for \$12.50, postpaid.

8376 Fire Queen Dazzling orange-vermilion with delicate yellow in the throat. A wonderful bedding variety, blooming in midseason. 25 cts. each; 3 for 65 cts.; 12 for \$2.00; 25 for \$3.50; 50 for \$6.50, postpaid.

8382 Madam Wentholz A very early and continuous bloomer. Clear, true yellow flowers artistically displayed on a good stem. Three or four flower-spikes to one bulb. 25 cts. each; 3 for 65 cts.; 12 for \$2.00; 25 for \$3.50; 50 for \$6.50, postpaid.

8384 Maiden's Blush Dainty, well-shaped flowers of a beautiful shell-pink. The stems are slender but wiry and strong. This is an extra-early bloomer. 25 cts. each; 3 for 65 cts.; 12 for \$2.00; 25 for \$3.50; 50 for \$6.50; 100 for \$12.50, postpaid.

8389 Orange Beauty A brilliant orange of startling appeal. The flowers are carried on long stems, set apart on the spike and of medium size. An early bloomer. 25 cts. each; 3 for 65 cts.; 12 for \$2.00; 25 for \$3.50; 50 for \$6.50; 100 for \$12.50, postpaid.

8392 Queen Victoria The petals are glittering bright pink shading into silvery rose in the throat. Flowers of largest size and wonderfully shaped. Blooms very early and produces from four to five stalks to each bulb. 25 cts. each; 3 for 65 cts.; 12 for \$2.00; 25 for \$3.50; 50 for \$6.50; 100 for \$12.50, postpaid.

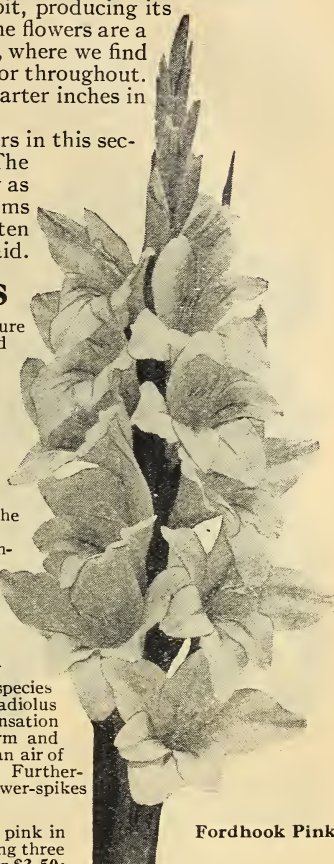

Collection of Primulinus Gladioli

Fordhook Pink

Maiden's Blush

Burpee's Cannas

Cannas belong to our most showy plants. They thrive under almost any conditions and will grow into stately and attractive plants without much care. If properly grown, they will reach a beauty and make a display which can hardly be equaled by any other bulb. In order to grow Cannas to perfection, the soil should be prepared deeply and made very rich. Well-rotted stable manure is best suited for this purpose, as it will not only provide plenty of plant food, but will also hold the moisture. Cannas prefer plenty of water, particularly at the time of blooming. The tubers should be planted deeply about 1½ feet apart as soon as all danger of frost is over. They should be kept free of weeds, and will soon make a regular thicket of foliage. By midseason the plants will be crowned with their large and beautiful flower-heads.

Fiery Cross

8410 Burpee's Fiery Cross

The most gorgeous Giant Red Canna ever offered. First introduced by Burpee in 1918. We could think of no better name than **FIERY CROSS** for this flaming red Canna. **FIERY CROSS** Canna is in a class by itself.

Never before has there been a Canna of equal merit offered to the flower-lovers of this country. We feel sure that **FIERY CROSS** will fill a place in the Canna beds that has never yet been attained by any red Canna. The flower-heads are 15 to 18 inches in length and carry from 15 to 20 open flowers of a **vivid scarlet** shading to crimson. So firm are the glistening petals that they do not wilt in the brightest sun. The foliage is a beautiful lustrous blue-green. It is entirely free from blight and diseases. Flowers continuously from the latter part of June until frost. The foliage grows to a height of 4 to 4½ feet, with the flower-stems appearing above the foliage a foot to 18 inches taller, making a total height of from 5 to 6 feet. 35 cts. each; 3 for 90 cts.; 6 for \$1.70; 12 for \$3.25, postpaid.

8444 City of Portland

This is the **best pink** Canna in existence. The flowers are of largest size, borne on heavy trusses, and bloom continuously. The color is a glowing shade of pink, much brighter and clearer than any other pink variety. It is a profuse bloomer and one of the best varieties for bedding. The foliage is substantial and strong, of rich green color and free from defects. It makes a wonderful display in beds or borders. Height, 3½ feet. 35 cts. each; 3 for 90 cts.; 6 for \$1.70; 12 for \$3.25, postpaid.

8428 Golden Gate

This is truly one of the finest Cannas in existence. The habit of the plant is strong and vigorous, growing 4 feet tall. The blooms are borne in the greatest profusion and the flower trusses are of enormous size, while the individual blooms are also very large. The buds open as a pure gold and as the flowers expand they become richly rayed with orange-crimson. A bed of **GOLDEN GATE** is a magnificent sight. 15 cts. each; 3 for 40 cts.; 6 for 65 cts.; 12 for \$1.20; 25 for \$2.10, postpaid.

King Humbert

A very well-known variety with bronze foliage and orange-scarlet flowers

8425 Cheerfulness

This is a most attractive variety, with **deep orange** flowers having a golden border and carmine markings in the throat. The plants grow vigorously and produce their magnificent trusses of flowers almost continuously. The foliage is a rich green, and forms a sharp contrast to the bright and gayly colored flowers. It is a fine grower, with an average height of 3½ feet, and looks its best if planted in large beds or borders. 25 cts. each; 3 for 65 cts.; 6 for \$1.15; 12 for \$2.20; 25 for \$4.20, postpaid.

8421 Eureka

The **best white** Canna for all purposes. The large substantial flowers are produced freely and continuously on heavy, upright flower-trusses. A remarkably strong and healthy plant, with attractive bright green foliage, making a fine background to the white flowers. Height, 4 to 5 feet. 35 cts. each; 3 for 90 cts.; 6 for \$1.70; 12 for \$3.25, postpaid.

8478 King Humbert

This is the grandest Canna ever offered. The large, heart-shaped leaves are purple-madder-brown over bronze. The plants are crowned with immense heads of orchid-like flowers measuring from 6 to 8 inches across; velvety **orange-scarlet**, rose-tinted and margined at the base; a combination of leaf and blossom incomparably beautiful; 4 to 5 feet high. It is used extensively for the center of large beds. 25 cts. each; 3 for 65 cts.; 6 for \$1.15; 12 for \$2.20, postpaid.

Six Excellent Cannas This collection contains one strong division each of the above 6 beautiful Cannas. These will give a most magnificent display, as they are all of the most improved type, with immense trusses of large flowers. We will send this collection of 6 excellent Cannas (value, \$1.70) by parcel post for **\$1.35**

Order Collection 9843

Shades of Red—Green Foliage

8405 DRAGON A remarkably rich color, best described as deep ox-blood. Robust and free blooming. Height, 3 feet. 25 cts. each; 3 for 65 cts.; 6 for \$1.15; 12 for \$2.20, postpaid.

8408 FANAL An intense fiery vermilion-red of outstanding beauty. An ideal vigorous grower, producing a wealth of rich foliage crowned with large trusses of flowers. Height, 4 feet. 20 cts. each; 3 for 55 cts.; 6 for \$1.00; 12 for \$1.80, postpaid.

8415 METEOR A magnificent bedding variety with massive, erect flower-trusses of rich blood-red color. A strong grower and profuse bloomer. Height, 5 feet. 25 cts. each; 3 for 65 cts.; 6 for \$1.15; 12 for \$2.20, postpaid.

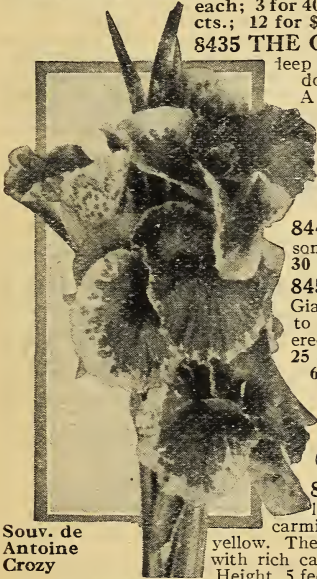

8419 WINTZER'S COLOSSAL Without doubt the largest-flowered Canna to date. The color is a striking vivid scarlet that retains its brilliancy over a long period. Height, 5 feet. 25 cts. each; 3 for 65 cts.; 6 for \$1.15; 12 for \$2.20; 25 for \$4.20, postpaid.

Yellow and Orange— Green Foliage

8437 YELLOW KING HUMBERT A marvelous variety bearing large trusses of beautiful yellow flowers in the greatest profusion from early in the season until way late in the fall. Of strong habit and a free bloomer. The foliage is rich deep green contrasting sharply with the fine flowers. 15 cts. each; 3 for 40 cts.; 6 for 65 cts.; 12 for \$1.20; 25 for \$2.10, postpaid.

8433 ORANGE BEDDER Particularly attractive bright orange, with just enough scarlet suffusion to intensify the whole to a dazzling mass. Undoubtedly the best orange in existence. Height, 4 feet. 15 cts. each; 3 for 40 cts.; 6 for 65 cts.; 12 for \$1.20, postpaid.

8435 THE GEM Color a deep cream or straw-yellow dotted with pale carmine. A vigorous and free-flowering variety with immense trusses of flowers borne above the foliage. Height, 4½ feet. 20 cts. each; 3 for 55 cts.; 6 for \$1.00; 12 for \$1.80, postpaid.

BEARDED OR FLAG IRIS (Iris Germanica and Others)

Under this heading are grouped together a number of tall European Iris varieties and their hybrids. These do well under varied conditions of soil and climate. They thrive in moist or dry soil, in the bright sun or in semi-shaded positions. The plants make a strong growth and produce large and showy blooms, beginning with the month of May. A mass of BEARDED IRIS is a magnificent sight. The plants are perfectly hardy, but where the winter is severe, a covering of leaves or straw is advisable.

The tubers may be planted either in the spring or autumn, placing them one foot each way and covering them an inch or two. The flowers are borne on long strong stems above the foliage and are well suited for cutting. The plants increase in beauty and size from year to year.

8500 AUREA This is a very free-flowering variety of strong and sturdy growth. The flowers are large and well formed. They are clear rich yellow—a color which combines well with the blue shades. Grows 2 feet tall and blooms profusely for a long time. 15 cts. each; 6 for 75 cts.; 12 for \$1.35; 50 for \$5.00; 100 for \$9.50, postpaid.

8501 BEETHOVEN A magnificent flower with large standards of a rich blue and deep royal-purple falls. It blooms freely and continuously. The plants are strong and vigorous, growing 2 feet tall. 15 cts. each; 6 for 75 cts.; 12 for \$1.35; 50 for \$5.00; 100 for \$9.50, postpaid.

8502 CELESTE The large flowers are a rich satiny blue, standing out well from the deep green foliage. One of the best late varieties, growing 30 inches tall and blooming freely and continuously. 15 cts. each; 6 for 75 cts.; 12 for \$1.35; 50 for \$5.00; 100 for \$9.50, postpaid.

8506 DARIUS A most popular variety with light yellow standard and falls of Pansy-purple with a broad border of gold. The strong sturdy plants are very free bloomers. 15 cts. each; 6 for 75 cts.; 12 for \$1.35; 50 for \$5.00; 100 for \$9.50, postpaid.

8509 FLAVESCENS A quaint combination of a soft yellow throat veined chocolate. This is a midseason variety, blooming very freely. 15 cts. each; 6 for 75 cts.; 12 for \$1.35; 50 for \$5.00; 100 for \$9.50, postpaid.

8511 FLORENTINA ALBA Large, perfectly white flowers produced in the greatest profusion from early in the season until late. Fragrant. 15 cts. each; 6 for 75 cts.; 12 for \$1.35; 50 for \$5.00; 100 for \$9.50, postpaid.

8515 KOCHII The buds of this variety are almost black, opening to a dark claret-purple. An early and continuous blooming variety, growing 2 feet in height. The spikes make excellent cut-flowers, lasting more than a week in water. 15 cts. each; 6 for 75 cts.; 12 for \$1.35; 50 for \$5.00; 100 for \$9.50, postpaid.

8516 LA TENDRESSE The flowers are of a uniform Ageratum-blue; of large size and very pretty. LA TENDRESSE is particularly attractive. 15 cts. each; 6 for 75 cts.; 12 for \$1.35; 50 for \$5.00; 100 for \$9.50, postpaid.

8517 MADAME CHEREAU Among Bearded Iris this is an outstanding variety. The flowers are white and have a broad edge of penciled blue. A great favorite with many gardeners. 15 cts. each; 6 for 75 cts.; 12 for \$1.35; 50 for \$5.00; 100 for \$9.50, postpaid.

8518 MRS. H. DARWIN A midseason variety, growing 2 feet tall and having a pure white standard with violet-veined falls. 15 cts. each; 6 for 75 cts.; 12 for \$1.35; 50 for \$5.00; 100 for \$9.50, postpaid.

8522 PALLIDA DALMATICA The king of all Iris, with uniformly large flowers borne on stems 4 feet tall. The flowers are an exquisite shade of soft lavender. They are large and bold. 15 cts. each; 6 for 75 cts.; 12 for \$1.35; 50 for \$5.00; 100 for \$9.50, postpaid.

8523 QUEEN OF THE GYPSIES A quaint combination of a light bronze standard and purple-red falls. The plants make a strong and vigorous growth and bloom very freely. The lover of rare shades will be delighted with this. 15 cts. each; 6 for 75 cts.; 12 for \$1.35; 50 for \$5.00; 100 for \$9.50, postpaid.

8524 QUEEN OF THE MAY Beautiful soft rose-lilac. This is almost a pink and quite a rare color among the Bearded Iris. A strong grower, reaching a height of 3 feet. 15 cts. each; 6 for 75 cts.; 12 for \$1.35; 50 for \$5.00; 100 for \$9.50, postpaid.

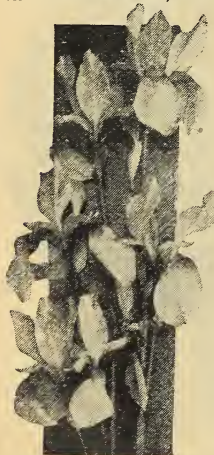

8525 RHEIN NIXE White standard and plum-purple falls, which have a broad border of white; 3 feet tall and blooms very freely. 15 cts. each; 6 for 75 cts.; 12 for \$1.35; 50 for \$5.00; 100 for \$9.50, postpaid.

8526 SPECIOSA Rosy claret standard and claret-red falls. A distinct and beautiful variety, growing 3 feet tall. The plants make a sturdy growth and bloom freely. 15 cts. each; 6 for 75 cts.; 12 for \$1.35; 50 for \$5.00; 100 for \$9.50, postpaid.

8529 BEARDED IRIS MIXED A fine mixture of all the above and many other worthwhile varieties. 6 for 40 cts.; 12 for 75 cts.; 50 for \$2.75; 100 for \$5.00, postpaid.

9851 Collection of Bearded Iris

This collection contains one strong root each of the 15 separate varieties of Bearded Iris listed on this page. Purchased separately these would cost \$2.25. The collection will be mailed to you, postpaid, for **\$1.50**

Siberian Iris

SIBERIAN IRIS

The Siberian Iris is of dwarf graceful growth and lends itself well for planting in the foreground of a mixed border. It is very attractive if planted in clumps on the lawn. It is now grown widely for cut-flowers, which last a long time in water. The leaves are narrow and the flowers are borne in clusters on slender stems.

8551 BLUE KING This is a very free-blooming variety of strong growth, bearing a large number of spikes which are crowned by a cluster of clear blue flowers. Habit dwarf and compact. 20 cts. each; 6 for 95 cts.; 12 for \$1.75; 50 for \$6.30, postpaid.

8555 PURPLE The deep rich purple flowers of this fine variety contrast well with the rich green grass-like foliage. It blooms very freely and looks well mixed among perennials. 15 cts. each; 6 for 70 cts.; 12 for \$1.30; 50 for \$4.60, postpaid.

8559 SNOW QUEEN This is truly a little gem with pure snow-white flowers borne in clusters on slender stems. It combines well with either the purple or the blue. The plants are perfectly hardy. 20 cts. each; 6 for 95 cts.; 12 for \$1.75; 50 for \$6.30, postpaid.

JAPANESE IRIS

These are truly glorious flowers, of refined form and remarkable coloring. They bloom profusely during June and July and are very attractive planted along streams or ponds, where they will grow vigorously and develop their beautiful flowers to perfection. They are entirely hardy and carry magnificent flowers if planted where the soil has been well enriched with rotted stable manure. They also respond generously to a good supply of water, particularly during dry spells.

8535 DISTINCTION Large and beautiful lilac-pink flowers carried on long and strong stems. 35 cts. each; 6 for \$1.70; 12 for \$3.25, postpaid.

8537 GOLD BOUND The flowers are pure snow-white and have a large gold-banded center. A strong and sturdy grower, blooming profusely. The flowers are of immense size. Probably the most attractive of all Japanese Iris. 25 cts. each; 6 for \$1.25; 12 for \$2.00, postpaid.

8540 MOUNT HOOD There is hardly any other Japanese Iris which can surpass MOUNT HOOD in size and graceful form. The flowers are a light blue shaded with deeper blue. 25 cts. each; 6 for \$1.25; 12 for \$2.00, postpaid.

8543 PYRAMID A charming and graceful variety, with large light violet-blue flowers, delicately veined. The blooms are of excellent form and are carried on long stems. 25 cts. each; 6 for \$1.25; 12 for \$2.00, postpaid.

8544 RED RIDING HOOD This is a beautiful single Japanese Iris with large flowers of amaranth-pink veined with white. Makes a sturdy growth and blooms very freely. 30 cts. each; 6 for \$1.60; 12 for \$3.00, postpaid.

8546 T. S. WARE A combination of reddish violet veined white. The center of the flower is tinted with yellow. 25 cts. each; 6 for \$1.25; 12 for \$2.00, postpaid.

8547 VICTOR Large white flowers veined purple, the center being a rich violet-purple. The fine double flowers are very large and are borne in the greatest profusion. 35 cts. each; 6 for \$1.70; 12 for \$3.25, postpaid.

8548 SEEDLINGS OF JAPANESE IRIS The finest mixture of Japanese Iris that has ever been offered, including some beautiful and rare shades. 6 for 50 cts.; 12 for 90 cts.; 50 for \$3.25; 100 for \$6.00, postpaid.

The Japanese Iris are admirably adapted for planting along streams or ponds

9875 Phlox Collection

This fine collection contains one root each of the 9 varieties of Hardy Phlox listed above and will be delivered to you, postpaid, for **\$1.25**

LILIES

Lilies are of the easiest culture, and the varieties listed below are all perfectly hardy. After once being planted, they will increase in beauty and size with each succeeding year. Lilies are the symbol of beauty. They do best on a well-drained sandy soil, which should be fairly rich and the plants should be given plenty of water during periods of drought. In order to grow Lilies to large size the bulbs should be planted deeply. Write for a free copy of the Burpee Leaflet, "HOW TO GROW FLOWERS FROM BULBS."

Golden Banded Lily of Japan

8603 CANADIAN LILY (*Canadense*)

This is also known as Meadow Lily or Wild Yellow Lily. The bright orange-yellow flowers are spotted with purplish black and bloom profusely during late June and July. The anthers are rich red. The blooms are borne in clusters, each flower measuring 2 to 3 inches in length. 35 cts. each; 3 for 90 cts.; 6 for \$1.70, postpaid.

8604 CANDLESTICK LILY (*Dauricum*)

These grow 2 to 3 feet high, bearing the flowers in clusters of from 2 to 5, each flower measuring from 3 to 5 inches in diameter. The blooms are a rich orange-red, slightly spotted with purplish black and tinged yellow in the center. Blooms during June and early July. 30 cts. each; 3 for 85 cts.; 6 for \$1.60; 12 for \$3.00, postpaid.

8607 CRIMSON SHOW LILY (*Speciosum Melpomene*)

The flowers are of a rich carmine-crimson, spotted with blood-red. The flowers are of a rich carmine-crimson, spotted with blood-red Lily of strong growth and bears its flowers in clusters of from 2 to 10. The individual flowers measure 4 to 6 inches in diameter; and 2 to 4 feet tall. Wonderfully fragrant and blooming during late August and September. 40 cts. each; 3 for \$1.10; 6 for \$2.00, postpaid.

8610 DOUBLE TIGER LILY (*Tigrinum flore pleno*) This is the only desirable double-flowered Lily in cultivation. The flowers are borne in large clusters. They are bright salmon-red with contrasting purplish black spots. Blooms during August and September. 35 cts. each; 3 for 90 cts.; 6 for \$1.70, postpaid.

8612 EASTER LILY (*Longiflorum giganteum*) This is also called the "Trumpet Lily," growing 1 to 3 feet high and bearing the beautiful pure waxy white blooms, tinged green at the base, in clusters of from 2 to 10. The anthers are yellow. The individual flowers measure 4 to 6 inches in length and are almost as broad. Delicately fragrant, blooming during July and early August. 40 cts. each; 3 for \$1.10; 6 for \$2.00, postpaid.

8616 GIANT TIGER LILY (*Tigrinum fortunei giganteum*) A well-known variety, growing 2 to 4 feet in height and bearing large clusters of bright salmon-red flowers, spotted with purplish black. The anthers are red. The blooms grow 3 to 5 inches in diameter and when well grown have as many as 15 blooms in a cluster. One of the most easily grown, hardiest, and most permanent of all Lilies. It is a native of China and Japan. Blooms during August and September. 35 cts. each; 3 for 90 cts.; 6 for \$1.70, postpaid.

8619 GOLDEN BANDED LILY OF JAPAN (*Auratum*) This is also called the "Queen of Lilies." The flowers are borne in clusters of from 2 to 15 and measure from 6 to 10 inches in diameter. They are white, spotted with crimson, and have a yellow band or midrib, extending from the throat to the very tip of each petal. Delicately fragrant; blooms during late July and August. 35 cts. each; 3 for 90 cts.; 6 for \$1.70, postpaid.

8631 ROYAL LILY (*Regale*) This is one of the most beautiful of all Lilies, combining hardness with unusual tints in the flowers. The blooms are borne in clusters and measure 4 to 6 inches in length. They are almost as broad and have a sweet fragrance. The inside of the flowers is a bright canary-yellow in the throat, shading to white toward the edges. Quite often there is a pink suffusion throughout the bloom. The outside is white, tinged with yellow at the base and has a purple midrib. Blooms during July to early August. \$1.00 each; 3 for \$2.70; 6 for \$5.00, postpaid.

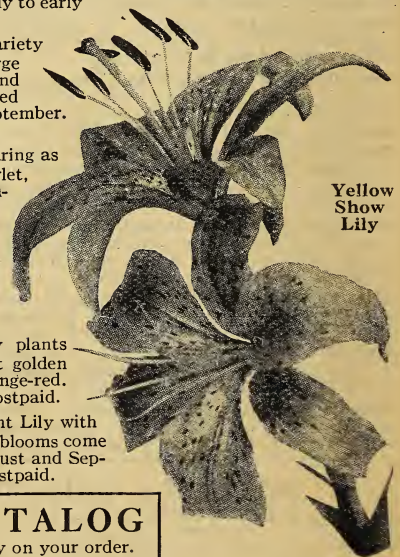

8634 SHOW LILY (*Speciosum rubrum*) An attractive variety growing 2 to 4 feet in height and bearing delicately scented and large blooms in clusters. The flowers measure 4 to 6 inches in diameter and they are white, suffused rose-pink in the center and spotted blood-red with a green stripe at the base. Blooms during late August and September. 40 cts. each; 3 for \$1.10; 6 for \$2.00; 12 for \$3.75, postpaid.

8638 SWAMP LILY (*Superbum*) A native of America, bearing as many as 40 flowers in a cluster. The color is a brilliant orange-scarlet, shaded yellow and spotted purplish brown at the base. A most magnificent and showy variety. Blooms during late July to early September. 25 cts. each; 3 for 65 cts.; 6 for \$1.15; 12 for \$2.20, postpaid.

8644 TURK'S CAP LILY (*Batemannia*) A Japanese variety, with fine large flowers borne in clusters, composed of as many as 12 flowers. They are pale orange-red or apricot, sometimes tinged with pink. Blooms during late July and August. 35 cts. each; 3 for 90 cts.; 6 for \$1.70, postpaid.

8653 YELLOW JAPANESE LILY (*Hansonii*) Stately plants from 3 to 5 feet high with large clusters of blooms. Of a bright golden yellow color, spotted with purplish brown. The anthers are orange-red. Blooms during June and early July. 70 cts. each; 3 for \$1.85, postpaid.

8654 YELLOW SHOW LILY (*Henryi*) A most magnificent Lily with bright orange-yellow flowers slightly spotted reddish brown. The blooms come in clusters of from 2 to 20 and make a beautiful display during August and September. 85 cts. each; 3 for \$2.25; 6 for \$4.25; 12 for \$8.00, postpaid.

Yellow Show Lily

BURPEE'S FALL BULB CATALOG

of Dutch Bulbs will be ready in September. Ask for a free copy on your order.

AMARYLLIS 8901 FORMOSISSIMA Desirable both for house culture in pots and for beds in the open ground in a sunny location. The Lily-like flowers are of a rich crimson-scarlet. They are easily grown and on account of their large and beautiful flowers always attract much attention. Usually the flowers are borne before any leaves appear. 30 cts. each; 3 for 85 cts.; 6 for \$1.60, postpaid.

8903 JOHNSONI This is the Giant Amaryllis. The large trumpet-shaped flowers are marked by a broad white stripe extending to the base of each petal, making a very striking contrast to the deep crimson of the flower. The bulbs are easily cured and carried over winter in a dry state. It is one of the most showy of all pot plants.

Giant bulbs. 75 cts. each; 3 for \$1.90; 6 for \$3.65, postpaid.

8906 GIANT MIXED (*Hippeastrum*) Very ornamental plants, suited for the greenhouse and window garden. Easily raised for winter blooming in the house; of grand form and gorgeous colors. 45 cts. each; 3 for \$1.10; 6 for \$2.15; 12 for \$4.00, postpaid.

8912 APIOS TUBEROSA *Tuberous - Rooted Wistaria.* An excellent climber, growing 4 to 8 feet tall. The flowers are fragrant, of a purplish chocolate-brown color, and not unlike Wistaria. They bloom profusely during July and August. 15 cts. each; 6 for 65 cts., postpaid.

TUBEROUS-ROOTED BEGONIAS The TUBEROUS-

ROOTED BEGONIA is a very desirable plant, either for window, conservatory, or outdoor planting; it grows to perfection in well-shaded and sheltered places. As pot-plants for the conservatory or veranda, they are unrivaled.

8833 DOUBLE MIXED A complete mixture of the five colors. 40 cts. each; 6 for \$2.00; 12 for \$3.75, postpaid.

8836 FRILLED AND CRESTED, MIXED The flowers of this beautiful type are attractively frilled and ruffled on the edges of the petals. A magnificent plant for the house. 40 cts. each; 3 for \$1.10; 6 for \$2.00; 12 for \$3.75, postpaid.

CALADIUM 8914 ESCULENTUM The well-known *Elephant's Ear*. Effective as single plants or in masses. Prefers a warm rich soil and plenty of moisture; 3 feet high. 30 cts. each; 6 for \$1.60; 12 for \$3.00, postpaid.

8915 FANCY-LEAVED See illustration. Superbly ornamental foliage plants for greenhouse, conservatory, window-boxes, or for planting outdoors in a sheltered and shaded location. The leaves show a remarkable range of colors in beautiful variegation. 45 cts. each; 3 for \$1.10; 6 for \$2.15; 12 for \$4.00, postpaid.

Fancy-Leaved Caladium

A remarkably pretty foliage plant for pot-culture

CALLA 8919 ETHIOPICA This is the ever-popular and well-known White Calla. Easy of culture, its wonderfully beautiful pure white blossoms are very pretty as pot-plants or for cut-flowers. Suitable for outdoor culture in warm sections only. Also known as Lily of the Nile. 45 cts. each; 3 for \$1.10; 6 for \$2.15; 12 for \$4.00, postpaid.

8918 ELLIOTTIANA (Yellow Calla) Beautiful pure golden yellow flowers, 4 to 5 inches broad. The leaves are attractively marked with white spots. Excellent as a pot-plant. 45 cts. each; 3 for \$1.10; 6 for \$2.15; 12 for \$4.00, postpaid.

8922 CINNAMON VINE (*Dioscorea batatas*) Hardy climber with dark green foliage, and bearing a profusion of small white flowers of delicate fragrance. A very desirable, rapid-growing vine for porches and trellises. Grows to perfection in warm sandy soil. 15 cts. each; 6 for 65 cts.; 12 for \$1.20; 50 for \$4.00, postpaid.

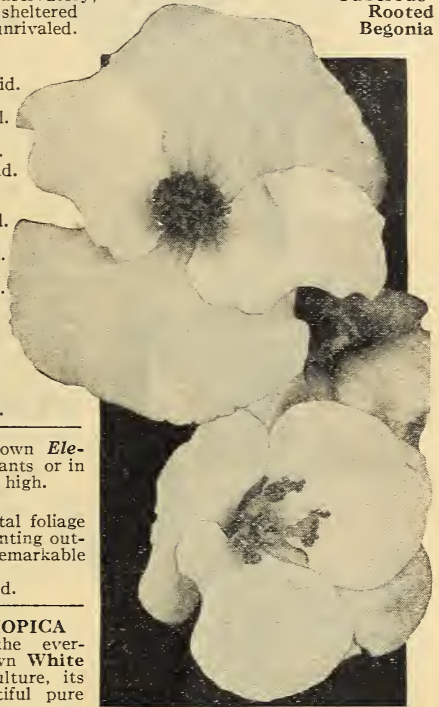

8924 EVENING STAR (*Cooperia pedunculata*) This is a tender plant looking somewhat like the Fairy Lily, but begins to open in the evening, remaining opened until the petals fall. The flowers have a delicate fragrance and measure about 2 inches across. They are waxy white tinged with red on the outside; easily grown and very showy. Blooms from June until September. 10 cts. each; 12 for 85 cts.; 100 for \$5.50, postpaid.

Amaryllis—Johnsoni

Amaryllis is a wonderful pot-plant

Tuberous-Rooted Begonia

FAIRY LILIES (*Zephyranthes*) They are easily grown, producing plentifully all summer the beautiful Lily-like flowers. The best way is to plant several bulbs in a box or flower-pot, as they can then be taken into the cellar during winter. They can be planted also in the open ground in the spring and lifted in the fall, in the same manner as *Gladioli*.

8926 ROSE The large flowers are star-shaped and are soft rose-pink. Most attractive in a straight border or in masses. They look very attractive grown in pots. 25 cts. each; 6 for \$1.15; 12 for \$2.20, postpaid.

8928 WHITE (*Candida*) Pure white, Lily-like flowers. The flowers measure 2 inches across; 8 inches high. A charming companion to the variety *Rose* listed above. 15 cts. each; 6 for 70 cts.; 12 for \$1.30, postpaid.

FUNKIA 8930 SUBCORDATA (*True Day Lily*)

See illustration. The beautiful flowers are large and pure white. The plants are perfectly hardy and well suited for borders. The blooms are very fragrant. 30 cts. each; 3 for 85 cts.; 6 for \$1.60; 12 for \$3.00, postpaid.

8933 UNDULATA VARIEGATA (*Variegated Day Lily*) Attractive green leaves with a fine white border. Light lilac flowers during August; 2 feet tall. 25 cts. each; 3 for 65 cts.; 6 for \$1.15; 12 for \$2.20, postpaid.

GLOXINIAS This beautiful tropical flower is easily grown for flowering in pots during the summer. The flowers are rich and varied as to color, and always call forth the admiration of visitors to FORDHOOK FARMS during the late summer months. Plants from these large size bulbs will come into bloom more quickly than from seed.

8863 QUEEN ALEXANDRA Pure white flowers of the largest size, profusely borne in clusters.

8867 SCARLET, WHITE BORDER A harmonious combination of rich scarlet with a broad white border.

8859 KING GEORGE V Enormous flowers of dazzling red. Blooms very freely.

8854 DUCHESS OF YORK Purple with white border. A striking combination.

8865 READING PURPLE Pure purple; of velvety texture.

8872 WHITE, PURPLE BORDER A most admirable variety.

Any of the above: 50 cts. each; 6 for \$2.45; 12 for \$4.50, postpaid.

8875 MIXED Contains the above and many other good varieties. 45 cts. each; 3 for \$1.10; 6 for \$2.15; 12 for \$4.00, postpaid.

HEMEROCALLIS 8941 FLAVA (*Lemon Lily*) Deep lemon-yellow flowers, blooming most profusely all during the months of June and July; 2 to 3 feet high. 25 cts. each; 3 for 65 cts.; 6 for \$1.15; 12 for \$2.20, postpaid.

8942 FLORHAM Rich golden yellow flowers during summer; 3 to 4 feet tall. 25 cts. each; 6 for \$1.15; 12 for \$2.20, postpaid.

8946 KWANSO fl. pl. This double orange Lily has large flowers, produced in clusters on top of stately stems. It blooms considerably longer than the single varieties. 25 cts. each; 3 for 65 cts.; 6 for \$1.15; 12 for \$2.20, delivered.

8947 HYACINTHUS CANDICANS A stately bulbous plant, with large, Yucca-like leaves, growing 4 feet high. The flowers are pure white, pendent on long, whip-like stalks; strong bulbs will produce two or more spikes; the flowers number from 20 to 60 on each spike. The appearance is more like giant *Snowdrops* than *Hyacinths*. For distant effect it vies with *Yucca filamentosa*. At FORDHOOK the plant is perfectly hardy, and grows stronger each year. 25 cts. each; 3 for 65 cts.; 6 for \$1.15; 12 for \$2.20, postpaid.

8949 ISMENE

CALATHINA Beautiful Amaryllis-like flowers of snowy whiteness and delightful fragrance, each bulb producing in 4 to 6 weeks after planting a flower-stem crowned with a cluster of blooms. Suitable for pot-culture or grown in the garden. 25 cts. each; 3 for 65 cts.; 6 for \$1.15; 12 for \$2.20, postpaid.

Gloxinia
Duchess of
York

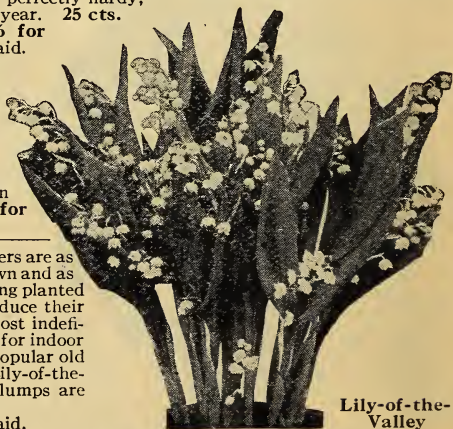

Hemerocallis
Florham

producing in 4 to 6 weeks after planting a flower-stem crowned with a cluster of blooms. Suitable for pot-culture or grown in the garden. 25 cts. each; 3 for 65 cts.; 6 for \$1.15; 12 for \$2.20, postpaid.

8955 LILY-OF-THE-VALLEY Few flowers are as well known and as much appreciated as the LILY-OF-THE-VALLEY. After once being planted in a suitable place they will increase in number and will produce their graceful and sweetly scented blooms every spring for an almost indefinite time. The roots can also be taken up and planted in pots for indoor blooming. We offer strong, field-grown clumps of this ever-popular old favorite. These clumps must not be confused with the Lily-of-the-Valley pips that are used for forcing by florists. These clumps are intended for garden growing and will give immediate effect. 50 cts. each; 3 for \$1.30; 6 for \$2.45; 12 for \$4.50, postpaid.

Funkia Subcordata

Lily-of-the-
Valley

8961 MADEIRA VINE (*Boussingaultia*) A rapid-growing climber, reaching 10 to 20 feet in a single season, bearing graceful racemes of fragrant white flowers. Of great value for covering porches and arbors. The roots have to be taken up in the fall as they cannot endure frost. 15 cts. each; 6 for 65 cts.; 12 for \$1.20, postpaid.

8963 MONTBRETIAS MIXED Most popular for cut-flowers. The blooms are very showy, coming in shades of red, orange, and yellow. One of our most graceful cut-flowers. They should be grown in masses or clumps, blooming from midsummer until frost. 3 for 25 cts.; 12 for 80 cts., postpaid.

OXALIS They are desirable for borders, pot culture, and for hanging baskets, vases, etc. Take the bulbs up before severe frost.

8970 DEPPEI Pure white flowers. Bright green leaves with a purple band.

8972 LASIANDRA Rosy crimson flowers in crowded umbels. The leaves are composed of 5 to 10 oblong leaflets and look very ornamental.

8975 SHAMROCK (*Deppei Rosea*) The flowers are bright rose. Any of the above: 12 for 25 cts.; 50 for 85 cts.; 100 for \$1.60, postpaid.

PEONIES What looks prettier than a well-grown Peony plant covered with a mass of gigantic flowers? The Peony comes into bloom at that time of the year which makes it an extremely desirable flower for use in connection with our National holiday, Memorial Day. With ordinary care the plants will bear their massive double flowers in great profusion from year to year.

8701 CROWN OF GOLD The famous "Couronne d'Or." Immense, well-shaped white flowers with a crown of yellow stamens. One of the finest of all late-flowering Peonies. Blooms freely and is a splendid grower. 60 cts. each; 6 for \$2.85; 12 for \$5.50, postpaid.

8705 DUCHESSE DE NEMOURS Pure white crown with sulphur-white collar. Very fragrant, and a strong, vigorous grower of medium height. Blooms during midseason and makes a strong upright growth. 45 cts. each; 6 for \$2.15; 12 for \$4.00, postpaid.

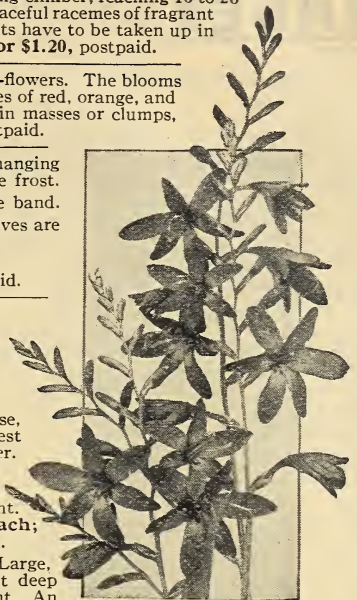

8706 EDULIS SUPERBA Large, loose flowers of a bright but deep rose-pink. Very fragrant. An early, strong, and vigorous grower. One of the foremost pink varieties for Decoration Day. It blooms very profusely. 45 cts. each; 6 for \$2.15; 12 for \$4.00, postpaid.

8709 FELIX CROUSSE Large, globular flowers of a dazzling ruby-red. Of strong habit; medium height. It blooms freely and is the best red Peony. FELIX CROUSSE has proven to do well almost everywhere. 60 cts. each; 6 for \$2.85; 12 for \$5.50, postpaid.

8713 FESTIVA MAXIMA Large, globular flowers. Pure white, with the center flecked crimson. A tall, strong, and vigorous grower. Blooms very early and is used extensively for cut-flowers. The flowers are fragrant. 40 cts. each; 6 for \$2.00; 12 for \$3.75, postpaid.

8722 UMBELLATA ROSEA Beautiful large light pink flowers shading to an amber-white in the center. A very fine and early bloomer. 65 cts. each; 6 for \$3.15; 12 for \$6.00, postpaid.

8724 VENUS Attractive Hydrangea-pink flowers of good size. A midseason variety of tall growth and delicate fragrance. 75 cts. each; 6 for \$3.65; 12 for \$7.00, postpaid.

Montbretia

Peony—
Festiva Maxima
A wonderful free-blooming variety

Tritoma Pfitzerei—
Red-Hot Poker Plant

8966 Peony Collection

For permanent results and a bold effect, this Peony Collection is unsurpassed. It contains one strong root each of the seven named varieties listed. We feel positive that many of our friends wish to include this complete assortment in their garden. It will be **\$3.00** sent to your door, postpaid, for

TRITOMA 8986 PFITZERI (EVERBLOOMING RED-HOT POKER PLANT)

Grows from 4 to 6 feet high. The flowers measure 12 to 15 inches long by 4 inches in diameter. They are a dazzling scarlet, lower half of flower tinged with rich orange. A clump makes a striking show. The roots, if given a mulch of long manure or leaves during winter, will live safely from

year to year. 35 cts. each; 3 for 90 cts.; 6 for \$1.70; 12 for \$3.25, postpaid.

8984 EARLY PERPETUAL-FLOWERING Although this superb new type will flower from seed the first year, we have grown at FORDHOOK FARMS a supply of strong roots, anticipating a demand from planters who would not care to sow seed but want strong, free-blooming plants the very first year. 35 cts. each; 3 for 90 cts.; 6 for \$1.70; 12 for \$3.25, postpaid.

TUBEROSE 8988 EXCELSIOR PEARL The Excelsior strain of DWARF PEARL TUBEROSE has been improved in dwarf habit of growth, extreme doubleness of the large flowers, and in very early flowering. The flower-stems do not need staking and tying. 10 cts. each; 3 for 25 cts.; 6 for 45 cts.; 12 for 85 cts.; 50 for \$3.00; 100 for \$5.50, postpaid.

8989 EXCELSIOR PEARL, MAMMOTH SIZE BULBS These will grow quickly and give extra large flowers. 15 cts. each; 3 for 40 cts.; 6 for 65 cts.; 12 for \$1.20; 50 for \$4.00; 100 for \$7.50, postpaid.
